DTMB's Emergency Management Coordinator said to include them -- and during emergencies DTMB doesn't just monitor, they'll do the purchasing, like they are right now for Flint response. If they're busy with that we can postpone this meeting. I've been told that when the State Emergency Operations Center is open during a declared disaster DTMB will step up and take over some of the purchasing so we (or any other Dept.) don't have to go through all the normal steps. Since that Administrative Guide doesn't reference the Emergency Management Act, it isn't the same thing. If we had Avian Influenza in commercial / large scale poultry operations, we would be making enormous purchases they would on our behalf) so this was to introduce our issues and potential needs to them.

DTMB Purchasing called me yesterday to get more information about the above meeting on Thursday. I accepted the appointment but didn't really look at the attendees to see that they were invited too. I told them that I didn't know but I would contact you guys to get additional information.

After I thought about it I'm not sure why DTMB Purchasing was invited to this meeting so I thought I would ask. If this is for emergency purchases, per the attached State Administrative Guide DTMB Procurement does not get involved, they just monitor emergency purchases.

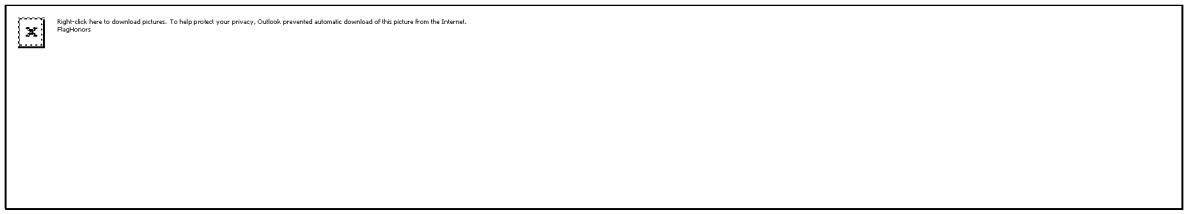
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

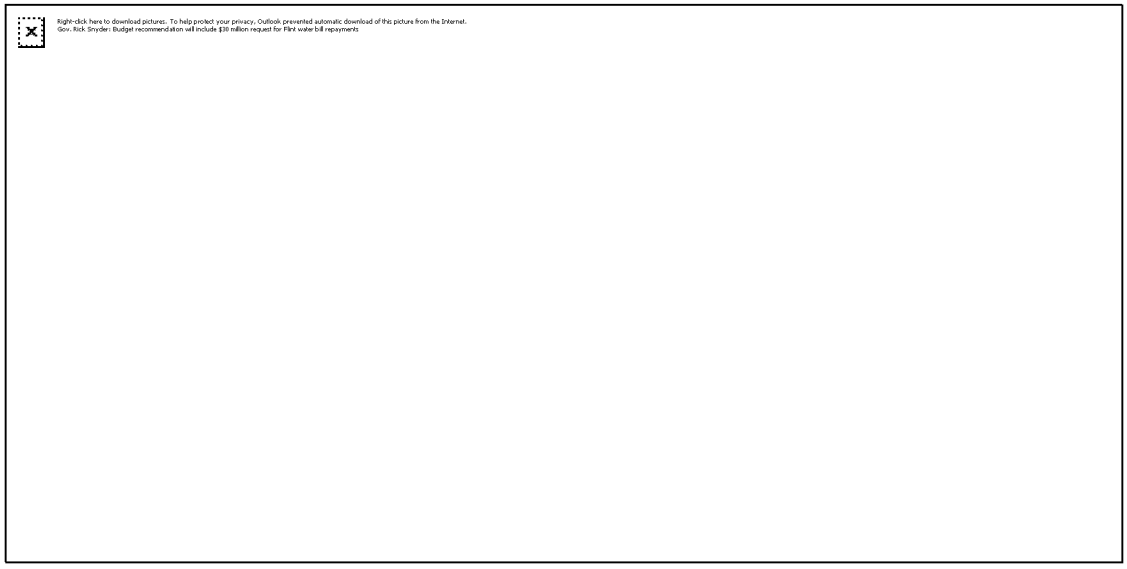
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Hi Melissa,

Unfortunately the only source we could find for these bottles was Environment Express. We spoke to a sales rep and they mentioned they already supply you direct for these. They wouldn't offer us a discount so unfortunately we aren't able to supply them to you at a lower price. If you come across any other items please let me know and we will be more than happy to check pricing for you on them.

Also we are still working on the Hemocue pricing for you. Our Vice President is dealing with Hemocue direct here so we should have an answer on those hopefully by tomorrow.

Thank you,
Chris Respondek

Subject: Water Testing Bottles - Price Quote

Chris:

I am working on supporting the State of Emergency effort in Flint. We are looking for alternate supplier pricing for water testing bottles. Below, I've included three reference brands with description of the type of bottle we are looking for.

Environmental Express	Item #BPC1172	Description - HDPE, 63mm Nat WM, 32oz, 1L
VWR	Item #71001-158	Description - 32oz (1L) HDPE, Wide Mouth bottle
SciSpec	Item #053032-A	Description - 32ox Plastic Wide Mouth packed bulk w/foam lined caps

Is this something J&B could offer? If so, what pricing could you provide, and what would the delivery time-frame be? We order approximately 10,000 bottles each time.

Notes from the meeting:

2,000 reports ready
4,000 more coming
2,000 more likely

Can DTMB fold and insert the water reports?
We don't always have addresses or zip codes
    Can DTMB get zip codes

DTMB needs the envelopes from DEQ
    Envelopes are being printed at Print and Graphics; M&D will go over and see if they can have them
    DTMB will also be able to print the envelopes
    DEQ to scan and email a copy of the envelop information to Mike Armstrong
DTMB can fold and insert reports into envelopes
Sorters will try to match missing zip codes to the address
Reports with no addresses are not able to be delivered; DEQ will take over to Mike Glasglow in Flint
DEQ will need to submit a DTMB 530 to M&D for processing; include the Index Code - 455500; Object Code - 6140; PCS 303015 - Project #900040-Phase 00 - Contact Lisa (M&D will prepare the form and send to DEQ for signature)
Chris, M&D, will make a special run to lab to collect the documents on hand today

After today's initial pickup:
DTMB-530 will be a standard work order, a copy of the 530 will need to be included on each box for billing

DTMB M&D will pick-up at DEQ lab. M&D picks up several times a day - 7:00 a.m.; 9:30 a.m.; 1:30 p.m. Pick-up is located at south side of building - shelf next to the cubical - ID mail

DTMB M&D contact information for DEQ will be sent.

I think this issue is completed.

I know that you are working on purchasing for the Flint emergency response but Lisa just called and wanted to know the status of adding us to the State contract for nitrogen so they can get the tanks. I believe you said yesterday when I spoke with you that it was next on your list.

Can you please give Lisa and I an update on the status? Thanks.

The concrete / fencing and the State contract that Melissa referenced are two different things. We are all set with the concrete / fencing project and have a PO in place for that.

Melissa is going to work with you and Airgas regarding the contract that you were sent with regard to the nitrogen; she said that she would be contacting you. Has she contacted you yet?

The ITRAC that she referenced is to add us to the State contract for nitrogen. I looked on the SOM Purchasing website and there are a couple different contracts with Airgas, but I believe she was looking to have us added to DNRE's contract, 071B0200274.
Melissa, can you please confirm that?

Good afternoon ladies!

Several times last week I went to respond to this email, but then was interrupted. Today I realize I never did respond.

Questions I have:

- An ITRAC was already done for this work (gave us authority to proceed without requesting bids). Do we need another one?
- Time frame – cement has been poured. Fencing should be coming. So, what is the next step? Are they good to go?

I think that is all I needed to answer. I look forward to hearing from you on this.

Carla:

Per your email and our conversation, you are correct in that we should add MDARD to the state contract and not sign any outside agreement. I will get in touch with Lisa regarding her time frame, infrastructure, and next steps. We'll have to have an iTRAC submitted too.

Our Laboratory Division has been in contact with Airgas as our current system does not allow for enough nitrogen to run all the laboratory equipment simultaneously and they sent them the attached agreement to sign. I am wondering:

- Should we be signing agreements like this when there is a State contract in place?
- Is a change notice needed like was done for DEQ (Change Notice No. 3)?
- Is there anything else we need to do?

Please let me know if we should sign this and if we need to do anything else. Thank you for your assistance in this matter.

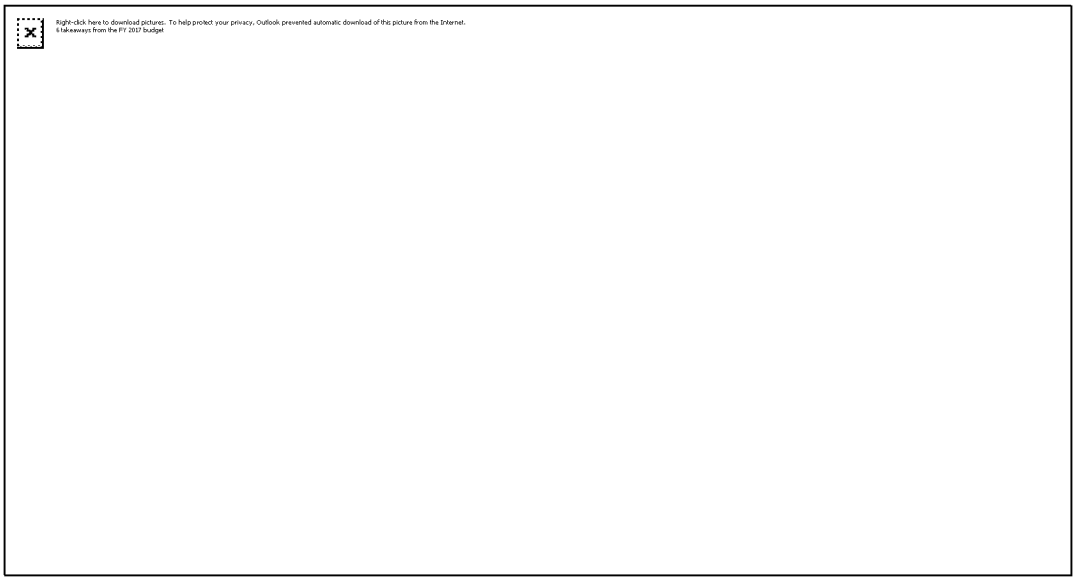
VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

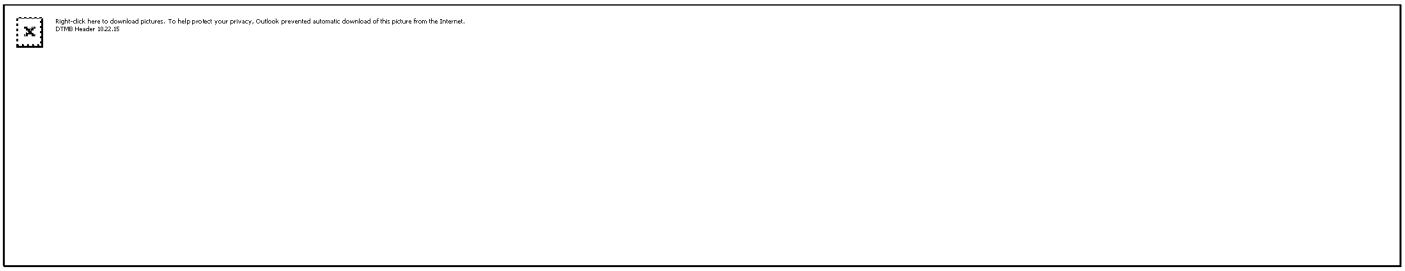
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

The concrete / fencing and the State contract that Melissa referenced are two different things. We are all set with the concrete / fencing project and have a PO in place for that.

Melissa is going to work with you and Airgas regarding the contract that you were sent with regard to the nitrogen; she said that she would be contacting you. Has she contacted you yet?

The ITRAC that she referenced is to add us to the State contract for nitrogen. I looked on the SOM Purchasing website and there are a couple different contracts with Airgas, but I believe she was looking to have us added to DNRE's contract, 071B0200274. Melissa, can you please confirm that?

Good afternoon ladies!

Several times last week I went to respond to this email, but then was interrupted. Today I realize I never did respond.

Questions I have:

- An ITRAC was already done for this work (gave us authority to proceed without requesting bids). Do we need another one?
- Time frame – cement has been poured. Fencing should be coming. So, what is the next step? Are they good to go?

I think that is all I needed to answer. I look forward to hearing from you on this.

Per your email and our conversation, you are correct in that we should add MDARD to the state contract and not sign any outside agreement. I will get in touch with Lisa regarding her time frame, infrastructure, and next steps. We'll have to have an iTRAC submitted too.

Our Laboratory Division has been in contact with Airgas as our current system does not allow for enough nitrogen to run all the laboratory equipment simultaneously and they sent them the attached agreement to sign. I am wondering:

- Should we be signing agreements like this when there is a State contract in place?
- Is a change notice needed like was done for DEQ (Change Notice No. 3)?
- Is there anything else we need to do?

Please let me know if we should sign this and if we need to do anything else. Thank you for your assistance in this matter.

Mindy

Our cell phone coordinator Kelly is out sick today. Jeff Wellman asked me to check into getting two of our buyers State phones while they are involved in supporting the Emergency Ops Center/Flint.

Can you help me through basics to get rough numbers? Appreciate any assistance you can provide.

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe	517-749-0796	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	517-404-0000	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where

shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Tara:

When I log into the system the only invoice I see is the one Nina sent us on Friday. This invoice is for 42 cases of the 150 we ordered.

The other part of the order, 108 cases, show an estimated delivery date of 2/11/2016 (the original estimated delivery date was 2/9/16). There are no rush charges nor shipping charges for this order, so the total should be $11,010.60. (108 cases x $101.95/case)

The six cases that were overnighted to Flint are not yet in the on-line system. Shasta – Is there any way to get at least a verbal on the cost of the shipping for that order?

Hello Everyone,

I wanted to send a general update out to everyone because next week I will be at a National Sales Conference and booked in meetings for 3 days. I do not want any of you not to have access to support when I am away. I have been working closely with the VWR government support team and they understand the importance of your needs. Please let us know of any new order that could be needed so we can make certain the order is closely watched within VWR.

As a point of contact internally within VWR, please contact Shasta Dixon. Lewis McMillan will also be at the sales meeting but he would like you to contact him if you do need extra assistance. His schedule at the meeting is more flexible than mine should you need any more help.

Updates for items needed and shipping information for orders are below.

Bottle Needs:

We have to date 47 cases (144 bottles per case) shipped to the Flint site. We have shipped 2 cases to the Lansing lab for lot verification. We have 50 more cases from the same lot shipping to Flint as of today, but I do not have the tracking information. For the remaining cases we will have status updates next week and these will be a new lot, one case will go to the Lansing lab.

Your VWR order number is 8018384025.

Nitric Acid Needs:

We have 4 cases (6 bottles in a case) sent out to the Lansing lab this week. I have also sent a sample bottle of the BDH brand to Kirby for evaluation. An estimation of 200 possible bottles may be needed in the future (34 cases). We have worked with our internal team for help with sourcing for this chemical and we have found stock within our warehouse and at the suppliers.

MK662346 (sold in cases of 6) Stock: 47 of the 2500 ML bottles in the Batavia Warehouse. (Avantor has 590 in stock as well) so we could replenish quickly (this is the original ordered product)

BDH30462.5LPC (sold in cases of 6) Stock: 390 of the 2500 ML bottles in different Warehouses around the nation, we can supply more from the manufacturer
(this is the secondary source we have sampled)

EM-NX0407-2 (sold by the each) Stock: 554 of the 2500 ML bottles in the Batavia Warehouse
(this product can also be sampled if requested)

Thank you all for working with VWR and myself these past weeks, I have been honored to help with this emergency in my State.

Please reach out to Shasta and Lewis in the beginning of the week, and I will be back in town on Wednesday (1/27) in the afternoon if you need me for anything please let me know.

DTMB's Emergency Management Coordinator said to include them – and during emergencies DTMB doesn't just monitor, they'll do the purchasing, like they are right now for Flint response. If they're busy with that we can postpone this meeting. I've been told that when the State Emergency Operations Center is open during a declared disaster DTMB will step up and take over some of the purchasing so we (or any other Dept.) don't have to go through all the normal steps. Since that Administrative Guide doesn't reference the Emergency Management Act, it isn't the same thing. If we had Avian Influenza in commercial / large scale poultry operations, we would be making enormous purchases they would on our behalf) so this was to introduce our issues and potential needs to them.

DTMB Purchasing called me yesterday to get more information about the above meeting on Thursday. I accepted the appointment but didn't really look at the attendees to see that they were invited too. I told them that I didn't know but I would contact you guys to get additional information.

After I thought about it I'm not sure why DTMB Purchasing was invited to this meeting so I thought I would ask. If this is for emergency purchases, per the attached State Administrative Guide DTMB Procurement does not get involved, they just monitor emergency purchases.

Per your request, below is a timeline of activities as it relates to the bottle contract and declared state of emergency:

6:23 p.m. - 1/10/2015	Request that I reach out to Kirby, DEQ Lab Mgr, regarding potential funding and/or supply issue with unspecified bottle contract
7:45 a.m - 1/11/2015	Pulled SciSpec contract from files and reviewed
8:09 a.m. - 1/11/2015	Contacted Tara Premoe, DEQ Procurement, to request clarification of contract number or vendor, verify supply issue or lack of funding, offer any and all assistance
8:00 a.m. - 1/11/2015	Reviewed SciSpec contract for available funding
8:32 a.m. - 1/11/2015	Left Kirby voicemail regarding clarification of contract number or vendor, verify supply issue or lack of funding, offer any and all assistance
8:48 am. - 1/11/2015	Emailed Janette Doll, DTMB Emergency Management Program Coordinator, with an update
9:32 a.m. - 1/11/2015	Spoke with Tara and verified contract as SciSpec; Due to upcoming expiration date and state of emergency, contract would be extended 6 months; requested DEQ provide estimated funding required with backup, verify which bottles were needed to complete testing, and verify funding source; noted that alternate contracted suppliers might be able to provide bottles and requested specs; verified if no other contracted vendors were available emergency POs would be allowed per Procurement Policy Manual - Chapter 5, Section 5.7.3.
9:15 a.m. - 1/11/2015	Prepped paperwork for Ad Board submission; contacted vendor regarding increased funding and contract extension; verified vendor had recently been in contact with Kirby.
11:53 a.m. - 1/11/2015	Followed up with email to Tara, Kirby, Jeanette, & Rebecca regarding 9:00 a.m. phone call with Tara.
12:24 p.m. - 1/11/2015	Tara verified funding sources and amount. She understood SciSpec would be able to fulfill all orders.
2:34 p.m. - 1/11/2015	Touched based with Tara and requested bottle specifications and quantity required
3:00 p.m. - 1/11/2015	Submitted change notice to vendor for signature; received Bid Tab signature from Jeff Brownlee; submitted Bid Tab to Ad Board secretary and requested supplemental addition;
1:06 p.m. - 1/14/2016	Received email communication from Tara requesting P-Card approval for vendor not in MAIN and increase of spending limits for DEQ employee.
1:17 p.m. - 1/14/2016	Emailed Tara requesting specifications for testing bottles; discussed

	email with Steve Rigg, DTMB Buyer
1:26 p.m. – 1/14/2016	Left message with Nina Cole, VWR rep, regarding DEQ inquiry and supply issue.
1:26 p.m. – 1/14/2016	Received one bottle spec from Steve
1:28 p.m. – 1/14/2016	Spoke with Andy Garrison, VWR manager, regarding DEQ inquiry and supply issue; requested detailed information on any alleged supply issue.
1:37 p.m – 1/14/2016	Called SciSpec to obtain bottle specs in most recent DEQ order.
1:47 p.m. – 1/14/2016	Received specs from Tara and statement that VWR could not fill on demand and had significant lead time.
2:00 p.m. – 1/14/2016	Emailed Andy & Nina bottle specs and requested detailed information regarding availability and lead time.
2:05 p.m – 1/14/2016	Called Tara requesting clarification of statement "Per discussion with DTMB, our current laboratory bottle contract is unable to supply the bottles necessary to keep up with demand." Tara stated the intent of that statement was that DTMB verified that if no other contracted vendors were available emergency POs would be allowed per Procurement Policy Manual - Chapter 5, Section 5.7.3.
2:09 p.m. – 1/14/2016	Received email from Tara regarding lot number considerations; discussed lot numbers Steve
3:54 p.m. – 1/14/2016	Spoke with Nina; VWR is finalizing negotiating with supplier and loading specs and pricing into their system; pricing is more competitive than current contract pricing. I requested an email be sent detailing specific timeline for delivery, number of bottles per lot, and pricing be provided to myself and Kirby.
4:03 p.m. – 1/14/2016	Left voicemail for Tara reiterating the VWR conversation regarding pricing, lot information and delivery; I will forward VWR specifics upon receipt.

Please let me know if I can be of further assistance or you require additional information.

Thanks Kirby and Hi Nina!

Nina, per our Department of Technology Management and Budget (DTMB), since the State of MI is officially closed today (I'm at the State Emergency Operations Center working on the Flint Emergency matter), and because VWR is on our contract list, we ask that you please agree to ship the order with a promise of us issuing a PO tomorrow when it's an official work day.

We are ordering:

50 cases (144 bottles per case) to be shipped on Wednesday, 01/20/16 for overnight delivery on Thursday, 01/21/16.
100 cases (144 bottles per case) to be shipped on Friday, 01/22/16 for overnight delivery on Saturday, 01/23/16.

Per Kirby's note below,
One (1) case from **each lot** needs to be shipped overnight to:
DEQ Environmental Laboratory:
3350 North MLK
Lansing, MI 48906

The bulk/remainder of the shipment should be shipped to:
4315 N. Clio Rd.
Flint, MI 48420

If you need something else from me or Kirby on this matter you may contact me via reply to this note or at the number below, and I believe you have Kirby's contact information already. Thanks for your anticipated assistance!

Mitch - Here is the note from VWR rep Nina Cole. Distilled down, this is what VWR can provide if they have a Purchase Order ASAP today, Monday, 01/18/16. Nina, please chime in if I've missed something.

Please advise ASAP to get this moving on timelines indicated below. If you place this order directly, please keep me in the loop. The Lab will need 1 case from each lot, shipped to the lab and lot checked which will add 1 day to the process. Hopefully these will all be the same Lot.

Thanks,
Kirby

Hi Kirby,

In discussions with our supplier C&G we have the following estimated lead times for you. We have 144 bottles per case in part number 71001-158. We have discounted pricing in place for you.

If we have the PO today as soon as possible we can have 50 cases assembled and shipped out by Wednesday, however the longer we wait, the day may need to be pushed back for the timeline because the supplier needs to assemble the bottles for you. If you choose Rush shipment they can be over night shipped and arrive Thursday to you. Rush shipment is an additional charge with the State Contract, 071B1300087.

The supplier has confirmed that they will have their supplies replenished on Wednesday and will be able to product 100 cases every 2 to 3 days depending on production schedules but they believe they could reach the 2 day production with a PO in hand. This would be 100 more cases by Friday and shipped overnight to you for Saturday delivery or Monday delivery.

We can work with the supplier rep to produce the cases in 2-3 day manufacturing rush instead of the 5 to 8 day assembly that is usually required.

Please let me know if you have any questions and if anyone would like to speak with me about the lead times, please call my cell number below. I am available if anyone needs any more specifics.

Best,

Nina

Yes we can send samples from this lot, however, it will slow down production for the order if speed is still the top priority. Please let me know what we need to do to help.

Bryan Walker from C&G is checking to see if we sent samples previously as these were on our previous proposed bottle list as well. I am waiting to hear back from him and I will let you know what he says.

Hi Melissa, Kirby and Dora,

Thank you for letting me know you were having this urgent need today. For part number LPW032900000 for C&G it is VWR part number 71001-158. We have been working with C&G for this same bottle for more competitive pricing for you. Today Lewis McMillan was able to help me adjust your pricing internally for this part number.

C&G can also get you all one lot for these bottles. The lot number will be not barcoded on each bottle but only on the outside of the case in this product. Dora, when ordering you will just need to request that we request on the PO all one lot to the VWR customer service person taking the order. (Dora and I will also work together to track this PO as we have done in the past with other orders).

For the time delay in assembling the bottles, the assembly is usually 5 business days, however, our C&G rep has let us know if we can get this PO to them for 70 cases (estimation by Dora) today or by start of business on Friday morning then we will have 40 cases to ship by Monday to arrive rush shipment by Tuesday and 30 cases by Wednesday to arrive rush shipment by Thursday if you choose to ship rush on the order.

Please let us know if you need anything else and thank you again for the calls today!

Best,

Nina

Subject: Procurement for Flint Drinking Water Project
Importance: High

Tara, can we please sit down asap and figure out who's doing what in the purchasing process for the Flint project – esp. related to requests from other Departments/Agencies/etc.

As you know, the lab has been ordering bottles and supplies. Today we received an unexpected purchase request via DTMB (from the MSP Emergency Operations center) for an order of bottles to be delivered to Flint, and we want to be sure the proper approvals, tracking and notifications are in place. Delivery of these items in a quick manner is essential, therefore procurement needs to be as streamlined as possible.

Objectives:

1. We need to make sure the lab staff aren't working any more than they absolutely have to on filling out purchasing paperwork/getting quotes as they are very, very busy processing the samples. In regards to bottles, VWR and Sci-Spec can supply the bottles. Who is authoring or the number of bottles needed is unknown to me. No paperwork should be necessary from Kirby to order from either of these contracts, but the DEQ is still responsible for POs, payments, etc.

2. We should look at the p-card as an alternative for further emergency purchases. We've had our lab p-card limits increased temporarily related to one vendor contract; could we check with DTMB to see if they will allow us to continue the exception based on the purchases needs related to the Flint project? (From our understanding, you've asked us to process individual Reqs/PO's for each purchase in order to avoid encumbering large blocks of funding. VWR is a state contract vendor who accepts p-cards. Can we use that instead and/or find out what their minimum limit is for direct billing without having to set up a PO (if any)? The PCard increase was for an emergency purchase of the bottles per Kirby last week from a vendor that was not registered in MAIN. We cannot continue to order the bottles off contract since VRW and Sci-Spec can supply them. I spoke with VRW just within the hour; we do not need to cut a PO for each order; payment can be dealt with by PCard or DV at invoice. DV will be easier to track.

3. We need to avoid duplicate orders or confusion, therefore who should we expect purchase requests from (the lab? the SEMOC?), what are the proper approvals, who is establishing the PO & for which purchases, etc. Who will be verifying that the goods were received and backup documentation is retained? I'm in the dark at this point as to who is authorizing orders from the Emergency Operations center, I am looping in Jeanette Doll, as they will need to be in the conversation to address the concerns you have expressed. Please initiate a meeting for tomorrow morning.

Hi Jeanette

The information on what we need a PO today for:

Vendor = VWR
Product ID: 71001-158 32oz (1L) HDPE, Wide Mouth bottle
Contact: Nina Cole 858-210-1543 nina_cole@vwr.com
They are currently on contract for lab supplies.

We need to order 50 cases of 144 bottles/case for shipping Wednesday 1/20 and overnight delivery to 4315 N. Clio Rd. warehouse. I do not have the cost yet. It's likely that we'll also order up to 100 more cases for shipment on 1/22 and hopeful delivery on 1/23.
Thanks

Mitch

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe 517-749-0796 Office hours 7:30 am to 4:00 pm

Melissa Sambiagio 517-404-0000 Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to

Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe	517-749-0796	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	517-404-0000	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to

Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe	517-749-0796	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	517-404-0000	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. Per this mornings news, the EPA is taking over water testing in Flint. Can we establish scope and timing so that we can determine whether any pending orders for water sampling bottles should be canceled?

If the State requires independent laboratory testing, there are currently four (4) laboratory testing contracts in place. DTMB Design & Construction holds the contracts, and Sadi Rayyan is the point of contact. I have requested an electronic copy of the general contract along with the updated pricing from each Contractor.

Andy:

I wanted to let you know the experience I've had this past couple of weeks with VWR and some of the feedback I've received. As you know, we have both a State and Federal State of Emergency in Flint. When our current contract holder was unable to fulfill the number of bottles we needed in a very short period of time, I contacted Nina Cole, our sales rep., to see if this item was something we could obtain through our current contract with VWR and just how quickly we would be able to have them in our warehouse.

Of course, in true Nina fashion, she immediately responded. I could go on for three or more pages of how she has handled this situation; however, I will try to be brief. She has worked with the lab, DEQ and central procurement offices, Security and Emergency Operations Center (SEOC), and various levels of management to clarify spec, procure the bottles, provide excellent pricing, and respond to our various requests for written (and sometimes duplicative) information. She has worked tirelessly for two weeks to assist not only her clients, but also the citizens of Michigan. She is professional, calm, confident, knowledgeable, and her customer service is outstanding.

While on a briefing call with DEQ management, the lab, and the SEOC representative, a comment was made by a couple people stating how much they appreciated VWRs work on this and how they (VWR) have really come to the table to get things done.

I made sure to let Nina know what was said, because we have asked her to jump through a few fiery hoops, and she has been working so hard on this. But, I wanted to make sure I relayed the same information to you. It's important for her management to understand how much we value her assistance, expertise, and tenacity.

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe	517-749-0796	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	517-404-0000	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

My first question would be, can VWR provide any of the Magellan Diagnostic LeadCare testing kits, along with their associates analyzer labels, and micro-cuvettes?

If yes, I will provide more detailed specifications for pricing and lead time information.

Hi Melissa,

Of course! Marc Trudell, copied above is the Healthcare rep in MI and he is here at the sales meeting with me. If you could send us more details about the kits we can start work on finding an alternative. I will ask Lewis about this as well!

Here is Marc's phone number. 1 (248) 727-7176

Best,

Nina

Updates for items needed and shipping information for orders are below.

Bottle Needs:

We have to date 47 cases (144 bottles per case) shipped to the Flint site. We have shipped 2 cases to the Lansing lab for lot verification. We have 50 more cases from the same lot shipping to Flint as of today, but I do not have the tracking information. For the remaining cases we will have status updates next week and these will be a new lot, one case will go to the Lansing lab.

Your VWR order number is 8018384025.

Nitric Acid Needs:

We have 4 cases (6 bottles in a case) sent out to the Lansing lab this week. I have also sent a sample bottle of the BDH brand to Kirby for evaluation. An estimation of 200 possible bottles may be needed in the future (34 cases). We have worked with our internal team for help with sourcing for this chemical and we have found stock within our warehouse and at the suppliers.

MK662346 (sold in cases of 6) Stock: 47 of the 2500 ML bottles in the Batavia Warehouse. (Avantor has 590 in stock as well) so we could replenish quickly (this is the original ordered product)

BDH30462.5LPC (sold in cases of 6) Stock: 390 of the 2500 ML bottles in different Warehouses around the nation, we can supply more from the manufacturer
(this is the secondary source we have sampled)

EM-NX0407-2 (sold by the each) Stock: 554 of the 2500 ML bottles in the Batavia Warehouse
(this product can also be sampled if requested)

Thank you all for working with VWR and myself these past weeks, I have been honored to help with this emergency in my State.

Please reach out to Shasta and Lewis in the beginning of the week, and I will be back in town on Wednesday (1/27) in the afternoon if you need me for anything please let me know.

Best,

Nina

DTMB's Emergency Management Coordinator said to include them – and during emergencies DTMB doesn't just monitor, they'll do the purchasing, like they are right now for Flint response. If they're busy with that we can postpone this meeting. I've been told that when the State Emergency Operations Center is open during a declared disaster DTMB will step up and take over some of the purchasing so we (or any other Dept.) don't have to go through all the normal steps. Since that Administrative Guide doesn't reference the Emergency Management Act, it isn't the same thing. If we had Avian Influenza in commercial / large scale poultry operations, we would be making enormous purchases they would on our behalf) so this was to introduce our issues and potential needs to them.

DTMB Purchasing called me yesterday to get more information about the above meeting on Thursday. I accepted the appointment but didn't really look at the attendees to see that they were invited too. I told them that I didn't know but I would contact you guys to get additional information.

After I thought about it I'm not sure why DTMB Purchasing was invited to this meeting so I thought I would ask. If this is for emergency purchases, per the attached State Administrative Guide DTMB Procurement does not get involved, they just monitor emergency purchases.

The concrete / fencing and the State contract that Melissa referenced are two different things. We are all set with the concrete / fencing project and have a PO in place for that.

Melissa is going to work with you and Airgas regarding the contract that you were sent with regard to the nitrogen; she said that she would be contacting you. Has she contacted you yet?

The ITRAC that she referenced is to add us to the State contract for nitrogen. I looked on the SOM Purchasing website and there are a couple different contracts with Airgas, but I believe she was looking to have us added to DNRE's contract, 071B0200274.
Melissa, can you please confirm that?

Good afternoon ladies!

Several times last week I went to respond to this email, but then was interrupted. Today I realize I never did respond.

Questions I have:

- An ITRAC was already done for this work (gave us authority to proceed without requesting bids). Do we need another one?
- Time frame – cement has been poured. Fencing should be coming. So, what is the next step? Are they good to go?

I think that is all I needed to answer. I look forward to hearing from you on this.

Per your email and our conversation, you are correct in that we should add MDARD to the state contract and not sign any outside agreement. I will get in touch with Lisa regarding her time frame, infrastructure, and next steps. We'll have to have an iTRAC submitted too.

Our Laboratory Division has been in contact with Airgas as our current system does not allow for enough nitrogen to run all the laboratory equipment simultaneously and they sent them the attached agreement to sign. I am wondering:

- Should we be signing agreements like this when there is a State contract in place?
- Is a change notice needed like was done for DEQ (Change Notice No. 3)?
- Is there anything else we need to do?

Please let me know if we should sign this and if we need to do anything else. Thank you for your assistance in this matter.

Unfortunately the only source we could find for these bottles was Environment Express. We spoke to a sales rep and they mentioned they already supply you direct for these. They wouldn't offer us a discount so unfortunately we aren't able to supply them to you at a lower price. If you come across any other items please let me know and we will be more than happy to check pricing for you on them.

Also we are still working on the Hemocue pricing for you. Our Vice President is dealing with Hemocue direct here so we should have an answer on those hopefully by tomorrow.

Subject: Water Testing Bottles - Price Quote

Chris:

I am working on supporting the State of Emergency effort in Flint. We are looking for alternate supplier pricing for water testing bottles. Below, I've included three reference brands with description of the type of bottle we are looking for.

Environmental Express	Item #BPC1172	Description - HDPE, 63mm Nat WM, 32oz, 1L
VWR	Item #71001-158	Description - 32oz (1L) HDPE, Wide Mouth bottle
SciSpec	Item #053032-A	Description - 32ox Plastic Wide Mouth packed bulk w/foam lined caps

Is this something J&B could offer? If so, what pricing could you provide, and what would the delivery time-frame be? We order approximately 10,000 bottles each time.

Thank you,

Subject: Urgent Print Questions - Flint

Importance: High

Kristen:

I just received a call from Tara Premoe at DEQ regarding an urgent print need they have related to the declared state of emergency.

DEQ is in need of a non-paint peeling, cold weather, sticker that can be affixed to the doors of homes where water has not been tested. Content and actual count is forthcoming. We have been told the contact will be no great than 4" x 6" in size, B/W print, DEQ logo, and quantity will be thousands. The first choice would be a sticker solution; our second choice would be a door hanger type of notification.

We need a large quantity by end of business today.

Will you please contact me as soon as you receive this to let me know if this is something you are able to help us with?

I appreciate your assistance.

Subject: RE: Outgoing mail & delivery to Flint for DEQ Lab at 3350 N MLK Blvd Lansing

Notes from the meeting:

2,000 reports ready
4,000 more coming
2,000 more likely

Can DTMB fold and insert the water reports?
We don't always have addresses or zip codes
Can DTMB get zip codes

DTMB needs the envelopes from DEQ
Envelopes are being printed at Print and Graphics; M&D will go over and see if they can have them
DTMB will also be able to print the envelopes
DEQ to scan and email a copy of the envelop information to Mike Armstrong
DTMB can fold and insert reports into envelopes
Sorters will try to match missing zip codes to the address
Reports with no addresses are not able to be delivered; DEQ will take over to Mike Glasglow in Flint
DEQ will need to submit a DTMB 530 to M&D for processing; include the Index Code - 455500; Object Code - 6140; PCS 303015 - Project #900040-Phase 00 - Contact Lisa (M&D will prepare the form and send to DEQ for signature)
Chris, M&D, will make a special run to lab to collect the documents on hand today

After today's initial pickup:
DTMB-530 will be a standard work order, a copy of the 530 will need to be included on each box for billing
DTMB M&D will pick-up at DEQ lab. M&D picks up several times a day - 7:00 a.m.; 9:30 a.m.; 1:30 p.m. Pick-up is located at south side of building - shelf next to the cubical - ID mail

DTMB M&D contact information for DEQ will be sent.

I think this issue is completed.

The concrete / fencing and the State contract that Melissa referenced are two different things. We are all set with the concrete / fencing project and have a PO in place for that.

Melissa is going to work with you and Airgas regarding the contract that you were sent with regard to the nitrogen; she said that she would be contacting you. Has she contacted you yet?

The ITRAC that she referenced is to add us to the State contract for nitrogen. I looked on the SOM Purchasing website and there are a couple different contracts with Airgas, but I believe she was looking to have us added to DNRE's contract, 071B0200274.
Melissa, can you please confirm that?

Good afternoon ladies!

Several times last week I went to respond to this email, but then was interrupted. Today I realize I never did respond.

Questions I have:

- An ITRAC was already done for this work (gave us authority to proceed without requesting bids). Do we need another one?
- Time frame – cement has been poured. Fencing should be coming. So, what is the next step? Are they good to go?

I think that is all I needed to answer. I look forward to hearing from you on this.

Per your email and our conversation, you are correct in that we should add MDARD to the state contract and not sign any outside agreement. I will get in touch with Lisa regarding her time frame, infrastructure, and next steps. We'll have to have an iTRAC submitted too.

Our Laboratory Division has been in contact with Airgas as our current system does not allow for enough nitrogen to run all the laboratory equipment simultaneously and they sent them the attached agreement to sign. I am wondering:

- Should we be signing agreements like this when there is a State contract in place?
- Is a change notice needed like was done for DEQ (Change Notice No. 3)?
- Is there anything else we need to do?

Please let me know if we should sign this and if we need to do anything else. Thank you for your assistance in this matter.

Secs. 20j, 32c, and 99p, as amended by Act 110 of 2010, and sec. 92, as added by Act 110 of 2010, were vetoed by the governor on July 7, 2010.
In the first sentence of this title, the phrase "the intermediate school districts" should evidently read "intermediate school districts."

The People of the State of Michigan enact:

ARTICLE I
STATE AID TO PUBLIC SCHOOLS, EARLY CHILDHOOD, AND ADULT EDUCATION

388.1601 Short title.

Sec. 1. The act shall be known and may be cited as "the state school aid act of 1979".

History: 1979, Act 94, Eff. Oct. 1, 1979.

Compiler's note: For creation of Michigan public educational facilities authority within department of treasury; transfer of certain powers and duties from Michigan strategic fund and Michigan strategic fund board of directors to Michigan public educational facilities authority and Michigan public educational facilities authority board of trustees; transfer of certain powers and duties of Michigan municipal bond authority and Michigan municipal bond authority board of trustees to Michigan public and educational facilities authority and Michigan public education facilities authority board of trustees, see E.R.O. No. 2002-3, compiled at MCL 12.192 of the Michigan Compiled Laws.

388.1602 Meanings of words and phrases.

Sec. 2. As used in this article and article IV, the words and phrases defined in sections 3 to 6 have the meanings ascribed to them in those sections.

History: 1979, Act 94, Eff. Oct. 1, 1979;—Am. 2011, Act 62, Eff. Oct. 1, 2011.

388.1603 Definitions; A to D.

Sec. 3. (1) "Achievement authority" means the education achievement authority, the public body corporate and special authority initially created under section 5 of article III and section 28 of article VII of the state constitution of 1963 and the urban cooperation act of 1967, 1967 (Ex Sess) PA 7, MCL 124.501 to 124.512, by an interlocal agreement effective August 11, 2011, between the school district of the city of Detroit and the board of regents of eastern Michigan university, a state public university.

(2) "Achievement school" means a public school within the education achievement system operated, managed, authorized, established, or overseen by the achievement authority.

(3) "Average daily attendance", for the purposes of complying with federal law, means 92% of the pupils counted in membership on the pupil membership count day, as defined in section 6(7).

(4) "Board" means the governing body of a district or public school academy.

(5) "Center" means the center for educational performance and information created in section 94a.

(6) "Cooperative education program" means a written voluntary agreement between and among districts to provide certain educational programs for pupils in certain groups of districts. The written agreement shall be approved by all affected districts at least annually and shall specify the educational programs to be provided

and the estimated number of pupils from each district who will participate in the educational programs.

(7) "Department", except in section 107, means the department of education.

(8) "District" means a local school district established under the revised school code or, except in sections 6(4), 6(6), 13, 20, 22a, 31a, 51a(14), 105, 105c, and 166b, a public school academy. Except in sections 6(4), 6(6), 6(8), 13, 20, 22a, 31a, 105, 105c, and 166b, district also includes the education achievement system.

(9) "District of residence", except as otherwise provided in this subsection, means the district in which a pupil's custodial parent or parents or legal guardian resides. For a pupil described in section 24b, the pupil's district of residence is the district in which the pupil enrolls under that section. For a pupil described in section 6(4)(d), the pupil's district of residence shall be considered to be the district or intermediate district in which the pupil is counted in membership under that section. For a pupil under court jurisdiction who is placed outside the district in which the pupil's custodial parent or parents or legal guardian resides, the pupil's district of residence shall be considered to be the educating district or educating intermediate district.

(10) "District superintendent" means the superintendent of a district, the chief administrator of a public school academy, or the chancellor of the achievement authority.

History: 1979, Act 94, Eff. Oct. 1, 1979;—Am. 1988, Act 509, Imd. Eff. Dec. 29, 1988;—Am. 1989, Act 235, Imd. Eff. Dec. 21, 1989;—Am. 1991, Act 118, Imd. Eff. Oct. 11, 1991;—Am. 1991, Act 200, Imd. 388.1606 Additional definitions.

Sec. 6. (1) "Center program" means a program operated by a district or by an intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either shall serve all constituent districts within an intermediate district or shall serve several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) "District and high school graduation rate" means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) "District and high school graduation report" means a report of the number of pupils, excluding adult participants, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

(4) "Membership", except as otherwise provided in this article, means for a district, a public school academy, the education achievement system, or an intermediate district the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year, plus the product of .10 times the final audited count from the supplemental count day for the immediately preceding school year. A district's, public school academy's, or intermediate district's membership shall be adjusted as provided under section 25 for pupils who enroll in the district, public school academy, or intermediate district after the pupil membership count day. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. For the purposes

of this section and section 6a, for a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, or for the education achievement system, a pupil's participation in the cyber school's educational program or in an online educational program of the education achievement system or of an achievement school is considered regular daily attendance. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, the education achievement system, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil's educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil's district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil's district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil's district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil's intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil's district of residence.

(g) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(h) A pupil enrolled in an achievement school shall be counted in membership in the education achievement system.

(i) For a new district or public school academy beginning its operation after December 31, 1994, or for the education achievement system or an achievement school, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(*i*) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(*ii*) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) In a district, a public school academy, the education achievement system, or an intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.

(*l*) To be counted in membership, a pupil shall meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, or shall be enrolled under subsection

(3) of that section, and shall be less than 20 years of age on September 1 of the school year except as follows:

(*i*) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.

(*ii*) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating homeless pupils and that is located in a city with a population of more than 500,000.

(B) Had dropped out of school for more than 1 year and has re-entered school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general educational development (G.E.D.) certificate shall not be counted in membership unless the individual is a pupil with a disability as defined in R 340.1702 of the Michigan administrative code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy or the education achievement system is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy or the education achievement system unless a written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy or the education achievement system and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(*i*) If the public school academy or the education achievement system provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy or the education achievement system shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy or the education achievement system provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(*ii*) If the public school academy or the education achievement system provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy or the education achievement system.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Beginning in 2012-2013, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. Not later than December 1, 2012, the department shall seek a clarification from the federal department of education as to whether this is an allowable use of federal title I money. The change in the counting of

full-time equated memberships for pupils in kindergarten that takes effect in 2012-2013 is not a mandate. Not later than the fifth Wednesday after the pupil membership count day, each district or public school academy and the education achievement system shall report to the department and the center the number of instructional hours scheduled per kindergarten pupil for 2012-2013. If the number of instructional hours scheduled per kindergarten pupil is not equal for all kindergarten pupils in the district, the district or public school academy and the education achievement system shall report the number of kindergarten pupils who were scheduled to receive each of the different numbers of instructional hours scheduled.

(s) For a district, a public school academy, or the education achievement system that has pupils enrolled in a grade level that was not offered by the district, the public school academy, or the education achievement system in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:

(*i*) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(*ii*) The district provides instructional materials, resources, and supplies, except computers, that are comparable to those otherwise provided in the district's alternative education program.

(*iii*) Course content is comparable to that in the district's alternative education program.

(*iv*) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) A pupil enrolled in an alternative or disciplinary education program described in section 25 shall be counted in membership in the district, the public school academy, or the education achievement system that is educating the pupil.

(w) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district or the education achievement system within 45 days after the pupil membership count day, the department shall adjust the district's or the education achievement system's pupil count for the pupil membership count day to include the pupil in the count.

(x) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(y) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and, beginning in 2007-2008, if the district does not receive funding under section 22d(2), the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

(*i*) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(*ii*) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(z) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or the education achievement system in which a former pupil of the public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or the education achievement system receives the same amount of membership aid for the pupil as if the pupil were counted in the district or the education achievement system on the supplemental count day of the preceding school year.

(aa) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan administrative code shall be determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 of the Michigan administrative code shall be determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(bb) A pupil of a district that begins its school year after Labor day who is enrolled in an intermediate district program that begins before Labor day shall not be considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor day.

(cc) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil was counted by the operating district on the immediately preceding supplemental count day, the pupil shall be excluded from the district's immediately preceding supplemental count for purposes of determining the district's membership.

(dd) A district, a public school academy, or the education achievement system that educates a pupil who attends a United States Olympic education center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(ee) A pupil enrolled in a district other than the pupil's district of residence pursuant to section 1148(2) of the revised school code, MCL 380.1148, shall be counted in the educating district or the education achievement system.

(ff) For a pupil enrolled in a dropout recovery program that meets the requirements of section 23a, the pupil shall be counted as 1/12 of a full-time equated membership for each month that the district operating the program reports that the pupil was enrolled in the program and was in full attendance. The district operating the program shall report to the center the number of pupils who were enrolled in the program and were in full attendance for a month not later than the tenth day of the next month. A district shall not report a pupil as being in full attendance for a month unless both of the following are met:

(*i*) A personalized learning plan is in place on or before the first school day of the month for the first month the pupil participates in the program.

(*ii*) The pupil meets the district's definition under section 23a of satisfactory monthly progress for that month or, if the pupil does not meet that definition of satisfactory monthly progress for that month, the pupil did meet that definition of satisfactory monthly progress in the immediately preceding month and appropriate interventions are implemented within 10 school days after it is determined that the pupil does not meet that definition of satisfactory monthly progress.

(5) "Public school academy" means that term as defined in the revised school code.

(6) "Pupil" means a person in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence is not required for any of the following:

(a) A nonpublic part-time pupil enrolled in grades 1 to 12 in accordance with section 166b.

(b) A pupil receiving 1/2 or less of his or her instruction in a district other than the pupil's district of residence.

(c) A pupil enrolled in a public school academy or the education achievement system.

(d) A pupil enrolled in a district other than the pupil's district of residence under an intermediate district schools of choice pilot program as described in section 91a or former section 91 if the intermediate district and its constituent districts have been exempted from section 105.

(e) A pupil enrolled in a district other than the pupil's district of residence if the pupil is enrolled in accordance with section 105 or 105c.

(f) A pupil who has made an official written complaint or whose parent or legal guardian has made an

official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. As used in this subdivision:

(*i*) "At school" means in a classroom, elsewhere on school premises, on a school bus or other school-related vehicle, or at a school-sponsored activity or event whether or not it is held on school premises.

(*ii*) "Serious assault" means an act that constitutes a felony violation of chapter XI of the Michigan penal code, 1931 PA 328, MCL 750.81 to 750.90h, or that constitutes an assault and infliction of serious or aggravated injury under section 81a of the Michigan penal code, 1931 PA 328, MCL 750.81a.

(g) A pupil whose district of residence changed after the pupil membership count day and before the supplemental count day and who continues to be enrolled on the supplemental count day as a nonresident in the district in which he or she was enrolled as a resident on the pupil membership count day of the same school year.

(h) A pupil enrolled in an alternative education program operated by a district other than his or her district of residence who meets 1 or more of the following:

(*i*) The pupil has been suspended or expelled from his or her district of residence for any reason, including, but not limited to, a suspension or expulsion under section 1310, 1311, or 1311a of the revised school code, MCL 380.1310, 380.1311, and 380.1311a.

(*ii*) The pupil had previously dropped out of school.

(*iii*) The pupil is pregnant or is a parent.

(*iv*) The pupil has been referred to the program by a court.

(*v*) The pupil is enrolled in an alternative or disciplinary education program described in section 25.

(i) A pupil enrolled in the Michigan virtual school, for the pupil's enrollment in the Michigan virtual school.

(j) A pupil who is the child of a person who works at the district or who is the child of a person who worked at the district as of the time the pupil first enrolled in the district but who no longer works at the district due to a workforce reduction. As used in this subdivision, "child" includes an adopted child, stepchild, or legal ward.

(k) An expelled pupil who has been denied reinstatement by the expelling district and is reinstated by another school board under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a.

(*l*) A pupil enrolled in a district other than the pupil's district of residence in a middle college program if the pupil's district of residence and the enrolling district are both constituent districts of the same intermediate district.

(m) A pupil enrolled in a district other than the pupil's district of residence who attends a United States Olympic education center.

(n) A pupil enrolled in a district other than the pupil's district of residence pursuant to section 1148(2) of the revised school code, MCL 380.1148.

(o) A pupil who enrolls in a district other than the pupil's district of residence as a result of the pupil's school not making adequate yearly progress under the no child left behind act of 2001, Public Law 107-110.

(p) A pupil enrolled in a district other than the pupil's district of residence as a qualifying pupil under section 22h(2).

However, if a district educates pupils who reside in another district and if the primary instructional site for those pupils is established by the educating district after 2009-2010 and is located within the boundaries of that other district, the educating district must have the approval of that other district to count those pupils in membership.

(7) "Pupil membership count day" of a district or intermediate district means:

(a) Except as provided in subdivision (b), the first Wednesday in October each school year or, for a district or building in which school is not in session on that Wednesday due to conditions not within the control of school authorities, with the approval of the superintendent, the immediately following day on which school is in session in the district or building.

(b) For a district or intermediate district maintaining school during the entire school year, the following days:

(*i*) Fourth Wednesday in July.

(*ii*) First Wednesday in October.

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

(*iii*) Second Wednesday in February.

(*iv*) Fourth Wednesday in April.

(8) "Pupils in grades K to 12 actually enrolled and in regular daily attendance" means pupils in grades K to 12 in attendance and receiving instruction in all classes for which they are enrolled on the pupil membership count day or the supplemental count day, as applicable. Except as otherwise provided in this subsection, a pupil who is absent from any of the classes in which the pupil is enrolled on the pupil membership count day or supplemental count day and who does not attend each of those classes during the 10 consecutive school days immediately following the pupil membership count day or supplemental count day, except for a pupil who has been excused by the district, shall not be counted as 1.0 full-time equated membership. A pupil who is excused from attendance on the pupil membership count day or supplemental count day and who fails to attend each of the classes in which the pupil is enrolled within 30 calendar days after the pupil membership count day or supplemental count day shall not be counted as 1.0 full-time equated membership. In addition, a pupil who was enrolled and in attendance in a district, an intermediate district, a public school academy, or the education achievement system before the pupil membership count day or supplemental count day of a particular year but was expelled or suspended on the pupil membership count day or supplemental count day shall only be counted as 1.0 full-time equated membership if the pupil resumed attendance in the district, intermediate district, public school academy, or education achievement system within 45 days after the pupil membership count day or supplemental count day of that particular year. Pupils not counted as 1.0 full-time equated membership due to an absence from a class shall be counted as a prorated membership for the classes the pupil attended. For purposes of this subsection, "class" means a period of time in 1 day when pupils and a certificated teacher or legally qualified substitute teacher are together and instruction is taking place.

(9) "Rule" means a rule promulgated pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(10) "The revised school code" means 1976 PA 451, MCL 380.1 to 380.1852.

(11) "School district of the first class", "first class school district", and "district of the first class" mean a district that had at least 60,000 pupils in membership for the immediately preceding fiscal year.

(12) "School fiscal year" means a fiscal year that commences July 1 and continues through June 30.

(13) "State board" means the state board of education.

(14) "Superintendent", unless the context clearly refers to a district or intermediate district superintendent, means the superintendent of public instruction described in section 3 of article VIII of the state constitution of 1963.

(15) "Supplemental count day" means the day on which the supplemental pupil count is conducted under section 6a.

(16) "Tuition pupil" means a pupil of school age attending school in a district other than the pupil's district of residence for whom tuition may be charged. Tuition pupil does not include a pupil who is a special education pupil or a pupil described in subsection (6)(c) to (o). A pupil's district of residence shall not require a high school tuition pupil, as provided under section 111, to attend another school district after the pupil has been assigned to a school district.

(17) "State school aid fund" means the state school aid fund established in section 11 of article IX of the state constitution of 1963.

(18) "Taxable value" means the taxable value of property as determined under section 27a of the general property tax act, 1893 PA 206, MCL 211.27a.

(19) "Textbook" means a book, electronic book, or other instructional print or electronic resource that is selected and approved by the governing board of a district or, for an achievement school, by the chancellor of the achievement authority and that contains a presentation of principles of a subject, or that is a literary work relevant to the study of a subject required for the use of classroom pupils, or another type of course material that forms the basis of classroom instruction.

(20) "Total state aid" or "total state school aid" means the total combined amount of all funds due to a district, intermediate district, or other entity under all of the provisions of this article.

Section 2 of Act 220 of 1987 provides: "In accordance with the provisions of section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act is $2,334,299,200.00 and state appropriations to be paid to local units of government are $2,005,216,000.00."

Section 4 of Act 220 of 1987 provides: "The changes effected by this amendatory act shall be applied retroactively to October 1, 1987."

Subdivisions 4(u), 4(w), and 4(x), as added by Act 300 of 1996, were vetoed by the governor on June 19, 1996.

In subsection (4), as amended by Act 93 of 1997, the following sentences were vetoed by the governor on August 1, 1997: "Membership", except as otherwise provided in this act, means for a district, public school academy, university school, or intermediate district the sum of the product of .6 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year, plus the product of .4 times the final audited count from the supplemental count day for the immediately preceding school year, as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the state board, and as corrected by a subsequent department audit. The amount of the foundation allowance to be paid on behalf of a pupil in membership is determined under section 20.

Subdivisions (4)(x) and (4)(y), as amended by Act 93 of 1997, were vetoed by the governor on August 1, 1997.

Subdivision (4)(y), as amended by Act 339 of 1998, was vetoed by the governor on October 13, 1998.

In subdivsion (4)(y), as amended by Act 297 of 2000, the phrase "2001-2002, and 2002-2003" was vetoed by the governor July 26, 2000.

Enacting section 3 of Act 521 of 2002 provides:

"Enacting section 3. This amendatory act does not take effect unless the tax on cigarettes under the tobacco products tax act, 1993 PA 327, MCL 205.421 to 205.436, is increased by 50 cents or more per pack of cigarettes (25 mills per cigarette) effective on or before September 30, 2002 and the revenue from not less than 20 cents per pack of cigarettes (10 mills per cigarette) of that increase is dedicated by law for deposit into the state school aid fund established by section 11 of article IX of the state constitution of 1963."

For legislation increasing tax on cigarettes and dedicating a portion of increased revenue to state school aid fund, see 2002 PA 503, Imd. Eff. July 18, 2002.

Enacting section 1 of Act 351 of 2004 provides:

"Enacting section 1. In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2004-2005 is estimated at $11,173,900,000.00 and state appropriations to be paid to local units of government for fiscal year 2004-2005 are estimated at $11,113,650,400.00."

Enacting section 1 of 2005 PA 155 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act and in House Bill No. 4831 of the 93rd Legislature from state sources for fiscal year 2005-2006 is estimated at $11,364,814,000.00 and state appropriations to be paid to local units of government for fiscal year 2005-2006 are estimated at $11,341,913,100.00."

Enacting section 1 of Act 342 of 2006 provides:

"Enacting section 1. (1) In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2006-2007 is estimated at $11,682,508,200.00 and state appropriations to be paid to local units of government for fiscal year 2006-2007 are estimated at $11,536,597,200.00.

(2) In accordance with section 30 of article I of the state constitution of 1963, total state spending from state sources for fiscal year 2005-2006 in this amendatory act and 2005 PA 155 is estimated at $11,308,027,200.00 and state appropriations to be paid to local units of government for fiscal year 2004-2005 are estimated at $11,285,376,300.00."

Enacting section 1 of Act 137 of 2007 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2007-2008 is estimated at $11,527,973,800.00 and state appropriations to be paid to local units of government for fiscal year 2007-2008 are estimated at $11,458,493,300.00."

Enacting section 1 of Act 268 of 2008 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2008-2009 is estimated at $11,816,898,200.00 and state appropriations to be paid to local units of government for fiscal year 2008-2009 are estimated at $11,602,465,900.00.

Enacting section 1 of Act 73 of 2009 provides:

"Enacting section 1. In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act and in 2008 PA 268 from state sources for fiscal year 2008-2009 is estimated at $11,097,798,200.00 and state appropriations to be paid to local units of government for fiscal year 2008-2009 are estimated at $10,890,765,900.00."

Enacting section 1 of Act 121 of 2009 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2009-2010 is estimated at $10,825,754,100.00 and state appropriations to be paid to local units of government for fiscal year 2009-2010 are estimated at $10,718,801,700.00."

388.1606.amended Additional definitions.

Sec. 6. (1) "Center program" means a program operated by a district or by an intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either shall serve all constituent districts within an intermediate district or shall serve several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) "District and high school graduation rate" means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) "District and high school graduation report" means a report of the number of pupils, excluding adult participants, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

(4) "Membership", except as otherwise provided in this article, means for a district, a public school academy, the education achievement system, or an intermediate district the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year, plus the product of .10 times the final audited count from the supplemental count day for the current school year. A district's, public school academy's, or intermediate district's membership shall be adjusted as provided under section 25 for pupils who enroll in the district, public school academy, or intermediate district after the pupil membership count day. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. For the purposes of this section and section 6a, for a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil's participation in the cyber school's educational program is considered regular daily attendance; for the education achievement system, a pupil's participation in an online educational program of the education achievement system or of an achievement school is considered regular daily attendance; and for a district a pupil's participation in an online course as defined in section 21f is considered regular daily attendance. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, the education achievement system, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil's educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil's district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil's district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil's district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil's intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area

larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil's district of residence.

(g) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(h) A pupil enrolled in an achievement school shall be counted in membership in the education achievement system.

(i) For a new district or public school academy beginning its operation after December 31, 1994, or for the education achievement system or an achievement school, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(*i*) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(*ii*) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) In a district, a public school academy, the education achievement system, or an intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.

(*l*) To be counted in membership, a pupil shall meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, or shall be enrolled under subsection (3) of that section, and shall be less than 20 years of age on September 1 of the school year except as follows:

(*i*) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.

(*ii*) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating homeless pupils and that is located in a city with a population of more than 175,000.

(B) Had dropped out of school for more than 1 year and has re-entered school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(*iii*) If a child becomes a resident of a district and the child does not meet the minimum age requirement to be eligible to attend school for that school year under section 1147 of the revised school code, MCL 380.1147, but will be 5 years of age not later than December 1 of that school year, the district may count the child in membership for that school year if the parent or legal guardian has notified the district in writing that he or she intends to enroll the child in kindergarten for that school year.

(m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general educational development (G.E.D.) certificate shall not be counted in membership unless the individual is a pupil with a disability as defined in R 340.1702 of the Michigan administrative code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy or the education achievement system is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy or the education achievement system unless a

written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy or the education achievement system and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(*i*) If the public school academy or the education achievement system provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy or the education achievement system shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy or the education achievement system provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(*ii*) If the public school academy or the education achievement system provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy or the education achievement system.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Beginning in 2012-2013, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. The change in the counting of full-time equated memberships for pupils in kindergarten that took effect for 2012-2013 is not a mandate.

(s) For a district, a public school academy, or the education achievement system that has pupils enrolled in a grade level that was not offered by the district, the public school academy, or the education achievement system in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a

district shall be considered to be providing appropriate instruction if all of the following are met:

(*i*) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(*ii*) The district provides instructional materials, resources, and supplies that are comparable to those otherwise provided in the district's alternative education program.

(*iii*) Course content is comparable to that in the district's alternative education program.

(*iv*) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) A pupil enrolled in an alternative or disciplinary education program described in section 25 shall be counted in membership in the district, the public school academy, or the education achievement system that is educating the pupil.

(w) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district or the education achievement system within 45 days after the pupil membership count day, the department shall adjust the district's or the education achievement system's pupil count for the pupil membership count day to include the pupil in the count.

(x) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(y) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and if the district does not receive funding under section 22d(2), the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(*i*) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(*ii*) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(z) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or the education achievement system in which a former pupil of the public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or the education achievement system receives the same amount of membership aid for the pupil as if the pupil were counted in the district or the education achievement system on the supplemental count day of the preceding school year.

(aa) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan administrative code shall be determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 of the Michigan administrative code shall be determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(bb) A pupil of a district that begins its school year after Labor day who is enrolled in an intermediate district program that begins before Labor day shall not be considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor day.

(cc) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil was counted by the operating district on the immediately preceding supplemental count day, the pupil shall be excluded from the district's immediately preceding supplemental count for purposes of determining the district's membership.

(dd) A district, a public school academy, or the education achievement system that educates a pupil who attends a United States Olympic education center may count the pupil in membership regardless of whether or

not the pupil is a resident of this state.

(ee) A pupil enrolled in a district other than the pupil's district of residence pursuant to section 1148(2) of the revised school code, MCL 380.1148, shall be counted in the educating district or the education achievement system.

(ff) For a pupil enrolled in a dropout recovery program that meets the requirements of section 23a, the pupil shall be counted as 1/12 of a full-time equated membership for each month that the district operating the program reports that the pupil was enrolled in the program and was in full attendance. However, a pupil counted under this subdivision shall not be counted as more than 1.0 FTE in a fiscal year. The district operating the program shall report to the center the number of pupils who were enrolled in the program and were in full attendance for a month not later than the tenth day of the next month. A district shall not report a pupil as being in full attendance for a month unless both of the following are met:

(*i*) A personalized learning plan is in place on or before the first school day of the month for the first month the pupil participates in the program.

(*ii*) The pupil meets the district's definition under section 23a of satisfactory monthly progress for that month or, if the pupil does not meet that definition of satisfactory monthly progress for that month, the pupil did meet that definition of satisfactory monthly progress in the immediately preceding month and appropriate interventions are implemented within 10 school days after it is determined that the pupil does not meet that definition of satisfactory monthly progress.

(5) "Public school academy" means that term as defined in the revised school code.

(6) "Pupil" means a person in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence is not required for any of the following:

(a) A nonpublic part-time pupil enrolled in grades 1 to 12 in accordance with section 166b.

(b) A pupil receiving 1/2 or less of his or her instruction in a district other than the pupil's district of residence.

(c) A pupil enrolled in a public school academy or the education achievement system.

(d) A pupil enrolled in a district other than the pupil's district of residence under an intermediate district schools of choice pilot program as described in section 91a or former section 91 if the intermediate district and its constituent districts have been exempted from section 105.

(e) A pupil enrolled in a district other than the pupil's district of residence if the pupil is enrolled in accordance with section 105 or 105c.

(f) A pupil who has made an official written complaint or whose parent or legal guardian has made an official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. As used in this subdivision:

(*i*) "At school" means in a classroom, elsewhere on school premises, on a school bus or other school-related vehicle, or at a school-sponsored activity or event whether or not it is held on school premises.

(*ii*) "Serious assault" means an act that constitutes a felony violation of chapter XI of the Michigan penal code, 1931 PA 328, MCL 750.81 to 750.90h, or that constitutes an assault and infliction of serious or aggravated injury under section 81a of the Michigan penal code, 1931 PA 328, MCL 750.81a.

(g) A pupil whose district of residence changed after the pupil membership count day and before the supplemental count day and who continues to be enrolled on the supplemental count day as a nonresident in the district in which he or she was enrolled as a resident on the pupil membership count day of the same school year.

(h) A pupil enrolled in an alternative education program operated by a district other than his or her district of residence who meets 1 or more of the following:

(*i*) The pupil has been suspended or expelled from his or her district of residence for any reason, including, but not limited to, a suspension or expulsion under section 1310, 1311, or 1311a of the revised school code, MCL 380.1310, 380.1311, and 380.1311a.

(*ii*) The pupil had previously dropped out of school.

(*iii*) The pupil is pregnant or is a parent.

(*iv*) The pupil has been referred to the program by a court.

(*v*) The pupil is enrolled in an alternative or disciplinary education program described in section 25.

(i) A pupil enrolled in the Michigan virtual school, for the pupil's enrollment in the Michigan virtual school.

(j) A pupil who is the child of a person who works at the district or who is the child of a person who worked at the district as of the time the pupil first enrolled in the district but who no longer works at the district due to a workforce reduction. As used in this subdivision, "child" includes an adopted child, stepchild, or legal ward.

(k) An expelled pupil who has been denied reinstatement by the expelling district and is reinstated by another school board under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a.

(*l*) A pupil enrolled in a district other than the pupil's district of residence in a middle college program if the pupil's district of residence and the enrolling district are both constituent districts of the same intermediate district.

(m) A pupil enrolled in a district other than the pupil's district of residence who attends a United States Olympic education center.

(n) A pupil enrolled in a district other than the pupil's district of residence pursuant to section 1148(2) of the revised school code, MCL 380.1148.

(o) A pupil who enrolls in a district other than the pupil's district of residence as a result of the pupil's school not making adequate yearly progress under the no child left behind act of 2001, Public Law 107-110.

(p) An online learning pupil enrolled in a district other than the pupil's district of residence as an eligible pupil under section 21f.

However, if a district educates pupils who reside in another district and if the primary instructional site for those pupils is established by the educating district after 2009-2010 and is located within the boundaries of that other district, the educating district must have the approval of that other district to count those pupils in membership.

(7) "Pupil membership count day" of a district or intermediate district means:

(a) Except as provided in subdivision (b), the first Wednesday in October each school year or, for a district or building in which school is not in session on that Wednesday due to conditions not within the control of school authorities, with the approval of the superintendent, the immediately following day on which school is in session in the district or building.

(b) For a district or intermediate district maintaining school during the entire school year, the following days:

(*i*) Fourth Wednesday in July.

(*ii*) First Wednesday in October.

(*iii*) Second Wednesday in February.

(*iv*) Fourth Wednesday in April.

(8) "Pupils in grades K to 12 actually enrolled and in regular daily attendance" means pupils in grades K to 12 in attendance and receiving instruction in all classes for which they are enrolled on the pupil membership count day or the supplemental count day, as applicable. Except as otherwise provided in this subsection, a pupil who is absent from any of the classes in which the pupil is enrolled on the pupil membership count day or supplemental count day and who does not attend each of those classes during the 10 consecutive school days immediately following the pupil membership count day or supplemental count day, except for a pupil who has been excused by the district, shall not be counted as 1.0 full-time equated membership. A pupil who is excused from attendance on the pupil membership count day or supplemental count day and who fails to attend each of the classes in which the pupil is enrolled within 30 calendar days after the pupil membership count day or supplemental count day shall not be counted as 1.0 full-time equated membership. In addition, a pupil who was enrolled and in attendance in a district, an intermediate district, a public school academy, or the education achievement system before the pupil membership count day or supplemental count day of a particular year but was expelled or suspended on the pupil membership count day or supplemental count day shall only be counted as 1.0 full-time equated membership if the pupil resumed attendance in the district, intermediate district, public school academy, or education achievement system within 45 days after the pupil membership count day or supplemental count day of that particular year. Pupils not counted as 1.0 full-time equated membership due to an absence from a class shall be counted as a prorated membership for the classes the pupil attended. For purposes of this subsection, "class" means a period of time in 1 day when pupils and a certificated teacher or legally qualified substitute teacher are together and instruction is taking place.

(9) "Rule" means a rule promulgated pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(10) "The revised school code" means 1976 PA 451, MCL 380.1 to 380.1852.

(11) "School district of the first class", "first class school district", and "district of the first class" mean a district that had at least 60,000 pupils in membership for the immediately preceding fiscal year.

(12) "School fiscal year" means a fiscal year that commences July 1 and continues through June 30.

(13) "State board" means the state board of education.

(14) "Superintendent", unless the context clearly refers to a district or intermediate district superintendent, means the superintendent of public instruction described in section 3 of article VIII of the state constitution of 1963.

(15) "Supplemental count day" means the day on which the supplemental pupil count is conducted under section 6a.

(16) "Tuition pupil" means a pupil of school age attending school in a district other than the pupil's district of residence for whom tuition may be charged to the district of residence. Tuition pupil does not include a pupil who is a special education pupil, a pupil described in subsection (6)(c) to (p), or a pupil whose parent or guardian voluntarily enrolls the pupil in a district that is not the pupil's district of residence. A pupil's district of residence shall not require a high school tuition pupil, as provided under section 111, to attend another school district after the pupil has been assigned to a school district.

(17) "State school aid fund" means the state school aid fund established in section 11 of article IX of the state constitution of 1963.

(18) "Taxable value" means the taxable value of property as determined under section 27a of the general property tax act, 1893 PA 206, MCL 211.27a.

(19) "Textbook" means a book, electronic book, or other instructional print or electronic resource that is selected and approved by the governing board of a district or, for an achievement school, by the chancellor of the achievement authority and that contains a presentation of principles of a subject, or that is a literary work relevant to the study of a subject required for the use of classroom pupils, or another type of course material that forms the basis of classroom instruction.

(20) "Total state aid" or "total state school aid" means the total combined amount of all funds due to a district, intermediate district, or other entity under all of the provisions of this article.

Compiler's note: The school district pupil accounting for distribution of state aid rules referred to in subsection (2) became effective August 17, 1984.

Section 2 of Act 220 of 1987 provides: "In accordance with the provisions of section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act is $2,334,299,200.00 and state appropriations to be paid to local units of government are $2,005,216,000.00."

Section 4 of Act 220 of 1987 provides: "The changes effected by this amendatory act shall be applied retroactively to October 1, 1987."

Subdivisions 4(u), 4(w), and 4(x), as added by Act 300 of 1996, were vetoed by the governor on June 19, 1996.

In subsection (4), as amended by Act 93 of 1997, the following sentences were vetoed by the governor on August 1, 1997: "Membership", except as otherwise provided in this act, means for a district, public school academy, university school, or intermediate district the sum of the product of .6 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year, plus the product of .4 times the final audited count from the supplemental count day for the immediately preceding school year, as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the state board, and as corrected by a subsequent department audit. The amount of the foundation allowance to be paid on behalf of a pupil in membership is determined under section 20.

Subdivisions (4)(x) and (4)(y), as amended by Act 93 of 1997, were vetoed by the governor on August 1, 1997.

Subdivision (4)(y), as amended by Act 339 of 1998, was vetoed by the governor on October 13, 1998.

388.1611 Appropriations.

Sec. 11. (1) For the fiscal year ending September 30, 2013, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of $10,928,614,200.00 from the state school aid fund and the sum of $282,400,000.00 from the general fund. For the fiscal year ending September 30, 2014, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of $11,211,382,300.00 from the state school aid fund, the sum of $156,000,000.00 from the MPSERS retirement obligation reform reserve fund created under section 147b, and the sum of $230,000,000.00 from the general fund. In addition, all other available federal funds, except those otherwise appropriated under section 11p, are appropriated for the fiscal year ending September 30, 2013 and for the fiscal year ending September 30, 2014.

(2) The appropriations under this section shall be allocated as provided in this article. Money appropriated under this section from the general fund shall be expended to fund the purposes of this article before the expenditure of money appropriated under this section from the state school aid fund.

(3) Any general fund allocations under this article that are not expended by the end of the state fiscal year are transferred to the school aid stabilization fund created under section 11a.

388.1611a School aid stabilization fund; creation; deposit; expenditure; investment; money remaining at close of fiscal year; shortfall; full funding; transfer of amount.

Sec. 11a. (1) The school aid stabilization fund is created as a separate account within the state school aid fund established by section 11 of article IX of the state constitution of 1963.

(2) The state treasurer may receive money or other assets from any source for deposit into the school aid stabilization fund. The state treasurer shall deposit into the school aid stabilization fund all of the following:

(a) Unexpended and unencumbered state school aid fund revenue for a fiscal year that remains in the state school aid fund as of the bookclosing for that fiscal year.

(b) Money statutorily dedicated to the school aid stabilization fund.

(c) Money appropriated to the school aid stabilization fund.

(3) Money available in the school aid stabilization fund may not be expended without a specific appropriation from the school aid stabilization fund. Money in the school aid stabilization fund shall be expended only for purposes for which state school aid fund money may be expended.

(4) The state treasurer shall direct the investment of the school aid stabilization fund. The state treasurer shall credit to the school aid stabilization fund interest and earnings from fund investments.

(5) Money in the school aid stabilization fund at the close of a fiscal year shall remain in the school aid stabilization fund and shall not lapse to the unreserved school aid fund balance or the general fund.

(6) If the maximum amount appropriated under section 11 from the state school aid fund for a fiscal year exceeds the amount available for expenditure from the state school aid fund for that fiscal year, there is appropriated from the school aid stabilization fund to the state school aid fund an amount equal to the projected shortfall as determined by the department of treasury, but not to exceed available money in the school aid stabilization fund. If the money in the school aid stabilization fund is insufficient to fully fund an amount equal to the projected shortfall, the state budget director shall notify the legislature as required under section 11(3) and state payments in an amount equal to the remainder of the projected shortfall shall be prorated in the manner provided under section 11(4).

(7) For 2012-2013, in addition to the appropriations in section 11, there is appropriated from the school aid stabilization fund to the state school aid fund the amount necessary to fully fund the allocations under this article.

(8) Effective February 24, 2012, in addition to any amounts otherwise deposited into the school aid stabilization fund, there is transferred from the state school aid fund to the school aid stabilization fund an amount equal to $100,000,000.00.

388.1611f Payments to non-plaintiff districts pursuant to Durant v State of Michigan; payments for fiscal year ending September 30, 2008; submission of waiver resolution; creation of obligation or liability; offer of settlement and compromise; payment date; use of payments; form and substance of resolution; early intervening program.

Sec. 11f. (1) From the appropriations under section 11, there is allocated for the purposes of this section an amount not to exceed $32,000,000.00 for the fiscal year ending September 30, 2008. Payments under this section will cease after September 30, 2008. These allocations are for paying the amounts described in subsection (4) to districts and intermediate districts, other than those receiving a lump sum payment under subsection (2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district has or may have in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. The waiver resolution shall be in form and substance as required under subsection (7). The state treasurer is authorized to accept such a waiver resolution on behalf of this state. The amounts described in this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(2) In addition to any other money appropriated under this act, there was appropriated from the state school aid fund an amount not to exceed $1,700,000.00 for the fiscal year ending September 30, 1999. This appropriation was for paying the amounts described in this subsection to districts and intermediate districts that were not plaintiffs in the consolidated cases known as Durant v State of Michigan; that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district had or may have had in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan; and for which the total amount listed in section 11h and paid under this section was less than $75,000.00. For a district or intermediate district qualifying for a payment under this subsection, the entire amount listed for the district or intermediate district in section 11h was paid in a lump sum on November 15, 1998 or on the next business day following that date. The amounts paid under this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(3) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in this section. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(4) The amount paid each fiscal year to each district or intermediate district under subsection (1) shall be 1/20 of the total amount listed in section 11h for each listed district or intermediate district that qualifies for a payment under subsection (1). The amounts listed in section 11h and paid in part under this subsection and in a lump sum under subsection (2) are offers of settlement and compromise to each of these districts or intermediate districts to resolve, in their entirety, any claim or claims that these districts or intermediate districts may have asserted for violations of section 29 of article IX of the state constitution of 1963 through September 30, 1997, which claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, shall not be construed to constitute an admission of liability to the districts or intermediate districts listed in section 11h or a waiver of any defense that is or would have been available to the state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(5) The entire amount of each payment under subsection (1) each fiscal year shall be paid on November 15 of the applicable fiscal year or on the next business day following that date.

(6) Funds paid to a district or intermediate district under this section shall be used only for textbooks, electronic instructional material, software, technology, infrastructure or infrastructure improvements, school buses, school security, training for technology, an early intervening program described in subsection (8), or to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section. For intermediate districts only, funds paid under this section may also be used for other nonrecurring instructional expenditures including, but not limited to, nonrecurring instructional expenditures for vocational education, or for debt service for acquisition of technology for academic support services. Funds received by an intermediate district under this section may be used for projects conducted for the

benefit of its constituent districts at the discretion of the intermediate board. To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for that debt service.

(7) The resolution to be adopted and submitted by a district or intermediate district under this section and section 11g shall read as follows:

"Whereas, the board of _____ (name of district or intermediate district) desires to settle and compromise, in their entirety, any claim or claims that the district (or intermediate district) has or had for violations of section 29 of article IX of the state constitution of 1963, which claim or claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

Whereas, the district (or intermediate district) agrees to settle and compromise these claims for the consideration described in sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g, and in the amount specified for the district (or intermediate district) in section 11h of the state school aid act of 1979, 1979 PA 94, MCL 388.1611h.

Whereas, the board of _____ (name of district or intermediate district) is authorized to adopt this resolution.

Now, therefore, be it resolved as follows:

1. The board of _____ (name of district or intermediate district) waives any right or interest it may have in any claim or potential claim through September 30, 1997 relating to the amount of funding the district or intermediate district is, or may have been, entitled to receive under the state school aid act of 1979, 1979 PA 94, MCL 388.1601 to 388.1772, or any other source of state funding, by reason of the application of section 29 of article IX of the state constitution of 1963, which claims or potential claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

2. The board of _____ (name of district or intermediate district) directs its secretary to submit a certified copy of this resolution to the state treasurer no later than 5 p.m. eastern standard time on March 2, 1998, and agrees that it will not take any action to amend or rescind this resolution.

3. The board of _____ (name of district or intermediate district) expressly agrees and understands that, if it takes any action to amend or rescind this resolution, the state, its agencies, employees, and agents shall have available to them any privilege, immunity, and/or defense that would otherwise have been available had the claims or potential claims been actually litigated in any forum.

4. This resolution is contingent on continued payments by the state each fiscal year as determined under sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g. However, this resolution shall be an irrevocable waiver of any claim to amounts actually received by the school district or intermediate school district under sections 11f and 11g of the state school aid act of 1979.".

(8) An early intervening program that uses funds received under this section shall meet either or both of the following:

(a) Shall monitor individual pupil learning for pupils in grades K to 3 and provide specific support or learning strategies to pupils in grades K to 3 as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Shall provide early intervening strategies for pupils in grades K to 3 using school-wide systems of academic and behavioral supports and shall be scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

388.1611g Allocations; payments to nonplaintiff districts pursuant to Durant v State of Michigan; payments for fiscal years ending September 30, 2013 through September 30, 2015; waiver resolution; offers of settlement and compromise; creation of obligation or liability; calculation of amount; payment date; use of funds; reduction in number of mills levied for debt service; pledge or assignment of payments.

Sec. 11g. (1) From the appropriation in section 11, there is allocated for this section an amount not to exceed $39,000,000.00 for the fiscal year ending September 30, 2013, and for each succeeding fiscal year through the fiscal year ending September 30, 2015, after which these payments will cease. These allocations are for paying the amounts described in subsection (3) to districts and intermediate districts, other than those receiving a lump-sum payment under section 11f(2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a waiver resolution described in section 11f. The amounts paid under this section represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this section.

(2) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in section 11f. This section and any other provision of this article are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district regarding these claims or potential claims.

(3) The amount paid each fiscal year to each district or intermediate district under this section shall be 1 of the following:

(a) If the district or intermediate district does not borrow money and issue bonds under section 11i, 1/30 of the total amount listed in section 11h for the district or intermediate district through the fiscal year ending September 30, 2013.

(b) If the district or intermediate district borrows money and issues bonds under section 11i, an amount in each fiscal year calculated by the department of treasury that is equal to the debt service amount in that fiscal year on the bonds issued by that district or intermediate district under section 11i and that will result in the total payments made to all districts and intermediate districts in each fiscal year under this section being no more than the amount appropriated under this section in each fiscal year.

(4) The entire amount of each payment under this section each fiscal year shall be paid on May 15 of the applicable fiscal year or on the next business day following that date. If a district or intermediate district borrows money and issues bonds under section 11i, the district or intermediate district shall use funds

received under this section to pay debt service on bonds issued under section 11i. If a district or intermediate district does not borrow money and issue bonds under section 11i, the district or intermediate district shall use funds received under this section only for the following purposes, in the following order of priority:

(a) First, to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section.

(b) Second, to pay debt service on other limited tax obligations.

(c) Third, for deposit into a sinking fund established by the district or intermediate district under the revised school code.

(5) To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for debt service.

(6) A district or intermediate district may pledge or assign payments under this section as security for bonds issued under section 11i, but shall not otherwise pledge or assign payments under this section.

described in subsection (3) to districts and intermediate districts, other than those receiving a lump-sum payment under section 11f(2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a waiver resolution described in section 11f. The amounts paid under this section represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this section.

(2) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in section 11f. This section and any other provision of this article are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district regarding these claims or potential claims.

(3) The amount paid each fiscal year to each district or intermediate district under this section shall be 1 of the following:

(a) If the district or intermediate district does not borrow money and issue bonds under section 11i, 1/30 of the total amount listed in section 11h for the district or intermediate district through the fiscal year ending September 30, 2015.

(b) If the district or intermediate district borrows money and issues bonds under section 11i, an amount in each fiscal year calculated by the department of treasury that is equal to the debt service amount in that fiscal year on the bonds issued by that district or intermediate district under section 11i and that will result in the total payments made to all districts and intermediate districts in each fiscal year under this section being no more than the amount appropriated under this section in each fiscal year.

(4) The entire amount of each payment under this section each fiscal year shall be paid on May 15 of the applicable fiscal year or on the next business day following that date. If a district or intermediate district borrows money and issues bonds under section 11i, the district or intermediate district shall use funds received under this section to pay debt service on bonds issued under section 11i. If a district or intermediate district does not borrow money and issue bonds under section 11i, the district or intermediate district shall use funds received under this section only for the following purposes, in the following order of priority:

(a) First, to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section.

(b) Second, to pay debt service on other limited tax obligations.

(c) Third, for deposit into a sinking fund established by the district or intermediate district under the revised school code.

(5) To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for debt service.

(6) A district or intermediate district may pledge or assign payments under this section as security for bonds issued under section 11i, but shall not otherwise pledge or assign payments under this section.

(7) If a district eligible for payments under this section is dissolved under section 12 of the revised school code, MCL 380.12, the payment otherwise due to the dissolved district under this section shall be paid instead to the intermediate district of the dissolved district. The intermediate district of the dissolved district shall perform any functions and responsibilities of the board and other officers of the dissolved district necessary under this section on behalf of the dissolved district. As used in this subsection, "dissolved district" and "receiving district" mean those terms as defined in section 20.

388.1611i Borrowing money and issuing bonds.

Sec. 11i. (1) In addition to any other authority granted under law, an eligible district or intermediate district may borrow from the Michigan municipal bond authority created under the shared credit rating act, 1985 PA 227, MCL 141.1051 to 141.1077, an amount equal to 1/2 of the amount listed for the district or intermediate district in section 11h, in anticipation of the receipt of the payments appropriated under section 11g, and may authorize by resolution of its governing body and issue its bonds to evidence its obligations to the Michigan municipal bond authority on the terms and with those provisions as are provided by resolution of the board of the district or intermediate district and as are acceptable to the Michigan municipal bond authority if the bonds are accompanied by an opinion of bond counsel acceptable to the Michigan municipal bond authority to the effect that the interest on the bonds is excluded from gross income for federal income tax purposes. For the purposes of this section, an eligible district or intermediate district is a district or intermediate district, other than a district or intermediate district that receives a lump sum payment under section 11f(2), that qualifies to receive funds under sections 11f and 11g and that notifies the department of treasury not later than 5 p.m. eastern daylight time on June 30, 1998, in the form and manner prescribed by the department of treasury, that the district or intermediate district will borrow money and issue bonds under this section or is a district, other than a district that receives a lump sum payment under section 11f(2), that qualifies to receive funds under sections 11f and 11g, that has a membership of less than 2,000 full-time equated pupils, that has

not submitted to the department of treasury a letter stating its intent not to borrow from the Michigan municipal bond authority, and that notified the department of treasury not later than 5 p.m. eastern daylight time on July 14, 1998, in the form and manner prescribed by the department of treasury, that the district will borrow money and issue bonds under this section. A district or intermediate district may pledge and assign to the Michigan municipal bond authority, as security for the bonds, all of the payments appropriated to it under section 11g but may not otherwise pledge or assign those payments. Bonds issued under this section are not subject to the municipal finance act, 1943 PA 202, MCL 131.1 to 139.3.

(2) Proceeds of bonds issued under this section shall be made available to districts and intermediate districts on or after November 15, 1998. Each district and intermediate district shall use proceeds of bonds issued by it under this section only for a purpose for which bonds may be issued under section 1351a of the revised school code, MCL 380.1351a.

(3) Bonds issued under this section do not constitute a general obligation or debt of a district or intermediate district within the meaning of any constitutional or statutory debt limitation.

(4) This section shall be construed as cumulative authority for the exercise of the powers granted in this section and shall not be construed to repeal any existing law. The purpose of this section is to create full and complete additional and alternate methods for the exercise of existing powers, and the powers conferred by this section are not affected or limited by any other statute or by any charter or incorporating document.

(5) A pledge made by a district or intermediate district under this section is valid and binding from the time the pledge is made. The revenue or other money pledged under this section and thereafter received by a district or intermediate district is immediately subject to the lien of the pledge without physical delivery of the revenue or money or any further act. The lien of such a pledge is valid and binding against a party having a claim of any kind in tort, contract, or otherwise against the district or intermediate district, irrespective of whether that party has notice of the pledge. The resolution or any other instrument by which a pledge is created is not required to be filed or recorded in order to establish and perfect a lien or security interest in the property pledged.

(6) Bonds issued under this section are not in any way a debt or liability of this state; do not create or constitute any indebtedness, liability, or obligation of this state; are not and do not constitute a pledge of the faith and credit of this state; and shall contain on their face a statement to that effect.

388.1615 Apportionment of deficiency; state aid overpayments to districts; deduction due to adjustment as result of audit or incorrect payment; funding expenditures caused by write-off of prior year accruals; additional appropriation.

Sec. 15. (1) If a district or intermediate district fails to receive its proper apportionment, the department, upon satisfactory proof that the district or intermediate district was entitled justly, shall apportion the deficiency in the next apportionment. Subject to subsections (2) and (3), if a district or intermediate district has received more than its proper apportionment, the department, upon satisfactory proof, shall deduct the excess in the next apportionment. Notwithstanding any other provision in this article, state aid overpayments to a district, other than overpayments in payments for special education or special education transportation, may be recovered from any payment made under this article other than a special education or special education transportation payment, from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211. State aid overpayments made in special education or special education transportation payments may be recovered from subsequent special education or special education transportation payments, from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211.

(2) If the result of an audit conducted by or for the department affects the current fiscal year membership, affected payments shall be adjusted in the current fiscal year. A deduction due to an adjustment made as a result of an audit conducted by or for the department, or as a result of information obtained by the department

from the district, an intermediate district, the department of treasury, or the office of auditor general, shall be deducted from the district's apportionments when the adjustment is finalized. At the request of the district and upon the district presenting evidence satisfactory to the department of the hardship, the department may grant up to an additional 4 years for the adjustment and may advance payments to the district otherwise authorized under this act if the district would otherwise experience a significant hardship in satisfying its financial obligations.

(3) If, because of the receipt of new or updated data, the department determines during a fiscal year that the amount paid to a district or intermediate district under this article for a prior fiscal year was incorrect under the law in effect for that year, the department may make the appropriate deduction or payment in the district's or intermediate district's allocation for the fiscal year in which the determination is made. The deduction or payment shall be calculated according to the law in effect in the fiscal year in which the improper amount was paid. If the district does not receive an allocation for the fiscal year or if the allocation is not sufficient to pay the amount of any deduction, the amount of any deduction otherwise applicable shall be satisfied from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211, as determined by the department.

(4) Expenditures made by the department under this article that are caused by the write-off of prior year accruals may be funded by revenue from the write-off of prior year accruals.

(5) In addition to funds appropriated in section 11 for all programs and services, there is appropriated for 2012-2013 for obligations in excess of applicable appropriations an amount equal to the collection of overpayments, but not to exceed amounts available from overpayments.

***** *388.1617a THIS SECTION IS AMENDED EFFECTIVE OCTOBER 1, 2013: See 388.1617a.amended* *****

388.1617a Withholding payment district or intermediate district entitled to receive under act; extent; plan for financing outstanding obligation defaulted upon by district or intermediate district; use of amounts withheld; agreement assigning or pledging payment; effect of appointment of emergency manager; indebtedness of state not created; "trustee of a pooled arrangement" defined; approval or disapproval within 10 days after receipt.

Sec. 17a. (1) The department may withhold all or part of any payment that a district or intermediate district is entitled to receive under this act to the extent the withholdings are a component part of a plan, developed and implemented pursuant to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821, or other statutory authority, for financing an outstanding obligation upon which the district or intermediate district defaulted. Amounts withheld shall be used to pay, on behalf of the district or intermediate district, unpaid amounts or subsequently due amounts, or both, of principal and interest on the outstanding obligation upon which the district or intermediate district defaulted.

(2) The state treasurer may withhold all or part of any payment that a district or intermediate district is entitled to receive under this act to the extent authorized or required under section 15 of the school bond qualification, approval, and loan act, 2005 PA 92, MCL 388.1935.

(3) Under an agreement entered into by a district or intermediate district assigning all or a portion of the payment that it is eligible to receive under this act to the Michigan finance authority or to the trustee of a pooled arrangement or pledging the amount for payment of an obligation it incurred with the Michigan finance authority or with the trustee of a pooled arrangement, the state treasurer shall transmit to the Michigan finance authority or a trustee designated by the Michigan finance authority or to the trustee of a pooled arrangement the amount of the payment that is assigned or pledged under the agreement.

(4) If a district or intermediate district for which an emergency manager has been appointed pursuant to the local government and school district fiscal accountability act, 2011 PA 4, MCL 141.1501 to 141.1531, or that has an approved deficit elimination plan under section 102, enters into or has entered into an agreement described in subsection (3) pursuant to section 1225(2) of the revised school code, MCL 380.1225, whether the obligation was issued before or after the effective date of this subsection, the portion of state school aid paid or to be paid on behalf of the district or intermediate district directly to the Michigan finance authority, or to a trustee designated by the Michigan finance authority, for the sole purpose of paying the principal of and interest on the obligation is subject to a lien and trust that is a statutory lien and trust, paramount and superior to all other liens and interests of any kind, for the sole purpose of paying the principal of and interest on the obligation. The statutory lien and trust applies to the state school aid received or to be received by the Michigan finance authority, or trustee designated by the Michigan finance authority, on behalf of the district or intermediate district, immediately upon the later of the effective date of this subsection or the time when the state school aid is allocated to the district or intermediate district, but is subject to any subsequent reduction of the state school aid allocation by operation of law or executive order. The lien and trust imposed by this section with respect to state school aid has a priority as established in the agreement, except that the agreement shall not impair any existing lien and trust previously created pursuant to this section, including any lien and trust applicable to a multi-year repayment agreement under section 1225 of the revised school code, 1976 PA 451, MCL 380.1225. Except as otherwise provided in this subsection, the lien and trust created

under this subsection for the benefit of holders of the obligation issued pursuant to this section is valid and binding against a party having a claim of any kind in tort, contract, or otherwise against the district or intermediate district that has issued the obligation secured by a pledge of state school aid pursuant to this section, regardless of whether that party has notice of the pledge. A pledge made pursuant to this section for the benefit of the holders of obligations or others is perfected without delivery, recording, or notice. The state school aid paid or to be paid on behalf of a district or intermediate district to the Michigan finance authority, or trustee designated by the Michigan finance authority, shall be held in trust for the sole benefit of the holders of the obligation issued pursuant to this section or section 1225 and is exempt from being levied upon, taken, sequestered, or applied toward paying the debts or liabilities of the district or intermediate district other than for payment of the obligation to which the lien applies. However, nothing in this subsection alters the ability of the state treasurer to withhold state school aid from a district or intermediate district as provided by law.

(5) Notwithstanding the payment dates prescribed by this act for distributions under this act, the state treasurer may advance all or part of a payment that is dedicated for distribution or for which the appropriation authorizing the payment has been made if and to the extent, under the terms of an agreement entered into by a district or intermediate district and the Michigan finance authority, the payment that the district or intermediate district is eligible to receive has been assigned to or pledged for payment of an obligation it incurred with the Michigan finance authority.

(6) This section does not require the state to make an appropriation to any school district or intermediate school district and shall not be construed as creating an indebtedness of the state, and any agreement made pursuant to this section shall contain a statement to that effect.

(7) As used in this section, "trustee of a pooled arrangement" means the trustee of a trust approved by the state treasurer and, subject to the conditions and requirements of that approval, established for the purpose of offering for sale, as part of a pooled arrangement, certificates representing undivided interests in notes issued by districts or intermediate districts under section 1225 of the revised school code, 1976 PA 451, MCL 380.1225.

(8) If a trustee applies to the state treasurer for approval of a trust for the purposes of this section, the state treasurer shall approve or disapprove the trust within 10 days after receipt of the application.

388.1617b Amounts to be distributed in installments to districts; electronic files; payments; warrant; adjustments; grant payments; installment schedule; advance release of funds.

Sec. 17b. (1) Not later than October 20, November 20, December 20, January 20, February 20, March 20, April 20, May 20, June 20, July 20, and August 20, the department shall prepare electronic files of the amount to be distributed under this act in the installment to the districts and intermediate districts and deliver the electronic files to the state treasurer, and the state treasurer shall pay the installments on each of those dates or, if the date is not a business day, on the next business day following that date. Except as otherwise provided in this act, the portion of the district's or intermediate district's state fiscal year entitlement to be included in each installment shall be 1/11. A district or intermediate district shall accrue the payments received in July and August to the school fiscal year ending the immediately preceding June 30.

(2) The state treasurer shall make payment under this section by drawing a warrant in favor of the treasurer of each district or intermediate district for the amount payable to the district or intermediate district according to the electronic files and delivering the warrant to the treasurer of each district or intermediate district, or if the state treasurer receives a written request by the treasurer of the district or intermediate district specifying an account, by electronic funds transfer to that account of the amount payable to the district or intermediate district according to the electronic files. The department may make adjustments in payments made under this section through additional payments when changes in law or errors in computation cause the regularly scheduled payment to be less than the amount to which the district or intermediate district is entitled pursuant to this act.

(3) Except as otherwise provided in this act, grant payments to districts and intermediate districts under this act shall be paid according to the installment schedule under subsection (1).

(4) Upon the written request of a district or intermediate district and the submission of proof satisfactory to the department of a need of a temporary and nonrecurring nature, the superintendent, with the written concurrence of the state treasurer and the state budget director, may authorize an advance release of funds due a district or intermediate district under this act. An advance authorized under this subsection shall not cause funds to be paid to a district or intermediate district more than 30 days earlier than the established payment date for those funds.

academy; failure to comply with subsections (4), (5), (6), and (7); report online learning per-pupil costs; report to legislature.

Sec. 18. (1) Except as provided in another section of this article, each district or other entity shall apply the money received by the district or entity under this article to salaries and other compensation of teachers and other employees, tuition, transportation, lighting, heating, ventilation, water service, the purchase of textbooks, other supplies, and any other school operating expenditures defined in section 7. However, not more than 20% of the total amount received by a district or intermediate district under this article may be transferred by the board to either the capital projects fund or to the debt retirement fund for debt service. The money shall not be applied or taken for a purpose other than as provided in this section. The department shall determine the reasonableness of expenditures and may withhold from a recipient of funds under this article the apportionment otherwise due upon a violation by the recipient.

(2) Within 30 days after a board adopts its annual operating budget for the following school fiscal year, or after a board adopts a subsequent revision to that budget, the district shall make all of the following available through a link on its website home page, or may make the information available through a link on its intermediate district's website home page, in a form and manner prescribed by the department:

(a) The annual operating budget and subsequent budget revisions.

(b) Using data that have already been collected and submitted to the department, a summary of district expenditures for the most recent fiscal year for which they are available, expressed in the following 2 pie charts:

(*i*) A chart of personnel expenditures, broken into the following subcategories:

(A) Salaries and wages.

(B) Employee benefit costs, including, but not limited to, medical, dental, vision, life, disability, and long-term care benefits.

(C) Retirement benefit costs.

(D) All other personnel costs.

(*ii*) A chart of all district expenditures, broken into the following subcategories:

(A) Instruction.

(B) Support services.

(C) Business and administration.

(D) Operations and maintenance.

(c) Links to all of the following:

(*i*) The current collective bargaining agreement for each bargaining unit.

(*ii*) Each health care benefits plan, including, but not limited to, medical, dental, vision, disability, long-term care, or any other type of benefits that would constitute health care services, offered to any bargaining unit or employee in the district.

(*iii*) The audit report of the audit conducted under subsection (4) for the most recent fiscal year for which it is available.

(*iv*) The bids required under section 5 of the public employee health benefits act, 2007 PA 106, MCL 124.75.

(d) The total salary and a description and cost of each fringe benefit included in the compensation package for the superintendent of the district and for each employee of the district whose salary exceeds $100,000.00.

(e) The annual amount spent on dues paid to associations.

(f) The annual amount spent on lobbying or lobbying services. As used in this subdivision, "lobbying" means that term as defined in section 5 of 1978 PA 472, MCL 4.415.

(3) For the information required under subsection (2)(a), (2)(b)(*i*), and (2)(c), an intermediate district shall provide the same information in the same manner as required for a district under subsection (2).

(4) For the purpose of determining the reasonableness of expenditures and whether a violation of this article has occurred, all of the following apply:

(a) The department shall require that each district and intermediate district have an audit of the district's or intermediate district's financial and pupil accounting records conducted at least annually at the expense of the district or intermediate district, as applicable, by a certified public accountant or by the intermediate district superintendent, as may be required by the department, or in the case of a district of the first class by a certified public accountant, the intermediate superintendent, or the auditor general of the city.

(b) If a district operates in a single building with fewer than 700 full-time equated pupils, if the district has stable membership, and if the error rate of the immediately preceding 2 pupil accounting field audits of the district is less than 2%, the district may have a pupil accounting field audit conducted biennially but must continue to have desk audits for each pupil count. The auditor must document compliance with the audit cycle

in the pupil auditing manual. As used in this subdivision, "stable membership" means that the district's membership for the current fiscal year varies from the district's membership for the immediately preceding fiscal year by less than 5%.

(c) A district's or intermediate district's annual financial audit shall include an analysis of the financial and pupil accounting data used as the basis for distribution of state school aid.

(d) The pupil and financial accounting records and reports, audits, and management letters are subject to requirements established in the auditing and accounting manuals approved and published by the department.

(e) All of the following shall be done not later than November 15 each year:

(*i*) A district shall file the annual financial audit reports with the intermediate district and the department.

(*ii*) The intermediate district shall file the annual financial audit reports for the intermediate district with the department.

(*iii*) The intermediate district shall enter the pupil membership audit reports for its constituent districts and for the intermediate district, for the pupil membership count day and supplemental count day, in the Michigan student data system.

(f) The annual financial audit reports and pupil accounting procedures reports shall be available to the public in compliance with the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(g) Not later than January 31 of each year, the department shall notify the state budget director and the legislative appropriations subcommittees responsible for review of the school aid budget of districts and intermediate districts that have not filed an annual financial audit and pupil accounting procedures report required under this section for the school year ending in the immediately preceding fiscal year.

(5) By November 15 of each year, each district and intermediate district shall submit to the center, in a manner prescribed by the center, annual comprehensive financial data consistent with accounting manuals and charts of accounts approved and published by the department. For an intermediate district, the report shall also contain the website address where the department can access the report required under section 620 of the revised school code, MCL 380.620. The department shall ensure that the prescribed Michigan public school accounting manual chart of accounts includes standard conventions to distinguish expenditures by allowable fund function and object. The functions shall include at minimum categories for instruction, pupil support, instructional staff support, general administration, school administration, business administration, transportation, facilities operation and maintenance, facilities acquisition, and debt service; and shall include object classifications of salary, benefits, including categories for active employee health expenditures, purchased services, supplies, capital outlay, and other. Districts shall report the required level of detail consistent with the manual as part of the comprehensive annual financial report.

(6) By September 30 of each year, each district and intermediate district shall file with the department the special education actual cost report, known as "SE-4096", on a form and in the manner prescribed by the department.

(7) By October 7 of each year, each district and intermediate district shall file with the center the transportation expenditure report, known as "SE-4094", on a form and in the manner prescribed by the center.

(8) The department shall review its pupil accounting and pupil auditing manuals at least annually and shall periodically update those manuals to reflect changes in this article.

(9) If a district that is a public school academy purchases property using money received under this article, the public school academy shall retain ownership of the property unless the public school academy sells the property at fair market value.

(10) If a district or intermediate district does not comply with subsections (4), (5), (6), and (7), the department shall withhold all state school aid due to the district or intermediate district under this article, beginning with the next payment due to the district or intermediate district, until the district or intermediate district complies with subsections (4), (5), (6), and (7). If the district or intermediate district does not comply with subsections (4), (5), (6), and (7) by the end of the fiscal year, the district or intermediate district forfeits the amount withheld.

(11) Not later than October 1, 2012, if a district or intermediate district offers online learning, the district or intermediate district shall submit to the department a report that details the per-pupil costs of operating the online learning. The report shall include, on a per-pupil basis, at least all of the following costs:

(a) Textbooks, instructional materials, and supplies, including electronic instructional material.

(b) Computer and other electronic equipment, including internet and telephone access.

(c) Salaries and benefits for the online learning employees.

(d) Purchased courses and curricula.

(e) Fees associated with oversight and regulation.

(f) Travel costs associated with school activities and testing.

(g) Facilities costs.

(h) Costs associated with special education.

(12) Not later than December 31, 2012, the department shall issue a report to the legislature including the following:

(a) A review of the data submitted under subsection (11).

(b) A comparison with costs of substantially similar programs in other states and relevant national research on the costs of online learning.

(c) Any conclusions concerning factors or characteristics of online learning programs that make a difference in the costs of operating the programs.

388.1618.amended Application of money received under article; determining reasonableness of expenditures; withholding apportionment for violation; availability of budget revisions on website; audit; reports; submission of annual comprehensive financial data; Michigan public school accounting manual chart of accounts; filing special education actual cost report and transportation expenditure report; retention of property by public school academy; failure to comply with subsections (4), (5), (6), and (7); report on online learning per-pupil costs.

Sec. 18. (1) Except as provided in another section of this article, each district or other entity shall apply the money received by the district or entity under this article to salaries and other compensation of teachers and other employees, tuition, transportation, lighting, heating, ventilation, water service, the purchase of textbooks, other supplies, and any other school operating expenditures defined in section 7. However, not more than 20% of the total amount received by a district or intermediate district under this article may be transferred by the board to either the capital projects fund or to the debt retirement fund for debt service. The money shall not be applied or taken for a purpose other than as provided in this section. The department shall determine the reasonableness of expenditures and may withhold from a recipient of funds under this article the apportionment otherwise due upon a violation by the recipient.

(2) Within 30 days after a board adopts its annual operating budget for the following school fiscal year, or after a board adopts a subsequent revision to that budget, the district shall make all of the following available through a link on its website home page, or may make the information available through a link on its intermediate district's website home page, in a form and manner prescribed by the department:

(a) The annual operating budget and subsequent budget revisions.

(b) Using data that have already been collected and submitted to the department, a summary of district expenditures for the most recent fiscal year for which they are available, expressed in the following 2 pie charts:

(*i*) A chart of personnel expenditures, broken into the following subcategories:

(A) Salaries and wages.

(B) Employee benefit costs, including, but not limited to, medical, dental, vision, life, disability, and long-term care benefits.

(C) Retirement benefit costs.

(D) All other personnel costs.

(*ii*) A chart of all district expenditures, broken into the following subcategories:

(A) Instruction.

(B) Support services.

(C) Business and administration.

(D) Operations and maintenance.

(c) Links to all of the following:

(*i*) The current collective bargaining agreement for each bargaining unit.

(*ii*) Each health care benefits plan, including, but not limited to, medical, dental, vision, disability, long-term care, or any other type of benefits that would constitute health care services, offered to any bargaining unit or employee in the district.

(*iii*) The audit report of the audit conducted under subsection (4) for the most recent fiscal year for which it is available.

(*iv*) The bids required under section 5 of the public employee health benefits act, 2007 PA 106, MCL 124.75.

(d) The total salary and a description and cost of each fringe benefit included in the compensation package for the superintendent of the district and for each employee of the district whose salary exceeds $100,000.00.

(e) The annual amount spent on dues paid to associations.

(f) The annual amount spent on lobbying or lobbying services. As used in this subdivision, "lobbying" means that term as defined in section 5 of 1978 PA 472, MCL 4.415.

(3) For the information required under subsection (2)(a), (2)(b)(*i*), and (2)(c), an intermediate district shall provide the same information in the same manner as required for a district under subsection (2).

(4) For the purpose of determining the reasonableness of expenditures and whether a violation of this article has occurred, all of the following apply:

(a) The department shall require that each district and intermediate district have an audit of the district's or intermediate district's financial and pupil accounting records conducted at least annually at the expense of the district or intermediate district, as applicable, by a certified public accountant or by the intermediate district superintendent, as may be required by the department, or in the case of a district of the first class by a certified public accountant, the intermediate superintendent, or the auditor general of the city.

(b) If a district operates in a single building with fewer than 700 full-time equated pupils, if the district has stable membership, and if the error rate of the immediately preceding 2 pupil accounting field audits of the district is less than 2%, the district may have a pupil accounting field audit conducted biennially but must continue to have desk audits for each pupil count. The auditor must document compliance with the audit cycle in the pupil auditing manual. As used in this subdivision, "stable membership" means that the district's membership for the current fiscal year varies from the district's membership for the immediately preceding fiscal year by less than 5%.

(c) A district's or intermediate district's annual financial audit shall include an analysis of the financial and pupil accounting data used as the basis for distribution of state school aid.

(d) The pupil and financial accounting records and reports, audits, and management letters are subject to requirements established in the auditing and accounting manuals approved and published by the department.

(e) All of the following shall be done not later than November 15 each year:

(*i*) A district shall file the annual financial audit reports with the intermediate district and the department.

(*ii*) The intermediate district shall file the annual financial audit reports for the intermediate district with the department.

(*iii*) The intermediate district shall enter the pupil membership audit reports for its constituent districts and for the intermediate district, for the pupil membership count day and supplemental count day, in the Michigan student data system.

(f) The annual financial audit reports and pupil accounting procedures reports shall be available to the public in compliance with the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(g) Not later than January 31 of each year, the department shall notify the state budget director and the

legislative appropriations subcommittees responsible for review of the school aid budget of districts and intermediate districts that have not filed an annual financial audit and pupil accounting procedures report required under this section for the school year ending in the immediately preceding fiscal year.

(5) By November 15 of each year, each district and intermediate district shall submit to the center, in a manner prescribed by the center, annual comprehensive financial data consistent with accounting manuals and charts of accounts approved and published by the department. For an intermediate district, the report shall also contain the website address where the department can access the report required under section 620 of the revised school code, MCL 380.620. The department shall ensure that the prescribed Michigan public school accounting manual chart of accounts includes standard conventions to distinguish expenditures by allowable fund function and object. The functions shall include at minimum categories for instruction, pupil support, instructional staff support, general administration, school administration, business administration, transportation, facilities operation and maintenance, facilities acquisition, and debt service; and shall include object classifications of salary, benefits, including categories for active employee health expenditures, purchased services, supplies, capital outlay, and other. Districts shall report the required level of detail consistent with the manual as part of the comprehensive annual financial report.

(6) By September 30 of each year, each district and intermediate district shall file with the department the special education actual cost report, known as "SE-4096", on a form and in the manner prescribed by the department.

(7) By October 7 of each year, each district and intermediate district shall file with the center the transportation expenditure report, known as "SE-4094", on a form and in the manner prescribed by the center.

(8) The department shall review its pupil accounting and pupil auditing manuals at least annually and shall periodically update those manuals to reflect changes in this article.

(9) If a district that is a public school academy purchases property using money received under this article, the public school academy shall retain ownership of the property unless the public school academy sells the property at fair market value.

(10) If a district or intermediate district does not comply with subsections (4), (5), (6), and (7), the department shall withhold all state school aid due to the district or intermediate district under this article, beginning with the next payment due to the district or intermediate district, until the district or intermediate district complies with subsections (4), (5), (6), and (7). If the district or intermediate district does not comply with subsections (4), (5), (6), and (7) by the end of the fiscal year, the district or intermediate district forfeits the amount withheld.

(11) Not later than September 1, 2014, if a district or intermediate district offers online learning, the district or intermediate district shall submit to the department a report that details the per-pupil costs of operating the online learning. The report shall include at least all of the following information concerning the operation of online learning for the school fiscal year ending June 30, 2014:

(a) The name of the district operating the online learning and of each district that enrolled students in the online learning.

(b) The total number of students enrolled in the online learning and the total number of membership pupils enrolled in the online learning.

(c) For each pupil who is enrolled in a district other than the district offering online learning, the name of that district.

(d) The district in which the pupil was enrolled before enrolling in the district offering online learning.

(e) The number of participating students who had previously dropped out of school.

(f) The number of participating students who had previously been expelled from school.

(g) The total cost to enroll a student in the program. This cost shall be reported on a per-pupil, per-course, per-semester or trimester basis. The total shall include costs broken down by cost for training, personnel, hardware and software, payment to each online learning provider, and other costs associated with operating online learning.

(h) The name of each online education provider contracted by the district and the state in which each online education provider is headquartered.

practices and criminal incidents; failure to comply with certain requirements; list of schools or districts failing to make adequate yearly progress; appeal of determination; publication of list; legislative intent to implement statewide standard reporting requirements.

Sec. 19. (1) A district or intermediate district shall comply with all applicable reporting requirements specified in state and federal law. Data provided to the center, in a form and manner prescribed by the center, shall be aggregated and disaggregated as required by state and federal law. In addition, a district or intermediate district shall cooperate with all measures taken by the center to establish and maintain a statewide P-20 longitudinal data system.

(2) Each district shall furnish to the center not later than 5 weeks after the pupil membership count day and by June 30 of the school fiscal year ending in the fiscal year, in a manner prescribed by the center, the information necessary for the preparation of the district and high school graduation report. This information shall meet requirements established in the pupil auditing manual approved and published by the department. The center shall calculate an annual graduation and pupil dropout rate for each high school, each district, and this state, in compliance with nationally recognized standards for these calculations. The center shall report all graduation and dropout rates to the senate and house education committees and appropriations committees, the state budget director, and the department not later than 30 days after the publication of the list described in subsection (6).

(3) By the first business day in December and by June 30 of each year, a district shall furnish to the center, in a manner prescribed by the center, information related to educational personnel as necessary for reporting required by state and federal law.

(4) By June 30 of each year, a district shall furnish to the center, in a manner prescribed by the center, information related to safety practices and criminal incidents as necessary for reporting required by state and federal law.

(5) If a district or intermediate district fails to meet the requirements of this section, the department shall withhold 5% of the total funds for which the district or intermediate district qualifies under this article until the district or intermediate district complies with all of those subsections. If the district or intermediate district does not comply with all of those subsections by the end of the fiscal year, the department shall place the amount withheld in an escrow account until the district or intermediate district complies with all of those subsections.

(6) Before publishing a list of schools or districts determined to have failed to make adequate yearly progress as required by the no child left behind act of 2001, Public Law 107-110, the department shall allow a school or district to appeal that determination. The department shall consider and act upon the appeal within 30 days after it is submitted and shall not publish the list until after all appeals have been considered and decided.

(7) It is the intent of the legislature to implement not later than 2014-2015 statewide standard reporting requirements for education data approved by the department in conjunction with the center. The department shall work with the center, intermediate districts, districts, and other interested stakeholders to develop recommendations on the implementation of this policy change. A district or intermediate district shall implement the statewide standard reporting requirements not later than 2014-2015 or when a district or intermediate district updates its education data reporting system, whichever is later.

388.1619.amended Compliance with reporting requirements specified in state and federal law; report of graduation and dropout rates; educational personnel; information relating to safety practices and criminal incidents; failure to comply with certain requirements; list of school or district accountability designations; appeal of determination; publication of list; legislative intent to implement statewide standard reporting requirements.

Sec. 19. (1) A district or intermediate district shall comply with all applicable reporting requirements specified in state and federal law. Data provided to the center, in a form and manner prescribed by the center, shall be aggregated and disaggregated as required by state and federal law. In addition, a district or intermediate district shall cooperate with all measures taken by the center to establish and maintain a statewide P-20 longitudinal data system.

(2) Each district shall furnish to the center not later than 5 weeks after the pupil membership count day and by June 30 of the school fiscal year ending in the fiscal year, in a manner prescribed by the center, the information necessary for the preparation of the district and high school graduation report. This information shall meet requirements established in the pupil auditing manual approved and published by the department. The center shall calculate an annual graduation and pupil dropout rate for each high school, each district, and this state, in compliance with nationally recognized standards for these calculations. The center shall report all graduation and dropout rates to the senate and house education committees and appropriations committees, the state budget director, and the department not later than 30 days after the publication of the list described in subsection (6).

(3) By the first business day in December and by June 30 of each year, a district shall furnish to the center, in a manner prescribed by the center, information related to educational personnel as necessary for reporting required by state and federal law.

(4) By June 30 of each year, a district shall furnish to the center, in a manner prescribed by the center, information related to safety practices and criminal incidents as necessary for reporting required by state and federal law.

(5) If a district or intermediate district fails to meet the requirements of this section, the department shall withhold 5% of the total funds for which the district or intermediate district qualifies under this article until the district or intermediate district complies with all of those subsections. If the district or intermediate district does not comply with all of those subsections by the end of the fiscal year, the department shall place the amount withheld in an escrow account until the district or intermediate district complies with all of those subsections.

(6) Before publishing a list of school or district accountability designations as required by the no child left behind act of 2001, Public Law 107-110, the department shall allow a school or district to appeal that determination. The department shall consider and act upon the appeal within 30 days after it is submitted and shall not publish the list until after all appeals have been considered and decided.

(7) It is the intent of the legislature to implement not later than 2014-2015 statewide standard reporting requirements for education data approved by the department in conjunction with the center. The department shall work with the center, intermediate districts, districts, and other interested stakeholders to develop recommendations on the implementation of this policy change. A district or intermediate district shall implement the statewide standard reporting requirements not later than 2014-2015 or when a district or intermediate district updates its education data reporting system, whichever is later.

388.1620 Foundation allowance; calculations allocations; adjustments; definitions.

Sec. 20. (1) For 2011-2012, and for 2012-2013, the basic foundation allowance is $8,019.00.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance minus $20.00) times (the difference between the district's foundation allowance for the immediately preceding state fiscal year and the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts) divided by the difference between the basic foundation allowance for the current state fiscal year and the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts]. For 2011-2012, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for 2010-2011, minus $470.00. Except as otherwise provided in subdivision (h), for 2012-2013, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of $7,108.00 plus the total dollar amount of all adjustments made from

2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for the immediately preceding state fiscal year. However, the foundation allowance for a district that had less than the basic foundation allowance for the immediately preceding state fiscal year shall not exceed the basic foundation allowance for the current state fiscal year.

(b) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2011-2012 in an amount equal to the district's foundation allowance for 2010-2011, minus $470.00. For 2012-2013, except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2012-2013 in an amount equal to the district's foundation allowance for the immediately preceding state fiscal year.

(c) Except as otherwise provided in subdivision (d), for a district that in the 1994-95 state fiscal year had a foundation allowance greater than $6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b. Except as otherwise provided in subdivision (d), for 2011-2012, for a district that in the 1994-1995 state fiscal year had a foundation allowance greater than $6,500.00, the district's foundation allowance is an amount equal to the district's foundation allowance for the 2010-2011 fiscal year minus $470.00. For 2012-2013, except as otherwise provided in subdivision (d), for a district that in the 1994-1995 state fiscal year had a foundation allowance greater than $6,500.00, the district's foundation allowance is an amount equal to the district's foundation allowance for the immediately preceding state fiscal year.

(d) For a district that in the 1994-95 state fiscal year had a foundation allowance greater than $6,500.00 and that had a foundation allowance for the 2009-2010 state fiscal year, as otherwise calculated under this section, that was less than the basic foundation allowance, the district's foundation allowance for 2011-2012 and each succeeding fiscal year shall be considered to be an amount equal to the basic foundation allowance.

(e) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.

(f) For a district that received a payment under section 22c as that section was in effect for 2001-2002, the district's 2001-2002 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2001-2002 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2001-2002 under section 22c as that section was in effect for 2001-2002.

(g) For a district that received a payment under section 22c as that section was in effect for 2006-2007, the district's 2006-2007 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2006-2007 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2006-2007 under section 22c as that section was in effect for 2006-2007.

(h) For 2012-2013, for a district that had a foundation allowance for the 2011-2012 state fiscal year of less than $6,966.00, the district's foundation allowance is an amount equal to $6,966.00.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the basic foundation allowance for the current state fiscal year, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district described in subsection (3)(c), the state portion of the district's foundation allowance is an amount equal to $6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99, minus the difference between the sum of the product of the taxable value

per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the foundation allowance of the district in which the public school academy is located or the state maximum public school academy allocation, whichever is less. However, a public school academy that had an allocation under this subsection before 2009-2010 that was equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy is located and the state portion of that district's foundation allowance shall not have that allocation reduced as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) Except as otherwise provided in this subsection, for pupils attending an achievement school and in membership in the education achievement system, other than special education pupils, the allocation calculated under this section is an amount per membership pupil other than special education pupils equal to the foundation allowance of the district in which the achievement school is located, not to exceed the basic foundation allowance. Notwithstanding section 101, for an achievement school that begins operation after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the achievement school after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection. For the purposes of this subsection, if a public school is transferred from a district to the state school reform/redesign district or the achievement authority under section 1280c of the revised school code, that public school is considered to be an achievement school within the education achievement system and not a school that is part of a district, and a pupil attending that public school is considered to be in membership in the education achievement system and not in membership in the district that operated the school before the transfer.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts.

(9) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(11) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act,

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. However, for 2011-2012, the index shall be 0.93575 and for 2012-2013, the index shall be 1.00. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) For a district in which 7.75 mills levied in 1992 for school operating purposes in the 1992-93 school year were not renewed in 1993 for school operating purposes in the 1993-94 school year, the district's combined state and local revenue per membership pupil shall be recalculated as if that millage reduction did not occur and the district's foundation allowance shall be calculated as if its 1994-95 foundation allowance had been calculated using that recalculated 1993-94 combined state and local revenue per membership pupil as a base. A district is not entitled to any retroactive payments for fiscal years before 2000-2001 due to this subsection. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(13) For a district in which an industrial facilities exemption certificate that abated taxes on property with a state equalized valuation greater than the total state equalized valuation of the district at the time the certificate was issued or $700,000,000.00, whichever is greater, was issued under 1974 PA 198, MCL 207.551 to 207.572, before the calculation of the district's 1994-95 foundation allowance, the district's foundation allowance for 2002-2003 is an amount equal to the sum of the district's foundation allowance for 2002-2003, as otherwise calculated under this section, plus $250.00. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(14) For a district that received a grant under former section 32e for 2001-2002, the district's foundation allowance for 2002-2003 and each succeeding fiscal year shall be adjusted to be an amount equal to the sum of the district's foundation allowance, as otherwise calculated under this section, plus the quotient of 100% of the amount of the grant award to the district for 2001-2002 under former section 32e divided by the number of pupils in the district's membership for 2001-2002 who were residents of and enrolled in the district. Except as otherwise provided in this subsection, a district qualifying for a foundation allowance adjustment under this subsection shall use the funds resulting from this adjustment for at least 1 of grades K to 3 for purposes allowable under former section 32e as in effect for 2001-2002. For an individual school or schools operated by a district qualifying for a foundation allowance under this subsection that have been determined by the department to meet the adequate yearly progress standards of the federal no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district may submit to the department an application for flexibility in using the funds resulting from this adjustment that are attributable to the pupils in the school or schools. The application shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to reduce class size, but that may be different

from the purposes otherwise allowable under this subsection. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to reduce class size. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. If an application for flexibility in using the funds is approved, the district may use the funds identified in the application for any purpose identified in the plan. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 68.5% of the amount the district received as a result of this adjustment for 2010-2011.

(15) For a district that levied 1.9 mills in 1993 to finance an operating deficit, the district's foundation allowance shall be calculated as if those mills were included as operating mills in the calculation of the district's 1994-1995 foundation allowance. A district is not entitled to any retroactive payments for fiscal years before 2006-2007 due to this subsection. A district receiving an adjustment under this subsection shall not receive more than $800,000.00 for a fiscal year as a result of this adjustment. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(16) For a district that levied 2.23 mills in 1993 to finance an operating deficit, the district's foundation allowance shall be calculated as if those mills were included as operating mills in the calculation of the district's 1994-1995 foundation allowance. A district is not entitled to any retroactive payments for fiscal years before 2006-2007 due to this subsection. A district receiving an adjustment under this subsection shall not receive more than $500,000.00 for a fiscal year as a result of this adjustment. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(17) Payments to districts, public school academies, or the education achievement system shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.

(18) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per pupil payment calculation under this section may be reduced.

(19) As used in this section:

(a) "Certified mills" means the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94.

(b) "Combined state and local revenue" means the aggregate of the district's state school aid received by or paid on behalf of the district under this section and the district's local school operating revenue.

(c) "Combined state and local revenue per membership pupil" means the district's combined state and local revenue divided by the district's membership excluding special education pupils.

(d) "Current state fiscal year" means the state fiscal year for which a particular calculation is made.

(e) "Immediately preceding state fiscal year" means the state fiscal year immediately preceding the current state fiscal year.

(f) "Local school operating revenue" means school operating taxes levied under section 1211 of the revised school code, MCL 380.1211.

(g) "Local school operating revenue per membership pupil" means a district's local school operating revenue divided by the district's membership excluding special education pupils.

(h) "Maximum public school academy allocation", except as otherwise provided in this subdivision, means the maximum per-pupil allocation as calculated by adding the highest per-pupil allocation among all public school academies for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance minus $20.00) times (the difference between the highest per-pupil allocation among all public school academies for the immediately preceding state fiscal year and the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest per-pupil allocation among all public school academies) divided by the difference between the basic foundation allowance for the current state fiscal year and the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest per-pupil allocation among all public school academies]. For 2011-2012 and 2012-2013, maximum public school academy allocation means $7,110.00.

(i) "Membership" means the definition of that term under section 6 as in effect for the particular fiscal year for which a particular calculation is made.

(j) "Nonexempt property" means property that is not a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, or commercial personal property.

(k) "Principal residence", "qualified agricultural property", "qualified forest property", "supportive housing property", "industrial personal property", and "commercial personal property" mean those terms as defined in section 1211 of the revised school code, MCL 380.1211.

(*l*) "School operating purposes" means the purposes included in the operation costs of the district as prescribed in sections 7 and 18.

(m) "School operating taxes" means local ad valorem property taxes levied under section 1211 of the revised school code, MCL 380.1211, and retained for school operating purposes.

(n) "Tax increment financing acts" means 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, or the corridor improvement authority act, 2005 PA 280, MCL 125.2871 to 125.2899.

(o) "Taxable value per membership pupil" means taxable value, as certified by the department of treasury, for the calendar year ending in the current state fiscal year divided by the district's membership excluding special education pupils for the school year ending in the current state fiscal year.

Compiler's note: The words "1/3 of" in subsection (20)(a)(*i*)(Q), as amended by Act 283 of 1994, were vetoed by the governor on July 9, 1994.

The last sentence of subsection (9), and subsections (18) and (19), as amended by Act 360 of 1994, were vetoed by the governor on December 22, 1994.

Subsection (11), as amended by Act 130 of 1995, was vetoed by the governor on June 30, 1995.

Enacting section 3 of Act 521 of 2002 provides:

"Enacting section 3. This amendatory act does not take effect unless the tax on cigarettes under the tobacco products tax act, 1993 PA 327, MCL 205.421 to 205.436, is increased by 50 cents or more per pack of cigarettes (25 mills per cigarette) effective on or before September 30, 2002 and the revenue from not less than 20 cents per pack of cigarettes (10 mills per cigarette) of that increase is dedicated by law for deposit into the state school aid fund established by section 11 of article IX of the state constitution of 1963."

For legislation increasing tax on cigarettes and dedicating a portion of increased revenue to state school aid fund, see 2002 PA 503, Imd. Eff. July 18, 2002.

Subsection (20), as amended by Act 158 of 2003, was vetoed by the governor on August 11, 2003. The text of subsection (20) set forth above in this section (MCL 388.1620) derives from Act 141 of 2003. In the veto message accompanying her veto of certain items in Enrolled House Bill 4401 (Act 158 of 2003), the governor stated, "I have vetoed amendatory language in Section 20(20) that stops the annual $15 million supplemental payment to Detroit Public Schools at the end of fiscal year 2003. Existing language clearly indicates that this supplemental funding is intended to continue as long as the reform board remains in place. I intend to honor that commitment."

Enacting section 1 of Act 351 of 2004 provides:

"Enacting section 1. In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2004-2005 is estimated at $11,173,900,000.00 and state appropriations to be paid to local units of government for fiscal year 2004-2005 are estimated at $11,113,650,400.00."

Enacting section 1 of 2005 PA 155 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act and in House Bill No. 4831 of the 93rd Legislature from state sources for fiscal year 2005-2006 is estimated at $11,364,814,000.00 and state appropriations to be paid to local units of government for fiscal year 2005-2006 are estimated at $11,341,913,100.00."

Enacting section 1 of Act 342 of 2006 provides:

"Enacting section 1. (1) In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2006-2007 is estimated at $11,682,508,200.00 and state appropriations to be paid to local units of government for fiscal year 2006-2007 are estimated at $11,536,597,200.00.

(2) In accordance with section 30 of article I of the state constitution of 1963, total state spending from state sources for fiscal year 2005-2006 in this amendatory act and 2005 PA 155 is estimated at $11,308,027,200.00 and state appropriations to be paid to local units of government for fiscal year 2004-2005 are estimated at $11,285,376,300.00."

Enacting section 1 of Act 137 of 2007 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2007-2008 is estimated at $11,527,973,800.00 and state appropriations to be paid to local units of

government for fiscal year 2007-2008 are estimated at $11,458,493,300.00."

Enacting section 1 of Act 268 of 2008 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2008-2009 is estimated at $11,816,898,200.00 and state appropriations to be paid to local units of government for fiscal year 2008-2009 are estimated at $11,602,465,900.00."

Enacting section 1 of Act 73 of 2009 provides:

"Enacting section 1. In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act and in 2008 PA 268 from state sources for fiscal year 2008-2009 is estimated at $11,097,798,200.00 and state appropriations to be paid to local units of government for fiscal year 2008-2009 are estimated at $10,890,765,900.00."

Enacting section 1 of Act 121 of 2009 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2009-2010 is estimated at $10,825,754,100.00 and state appropriations to be paid to local units of government for fiscal year 2009-2010 are estimated at $10,718,801,700.00."

Subsection (25), as amended by Act 110 of 2010, was vetoed by the governor on July 7, 2010.

388.1620.amended Foundation allowance; calculations allocations; adjustments; reduction; definitions.

Sec. 20. (1) For 2013-2014, the basic foundation allowance is $8,049.00.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the greater of $6,966.00 or the district's foundation allowance for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance minus $10.00) times (the difference between the district's foundation allowance for the immediately preceding state fiscal year and the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts) divided by the difference between the basic foundation allowance for the current state fiscal year and the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts]. For 2011-2012, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for 2010-2011, minus $470.00. Except as otherwise provided in subdivision (h), for 2013-2014, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for the immediately preceding state fiscal year. However, the foundation allowance for a district that had less than the basic foundation allowance for the immediately preceding state fiscal year shall not exceed the basic foundation allowance for the current state fiscal year.

(b) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2011-2012 in an amount equal to the district's foundation allowance for 2010-2011, minus $470.00. For 2013-2014, except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for the immediately preceding state fiscal year.

(c) Except as otherwise provided in subdivision (d), for a district that in the 1994-95 state fiscal year had a foundation allowance greater than $6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b. Except as otherwise provided in subdivision (d), for 2011-2012, for a district that in the 1994-1995 state fiscal year had a foundation allowance greater than $6,500.00, the district's foundation allowance is an amount equal to the district's foundation allowance for the 2010-2011 fiscal year minus $470.00. For 2013-2014, except as otherwise provided in subdivision (d), for a district that in the 1994-1995 state fiscal year had a foundation allowance greater than $6,500.00, the district's foundation allowance is an amount equal to the district's foundation allowance for the immediately preceding state fiscal year.

(d) For a district that in the 1994-95 state fiscal year had a foundation allowance greater than $6,500.00 and that had a foundation allowance for the 2009-2010 state fiscal year, as otherwise calculated under this section, that was less than the basic foundation allowance, the district's foundation allowance for 2011-2012 and each succeeding fiscal year shall be considered to be an amount equal to the basic foundation allowance.

(e) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.

(f) For a district that received a payment under section 22c as that section was in effect for 2001-2002, the district's 2001-2002 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2001-2002 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2001-2002 under section 22c as that section was in effect for 2001-2002.

(g) For a district that received a payment under section 22c as that section was in effect for 2006-2007, the district's 2006-2007 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2006-2007 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2006-2007 under section 22c as that section was in effect for 2006-2007.

(h) For 2012-2013, for a district that had a foundation allowance for the 2011-2012 state fiscal year of less than $6,966.00, the district's foundation allowance is an amount equal to $6,966.00.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the basic foundation allowance for the current state fiscal year, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district described in subsection (3)(c), the state portion of the district's foundation allowance is an amount equal to $6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used for the purposes of this subsection, does not include the taxable value of property within the geographic area of the dissolved district.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the

foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the foundation allowance of the district in which the public school academy is located or the state maximum public school academy allocation, whichever is less. However, a public school academy that had an allocation under this subsection before 2009-2010 that was equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy is located and the state portion of that district's foundation allowance shall not have that allocation reduced as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) Except as otherwise provided in this subsection, for pupils attending an achievement school and in membership in the education achievement system, other than special education pupils, the allocation calculated under this section is an amount per membership pupil other than special education pupils equal to the foundation allowance of the district in which the achievement school is located, not to exceed the basic foundation allowance. Notwithstanding section 101, for an achievement school that begins operation after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the achievement school after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection. For the purposes of this subsection, if a public school is transferred from a district to the state school reform/redesign district or the achievement authority under section 1280c of the revised school code, MCL 380.1280c, that public school is considered to be an achievement school within the education achievement system and not a school that is part of a district, and a pupil attending that public school is considered to be in membership in the education achievement system and not in membership in the district that operated the school before the transfer.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the lesser of the sum of the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts plus $100.00 or the highest foundation allowance among the original or affected districts. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district.

(9) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(11) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate

subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) For a district that received a grant under former section 32e for 2001-2002, the district's foundation allowance for 2002-2003 and each succeeding fiscal year shall be adjusted to be an amount equal to the sum of the district's foundation allowance, as otherwise calculated under this section, plus the quotient of 100% of the amount of the grant award to the district for 2001-2002 under former section 32e divided by the number of pupils in the district's membership for 2001-2002 who were residents of and enrolled in the district. All of the following apply to districts receiving a foundation allowance adjustment under this subsection:

(a) Except as otherwise provided in this subdivision, a district qualifying for a foundation allowance adjustment under this subsection shall use the funds resulting from this adjustment for at least 1 of grades K to 3 for purposes allowable under former section 32e as in effect for 2001-2002. For an individual school or schools operated by a district qualifying for a foundation allowance adjustment under this subsection that have been determined by the department to meet the adequate yearly progress standards of the federal no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district may submit to the department an application for flexibility in using the funds resulting from this adjustment that are attributable to the pupils in the school or schools. The application shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to reduce class size, but that may be different from the purposes otherwise allowable under this subdivision. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to reduce class size. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. If an application for flexibility in using the funds is approved, the district may use the funds identified in the application for any purpose identified in the plan.

(b) A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 68.5% of the amount the district received as a result of this adjustment for 2010-2011.

(c) Notwithstanding subsection (8), for a district that is formed or reconfigured by consolidation of 2 or more districts, 1 of which received an adjustment under this subsection for 2012-2013, the resulting district's foundation allowance for 2013-2014 and each succeeding fiscal year shall be adjusted to be an amount equal to the sum of the resulting district's foundation allowance as calculated under subsection (8) excluding any adjustment calculated under this subsection plus [(the original district's adjustment under this subsection in 2012-2013 times the number of pupils in the original district's membership for 2012-2013) divided by the number of pupils in the resulting district's membership for 2013-2014].

(d) Beginning in 2013-2014, for a district that received an adjustment for the immediately preceding fiscal year and that had a foundation allowance as adjusted by this subsection for the immediately preceding fiscal year equal to $6,966.00, the district shall not receive an adjustment under this section for the current fiscal year.

(13) Payments to districts, public school academies, or the education achievement system shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.

(14) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per pupil payment calculation under this section may be reduced.

(15) As used in this section:

(a) "Certified mills" means the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94.

(b) "Combined state and local revenue" means the aggregate of the district's state school aid received by or paid on behalf of the district under this section and the district's local school operating revenue.

(c) "Combined state and local revenue per membership pupil" means the district's combined state and local revenue divided by the district's membership excluding special education pupils.

(d) "Current state fiscal year" means the state fiscal year for which a particular calculation is made.

(e) "Dissolved district" means a district that loses its organization, has its territory attached to 1 or more other districts, and is dissolved as provided under section 12 of the revised school code, MCL 380.12.

(f) "Immediately preceding state fiscal year" means the state fiscal year immediately preceding the current state fiscal year.

(g) "Local school operating revenue" means school operating taxes levied under section 1211 of the revised school code, MCL 380.1211. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, local school operating revenue does not include school operating taxes levied within the geographic area of the dissolved district.

(h) "Local school operating revenue per membership pupil" means a district's local school operating revenue divided by the district's membership excluding special education pupils.

(i) "Maximum public school academy allocation", except as otherwise provided in this subdivision, means the maximum per-pupil allocation as calculated by adding the highest per-pupil allocation among all public school academies for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance minus $10.00) times (the difference between the highest per-pupil allocation among all public school academies for the immediately preceding state fiscal year and the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest per-pupil allocation among all public school academies) divided by the difference between the basic foundation allowance for the current state fiscal year and the sum of $7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest per-pupil allocation among all public school academies].

(j) "Membership" means the definition of that term under section 6 as in effect for the particular fiscal year for which a particular calculation is made.

(k) "Nonexempt property" means property that is not a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, or commercial personal property.

(*l*) "Principal residence", "qualified agricultural property", "qualified forest property", "supportive housing property", "industrial personal property", and "commercial personal property" mean those terms as defined in section 1211 of the revised school code, MCL 380.1211.

(m) "Receiving district" means a district to which all or part of the territory of a dissolved district is attached under section 12 of the revised school code, MCL 380.12.

(n) "School operating purposes" means the purposes included in the operation costs of the district as prescribed in sections 7 and 18 and purposes authorized under section 1211 of the revised school code, MCL 380.1211.

(o) "School operating taxes" means local ad valorem property taxes levied under section 1211 of the revised school code, MCL 380.1211, and retained for school operating purposes.

(p) "Tax increment financing acts" means 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, or the corridor improvement authority act, 2005 PA 280, MCL 125.2871 to 125.2899.

(q) "Taxable value per membership pupil" means taxable value, as certified by the department of treasury, for the calendar year ending in the current state fiscal year divided by the district's membership excluding special education pupils for the school year ending in the current state fiscal year.

Compiler's note: The words "1/3 of" in subsection (20)(a)(*i*)(Q), as amended by Act 283 of 1994, were vetoed by the governor on July 9, 1994.

The last sentence of subsection (9), and subsections (18) and (19), as amended by Act 360 of 1994, were vetoed by the governor on December 22, 1994.

Subsection (11), as amended by Act 130 of 1995, was vetoed by the governor on June 30, 1995.

Enacting section 3 of Act 521 of 2002 provides:

"Enacting section 3. This amendatory act does not take effect unless the tax on cigarettes under the tobacco products tax act, 1993 PA 327, MCL 205.421 to 205.436, is increased by 50 cents or more per pack of cigarettes (25 mills per cigarette) effective on or before September 30, 2002 and the revenue from not less than 20 cents per pack of cigarettes (10 mills per cigarette) of that increase is dedicated by law for deposit into the state school aid fund established by section 11 of article IX of the state constitution of 1963."

Subsection (20), as amended by Act 158 of 2003, was vetoed by the governor on August 11, 2003. The text of subsection (20) set forth above in this section (MCL 388.1620) derives from Act 141 of 2003. In the veto message accompanying her veto of certain items in Enrolled House Bill 4401 (Act 158 of 2003), the governor stated, "I have vetoed amendatory language in Section 20(20) that stops the annual $15 million supplemental payment to Detroit Public Schools at the end of fiscal year 2003. Existing language clearly indicates that this supplemental funding is intended to continue as long as the reform board remains in place. I intend to honor that commitment."

Enacting section 1 of Act 351 of 2004 provides:

"Enacting section 1. In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2004-2005 is estimated at $11,173,900,000.00 and state appropriations to be paid to local units of government for fiscal year 2004-2005 are estimated at $11,113,650,400.00."

Enacting section 1 of 2005 PA 155 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act and in House Bill No. 4831 of the 93rd Legislature from state sources for fiscal year 2005-2006 is estimated at $11,364,814,000.00 and state appropriations to be paid to local units of government for fiscal year 2005-2006 are estimated at $11,341,913,100.00."

Enacting section 1 of Act 342 of 2006 provides:

"Enacting section 1. (1) In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2006-2007 is estimated at $11,682,508,200.00 and state appropriations to be paid to local units of government for fiscal year 2006-2007 are estimated at $11,536,597,200.00.

(2) In accordance with section 30 of article I of the state constitution of 1963, total state spending from state sources for fiscal year 2005-2006 in this amendatory act and 2005 PA 155 is estimated at $11,308,027,200.00 and state appropriations to be paid to local units of government for fiscal year 2004-2005 are estimated at $11,285,376,300.00."

Enacting section 1 of Act 137 of 2007 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2007-2008 is estimated at $11,527,973,800.00 and state appropriations to be paid to local units of government for fiscal year 2007-2008 are estimated at $11,458,493,300.00."

Enacting section 1 of Act 268 of 2008 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2008-2009 is estimated at $11,816,898,200.00 and state appropriations to be paid to local units of government for fiscal year 2008-2009 are estimated at $11,602,465,900.00."

Enacting section 1 of Act 73 of 2009 provides:

"Enacting section 1. In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act and in 2008 PA 268 from state sources for fiscal year 2008-2009 is estimated at $11,097,798,200.00 and state appropriations to be paid to local units of government for fiscal year 2008-2009 are estimated at $10,890,765,900.00."

Enacting section 1 of Act 121 of 2009 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2009-2010 is estimated at $10,825,754,100.00 and state appropriations to be paid to local units of government for fiscal year 2009-2010 are estimated at $10,718,801,700.00."

Subsection (25), as amended by Act 110 of 2010, was vetoed by the governor on July 7, 2010.

388.1620d Requirements for final determination under MCL 388.1620 and former section 388.1620a.

Sec. 20d. In making the final determination required under former section 20a of a district's combined state and local revenue per membership pupil in 1993-94 and in making calculations under section 20 for 2012-2013, the department and the department of treasury shall comply with all of the following:

(a) For a district that had combined state and local revenue per membership pupil in the 1994-95 state fiscal year of $6,500.00 or more and served as a fiscal agent for a state board designated area vocational education center in the 1993-94 school year, total state school aid received by or paid on behalf of the district pursuant to this act in 1993-94 shall exclude payments made under former section 146 and under section 147 on behalf of the district's employees who provided direct services to the area vocational education center. Not later than June 30, 1996, the department shall make an adjustment under this subdivision to the district's combined state and local revenue per membership pupil in the 1994-95 state fiscal year and the department of treasury shall make a final certification of the number of mills that may be levied by the district under section 1211 of the revised school code, MCL 380.1211, as a result of the adjustment under this subdivision.

(b) If a district had an adjustment made to its 1993-94 total state school aid that excluded payments made under former section 146 and under section 147 on behalf of the district's employees who provided direct services for intermediate district center programs operated by the district under article 5, if nonresident pupils attending the center programs were included in the district's membership for purposes of calculating the combined state and local revenue per membership pupil for 1993-94, and if there is a signed agreement by all constituent districts of the intermediate district that an adjustment under this subdivision shall be made, the foundation allowances for 1995-96 and 1996-97 of all districts that had pupils attending the intermediate district center program operated by the district that had the adjustment shall be calculated as if their combined state and local revenue per membership pupil for 1993-94 included resident pupils attending the center program and excluded nonresident pupils attending the center program.

Sec. 20f. (1) From the funds appropriated in section 11, there is allocated an amount not to exceed $6,000,000.00 for 2013-2014 for payments to eligible districts under this section. A district is eligible for funding under this section if the sum of the following is less than $5.00:

(a) The increase in the district's foundation allowance or per pupil payment as calculated under section 20 from 2012-2013 to 2013-2014.

(b) The district's equity payment per membership pupil under section 22c.

(c) The quotient of the district's allocation under section 147a for 2012-2013 divided by the district's membership pupils for 2012-2013 minus the quotient of the district's allocation under section 147a for 2013-2014 divided by the district's membership pupils for 2013-2014.

(2) The amount allocated to each eligible district under this section is an amount per membership pupil equal to $5.00 minus the sum of the following:

(a) The increase in the district's foundation allowance or per pupil payment as calculated under section 20 from 2012-2013 to 2013-2014.

(b) The district's equity payment per membership pupil under section 22c.

(c) The quotient of the district's allocation under section 147a for 2012-2013 divided by the district's membership pupils for 2012-2013 minus the quotient of the district's allocation under section 147a for 2013-2014 divided by the district's membership pupils for 2013-2014.

388.1621b Tuition and fee support for pupil attending postsecondary institution.

Sec. 21b. (1) Subject to subsections (2) and (3), a district shall use funds received under section 22a or 22b to support the attendance of a district pupil at an eligible postsecondary institution under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or under the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913.

(2) To the extent required under subsection (3), a district shall pay tuition and mandatory course fees, material fees, and registration fees required by an eligible postsecondary institution for enrollment in an eligible course. A district also shall pay any late fees charged by an eligible postsecondary institution due to the district's failure to make a required payment according to the timetable prescribed by the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913. A district is not required to pay transportation costs, parking costs, or activity fees.

(3) A district shall pay to the eligible postsecondary institution on behalf of an eligible student an amount equal to the lesser of the amount of the eligible charges described in subsection (2) or the prorated percentage of the state portion of the foundation allowance paid or calculated, as applicable, on behalf of that eligible student under section 20, with the proration based on the proportion of the school year that the eligible student attends the postsecondary institution. A district may pay more money to an eligible postsecondary institution on behalf of an eligible student than required under this section and the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913, and may use local school operating revenue for that purpose. An eligible student is responsible for payment of the remainder of the costs associated with his or her postsecondary enrollment that exceed the amount the district is required to pay under this section and the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913, and that are not paid by the district. As used in this subsection, "local school operating revenue" means that term as defined in section 20.

(4) As used in this section, "eligible course", "eligible student", and "eligible postsecondary institution" mean those terms as defined in section 3 of the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or in section 3 of the career and technical preparation act, 2000 PA 258, MCL 388.1903, as applicable.

388.1621f.added Online courses; definitions.

Sec. 21f. (1) A pupil enrolled in a district in any of grades 5 to 12 is eligible to enroll in an online course as provided for in this section. However, this section does not apply to a pupil enrolled in a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551.

(2) With the consent of the pupil's parent or legal guardian, a district shall enroll an eligible pupil in up to 2 online courses as requested by the pupil during an academic term, semester, or trimester. It is the intent of the legislature to consider increasing the limit on the number of online courses that a pupil may enroll in beginning in 2014-2015 for pupils who have demonstrated previous success with online courses. Consent of the pupil's parent or legal guardian is not required if the pupil is at least age 18 or is an emancipated minor.

(3) An eligible pupil may enroll in an online course published in the pupil's educating district's catalog of online courses described in subsection (7)(a) or the statewide catalog of online courses maintained by the Michigan virtual university pursuant to section 98.

(4) A district shall determine whether or not it has capacity to accept applications for enrollment from nonresident applicants in online courses and may use that limit as the reason for refusal to enroll an applicant. If the number of nonresident applicants eligible for acceptance in an online course does not exceed the capacity of the district to provide the online course, the district shall accept for enrollment all of the nonresident applicants eligible for acceptance. If the number of nonresident applicants exceeds the district's capacity to provide the online course, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders.

(5) A district may deny a pupil enrollment in an online course if any of the following apply, as determined by the district:

(a) The pupil has previously gained the credits provided from the completion of the online course.

(b) The online course is not capable of generating academic credit.

(c) The online course is inconsistent with the remaining graduation requirements or career interests of the pupil.

(d) The pupil does not possess the prerequisite knowledge and skills to be successful in the online course or has demonstrated failure in previous online coursework in the same subject.

(e) The online course is of insufficient quality or rigor. A district that denies a pupil enrollment for this reason shall make a reasonable effort to assist the pupil to find an alternative course in the same or a similar subject that is of acceptable rigor and quality.

(6) If a pupil is denied enrollment in an online course by a district, the pupil may appeal the denial by submitting a letter to the superintendent of the intermediate district in which the pupil's educating district is located. The letter of appeal shall include the reason provided by the district for not enrolling the pupil and the reason why the pupil is claiming that the enrollment should be approved. The intermediate district superintendent or designee shall respond to the appeal within 5 days after it is received. If the intermediate district superintendent or designee determines that the denial of enrollment does not meet 1 or more of the reasons specified in subsection (5), the district shall allow the pupil to enroll in the online course.

(7) To offer or provide an online course, a district shall do all of the following:

(a) Provide the Michigan virtual university with the course syllabus in a form and method prescribed by the department for inclusion in a statewide online course catalog. The district shall also provide on its publicly accessible website a link to the course syllabi for all of the online courses offered by the district and a link to the statewide catalog of online courses maintained by the Michigan virtual university.

(b) Offer the online course on an open entry and exit method, or aligned to a semester, trimester, or accelerated academic term format.

(8) For a pupil enrolled in 1 or more online courses published in the pupil's educating district's catalog of online courses under subsection (7) or in the statewide catalog of online courses maintained by the Michigan virtual university, the district shall use foundation allowance or per pupil funds calculated under section 20 to

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

pay for the expenses associated with the online course or courses. The district shall pay 80% of the cost of the online course upon enrollment and 20% upon completion as determined by the district. A district is not required to pay toward the cost of an online course an amount that exceeds 1/12 of the district's foundation allowance or per pupil payment as calculated under section 20 per semester or an amount that exceeds 1/18 of the district's foundation allowance or per pupil payment as calculated under section 20 per trimester.

(9) An online learning pupil shall have the same rights and access to technology in his or her educating district's school facilities as all other pupils enrolled in the educating district.

(10) If a pupil successfully completes an online course, as determined by the district, the pupil's district shall grant appropriate academic credit for completion of the course and shall count that credit toward completion of graduation and subject area requirements. A pupil's school record and transcript shall identify the online course title as it appears in the online course syllabus.

(11) The enrollment of a pupil in 1 or more online courses shall not result in a pupil being counted as more than 1.0 full-time equivalent pupils under this act.

(12) As used in this section:

(a) "Online course" means a course of study that is capable of generating a credit or a grade, that is provided in an interactive internet-connected learning environment, in which pupils are separated from their teachers by time or location, or both, and in which a teacher who holds a valid Michigan teaching certificate is responsible for determining appropriate instructional methods for each pupil, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies, reporting outcomes, and evaluating the effects of instruction and support strategies.

(b) "Online course syllabus" means a document that includes all of the following:

(*i*) The state academic standards addressed in an online course.

(*ii*) The online course content outline.

(*iii*) The online course required assessments.

(*iv*) The online course prerequisites.

(*v*) Expectations for actual instructor contact time with the online learning pupil and other pupil-to-instructor communications.

(*vi*) Academic support available to the online learning pupil.

(*vii*) The online course learning outcomes and objectives.

(*viii*) The name of the institution or organization providing the online content.

(*ix*) The name of the institution or organization providing the online instructor.

(*x*) The course titles assigned by the district and the course titles and course codes from the national center for education statistics (NCES) school codes for the exchange of data (SCED).

(*xi*) The number of eligible nonresident pupils that will be accepted by the district in the online course.

(*xii*) The results of the online course quality review using the guidelines and model review process published by the Michigan virtual university.

(c) "Online learning pupil" means a pupil enrolled in 1 or more online courses.

388.1622a Allocation for 2012-2013 and 2013-2014 for school operating purposes; payments to districts and qualifying public school academies; definitions.

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not to exceed $5,630,000,000.00 for 2012-2013 and there is allocated an amount not to exceed $5,534,000,000.00 for 2013-2014 for payments to districts and qualifying public school academies to guarantee each district and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or $6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(b) For a district that had a 1994-95 foundation allowance greater than $6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus $6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy an amount equal to the 1994-95 per pupil payment to the qualifying public school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district or qualifying public school academy otherwise would be eligible.

(5) For a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance.

(6) As used in this section:

(a) "1994-95 foundation allowance" means a district's 1994-95 foundation allowance calculated and certified by the department of treasury or the superintendent under former section 20a as enacted in 1993 PA 336 and as amended by 1994 PA 283.

(b) "Certified mills" means the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94.

(c) "Current state fiscal year" means the state fiscal year for which a particular calculation is made.

(d) "Current year hold harmless school operating taxes per pupil" means the per pupil revenue generated by multiplying a district's 1994-95 hold harmless millage by the district's current year taxable value per membership pupil.

(e) "Hold harmless millage" means, for a district with a 1994-95 foundation allowance greater than $6,500.00, the number of mills by which the exemption from the levy of school operating taxes on a homestead, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property could be reduced as provided in section 1211 of the revised school code, MCL 380.1211, and the number of mills of school operating taxes that could be levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, as certified by the department of treasury for the 1994 tax year.

(f) "Homestead", "qualified agricultural property", "qualified forest property", "supportive housing property", "industrial personal property", and "commercial personal property" mean those terms as defined in

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

section 1211 of the revised school code, MCL 380.1211.

(g) "Membership" means the definition of that term under section 6 as in effect for the particular fiscal year for which a particular calculation is made.

(h) "Nonexempt property" means property that is not a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, or commercial personal property.

(i) "Qualifying public school academy" means a public school academy that was in operation in the 1994-95 school year and is in operation in the current state fiscal year.

(j) "School operating taxes" means local ad valorem property taxes levied under section 1211 of the revised school code, MCL 380.1211, and retained for school operating purposes.

(k) "Tax increment financing acts" means 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, or the corridor improvement authority act, 2005 PA 280, MCL 125.2871 to 125.2899.

(*l*) "Taxable value per membership pupil" means each of the following divided by the district's membership:

(*i*) For the number of mills by which the exemption from the levy of school operating taxes on a homestead, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property may be reduced as provided in section 1211 of the revised school code, MCL 380.1211, the taxable value of homestead, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property for the calendar year ending in the current state fiscal year.

(*ii*) For the number of mills of school operating taxes that may be levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, the taxable value of all property for the calendar year ending in the current state fiscal year.

388.1622a.amended Allocation for 2012-2013 and 2013-2014 for school operating purposes; payments to districts and qualifying public school academies; definitions.

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not to exceed $5,630,000,000.00 for 2012-2013 and there is allocated an amount not to exceed $5,536,700,000.00 for 2013-2014 for payments to districts and qualifying public school academies to guarantee each district and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or $6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, taxable value per membership pupil of all property in the receiving district that is nonexempt property and taxable value per membership pupil of property in the receiving district that is commercial personal property do not include property within the geographic area of the dissolved district; ad valorem property tax revenue of the receiving district captured under tax increment financing acts does not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts; and

certified mills do not include the certified mills of the dissolved district.

(b) For a district that had a 1994-95 foundation allowance greater than $6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus $6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, ad valorem property tax revenue captured under tax increment financing acts do not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy an amount equal to the 1994-95 per pupil payment to the qualifying public school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district or qualifying public school academy otherwise would be eligible.

(5) Except as otherwise provided in this subsection, for a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district.

(6) As used in this section:

(a) "1994-95 foundation allowance" means a district's 1994-95 foundation allowance calculated and certified by the department of treasury or the superintendent under former section 20a as enacted in 1993 PA 336 and as amended by 1994 PA 283.

(b) "Certified mills" means the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94.

(c) "Current state fiscal year" means the state fiscal year for which a particular calculation is made.

(d) "Current year hold harmless school operating taxes per pupil" means the per pupil revenue generated by multiplying a district's 1994-95 hold harmless millage by the district's current year taxable value per membership pupil. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, taxable value per membership pupil does not include the taxable value of property within the geographic area of the dissolved district.

(e) "Dissolved district" means a district that loses its organization, has its territory attached to 1 or more other districts, and is dissolved as provided under section 12 of the revised school code, MCL 380.12.

(f) "Hold harmless millage" means, for a district with a 1994-95 foundation allowance greater than $6,500.00, the number of mills by which the exemption from the levy of school operating taxes on a homestead, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property could be reduced as provided in section 1211 of the revised school code, MCL 380.1211, and the number of mills of school operating taxes that could be levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, as certified by the department of treasury for the 1994 tax year. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, school operating taxes do not include school operating taxes levied within the geographic area of the dissolved

district.

(g) "Homestead", "qualified agricultural property", "qualified forest property", "supportive housing property", "industrial personal property", and "commercial personal property" mean those terms as defined in section 1211 of the revised school code, MCL 380.1211.

(h) "Membership" means the definition of that term under section 6 as in effect for the particular fiscal year for which a particular calculation is made.

(i) "Nonexempt property" means property that is not a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, or commercial personal property.

(j) "Qualifying public school academy" means a public school academy that was in operation in the 1994-95 school year and is in operation in the current state fiscal year.

(k) "Receiving district" means a district to which all or part of the territory of a dissolved district is attached under section 12 of the revised school code, MCL 380.12.

(*l*) "School operating taxes" means local ad valorem property taxes levied under section 1211 of the revised school code, MCL 380.1211, and retained for school operating purposes as defined in section 20.

(m) "Tax increment financing acts" means 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, or the corridor improvement authority act, 2005 PA 280, MCL 125.2871 to 125.2899.

(n) "Taxable value per membership pupil" means each of the following divided by the district's membership:

(*i*) For the number of mills by which the exemption from the levy of school operating taxes on a homestead, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property may be reduced as provided in section 1211 of the revised school code, MCL 380.1211, the taxable value of homestead, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property for the calendar year ending in the current state fiscal year. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, mills do not include mills within the geographic area of the dissolved district.

(*ii*) For the number of mills of school operating taxes that may be levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, the taxable value of all property for the calendar year ending in the current state fiscal year. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, school operating taxes do not include school operating taxes levied within the geographic area of the dissolved district.

In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2009-2010 is estimated at $10,825,754,100.00 and state appropriations to be paid to local units of government for fiscal year 2009-2010 are estimated at $10,718,801,700.00."

Enacting section 1 of Act 217 of 2010 provides:

"Enacting section 1. (1) In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act, in 2010 PA 204, and in 2010 PA 110 from state sources for fiscal year 2010-2011 is estimated at $10,955,902,900.00 and state appropriations to be paid to local units of government for fiscal year 2010-2011 are estimated at $10,824,041,900.00.

(2) In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act, in 2010 PA 110, and in 2009 PA 121 from state sources for fiscal year 2009-2010 is estimated at $10,645,097,700.00 and state appropriations to be paid to local units of government for fiscal year 2009-2010 are estimated at $10,562,169,000.00."

Enacting section 1 of Act 299 of 2011 provides:

"Enacting section 1. In accordance with section 30 of article IX of the state constitution of 1963, total state spending on school aid under article I of the state school aid act of 1979, 1979 PA 94, MCL 388.1601 to 388.1772, in this amendatory act, in 2010 PA 110, in 2010 PA 204, in 2010 PA 205, in 2010 PA 217, and in 2011 PA 62 from state sources for fiscal year 2010-2011 is estimated at $10,803,402,900.00 and state appropriations to be paid to local units of government for fiscal year 2010-2011 are estimated at $10,701,332.600.00."

388.1622b Allocations for 2012-2013 and 2013-2014; discretionary nonmandated payments; duties of district; purchase and support of payroll, human resources, and software; payments for litigation costs; allegation of unfunded constitutional requirement; escrowed funds as work project; purpose; final determination; expedited review of claim by local claims review board; removal to court of appeals; payment provisions; "title XIX" defined.

Sec. 22b. (1) From the appropriation in section 11, there is allocated an amount not to exceed $3,215,000,000.00 for 2012-2013 and there is allocated an amount not to exceed $3,373,700,000.00 for 2013-2014 for discretionary nonmandated payments to districts under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) Subject to subsection (3) and section 296, the allocation to a district under this section shall be an amount equal to the sum of the amounts calculated under sections 20, 51a(2), 51a(3), and 51a(11), minus the sum of the allocations to the district under sections 22a and 51c.

(3) In order to receive an allocation under subsection (1), each district shall do all of the following:

(a) Comply with section 1280b of the revised school code, MCL 380.1280b.

(b) Comply with sections 1278a and 1278b of the revised school code, MCL 380.1278a and 380.1278b.

(c) Furnish data and other information required by state and federal law to the center and the department in the form and manner specified by the center or the department, as applicable.

(d) Comply with section 1230g of the revised school code, MCL 380.1230g.

(e) Comply with section 21f.

(4) Districts are encouraged to use funds allocated under this section for the purchase and support of

payroll, human resources, and other business function software that is compatible with that of the intermediate district in which the district is located and with other districts located within that intermediate district.

(5) From the allocation in subsection (1), the department shall pay up to $1,000,000.00 in litigation costs incurred by this state related to commercial or industrial property tax appeals, including, but not limited to, appeals of classification, that impact revenues dedicated to the state school aid fund.

(6) From the allocation in subsection (1), the department shall pay up to $1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection shall be made in full before any proration of remaining payments under this section.

(7) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project shall be completed upon resolution of the litigation.

(8) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the state constitution of 1963 regarding state payments to districts, the state budget director shall use work project funds under subsection (7) or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the amount owed to districts before making any payments to districts under subsection (2).

(9) If a claim is made in court that challenges the legislative determination of the adequacy of funding for this state's constitutional obligations or alleges that there exists an unfunded constitutional requirement, any interested party may seek an expedited review of the claim by the local claims review board. If the claim exceeds $10,000,000.00, this state may remove the action to the court of appeals, and the court of appeals shall have and shall exercise jurisdiction over the claim.

(10) If payments resulting from a final determination by the local claims review board or a court of competent jurisdiction that there has been a violation of section 29 of article IX of the state constitution of 1963 exceed the amount allocated for discretionary nonmandated payments under this section, the legislature shall provide for adequate funding for this state's constitutional obligations at its next legislative session.

(11) If a lawsuit challenging payments made to districts related to costs reimbursed by federal title XIX medicaid funds is filed against this state, then, for the purpose of addressing potential liability under such a lawsuit, the state budget director may place funds allocated under this section in escrow or allocate money from the funds otherwise allocated under this section, up to a maximum of 50% of the amount allocated in subsection (1). If funds are placed in escrow under this subsection, those funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of the litigation. The work project shall be completed upon resolution of the litigation. In addition, this state reserves the right to terminate future federal title XIX medicaid reimbursement payments to districts if the amount or allocation of reimbursed funds is challenged in the lawsuit. As used in this subsection, "title XIX" means title XIX of the social security act, 42 USC 1396 to 1396v.

388.1622f Incentive payments to districts meeting best practices; definitions; dashboard or report card; submission of false information; allocation of unexpended amounts.

Sec. 22f. (1) From the appropriation in section 11, there is allocated for 2012-2013 an amount not to exceed $80,000,000.00 to provide incentive payments to districts that meet best practices under this section. Payments received under this section may be used for any purpose for which payments under sections 22a and 22b may be used.

(2) The amount of the incentive payment under this section is an amount equal to $52.00 per pupil. A district shall receive an incentive payment under this section if the district satisfies at least 7 of the following requirements not later than June 1, 2013:

(a) If a district provides medical, pharmacy, dental, vision, disability, long-term care, or any other type of benefit that would constitute a health care services benefit, to employees and their dependents, the district is the policyholder for each of its insurance policies that covers 1 or more of these benefits. A district that does not directly employ its staff is considered to have satisfied this requirement.

(b) The district has obtained competitive bids on the provision of pupil transportation, food service, custodial, or 1 or more other noninstructional services for 2012-2013.

(c) The district accepts applications for enrollment by nonresident applicants under section 105 or 105c. A public school academy is considered to have met this requirement.

(d) The district monitors individual pupil academic growth in each subject area at least twice during the school year using competency-based online assessments and reports those results to the pupil and his or her parent or guardian, or provides the department with a plan and is able to show progress toward developing the technology infrastructure necessary for the implementation of pupil academic growth assessments by 2014-2015.

(e) The district supports opportunities for pupils to receive postsecondary credit while attending secondary school, by doing at least 1 of the following, and makes all eligible pupils and their parents or guardians aware of these opportunities:

(*i*) Supports attendance of district pupils under the postsecondary enrollment options act, MCL 388.511 to 388.524, or under the career and technical preparation act, MCL 388.1901 to 388.1913, consistent with provisions under section 21b.

(*ii*) Offers college-level equivalent courses, as defined in section 1471 of the revised school code, MCL 380.1471.

(*iii*) Participates in a middle college. For the purposes of this subparagraph, "middle college" means a series of courses and other requirements and conditions that allow a pupil to graduate with a high school diploma and a certificate or degree from a community college or state public university.

(*iv*) Provides other opportunities to pupils that allow those pupils to graduate with a high school diploma and also complete coursework that a postsecondary institution normally applies toward satisfaction of degree requirements.

(*v*) If a district does not offer any high school grades, the district informs all pupils and parents of the opportunities that are available for postsecondary options during high school.

(f) The district offers online instructional programs or blended learning opportunities to all eligible pupils. In order to satisfy this requirement, districts must make all eligible pupils and their parents or guardians aware of these opportunities. For the purposes of this subdivision:

(*i*) "Blended learning" means a hybrid instructional delivery model where pupils are provided face-to-face instruction, in part at a supervised school facility away from home and partially through computer-based and internet-connected learning environments with some degree of pupil control over time, location, and pace of instruction.

(*ii*) "Online instructional program" means a course of study that generates a credit or a grade, provided in an interactive computer-based and internet-connected learning environment, in which pupils are separated from their teachers by time or location, or both, and in which a Michigan certificated teacher is responsible for providing direct instruction, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies, reporting outcomes, and evaluating the effects of instruction and support strategies.

(g) The district provides to parents and community members a dashboard or report card demonstrating the

district's efforts to manage its finances responsibly. The dashboard or report card shall include at least all of the following for the 3 most recent school years for which the data are available:

(*i*) Graduation and dropout rates.

(*ii*) Average class size in grades kindergarten to 3.

(*iii*) College readiness as measured by Michigan merit examination test scores.

(*iv*) Elementary and middle school MEAP scores.

(*v*) Teacher, principal, and superintendent salary information including at least minimum, average, and maximum pay levels.

(*vi*) General fund balance.

(*vii*) The total number of days of instruction provided.

(h) The district provides physical education consistent with the state board's policy on quality physical education adopted September 25, 2003, or provides health education consistent with the state board's policy on comprehensive school health education adopted June 8, 2004.

(3) If the department determines that a district has intentionally submitted false information in order to qualify for an incentive payment under this section, the district forfeits an amount equal to the amount it received under this section from its total state school aid for 2013-2014.

(4) If the department determines that funds allocated under this section will remain unexpended after the initial allocation of $52.00 per pupil to eligible districts under subsection (2), the remaining unexpended amount is allocated on an equal per pupil basis to districts that meet the requirements of subsection (2) and that have a foundation allowance, as calculated under section 20, in an amount that is less than the basic foundation allowance under that section.

388.1622f.amended Incentive payments to districts meeting best practices; requirements; definitions; submission of false information; allocation of unexpended amounts.

Sec. 22f. (1) From the appropriation in section 11, there is allocated for 2013-2014 an amount not to exceed $80,000,000.00 to provide incentive payments to districts that meet best practices under this section. Payments received under this section may be used for any purpose for which payments under sections 22a and 22b may be used.

(2) The amount of the incentive payment under this section is an amount equal to $52.00 per pupil. A district shall receive an incentive payment under this section if the district satisfies at least 7 of the following requirements not later than June 1, 2014:

(a) If a district provides medical, pharmacy, dental, vision, disability, long-term care, or any other type of benefit that would constitute a health care services benefit, to employees and their dependents, the district is the policyholder for each of its insurance policies that covers 1 or more of these benefits. A district that does not directly employ its staff or a district with a voluntary employee beneficiary association that pays no more than the maximum per employee contribution amount and that contributes no more than the maximum employer contribution percentage of total annual costs for the medical benefit plans as described in sections 3 and 4 of the publicly funded health insurance contribution act, 2011 PA 152, MCL 15.563 and 15.564, is considered to have satisfied this requirement.

(b) The district has obtained competitive bids on the provision of pupil transportation, food service, custodial, or 1 or more other noninstructional services for 2013-2014. In comparing competitive bids to the current costs of providing 1 or more of these services, a district shall exclude the unfunded accrued liability costs for retirement and other benefits from the district's current costs.

(c) The district accepts applications for enrollment by nonresident applicants under section 105 or 105c. A public school academy is considered to have met this requirement.

(d) The district monitors individual pupil academic growth in each subject area at least twice during the school year using competency-based online assessments and reports those results to the pupil and his or her parent or guardian, or provides the department with a plan and is able to show progress toward developing the technology infrastructure necessary for the implementation of pupil academic growth assessments by 2014-2015.

(e) The district supports opportunities for pupils to receive postsecondary credit while attending secondary school, by doing at least 1 of the following, and makes all eligible pupils and their parents or guardians aware of these opportunities:

(*i*) Supports attendance of district pupils under the postsecondary enrollment options act, MCL 388.511 to 388.524, or under the career and technical preparation act, MCL 388.1901 to 388.1913, consistent with

provisions under section 21b.

(*ii*) Offers college-level equivalent courses, as defined in section 1471 of the revised school code, MCL 380.1471.

(*iii*) Participates in a middle college. For the purposes of this subparagraph, "middle college" means a series of courses and other requirements and conditions that allow a pupil to graduate with a high school diploma and a certificate or degree from a community college or state public university.

(*iv*) Provides other opportunities to pupils that allow those pupils to graduate with a high school diploma and also complete coursework that a postsecondary institution normally applies toward satisfaction of degree requirements.

(*v*) If a district does not offer any high school grades, the district informs all pupils and parents of the opportunities that are available for postsecondary options during high school.

(f) The district offers online courses or blended learning opportunities to all eligible pupils. In order to satisfy this requirement, a district must make all eligible pupils and their parents or guardians aware of these opportunities and must publish an online course syllabus as described in section 21f for each online course that the district offers. For the purposes of this subdivision:

(*i*) "Blended learning" means a hybrid instructional delivery model where pupils are provided content, instruction, and assessment in part at a supervised educational facility away from home where the pupil and a teacher with a valid Michigan teaching certificate are in the same physical location and in part through internet-connected learning environments with some degree of pupil control over time, location, and pace of instruction.

(*ii*) "Online course" means a course of study that is capable of generating a credit or a grade, that is provided in an interactive internet-connected learning environment, in which pupils are separated from their teachers by time or location, or both, and in which a teacher with a valid Michigan teaching certificate is responsible for determining appropriate instructional methods for each pupil, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies, reporting outcomes, and evaluating the effects of instruction and support strategies.

(g) The district provides to parents and community members a dashboard or report card demonstrating the district's efforts to manage its finances responsibly. The dashboard or report card shall include revenue and expenditure projections for the district for fiscal year 2013-2014 and fiscal year 2014-2015, a listing of all debt service obligations, detailed by project, including anticipated fiscal year 2013-2014 payment for each project, a listing of total outstanding debt, and at least all of the following for the 3 most recent school years for which the data are available:

(*i*) Graduation and dropout rates.

(*ii*) Average class size in grades kindergarten to 3.

(*iii*) College readiness as measured by Michigan merit examination test scores.

(*iv*) Elementary and middle school MEAP scores.

(*v*) Teacher, principal, and superintendent salary information including at least minimum, average, and maximum pay levels.

(*vi*) General fund balance.

(*vii*) The total number of days of instruction provided.

(h) The district provides physical education or provides health education.

(3) If the department determines that a district has intentionally submitted false information in order to qualify for an incentive payment under this section, the district forfeits an amount equal to the amount it received under this section from its total state school aid for 2014-2015.

(4) If the department determines that funds allocated under this section will remain unexpended after the initial allocation of $52.00 per pupil to eligible districts under subsection (2), the remaining unexpended amount is allocated on an equal per pupil basis to districts that meet the requirements of subsection (2) and that have a foundation allowance, as calculated under section 20, in an amount that is less than the basic foundation allowance under that section.

388.1622h Distressed district student transition grants.

Sec. 22h. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2011-2012 only an amount not to exceed $4,000,000.00 for distressed district student transition grants under this section. The department shall pay these grants to districts that qualify under subsection (2) or a district or intermediate district that qualifies under subsection (3). The amount of a distressed district student transition grant is an amount equal to $4,000.00 per qualifying pupil, adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(2) A district qualifies for a distressed district student transition grant under this subsection if the district enrolls 1 or more qualifying pupils in the district. All of the following apply to a grant to a district that qualifies under this subsection:

(a) In order to be eligible for a grant, the district shall allow enrollment of qualifying pupils in the district beginning by not later than March 5, 2012.

(b) The total amount of the district's grant is the per pupil amount described in subsection (1) multiplied by the number of full-time equated qualifying pupils who are actually enrolled and in regular daily attendance in the district in grades K to 12 on March 22, 2012, as reported to the center for educational performance and information by not later than May 2, 2012. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit.

(c) The district is not required to have the approval of the distressed district to enroll a qualifying pupil and receive a grant for the pupil under this subsection.

(d) The district offering to enroll qualifying pupils under this subsection may limit the number of qualifying pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll a qualifying pupil.

(e) A qualifying pupil shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a qualifying pupil if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intradistrict choice school or program to which the applicant applies.

(f) A qualifying pupil shall not be granted or refused enrollment based on age, except that a district may refuse to admit a qualifying pupil applying for a program that is not appropriate for the age of the applicant.

(g) A qualifying pupil shall not be granted or refused enrollment based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(h) A district may refuse to enroll a qualifying pupil if any of the following are met:

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

(*i*) The qualifying pupil is, or has been within the preceding 2 years, suspended from another school.

(*ii*) The qualifying pupil, at any time before enrolling under this section, has been expelled from another school.

(*iii*) The qualifying pupil, at any time before enrolling under this section, has been convicted of a felony.

(3) A district or intermediate district qualifies for a distressed district student transition grant under this subsection if the district or intermediate district is a party to a memorandum of agreement with a distressed district that has an emergency manager appointed for the distressed district under the local government and school district fiscal accountability act, 2011 PA 4, MCL 141.1501 to 141.1531, and the memorandum of agreement makes the other district or intermediate district the managing district for the distressed district and meets the other requirements under this subsection. All of the following apply to a grant under this subsection:

(a) The memorandum of agreement must meet all of the following requirements:

(*i*) Transfers the functions of managing the distressed district to the managing district and specifies the powers, duties, rights, obligations, functions, and responsibilities that are transferred to the managing district and the services to be provided by the managing district.

(*ii*) Ensures payment for the personnel of the distressed district as necessary for the education of the pupils who are counted in the distressed district under subdivision (b) for the remainder of the 2011-2012 school year.

(*iii*) Both the identity of the managing district and the content of the memorandum of agreement are approved by the state treasurer.

(*iv*) If the memorandum of agreement makes an intermediate district the managing district for the distressed district, the distressed district is located within that intermediate district.

(b) The total amount of the managing district's grant under this subsection is the per pupil amount described in subsection (1) multiplied by the number of full-time equated qualifying pupils who remain enrolled in the distressed district and who are actually enrolled and in regular daily attendance in the distressed district in grades K to 12 on March 22, 2012, as reported by the managing district to the center for educational performance and information by not later than May 2, 2012. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit.

(4) Notwithstanding section 17b, grant payments under this section shall be paid on a schedule and in a manner determined by the department.

(5) As used in this section:

(a) "Distressed district" means a district that meets all of the following:

(*i*) Is located in a county with a population in excess of 800,000 as of the most recent decennial census.

(*ii*) Has received a deferred adjustment under section 15(2).

(*iii*) Levies a sinking fund tax under section 1212 of the revised school code, MCL 380.1212, of more than 4.5 mills.

(b) "Qualifying pupil" means a pupil who was counted in membership in a distressed district on the 2012 supplemental count day.

To receive a grant under subsection (1), an intermediate district shall demonstrate that a grant awarded to the intermediate district on behalf of its constituent districts would provide savings compared to providing grants to individual districts.

(3) From the general fund money appropriated in section 11, there is allocated an amount not to exceed $5,000,000.00 for 2013-2014 to be awarded through a competitive bid process to a single provider of whole-school technology as described in this subsection. The department shall issue a single request for proposal with application rules written and administered by the department, and with a focus on economic and geographic diversity. To be eligible to receive the grant under this section, a provider shall meet all of the following:

(a) Agrees to submit evaluation criteria in a form and manner determined by the department.

(b) Provides at least all of the following:

(*i*) One-to-one mobile devices.

(*ii*) Laptop or desktop computers for each classroom.

(*iii*) On- and off-campus filtering.

(1) From the appropriation in section 11, there is allocated for 2012-2013 an amount not to exceed $30,000,000.00 to provide separate incentive payments to districts that meet student academic performance funding goals under subsections (2) to (5). Payments received under this section may be used for any purpose for which payments under sections 22a and 22b may be used.

(2) The maximum amount of the incentive payment for student academic performance is an amount equal to $100.00 per pupil. Payments calculated and awarded to qualifying districts under subsections (3) to (5) shall be calculated and awarded separately, and a district may receive a payment under any or all of subsections (3) to (5).

(3) An amount not to exceed 30% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection based on pupil performance on state assessments in mathematics in grades 3 to 8. The amount of a payment under this subsection is an amount equal to $30.00 per pupil for all pupils in membership in a qualifying district. The department shall determine the qualifying districts under this subsection as follows:

(a) Using a model determined by the department that incorporates the most recent cut scores adopted for the Michigan educational assessment program for each pupil in grades 3 to 8 in the 2010-2011 school year, the department shall calculate a point score using a metric that assigns points to each of those pupils as follows:

(*i*) For each pupil who began the school year not performing proficiently in mathematics and who declines in proficiency, as determined by the department, over the school year, 0 points.

(*ii*) For each pupil who began the school year performing proficiently in mathematics and declines in proficiency, as determined by the department, over the school year, 0 points.

(*iii*) For each pupil who began the school year not performing proficiently in mathematics and who maintains his or her level of proficiency, as determined by the department, over the school year, 1 point.

(*iv*) For each pupil who began the school year performing proficiently in mathematics and who maintains his or her level of proficiency, as determined by the department, over the school year, 2 points.

(*v*) For each pupil who began the school year not performing proficiently in mathematics and who improves in proficiency, as determined by the department, over the school year, 3 points.

(*vi*) For each pupil who began the school year performing proficiently in mathematics and who improves in proficiency, as determined by the department, over the school year, 2 points.

(b) The department shall then calculate a district average for this metric for the 2010-2011 school year by totaling the number of points for all pupils in grades 3 to 8 under subdivision (a) and dividing that total by the number of those pupils.

(c) A district is a qualifying district for the payment under this subsection if the district average for the 2010-2011 school year under subdivision (b) is at least equal to a factor of 1.5, and the district tested at least 95% of its pupils in mathematics, and the district had at least 30 full academic year pupils in grades 3 to 8 with a performance level change designation in mathematics.

(4) An amount not to exceed 30% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection based on pupil performance on state assessments in reading in grades 3 to 8. The amount of a payment under this subsection is an amount equal to $30.00 per pupil for all pupils in membership in the district. The department shall determine the qualifying districts under this subsection as follows:

(a) Using a model determined by the department that incorporates the most recent cut scores adopted for the Michigan educational assessment program for each pupil in grades 3 to 8 in the 2010-2011 school year, the department shall calculate a point score using a metric that assigns points to each of those pupils as follows:

(*ii*) For each pupil who began the school year performing proficiently in reading and declines in proficiency, as determined by the department, over the school year, 0 points.

(*iii*) For each pupil who began the school year not performing proficiently in reading and who maintains proficiency, as determined by the department, over the school year, 1 point.

(*iv*) For each pupil who began the school year performing proficiently in reading and who maintains proficiency, as determined by the department, over the school year, 2 points.

(*v*) For each pupil who began the school year not performing proficiently in reading and who improves in proficiency, as determined by the department, over the school year, 3 points.

(*vi*) For each pupil who began the school year performing proficiently in reading and who improves in proficiency, as determined by the department, over the school year, 2 points.

(b) The department shall then calculate a district average for this metric for the 2010-2011 school year by totaling the number of points for all pupils in grades 3 to 8 under subdivision (a) and dividing that total by the number of those pupils.

(c) A district is a qualifying district for the payment under this subsection if the district average for the 2010-2011 school year under subdivision (b) is at least equal to a factor of 1.5, and the district tested at least 95% of its pupils in reading, and the district had at least 30 full academic year pupils in grades 3 to 8 reading with a performance level change designation in reading.

(5) An amount not to exceed 40% of the maximum per pupil amount allocated under subsection (2) shall be used to make performance incentive payments to qualifying districts under this subsection for high school improvement using a metric based on the positive trend over a 4-year period in the percentage of high school pupils in the district testing as proficient in all tested subject areas on the state assessments of high school pupils. The amount of a payment under this subsection is an amount equal to $40.00 per pupil for all pupils in membership in the district. The department shall determine the qualifying districts under this subsection as follows:

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

(a) Calculate a linear regression of the percentage of high school pupils in the district testing as proficient in all tested subject areas on state assessments of high school pupils on school year over the 4-year period ending with the 2010-2011 school year as adjusted for changes in cut scores most recently adopted for the Michigan merit examination.

(b) Calculate a statewide average for all districts operating a high school of the linear regression of the percentage of high school pupils testing as proficient in all tested subject areas on state assessments of high school pupils on school year over the 4-year period ending with the 2010-2011 school year, as adjusted for changes in cut scores most recently adopted for the Michigan merit examination as the base year for all comparisons.

(c) A district is a qualifying district for the payment under this subsection if the district's linear regression over the 4-year period ending with the 2010-2011 school year under subdivision (a) is at least equal to the statewide average linear regression over the 4-year period ending with the base year under subdivision (b), and the district's linear regression over the 4-year period ending with the 2010-2011 school year under subdivision (a) is positive, and the district tested 95% of high school pupils in each tested subject on the Michigan merit examination, and the district had at least 20 full academic year pupils take all tested subjects on the Michigan merit examination over each of the most recent 4 years.

(6) If the allocation under subsection (1) is insufficient to fully fund payments as otherwise calculated under this section, the department shall prorate payments under this section on an equal percentage basis.

388.1622j.amended Incentive payments for student academic performance.

Sec. 22j. (1) From the appropriation in section 11, there is allocated for 2013-2014 an amount not to exceed $46,400,000.00 to provide separate incentive payments to districts that meet student academic performance funding goals under subsections (2) to (5). Payments received under this section may be used for any purpose for which payments under sections 22a and 22b may be used.

(2) The maximum amount of the incentive payment for student academic performance is an amount equal to $100.00 per pupil. Payments calculated and awarded to qualifying districts under subsections (3) to (5) shall be calculated and awarded separately, and a district may receive a payment under any or all of subsections (3) to (5).

388.1622k.added Allocation for competitive student-centric grants to eligible districts.

Sec. 22k. (1) From the appropriation in section 11, there is allocated for 2013-2014 an amount not to exceed $8,000,000.00 for competitive student-centric grants to eligible districts.

(2) In order to be eligible to receive grants, a district shall demonstrate to the satisfaction of the department that the district does all of the following:

(a) Provides a rigorous curriculum aligned to state, national, and international standards.

(b) Organizes instructional delivery in such a way that individual pupils advance to the next level of learning based on their individual mastery of each subject area.

(c) Allows for school site-based autonomy in decision making.

(d) Ensures that teachers have access to all of the following:

(*i*) Timely and meaningful pupil academic achievement data.

(*ii*) Best instructional practices.

(*iii*) Time to collaborate with others.

(*iv*) Mentors.

(*v*) Professional development tied to pupil needs as demonstrated by data.

(3) A district seeking a grant under this section shall submit an application to the department by October 1, 2013 in a form and manner prescribed by the department. The department shall award grants on a per pupil basis to eligible recipients no later than December 30, 2013.

388.1623a Dropout recovery program.

Sec. 23a. (1) A dropout recovery program operated by a district qualifies for the special membership counting provisions of section 6(4)(ff) and the hours and day of pupil instruction exemption under section 101(12) if the dropout recovery program meets all of the following:

(a) Enrolls only eligible pupils.

(b) Provides an advocate. An advocate may serve in that role for more than 1 pupil but no more than 50 pupils. An advocate may be employed by the district or may be provided by an education management organization that is partnering with the district. Before an individual is assigned to be an advocate for a pupil in the dropout recovery program, the district shall comply with sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to that individual.

(c) Develops a written learning plan.

(d) Monitors the pupil's progress against the written learning plan.

(e) Requires each pupil to make satisfactory monthly progress, as defined by the district under subsection (2).

(f) Reports the pupil's progress results to the partner district at least monthly.

(g) The program may be operated on or off a district school campus, but may be operated using distance learning online only if the program provides a computer and internet access for each eligible pupil participating in the program.

(h) Is operated throughout the entire calendar year.

(i) If the district partners with an education management organization for the program, the education management organization has a dropout recovery program partnership relationship with at least 1 other district.

(2) A district operating a dropout recovery program under this section shall adopt a definition of satisfactory monthly progress that is consistent with the definition of that term under subsection (3).

(3) As used in this section:

(a) "Advocate" means an adult available to meet in person with assigned pupils, as needed, to conduct social interventions, to proctor final examinations, and to provide academic and social support to pupils enrolled in the district's dropout recovery program.

(b) "Education management organization" means a private provider that operates 1 or more other dropout recovery programs that meet the requirements of this section in partnership with 1 or more districts.

(c) "Eligible pupil" means a pupil who has been expelled from school under the mandatory expulsion provisions in section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a, a pupil who has been suspended or expelled from school under a local policy, a pupil who is referred by a court, a pupil who is pregnant or is a parent, a pupil who was previously a dropout, or a pupil who is determined by the

district to be at risk of dropping out.

(d) "Satisfactory monthly progress" means an amount of progress that is measurable on a monthly basis and that, if continued for a full 12 months, would result in the same amount of academic credit being awarded to the pupil as would be awarded to a general education pupil completing a full school year. Satisfactory monthly progress may include a lesser required amount of progress for the first 2 months a pupil participates in the program.

(e) "Written learning plan" means a written plan developed in conjunction with the advocate that includes the plan start and end dates, courses to be taken, credit to be earned for each course, teacher of record for each course, and advocate name and contact information.

388.1624 Allocations for 2012-2013; payments for educating students assigned by court or department of human services; definitions; funding for department-approved on-grounds educational program; special education pupils funded under MCL 388.1653a.

Sec. 24. (1) From the appropriation in section 11, there is allocated for 2012-2013 an amount not to exceed $8,000,000.00 for payments to the educating district or intermediate district for educating pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services and approved by the department to provide an on-grounds education program. The amount of the payment under this section to a district or intermediate district shall be calculated as prescribed under subsection (2).

(2) The total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per pupil allocation for the district or intermediate district. For the purposes of this subsection:

(a) "Added cost" means 100% of the added cost each fiscal year for educating all pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services or the department of licensing and regulatory affairs and approved by the department to provide an on-grounds education program. Added cost shall be computed by deducting all other revenue received under this act for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) "Department's approved per pupil allocation" for a district or intermediate district shall be determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

(4) Special education pupils funded under section 53a shall not be funded under this section.

Compiler's note: Subsection (3) of Sec. 24, as amended by Act 128 of 1987, was vetoed by the governor on July 24, 1987.

Subsection (3) of Sec. 24, as amended by Act 212 of 1986, reads as follows:

"(3) Special education pupils funded under section 53 shall not be counted under this section."

In his veto message relative to Enrolled House Bill 4572, which became Act 118 of 1991, the governor stated that "the tradition of not re-enacting annually the unchanged appropriation sections of the school aid act is constitutionally flawed. It assumes the invalid creation of a continuing appropriation. Therefore, the following sections of the school aid act and their associated allocations must be considered inoperative: 24, 55, 74, 75, 105a, 111, and 116. These sections will be treated as excluded from the current bill... ."

In subsection (2), as amended by Act 297 of 2000, the last sentence "In addition, a district or intermediate district that received funds under this subsection for 1998-99 for an on-grounds educational program that is longer than 181 days but not longer than 233 days shall continue to receive funds under this section for subsequent fiscal years for that program" was vetoed by the governor July 26, 2000.

In the first and second sentences of subsection (1), as amended by Act 121 of 2001, the phrases "and for 2002-2003" and "and $8,900,000.00 for 2002-2003" were vetoed by the governor September 28, 2001.

Enacting section 3 of Act 521 of 2002 provides:

"Enacting section 3. This amendatory act does not take effect unless the tax on cigarettes under the tobacco products tax act, 1993 PA 327, MCL 205.421 to 205.436, is increased by 50 cents or more per pack of cigarettes (25 mills per cigarette) effective on or before September 30, 2002 and the revenue from not less than 20 cents per pack of cigarettes (10 mills per cigarette) of that increase is dedicated by law for deposit into the state school aid fund established by section 11 of article IX of the state constitution of 1963."

For legislation increasing tax on cigarettes and dedicating a portion of increased revenue to state school aid fund, see 2002 PA 503, Imd. Eff. July 18, 2002.

Enacting section 1 of Act 351 of 2004 provides:

"Enacting section 1. In accordance with section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act from state sources for fiscal year 2004-2005 is estimated at $11,173,900,000.00 and state appropriations to be paid to local units of government for fiscal year 2004-2005 are estimated at $11,113,650,400.00."

Enacting section 1 of 2005 PA 155 provides:

"Enacting section 1. In accordance with section 30 of article I of the state constitution of 1963, total state spending in this amendatory act and in House Bill No. 4831 of the 93rd Legislature from state sources for fiscal year 2005-2006 is estimated at $11,364,814,000.00 and state appropriations to be paid to local units of government for fiscal year 2005-2006 are estimated at $11,341,913,100.00."

Enacting section 1 of Act 342 of 2006 provides:

"Enacting section 1. 388.1624.amended Allocation for 2013-2014; payments for educating students assigned by court or department of human services; definitions; funding for department-approved on-grounds educational program; special education pupils funded under MCL 388.1653a.

Sec. 24. (1) From the appropriation in section 11, there is allocated for 2013-2014 an amount not to exceed $8,000,000.00 for payments to the educating district or intermediate district for educating pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services and approved by the department to provide an on-grounds education program. The amount of the payment under this section to a district or intermediate district shall be calculated as prescribed under subsection (2).

(2) The total amount allocated under this section shall be allocated by paying to the educating district or

intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per pupil allocation for the district or intermediate district. For the purposes of this subsection:

(a) "Added cost" means 100% of the added cost each fiscal year for educating all pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services or the department of licensing and regulatory affairs and approved by the department to provide an on-grounds education program. Added cost shall be computed by deducting all other revenue received under this article for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) "Department's approved per pupil allocation" for a district or intermediate district shall be determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

(4) Special education pupils funded under section 53a shall not be funded under this section.

Compiler's note: Subsection (3) of Sec. 24, as amended by Act 128 of 1987, was vetoed by the governor on July 24, 1987.

Subsection (3) of Sec. 24, as amended by Act 212 of 1986, reads as follows:

"(3) Special education pupils funded under section 53 shall not be counted under this section."

In his veto message relative to Enrolled House Bill 4572, which became Act 118 of 1991, the governor stated that "the tradition of not re-enacting annually the unchanged appropriation sections of the school aid act is constitutionally flawed. It assumes the invalid creation of a continuing appropriation. Therefore, the following sections of the school aid act and their associated allocations must be considered inoperative: 24, 55, 74, 75, 105a, 111, and 116. These sections will be treated as excluded from the current bill... ."

In subsection (2), as amended by Act 297 of 2000, the last sentence "In addition, a district or intermediate district that received funds under this subsection for 1998-99 for an on-grounds educational program that is longer than 181 days but not longer than 233 days shall continue to receive funds under this section for subsequent fiscal years for that program" was vetoed by the governor July 26, 2000.

In the first and second sentences of subsection (1), as amended by Act 121 of 2001, the phrases "and for 2002-2003" and "and $8,900,000.00 for 2002-2003" were vetoed by the governor September 28, 2001.

Enacting section 3 of Act 521 of 2002 provides:

"Enacting section 3. This amendatory act does not take effect unless the tax on cigarettes under the tobacco products tax act, 1993 PA 327, MCL 205.421 to 205.436, is increased by 50 cents or more per pack of cigarettes (25 mills per cigarette) effective on or before September 30, 2002 and the revenue from not less than 20 cents per pack of cigarettes (10 mills per cigarette) of that increase is dedicated by law for deposit into the state school aid fund established by section 11 of article IX of the state constitution of 1963."

388.1625 Enrollment of pupil in district or intermediate district after pupil membership count day; report of information to department; duties of department; changes in calculation of state school aid under subsection (2); notice; information to be provided to department; "educating district or intermediate district" defined.

Sec. 25. (1) Unless another method of pupil accounting is enacted, this section applies beginning in 2013-2014.

(2) If a pupil enrolls in a district or intermediate district after the pupil membership count day and, due to the pupil's enrollment and attendance status as of the pupil membership count day, the pupil was not counted in membership in the educating district or intermediate district, the educating district or intermediate district shall report the enrollment and attendance information to the department. If the pupil transfers from another district or intermediate district, the educating district or intermediate district also shall report the enrollment and attendance information to that other district or intermediate district. Upon receipt of enrollment information under this subsection indicating that a pupil has enrolled and is in attendance in an educating district or intermediate district as described in this subsection, the department shall do both of the following:

(a) Adjust the membership calculation for each district or intermediate district in which the pupil was previously counted in membership or that previously received an adjustment in its membership calculation under this section due to the pupil's enrollment and attendance, if any, so that the district's or intermediate district's membership is prorated to allow the district or intermediate district to receive for each school day in which the pupil was enrolled and in attendance in the district an amount equal to 1/180 of the foundation allowance or per pupil payment as calculated under section 20 for the district or intermediate district. The foundation allowance or per pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(b) Include in the membership calculation for the educating district or intermediate district for each school day in which the pupil is enrolled and is in attendance in the educating district or intermediate district, not to exceed a number of school days equal to the difference between 180 and the number of school days in which the pupil was reported under this section as previously enrolled in 1 or more other districts or intermediate districts, an amount equal to 1/180 of the foundation allowance or per pupil payment as calculated under section 20 for the educating district or intermediate district. The foundation allowance or per pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(3) The changes in calculation of state school aid required under subsection (2) shall take effect as of the date that the pupil becomes enrolled and in attendance in the educating district or intermediate district, and the department shall base all subsequent payments under this act for the fiscal year to the affected districts or intermediate districts on this recalculation of state school aid.

(4) If a pupil enrolls in an educating district or intermediate district as described in subsection (2), if adjustments are made in calculations pursuant to subsection (1) due to that enrollment, and if the pupil subsequently ceases to be enrolled and in attendance in the educating district or intermediate district, the educating district or intermediate district that received an adjustment in its membership calculation under subsection (2) shall notify the department of the last date of the pupil's enrollment and attendance in the educating district or intermediate district and the number of days the pupil was enrolled in the educating district or intermediate district.

(5) If a pupil enrolls in an educating district or intermediate district as described in subsection (2), the district or intermediate district in which the pupil is counted in membership or another educating district or intermediate district that received an adjustment in its membership calculation under subsection (2), if any, and the educating district or intermediate district shall provide to the department all information the department requires to comply with this section.

(6) As used in this section, "educating district or intermediate district" means the district or intermediate district in which a pupil enrolls after the pupil membership count day or after an adjustment was made in another district's or intermediate district's membership calculation under this section due to the pupil's enrollment and attendance.

388.1625d Alternative education program; strict discipline academy.

Sec. 25d. (1) This section applies for 2012-2013 only.

(2) If a pupil is enrolled in an alternative education program operated by an intermediate district or district for the purpose of educating pupils who have been expelled from school or referred from the court, and if the pupil is counted in membership in another intermediate district or district, the intermediate district or district operating the alternative education program shall report the enrollment information to the department and to the district in which the pupil is counted in membership, and the intermediate district or district in which the pupil is counted in membership shall pay to the intermediate district or district operating the alternative education program an amount equal to the amount of the foundation allowance or per-pupil payment as calculated under section 20 for the intermediate district or district in which the pupil is counted in membership, prorated according to the number of days of the school year ending in the fiscal year the pupil is educated in the alternative education program compared to the number of days of the school year ending in the fiscal year the pupil was actually enrolled in the intermediate district or district in which the pupil is counted in membership. The foundation allowance or per-pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4). If an intermediate district or district does not make the payment required under this section within 30 days after receipt of the report, the department shall calculate the amount owed, shall deduct that amount from the remaining state school aid payments to the intermediate district or district for that fiscal year under this act, and shall pay that amount to the intermediate district or district operating the alternative education program. The intermediate district or district in which the pupil is counted in membership and the intermediate district or district operating the alternative education program shall provide to the department all information the department requires to enforce this section.

(3) If a pupil is enrolled in a strict discipline academy for pupils who have been expelled or suspended from school or otherwise placed in a strict discipline academy as described in section 1311g of the revised school code, MCL 380.1311g, and if the pupil is counted in membership in another district or intermediate district, the strict discipline academy shall report the enrollment information to the department and to the district or intermediate district in which the pupil is counted in membership. Upon receipt of enrollment information under this subsection indicating that a pupil has enrolled in a strict discipline academy as described in this subsection, the department shall do both of the following:

(a) Adjust the membership calculation for the district or intermediate district in which the pupil was counted in membership so that the district's or intermediate district's membership is prorated to allow the district or intermediate district to receive for each school day in which the pupil was enrolled in the district an amount equal to 1/180 of the foundation allowance or per-pupil payment as calculated under section 20 for the district or intermediate district. The foundation allowance or per-pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(b) Include in the calculation of state school aid for the strict discipline academy for each school day in which the pupil is enrolled in the strict discipline academy, not to exceed a number of school days equal to the difference between 180 and the number of school days in which the pupil was reported under this section as previously enrolled in 1 or more other districts or intermediate districts, an amount equal to 1/180 of the per-pupil payment as calculated under section 20 for the strict discipline academy. The per-pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(4) The changes in calculation of state school aid required under subsection (3) shall take effect as of the date that the pupil enrolls in the strict discipline academy, and the department shall base all subsequent

payments under this act for the fiscal year to the affected districts or intermediate districts and for the strict discipline academy, as applicable, on this recalculation of state school aid.

(5) If a pupil enrolls in a strict discipline academy as described in subsection (3), if adjustments are made in calculations pursuant to subsection (3) due to that enrollment, and if the pupil subsequently ceases to be enrolled in the strict discipline academy, the strict discipline academy shall notify the department of the last date of the pupil's enrollment in the strict discipline academy and the number of days the pupil was enrolled in the strict discipline academy.

(6) If a pupil enrolls in a strict discipline academy as described in subsection (3), the district or intermediate district in which the pupil is counted in membership and the strict discipline academy shall provide to the department all information the department requires to comply with this section.

388.1625e.added Pupil transfer process; "educating district or intermediate district" defined.

Sec. 25e. (1) The center shall work with the department, districts, and intermediate districts to develop a pupil transfer application modeled on the graduation and dropout application and to develop a pupil transfer process under this section. The center shall complete development of this pupil transfer application not later than November 1, 2013.

(2) If a pupil transfers from a district or intermediate district to enroll in another district or intermediate district after the pupil membership count day and, due to the pupil's enrollment and attendance status as of the pupil membership count day, the pupil was not counted in membership in the educating district or intermediate district, the educating district or intermediate district may report the enrollment and attendance information within 30 days after the transfer to the center through the pupil transfer application until the supplemental count day. Upon receipt of the transfer information under this subsection indicating that a pupil has enrolled and is in attendance in an educating district or intermediate district as described in this subsection, the pupil transfer application shall do the following:

(a) Notify the district in which the pupil was previously enrolled. The district shall provide pupil exit dates and other information as required by the center and the department.

(b) Notify both the pupil auditing staff of the intermediate district in which the educating district is located and the pupil auditing staff of the intermediate district in which the district that previously enrolled the pupil is located. The pupil auditing staff shall edit, if necessary, and approve the transfer.

(c) Aggregate the districtwide changes and notify the department for use in adjusting the state aid payment system.

(3) The department shall do all of the following:

(a) Adjust the membership calculation for each district or intermediate district in which the pupil was previously counted in membership or that previously received an adjustment in its membership calculation under this section due to the pupil's enrollment and attendance, if any, so that the district's or intermediate district's membership is prorated to allow the district or intermediate district to receive for each school day in which the pupil was enrolled and in attendance in the district an amount equal to 1/180 of the foundation allowance or per pupil payment as calculated under section 20 for the district or intermediate district. The foundation allowance or per pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(b) Adjust the membership calculation for the educating district or intermediate district for each school day in which the pupil is enrolled and is in attendance in the educating district or intermediate district so that the district's or intermediate district's membership is increased to allow the district or intermediate district to receive, for each school day between the day the pupil enrolled in the educating district and the supplemental count day, an amount equal to 1/180 of the foundation allowance or per pupil payment as calculated under section 20 for the educating district or intermediate district. The foundation allowance or per pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(4) The changes in calculation of state school aid required under subsection (3) shall take effect as of the date that the pupil becomes enrolled and in attendance in the educating district or intermediate district, and the department shall base all subsequent payments under this article for the fiscal year to the affected districts or intermediate districts on this recalculation of state school aid.

(5) If a pupil enrolls in an educating district or intermediate district as described in subsection (2), the district or intermediate district in which the pupil is counted in membership or another educating district or intermediate district that received an adjustment in its membership calculation under subsection (3), if any,

388.1631a Funding to eligible districts, public school academies, and education achievement system; additional allowance; number of pupils meeting criteria for free breakfast, lunch, or milk; early intervening program; "at-risk pupil" defined; anti-bullying or crisis intervention program.

Sec. 31a. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2012-2013 an amount not to exceed $317,695,500.00 for payments to eligible districts, eligible public school academies, and the education achievement system under this section. Subject to subsection (14), the amount of the additional allowance under this section, other than funding under subsection (6) or (7), shall be based on the number of actual pupils in membership in the district or public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, and reported to the department not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year in the form and manner prescribed by the center. However, for a public school academy that began operations as a public school academy, or for an achievement school that began operations as an achievement school, after the pupil membership count day of the immediately preceding school year, the basis for the additional allowance under this section shall be the number of actual pupils in membership in the public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk in the current state fiscal year, as determined under the

Richard B. Russell national school lunch act and reported to the department not later than the fifth Wednesday after the pupil membership count day.

(2) To be eligible to receive funding under this section, other than funding under subsection (6) or (7), a district or public school academy that has not been previously determined to be eligible or the education achievement system shall apply to the department, in a form and manner prescribed by the department, and a district or public school academy or the education achievement system must meet all of the following:

(a) The sum of the district's or public school academy's or the education achievement system's combined state and local revenue per membership pupil in the current state fiscal year, as calculated under section 20, is less than or equal to the basic foundation allowance under section 20 for the current state fiscal year.

(b) The district or public school academy or the education achievement system agrees to use the funding only for purposes allowed under this section and to comply with the program and accountability requirements under this section.

(3) Except as otherwise provided in this subsection, an eligible district or eligible public school academy or the education achievement system shall receive under this section for each membership pupil in the district or public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year, an amount per pupil equal to 11.5% of the sum of the district's foundation allowance or the public school academy's or the education achievement system's per pupil amount calculated under section 20, not to exceed the basic foundation allowance under section 20 for the current state fiscal year, or of the public school academy's or the education achievement system's per membership pupil amount calculated under section 20 for the current state fiscal year. A public school academy that began operations as a public school academy, or an achievement school that began operations as an achievement school, after the pupil membership count day of the immediately preceding school year shall receive under this section for each membership pupil in the public school academy or in the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department not later than the fifth Wednesday after the pupil membership count day of the current fiscal year and adjusted not later than December 31 of the current fiscal year, an amount per pupil equal to 11.5% of the public school academy's or the education achievement system's per membership pupil amount calculated under section 20 for the current state fiscal year.

(4) Except as otherwise provided in this section, a district or public school academy, or the education achievement system, receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (5), (6), or (7). In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1), or the education achievement system if it meets this requirement, may use not more than 20% of the funds it receives under this section for school security. A district, the public school academy, or the education achievement system shall not use any of that money for administrative costs or to supplant another program or other funds, except for funds allocated to the district or public school academy or the education achievement system under this section in the immediately preceding year and already being used by the district or public school academy or the education achievement system for at-risk pupils. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year and may include, but are not limited to, tutorial services, early childhood programs to serve children age 0 to 5, and reading programs as described in former section 32f as in effect for 2001-2002. A tutorial method may be conducted with paraprofessionals working under the supervision of a certificated teacher. The ratio of pupils to paraprofessionals shall be between 10:1 and 15:1. Only 1 certificated teacher is required to supervise instruction using a tutorial method. As used in this subsection, "to supplant another program" means to take the place of a previously existing instructional program or direct noninstructional services funded from a funding source other than funding under this section.

(5) Except as otherwise provided in subsection (12), a district or public school academy that receives funds under this section and that operates a school breakfast program under section 1272a of the revised school code, MCL 380.1272a, or the education achievement system if it operates a school breakfast program, shall use from the funds received under this section an amount, not to exceed $10.00 per pupil for whom the district or public school academy or the education achievement system receives funds under this section, necessary to

pay for costs associated with the operation of the school breakfast program.

(6) From the funds allocated under subsection (1), there is allocated for 2012-2013 an amount not to exceed $3,557,300.00 to support child and adolescent health centers. These grants shall be awarded for 5 consecutive years beginning with 2003-2004 in a form and manner approved jointly by the department and the department of community health. Each grant recipient shall remain in compliance with the terms of the grant award or shall forfeit the grant award for the duration of the 5-year period after the noncompliance. To continue to receive funding for a child and adolescent health center under this section a grant recipient shall ensure that the child and adolescent health center has an advisory committee and that at least one-third of the members of the advisory committee are parents or legal guardians of school-aged children. A child and adolescent health center program shall recognize the role of a child's parents or legal guardian in the physical and emotional well-being of the child. Funding under this subsection shall be used to support child and adolescent health center services provided to children up to age 21. If any funds allocated under this subsection are not used for the purposes of this subsection for the fiscal year in which they are allocated, those unused funds shall be used that fiscal year to avoid or minimize any proration that would otherwise be required under subsection (14) for that fiscal year.

(7) From the funds allocated under subsection (1), there is allocated for 2012-2013 an amount not to exceed $5,150,000.00 for the state portion of the hearing and vision screenings as described in section 9301 of the public health code, 1978 PA 368, MCL 333.9301. A local public health department shall pay at least 50% of the total cost of the screenings. The frequency of the screenings shall be as required under R 325.13091 to R 325.13096 and R 325.3271 to R 325.3276 of the Michigan administrative code. Funds shall be awarded in a form and manner approved jointly by the department and the department of community health. Notwithstanding section 17b, payments to eligible entities under this subsection shall be paid on a schedule determined by the department.

(8) Each district or public school academy receiving funds under this section and the education achievement system shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy or the education achievement system of funds under this section, which report shall include at least a brief description of each program conducted by the district or public school academy or the education achievement system using funds under this section, the amount of funds under this section allocated to each of those programs, the number of at-risk pupils eligible for free or reduced price school lunch who were served by each of those programs, and the total number of at-risk pupils served by each of those programs. If a district or public school academy or the education achievement system does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy or the education achievement system complies with this subsection. If the district or public school academy or the education achievement system does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(9) In order to receive funds under this section, a district or public school academy or the education achievement system shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy or the education achievement system shall reimburse the state for all disallowances found in the audit.

(10) Subject to subsections (5), (6), (7), (12), and (13), any district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-12, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) exceeds the district's aggregate percentage of those pupils. Subject to subsections (5), (6), (7), (12), and (13), if a district obtains a waiver from the department, the district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-12, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) is at least 60% of the district's aggregate percentage of those pupils and at least 30% of the total number of pupils enrolled in the school building. To obtain a waiver, a district must apply to the department and demonstrate to the satisfaction of the department that the class size reductions would be in the best interests of the district's at-risk pupils.

(11) A district or public school academy or the education achievement system may use funds received under this section for adult high school completion, general educational development (G.E.D.) test preparation, adult English as a second language, or adult basic education programs described in section 107.

(12) For an individual school or schools operated by a district or public school academy receiving funds under this section or the education achievement system that have been determined by the department to meet the adequate yearly progress standards of the no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district or public school academy or the education achievement system may use not more than 20% of the funds it

receives under this section for specific alternative purposes identified by the district or public school academy or the education achievement system that are designed to benefit at-risk pupils in the school, but that may be different from the purposes otherwise allowable under this section. If a district or public school academy or the education achievement system uses funds for alternative purposes allowed under the flexibility provisions under this subsection, the district or public school academy or the education achievement system shall maintain documentation of the amounts used for those alternative purposes and shall make that information available to the department upon request.

(13) A district or public school academy that receives funds under this section or the education achievement system may use funds it receives under this section to implement and operate an early intervening program for pupils in grades K to 3 that meets either or both of the following:

(a) Monitors individual pupil learning and provides specific support or learning strategies to pupils as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Provides early intervening strategies using school-wide systems of academic and behavioral supports and is scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

(14) If necessary, and before any proration required under section 11, the department shall prorate payments under this section by reducing the amount of the per pupil payment under this section by a dollar amount calculated by determining the amount by which the amount necessary to fully fund the requirements of this section exceeds the maximum amount allocated under this section and then dividing that amount by the total statewide number of pupils who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as described in subsection (1).

(15) If a district is formed by consolidation after June 1, 1995, and if 1 or more of the original districts was not eligible before the consolidation for an additional allowance under this section, the amount of the additional allowance under this section for the consolidated district shall be based on the number of pupils described in subsection (1) enrolled in the consolidated district who reside in the territory of an original district that was eligible before the consolidation for an additional allowance under this section.

(16) As used in this section, "at-risk pupil" means a pupil for whom the district has documentation that the pupil meets at least 2 of the following criteria: is a victim of child abuse or neglect; is below grade level in English language and communication skills or mathematics; is a pregnant teenager or teenage parent; is eligible for a federal free or reduced-price lunch subsidy; has atypical behavior or attendance patterns; or has a family history of school failure, incarceration, or substance abuse. For pupils for whom the results of at least the applicable Michigan education assessment program (MEAP) test have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve at least a score of level 2 on the most recent MEAP English language arts, mathematics, science test, or social studies for which results for the pupil have been received. For pupils for whom the results of the Michigan merit examination have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve proficiency on the reading component of the most recent Michigan merit examination for which results for the pupil have been received, did not achieve proficiency on the mathematics component of the most recent Michigan merit examination for which results for the pupil have been received, or did not achieve basic competency on the science component of the most recent Michigan merit examination for which results for the pupil have been received. For pupils in grades K-3, at-risk pupil also includes a pupil who is at risk of not meeting the district's core academic curricular objectives in English language arts or mathematics.

(17) A district or public school academy that receives funds under this section or the education achievement system may use funds received under this section to provide an anti-bullying or crisis intervention program.

388.1631a.amended Funding to eligible districts, public school academies, and education achievement system; additional allowance; number of pupils meeting criteria for free breakfast, lunch, or milk; child and adolescent health centers; hearing and vision screenings; report; audit; reducing ratios; adult programs; alternative purposes; early intervening program; "at-risk pupil" defined; anti-bullying or crisis intervention program.

Sec. 31a. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2013-2014 an amount not to exceed $317,695,500.00 for payments to eligible districts, eligible public school academies, and the education achievement system under this section. Subject to subsection (14), the amount of the additional allowance under this section, other than funding under subsection (6) or (7), shall be based on the number of actual pupils in membership in the district or public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, and reported to the department not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year and adjusted not later than December 31 of

the immediately preceding fiscal year in the form and manner prescribed by the center. However, for a public school academy that began operations as a public school academy, or for an achievement school that began operations as an achievement school, after the pupil membership count day of the immediately preceding school year, the basis for the additional allowance under this section shall be the number of actual pupils in membership in the public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk in the current state fiscal year, as determined under the Richard B. Russell national school lunch act and reported to the department not later than the fifth Wednesday after the pupil membership count day.

(2) To be eligible to receive funding under this section, other than funding under subsection (6) or (7), a district or public school academy that has not been previously determined to be eligible or the education achievement system shall apply to the department, in a form and manner prescribed by the department, and a district or public school academy or the education achievement system must meet all of the following:

(a) The sum of the district's or public school academy's or the education achievement system's combined state and local revenue per membership pupil in the current state fiscal year, as calculated under section 20, is less than or equal to the basic foundation allowance under section 20 for the current state fiscal year.

(b) The district or public school academy or the education achievement system agrees to use the funding only for purposes allowed under this section and to comply with the program and accountability requirements under this section.

(3) Except as otherwise provided in this subsection, an eligible district or eligible public school academy or the education achievement system shall receive under this section for each membership pupil in the district or public school academy or the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year, an amount per pupil equal to 11.5% of the sum of the district's foundation allowance or the public school academy's or the education achievement system's per pupil amount calculated under section 20, not to exceed the basic foundation allowance under section 20 for the current state fiscal year, or of the public school academy's or the education achievement system's per membership pupil amount calculated under section 20 for the current state fiscal year. A public school academy that began operations as a public school academy, or an achievement school that began operations as an achievement school, after the pupil membership count day of the immediately preceding school year shall receive under this section for each membership pupil in the public school academy or in the education achievement system who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department not later than the fifth Wednesday after the pupil membership count day of the current fiscal year and adjusted not later than December 31 of the current fiscal year, an amount per pupil equal to 11.5% of the public school academy's or the education achievement system's per membership pupil amount calculated under section 20 for the current state fiscal year.

(4) Except as otherwise provided in this section, a district or public school academy, or the education achievement system, receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (5), (6), or (7). In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1), or the education achievement system if it meets this requirement, may use not more than 20% of the funds it receives under this section for school security. A district, the public school academy, or the education achievement system shall not use any of that money for administrative costs or to supplant another program or other funds, except for funds allocated to the district or public school academy or the education achievement system under this section in the immediately preceding year and already being used by the district or public school academy or the education achievement system for at-risk pupils. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year and may include, but are not limited to, tutorial services, early childhood programs to serve children age 0 to 5, and reading programs as described in former section 32f as in effect for 2001-2002. A tutorial method may be conducted with paraprofessionals working under the supervision of a certificated teacher. The ratio of pupils to paraprofessionals shall be between 10:1 and 15:1. Only 1 certificated teacher is required to supervise instruction using a tutorial method. As used in this subsection, "to supplant another program" means to take the place of a previously existing instructional program or direct noninstructional services funded from a funding source other than funding under this

(5) Except as otherwise provided in subsection (12), a district or public school academy that receives funds under this section and that operates a school breakfast program under section 1272a of the revised school code, MCL 380.1272a, or the education achievement system if it operates a school breakfast program, shall use from the funds received under this section an amount, not to exceed $10.00 per pupil for whom the district or public school academy or the education achievement system receives funds under this section, necessary to pay for costs associated with the operation of the school breakfast program.

(6) From the funds allocated under subsection (1), there is allocated for 2013-2014 an amount not to exceed $3,557,300.00 to support child and adolescent health centers. These grants shall be awarded for 5 consecutive years beginning with 2003-2004 in a form and manner approved jointly by the department and the department of community health. Each grant recipient shall remain in compliance with the terms of the grant award or shall forfeit the grant award for the duration of the 5-year period after the noncompliance. To continue to receive funding for a child and adolescent health center under this section a grant recipient shall ensure that the child and adolescent health center has an advisory committee and that at least one-third of the members of the advisory committee are parents or legal guardians of school-aged children. A child and adolescent health center program shall recognize the role of a child's parents or legal guardian in the physical and emotional well-being of the child. Funding under this subsection shall be used to support child and adolescent health center services provided to children up to age 21. If any funds allocated under this subsection are not used for the purposes of this subsection for the fiscal year in which they are allocated, those unused funds shall be used that fiscal year to avoid or minimize any proration that would otherwise be required under subsection (14) for that fiscal year.

(7) From the funds allocated under subsection (1), there is allocated for 2013-2014 an amount not to exceed $5,150,000.00 for the state portion of the hearing and vision screenings as described in section 9301 of the public health code, 1978 PA 368, MCL 333.9301. A local public health department shall pay at least 50% of the total cost of the screenings. The frequency of the screenings shall be as required under R 325.13091 to R 325.13096 and R 325.3271 to R 325.3276 of the Michigan administrative code. Funds shall be awarded in a form and manner approved jointly by the department and the department of community health. Notwithstanding section 17b, payments to eligible entities under this subsection shall be paid on a schedule determined by the department.

(8) Each district or public school academy receiving funds under this section and the education achievement system shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy or the education achievement system of funds under this section, which report shall include at least a brief description of each program conducted by the district or public school academy or the education achievement system using funds under this section, the amount of funds under this section allocated to each of those programs, the number of at-risk pupils eligible for free or reduced price school lunch who were served by each of those programs, and the total number of at-risk pupils served by each of those programs. If a district or public school academy or the education achievement system does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy or the education achievement system complies with this subsection. If the district or public school academy or the education achievement system does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(9) In order to receive funds under this section, a district or public school academy or the education achievement system shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy or the education achievement system shall reimburse the state for all disallowances found in the audit.

(10) Subject to subsections (5), (6), (7), (12), and (13), a district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-12, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) exceeds the district's aggregate percentage of those pupils. Subject to subsections (5), (6), (7), (12), and (13), a district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-12, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) is at least 60% of the district's aggregate percentage of those pupils and at least 30% of the total number of pupils enrolled in the school building.

(11) A district or public school academy or the education achievement system may use funds received under this section for adult high school completion, general educational development (G.E.D.) test preparation, adult English as a second language, or adult basic education programs described in section 107.

(12) For an individual school or schools operated by a district or public school academy receiving funds

under this section or the education achievement system that have been determined by the department to meet the adequate yearly progress standards of the no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district or public school academy or the education achievement system may use not more than 20% of the funds it receives under this section for specific alternative purposes identified by the district or public school academy or the education achievement system that are designed to benefit at-risk pupils in the school, but that may be different from the purposes otherwise allowable under this section. If a district or public school academy or the education achievement system uses funds for alternative purposes allowed under the flexibility provisions under this subsection, the district or public school academy or the education achievement system shall maintain documentation of the amounts used for those alternative purposes and shall make that information available to the department upon request.

(13) A district or public school academy that receives funds under this section or the education achievement system may use funds it receives under this section to implement and operate an early intervening program for pupils in grades K to 3 that meets either or both of the following:

(a) Monitors individual pupil learning and provides specific support or learning strategies to pupils as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Provides early intervening strategies using school-wide systems of academic and behavioral supports and is scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

(14) If necessary, and before any proration required under section 296, the department shall prorate payments under this section by reducing the amount of the per pupil payment under this section by a dollar amount calculated by determining the amount by which the amount necessary to fully fund the requirements of this section exceeds the maximum amount allocated under this section and then dividing that amount by the total statewide number of pupils who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as described in subsection (1).

(15) If a district is formed by consolidation after June 1, 1995, and if 1 or more of the original districts was not eligible before the consolidation for an additional allowance under this section, the amount of the additional allowance under this section for the consolidated district shall be based on the number of pupils described in subsection (1) enrolled in the consolidated district who reside in the territory of an original district that was eligible before the consolidation for an additional allowance under this section.

(16) As used in this section, "at-risk pupil" means a pupil for whom the district has documentation that the pupil meets at least 2 of the following criteria: is a victim of child abuse or neglect; is below grade level in English language arts or mathematics; is a pregnant teenager or teenage parent; is eligible for a federal free or reduced-price lunch subsidy; has atypical behavior or attendance patterns; or has a family history of school failure, incarceration, or substance abuse. At-risk pupil also includes all pupils in a priority school as defined in the elementary and secondary education act of 2001 flexibility request approved by the United States department of education. For pupils for whom the results of at least the applicable Michigan education assessment program (MEAP) test have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve at least a score of level 2 on the most recent MEAP English language arts, mathematics, science test, or social studies for which results for the pupil have been received. For pupils for whom the results of the Michigan merit examination have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve proficiency on the reading, writing, mathematics, science, or social studies components of the most recent Michigan merit examination for which results for the pupil have been received. For pupils in grades K-3, at-risk pupil also includes a pupil who is at risk of not meeting the district's core academic curricular objectives in English language arts or mathematics.

(17) A district or public school academy that receives funds under this section or the education achievement system may use funds received under this section to provide an anti-bullying or crisis

388.1632d Great start readiness programs; competitive grant payments; evaluation; comprehensive part-day, school-day, or GSRP/head start blended programs; application for funding; form and manner; contract with for-profit or nonprofit preschool center providers; report; definitions; tuition rate sliding scale; transfer of funding.

Sec. 32d. (1) From the funds appropriated in section 11, there is allocated to eligible intermediate districts and consortia of intermediate districts for great start readiness programs an amount not to exceed $109,275,000.00 for 2012-2013. Funds allocated under this section shall be used to provide part-day, school-day, or GSRP/head start blended comprehensive free compensatory classroom programs designed to do 1 or both of the following:

(a) Improve the readiness and subsequent achievement of educationally disadvantaged children as defined by the department who will be at least 4, but less than 5 years of age, as of December 1 of the school year in which the programs are offered, and who meet the participant eligibility and prioritization guidelines as defined by the state board.

(b) Provide preschool and parenting education programs similar to those under former section 32b as in effect for 2001-2002. Beginning in 2007-2008, funds spent for programs described in this subdivision shall not exceed the amount spent under this subdivision for the immediately preceding fiscal year. Funds spent for programs described in this subdivision shall be used for services to families with income below 300% of the federal poverty level.

(2) Funds allocated under this section shall be allocated to intermediate districts or consortia of intermediate districts. An intermediate district or consortium of intermediate districts receiving funding under this section shall act as the fiduciary for the great start readiness programs. For 2012-2013, the fiduciary intermediate districts and consortia of intermediate districts shall allocate the funding under this section as follows:

(a) An amount not to exceed $100,400,000.00 allocated to intermediate districts and consortia of intermediate districts as directed by the department based on the formula in section 39. In order to be eligible to receive funds allocated under this subdivision from an intermediate district or consortium of intermediate districts, a district or consortium of districts shall comply with this section and section 39.

(b) An amount not to exceed $8,875,000.00 allocated in grants to competitive great start readiness programs as directed by the department based on the grant award process in section 32*l*. In order to be eligible to receive funds allocated under this section from an intermediate district or consortium of intermediate districts, a competitive great start readiness program shall comply with this section and section 32*l*.

(3) In addition to the allocation under subsection (1), from the general fund money appropriated under section 11, there is allocated an amount not to exceed $300,000.00 for 2012-2013 for a competitive grant to continue a longitudinal evaluation of children who have participated in great start readiness programs.

(4) To be eligible for funding under this section, a program shall prepare children for success in school through comprehensive part-day, school-day, or GSRP/head start blended programs that contain all of the following program components, as determined by the department:

(a) Participation in a collaborative recruitment and enrollment process. At a minimum, the process shall include all other funded preschool programs that may serve children in the same geographic area, to assure that each child is enrolled in the program most appropriate to his or her needs and to maximize the use of federal, state, and local funds.

(b) An age-appropriate educational curriculum that is in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board.

(c) Nutritional services for all program participants.

(d) Health and developmental screening services for all program participants.

(e) Referral services for families of program participants to community social service agencies, as appropriate.

(f) Active and continuous involvement of the parents or guardians of the program participants.

(g) A plan to conduct and report annual great start readiness program evaluations and continuous improvement plans using criteria approved by the department.

(h) Participation in a multidistrict, multiagency, school readiness advisory committee that provides for the

involvement of classroom teachers, parents or guardians of program participants, and community, volunteer, and social service agencies and organizations, as appropriate. The advisory committee annually shall review the program components listed in this subsection and make recommendations for changes to the great start readiness program for which it is an advisory committee.

(i) The ongoing articulation of the kindergarten and first grade programs offered by the program provider.

(5) An application for funding under this section shall provide for the following, in a form and manner determined by the department:

(a) Ensure compliance with all program components described in subsection (4).

(b) Ensure that more than 75% of the children participating in an eligible great start readiness program are children who live with families with a household income that is equal to or less than 300% of the federal poverty level.

(c) Ensure that the applicant only uses qualified personnel for this program, as follows:

(*i*) Teachers possessing proper training. For programs managed directly by a district or intermediate district, a valid teaching certificate and an early childhood (ZA or ZS) endorsement are required. This provision does not apply to a district, intermediate district, or competitive program that subcontracts with an eligible child development program. In that situation, a teacher must have a valid Michigan teaching certificate with an early childhood (ZA or ZS) endorsement, a valid Michigan elementary teaching certificate with a child development associate credential, or a bachelor's degree in child development with specialization in preschool teaching. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses per calendar year.

(*ii*) Paraprofessionals possessing proper training in early childhood development, including an associate's degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the applicant may use paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development if the applicant provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses or 60 clock hours of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. The program budget shall indicate the extent to which these funds will supplement other federal, state, local, or private funds. Funds received under this section shall not be used to supplant any federal funds by the applicant to serve children eligible for a federally funded existing preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program funded under this section, each child enrolled in the school-day program shall be counted as 2 children served by the program for purposes of determining the number of children to be served and for determining the amount of the grant award. A grant award shall not be increased solely on the basis of providing a school-day program.

(7) An intermediate district or consortium of intermediate districts receiving a grant under this section may contract with for-profit or nonprofit preschool center providers that meet all requirements of subsection (4) and retain for administrative services an amount equal to not more than 5% of the grant amount. An intermediate district, consortium of intermediate districts, or competitive grant program may expend not more than 10% of the total grant amount for administration of the program.

(8) Any public or private for-profit or nonprofit legal entity or agency may apply for a competitive grant under this section. However, a district or intermediate district may not apply for a competitive grant under this section unless the district, intermediate district, or consortium of districts or intermediate districts is acting as a local grantee for the federal head start program operating under the head start act, 42 USC 9831 to 9852.

(9) A recipient of funds under this section shall report to the department in a form and manner prescribed by the department the number of children participating in the program who meet the income or other eligibility criteria prescribed by the department and the total number of children participating in the program. For children participating in the program who meet the income or other eligibility criteria specified under subsection (5)(b), a recipient shall also report whether or not a parent is available to provide care based on

employment status. For the purposes of this subsection, "employment status" shall be defined by the department of human services in a manner consistent with maximizing the amount of spending that may be claimed for temporary assistance for needy families maintenance of effort purposes.

(10) As used in this section:

(a) "GSRP/head start blended program" means a part-day program funded under this section and a head start program, which are combined for a school-day program.

(b) "Part-day program" means a program that operates at least 4 days per week, 30 weeks per year, for at least 3 hours of teacher-child contact time per day but for fewer hours of teacher-child contact time per day than a school-day program.

(c) "School-day program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(11) A grant recipient receiving funds under this section is encouraged to establish a sliding scale of tuition rates based upon a child's family income for the purpose of expanding eligible programs under this section. A grant recipient may charge tuition for programs provided under this section according to that sliding scale of tuition rates on a uniform basis for any child who does not meet the program eligibility requirements under this section.

(12) The department shall develop a plan for a multiyear phased-in approach to transfer funding for great start readiness programs under this section into an early childhood block grant program, along with funding for great start collaboratives under section 32b and funding for great parents, great start programs under section 32j. The early childhood block grant program will allocate funds to intermediate districts and consortia of intermediate districts to act as fiduciaries and provide administration of regional early childhood programs in conjunction with their regional great start collaborative to improve program quality, evaluation, and efficiency for early childhood programs. The department shall work with intermediate districts, districts, great start collaboratives, and the early childhood investment corporation to establish a revised funding formula, application process, program criteria, and data reporting requirements.

***** *388.1632d.amended THIS AMENDED SECTION IS EFFECTIVE OCTOBER 1, 2013* *****

388.1632d.amended Great start readiness programs; competitive grant payments; evaluation; comprehensive part-day, school-day, or GSRP/head start blended programs; application for funding; form and manner; contract with public or private for-profit or nonprofit providers; household income; contract process; report; definitions; tuition rate sliding scale; great start readiness reserve fund.

Sec. 32d. (1) From the funds appropriated in section 11, there is allocated to eligible intermediate districts and consortia of intermediate districts for great start readiness programs an amount not to exceed $149,275,000.00 for 2013-2014. In addition, from the funds appropriated in section 11, there is allocated to the great start readiness reserve fund created under subsection (14) an amount not to exceed $25,000,000.00 for 2013-2014. Funds allocated under this section for great start readiness programs shall be used to provide part-day, school-day, or GSRP/head start blended comprehensive free compensatory classroom programs designed to improve the readiness and subsequent achievement of educationally disadvantaged children who meet the participant eligibility and prioritization guidelines as defined by the department. Beginning in 2013-2014, for a child to be eligible to participate in a program under this section, the child shall be at least 4, but less than 5, years of age as of the date specified for determining a child's eligibility to attend school under section 1147 of the revised school code, MCL 380.1147.

(2) Funds allocated under subsection (1) shall be allocated to intermediate districts or consortia of intermediate districts based on the formula in section 39. An intermediate district or consortium of intermediate districts receiving funding under this section shall act as the fiduciary for the great start readiness programs. In order to be eligible to receive funds allocated under this subsection from an intermediate district or consortium of intermediate districts, a district, a consortium of districts, or a public or private for-profit or nonprofit legal entity or agency shall comply with this section and section 39.

(3) In addition to the allocation under subsection (1), from the general fund money appropriated under section 11, there is allocated an amount not to exceed $300,000.00 for 2013-2014 for a competitive grant to continue a longitudinal evaluation of children who have participated in great start readiness programs.

(4) To be eligible for funding under this section, a program shall prepare children for success in school through comprehensive part-day, school-day, or GSRP/head start blended programs that contain all of the following program components, as determined by the department:

(a) Participation in a collaborative recruitment and enrollment process to assure that each child is enrolled in the program most appropriate to his or her needs and to maximize the use of federal, state, and local funds.

(b) An age-appropriate educational curriculum that is in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board.

(c) Nutritional services for all program participants supported by federal, state, and local resources as applicable.

(d) Health and developmental screening services for all program participants.

(e) Referral services for families of program participants to community social service agencies, as appropriate.

(f) Active and continuous involvement of the parents or guardians of the program participants.

(g) A plan to conduct and report annual great start readiness program evaluations and continuous improvement plans using criteria approved by the department.

(h) Participation in a multidistrict, multiagency, school readiness advisory committee convened as a workgroup of the great start collaborative that provides for the involvement of classroom teachers, parents or guardians of program participants, and community, volunteer, and social service agencies and organizations, as appropriate. The advisory committee annually shall review the program components listed in this subsection and make recommendations for changes to the great start readiness program for which it is an advisory committee.

(i) The ongoing articulation of the kindergarten and first grade programs offered by the program provider.

(j) Participation in this state's great start to quality process with a rating of at least 3 stars.

(5) An application for funding under this section shall provide for the following, in a form and manner determined by the department:

(a) Ensure compliance with all program components described in subsection (4).

(b) Ensure that at least 90% of the children participating in an eligible great start readiness program for

whom the provider is receiving funds under this section are children who live with families with a household income that is equal to or less than 250% of the federal poverty level.

(c) Ensure that the applicant only uses qualified personnel for this program, as follows:

(*i*) Teachers possessing proper training. For programs managed directly by a district or intermediate district, a valid teaching certificate and an early childhood (ZA or ZS) endorsement are required. This provision does not apply to an eligible child development program. In that situation, a teacher must have a valid Michigan teaching certificate with an early childhood (ZA or ZS) endorsement, a valid Michigan elementary teaching certificate with a child development associate credential, or a bachelor's degree in child development with specialization in preschool teaching. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses per calendar year.

(*ii*) Paraprofessionals possessing proper training in early childhood development, including an associate's degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the applicant may use paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development if the applicant provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses or 60 clock hours of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. Eligible costs include transportation costs. The program budget shall indicate the extent to which these funds will supplement other federal, state, local, or private funds. Funds received under this section shall not be used to supplant any federal funds received by the applicant to serve children eligible for a federally funded preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program funded under this section, each child enrolled in the school-day program shall be counted as 2 children served by the program for purposes of determining the number of children to be served and for determining the amount of the grant award. A grant award shall not be increased solely on the basis of providing a school-day program.

(7) For a grant recipient that enrolls pupils in a GSRP/head start blended program, the grant recipient shall ensure that all head start and GSRP policies and regulations are applied to the blended slots, with adherence to the highest standard from either program, to the extent allowable under federal law.

(8) An intermediate district or consortium of intermediate districts receiving a grant under this section may provide services directly or may contract with 1 or more districts or public or private for-profit or nonprofit providers that meet all requirements of subsection (4) and retain for administrative services an amount equal to not more than 7% of the grant amount. In addition, an intermediate district or consortium of intermediate districts may expend not more than 2% of the total grant amount for recruiting and public awareness of the program.

(9) Each grant recipient shall enroll children identified under subsection (5)(b) according to how far the child's household income is below 250% of the federal poverty level by ranking each applicant child's household income from lowest to highest and dividing the applicant children into quintiles based on how far the child's household income is below 250% of the federal poverty level, and then enrolling children in the quintile with the lowest household income before enrolling children in the quintile with the next lowest household income until slots are completely filled.

(10) An intermediate district or consortium of intermediate districts receiving a grant under this section shall conduct a local process to contract with interested and eligible public and private for-profit and nonprofit community-based providers that meet all requirements of subsection (4) for at least 30% of its total slot allocation. If the intermediate district or consortium is not able to contract for at least 30% of its total slot allocation, the grant recipient shall notify the department and, if the department verifies that the intermediate district or consortium attempted to contract for at least 30% of its total slot allocation and was not able to do so, then the intermediate district or consortium may retain and use all of its allocated slots as provided under this section.

(11) A recipient of funds under this section shall report to the department in a form and manner prescribed by the department the number of children participating in the program who meet the income eligibility criteria under subsection (5)(b) and the total number of children participating in the program. For children participating in the program who meet the income eligibility criteria specified under subsection (5)(b), a recipient shall also report whether or not a parent is available to provide care based on employment status. For the purposes of this subsection, "employment status" shall be defined by the department of human services in a manner consistent with maximizing the amount of spending that may be claimed for temporary assistance for needy families maintenance of effort purposes.

(12) As used in this section:

(a) "GSRP/head start blended program" means a part-day program funded under this section and a head start program, which are combined for a school-day program.

(b) "Part-day program" means a program that operates at least 4 days per week, 30 weeks per year, for at least 3 hours of teacher-child contact time per day but for fewer hours of teacher-child contact time per day than a school-day program.

(c) "School-day program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(13) An intermediate district or consortium of intermediate districts receiving funds under this section shall establish a sliding scale of tuition rates based upon household income for children participating in an eligible great start readiness program who live with families with a household income that is more than 250% of the federal poverty level to be used by all of its providers, as approved by the department. A grant recipient shall charge tuition according to that sliding scale of tuition rates on a uniform basis for any child who does not meet the income eligibility requirements under this section.

(14) The great start readiness reserve fund is created as a separate account within the state school aid fund established by section 11 of article IX of the state constitution of 1963. Money available in the great start readiness reserve fund may not be expended for 2013-2014 unless transferred by the legislature not later than January 31, 2014 to the allocation under subsection (1) for great start readiness programs. Money in the great start readiness reserve fund shall be expended only for purposes for which state school aid fund money may be expended. The state treasurer shall direct the investment of the great start readiness reserve fund. The state treasurer shall credit to the great start readiness reserve fund interest and earnings from fund investments. Money in the great start readiness reserve fund at the close of a fiscal year shall remain in the great start readiness reserve fund and shall not lapse to the unreserved school aid fund balance or the general fund.

388.1632g Kindergarten entry status assessment; improvement of quality ratings of early childhood providers; allocations.

Sec. 32g. (1) From the general fund money appropriated in section 11, there is allocated for 2011-2012 only an amount not to exceed $12,500,000.00 for the purposes described in this section.

(2) From the money allocated under subsection (1), an amount not to exceed $3,250,000.00 for 2011-2012 is allocated to the department for the implementation of a kindergarten entry status assessment. Funds allocated under this subsection shall be used for the following purposes:

(a) Professional development for trainers, schools, and kindergarten teachers.

(b) Purchasing the license for the assessment tool and the online system for entering assessment findings, and other integration costs with the existing P-20 longitudinal data system.

(c) Outreach and education for parents and families.

(d) Project implementation and management.

(3) From the money allocated under subsection (1), an amount not to exceed $9,250,000.00 for 2011-2012 is allocated to the department for the provision of services to early childhood providers in meeting additional criteria to strive for higher quality ratings under the office of great start tiered quality rating and improvement system. Funds allocated under this subsection shall be used for the following purposes:

(a) Hiring and training of raters and quality improvement specialists.

(b) Alignment of state licensing, Michigan early learning standards, and the state professional registry.

(c) Comprehensive assessment of settings across multiple quality indicators, including early childhood educator qualifications, quality improvement planning, and support, for at least 1/3 of early learning settings.

(d) Purchase of educational rating tools.

(e) Creation of a data system tracking the supply of high-quality early learning settings that links high-need children with quality settings.

(f) Family and parent education.

(g) Evaluation.

(h) Quality improvement funds.

(4) Not later than June 1, 2013, the department shall report to the house and senate appropriations subcommittees on state school aid the status of implementing the kindergarten assessment tool described under subsection (2) and the efforts to improve quality ratings of early childhood providers described under subsection (3). In addition, the department shall report on its planned activities for statewide implementation and quality improvement for the next fiscal year.

(5) The funds allocated under this section are a work project appropriation, and the funds are carried forward into the following fiscal year. The purpose of the work project is to continue to implement and expand the projects described under subsections (2) and (3). The estimated completion date of the work project is September 30, 2015.

388.1632*l* Competitive grants under section 32d.

Sec. 32*l*. (1) The department shall establish a diverse interagency committee to review the applications for competitive grants under section 32d. The committee shall be composed of representatives of the department, appropriate community, volunteer, and social service agencies and organizations, and parents.

(2) The superintendent shall award the competitive grants under section 32d to applicants that are in compliance with that section and shall give priority for awarding the competitive grants to programs that offer or contract with another nonprofit or for-profit early childhood program to provide supplementary day care and thereby offers full-day programs as part of its early childhood development program.

(3) The superintendent may award competitive grants under section 32d at whatever level the superintendent determines appropriate. However, the amount of a competitive grant under that section, when combined with other sources of state revenue for this program, shall not exceed $3,400.00 per participating child or the cost of the program, whichever is less.

(4) All grant awards under this section are contingent on the availability of funds and documented evidence of grantee compliance with early childhood standards of quality for prekindergarten, as approved by the state board, and with all operational, fiscal, administrative, and other program requirements.

(5) Except as otherwise provided in this subsection, an applicant that received a grant under this section for the immediately preceding fiscal year shall receive priority for funding under this section. However, after 3 fiscal years of continuous funding, an applicant is required to compete openly with new programs and other programs completing their third year.

(6) Notwithstanding section 17b, competitive grant payments to eligible entities under section 32d shall be paid on a schedule and in a manner determined by the department.

388.1632p Early childhood funding; block grants; report; carrying over unexpended funds.

Sec. 32p. (1) From the school aid fund appropriation in section 11, there is allocated an amount not to exceed $10,900,000.00 for 2012-2013 for the purpose of providing early childhood funding to intermediate school districts in block grants. The funding provided to each intermediate district under this section shall be equal to the sum of all funding allocated under former sections 32b and 32j, as those sections were in effect for 2011-2012. In order to receive funding under this section, each intermediate district shall provide an application to the office of great start not later than August 15, 2012, indicating the activities planned to be provided and children served under the block grant.

(2) Each intermediate district or consortium of intermediate districts that receives funding under this section shall convene a local great start collaborative and a parent coalition to address the availability of the following 6 components of a great start system in its communities: physical health, social-emotional health, family supports, basic needs, economic stability and safety, and parenting education and early education and care. The goal of a local great start collaborative is to ensure that every child in the community is ready for kindergarten. Each local great start collaborative shall ensure the coordination and expansion of infrastructure or programming to support high-quality early childhood and childcare programs. An intermediate district or consortium of intermediate districts may reconstitute its local great start collaborative if that collaborative is found to be ineffective.

(3) Not later than December 1, 2013, each intermediate district shall provide a report to the department detailing the activities actually provided during 2012-2013 and the children actually served. The department shall compile and summarize these reports and submit its summary to the house and senate appropriations subcommittees on school aid and to the house and senate fiscal agencies. The block grants allocated under this section implement legislative intent language for this purpose enacted in 2011 PA 62.

(4) An intermediate district or consortium of intermediate districts that receives funding under this section may carry over any unexpended funds received under this section for a fiscal year into the next fiscal year and may expend those unused funds in the next fiscal year. A recipient of a grant shall return any unexpended grant funds to the department in the manner prescribed by the department not later than September 30 of the next fiscal year after the fiscal year in which the funds are received.

388.1632p.amended Early childhood funding; block grants; local great start collaborative and parent coalition; workgroup; report; carrying over unexpended funds.

Sec. 32p. (1) From the school aid fund appropriation in section 11, there is allocated an amount not to exceed $10,900,000.00 to intermediate districts for 2013-2014 for the purpose of providing early childhood funding to intermediate school districts in block grants, supporting the activities under subsection (2), and providing early childhood programs for children from birth through age 8. Beginning in 2013-2014, the funding provided to each intermediate district under this section shall be determined by the distribution formula established by the department's office of great start to provide equitable funding statewide. In order to receive funding under this section, each intermediate district shall provide an application to the office of great start not later than September 15 of the immediately preceding fiscal year indicating the activities planned to be provided.

(2) Each intermediate district or consortium of intermediate districts that receives funding under this section shall convene a local great start collaborative and a parent coalition. The goal of each great start collaborative and parent coalition shall be to ensure the coordination and expansion of local early childhood infrastructure and programs that allow every child in the community to achieve the following outcomes:

(a) Children born healthy.

(b) Children healthy, thriving, and developmentally on track from birth to third grade.

(c) Children developmentally ready to succeed in school at the time of school entry.

(d) Children prepared to succeed in fourth grade and beyond by reading proficiently by the end of third grade.

(3) Each local great start collaborative and parent coalition shall convene a workgroup to serve as a school

(a) Physical health.

(b) Social-emotional health.

(c) Family supports and basic needs.

(d) Parent education and child advocacy.

(e) Early education and care.

(4) Not later than December 1 of each year, each intermediate district shall provide a report to the department detailing the activities actually provided during the immediately preceding school year and the families and children actually served. The department shall compile and summarize these reports and submit its summary to the house and senate appropriations subcommittees on school aid and to the house and senate fiscal agencies. The block grants allocated under this section implement legislative intent language for this purpose enacted in 2011 PA 62.

(5) An intermediate district or consortium of intermediate districts that receives funding under this section may carry over any unexpended funds received under this section into the next fiscal year and may expend those unused funds in the next fiscal year. 388.1639 Receipt of funds under MCL 388.1632d; preapplication; final application for approval; distribution in decreasing order of concentration of eligible children; priority in funding; supplementary day care; additional eligible children.

Sec. 39. (1) An eligible applicant receiving funds under section 32d shall submit a preapplication, in a form and manner prescribed by the department, by a date specified by the department in the immediately preceding state fiscal year. The preapplication shall include a comprehensive needs assessment using aggregated data from the applicant's entire service area and a community collaboration plan that is endorsed by the local great start collaborative and is part of the community's great start strategic plan that includes, but is not limited to, great start readiness program and head start providers, and shall identify all of the following:

(a) The estimated total number of children in the community who meet the criteria of section 32d and how that calculation was made.

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

(b) The estimated number of children in the community who meet the criteria of section 32d and are being served by other early childhood development programs operating in the community, and how that calculation was made.

(c) The number of children the applicant will be able to serve who meet the criteria of section 32d including a verification of physical facility and staff resources capacity.

(d) The estimated number of children who meet the criteria of section 32d who will remain unserved after the applicant and community early childhood programs have met their funded enrollments. The applicant shall maintain a waiting list of identified unserved eligible children who would be served when openings are available.

(2) An applicant receiving funds under section 32d shall also submit a final application for approval, in a form and manner prescribed by the department, by a date specified by the department, that details how the applicant complies with the program components established by the department pursuant to section 32d.

(3) The number of prekindergarten children construed to be in need of special readiness assistance under section 32d shall be calculated for each applicant in the following manner: 1/2 of the percentage of the applicant's pupils in grades 1 to 5 in all districts served by the applicant who are eligible for free lunch, as determined using the district's pupil membership count as of the pupil membership count day in the school year prior to the fiscal year for which the calculation is made, under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, shall be multiplied by the average kindergarten enrollment of the districts served by the applicant on the pupil membership count day of the 2 immediately preceding fiscal years.

(4) The initial allocation for each fiscal year to each eligible applicant under section 32d shall be determined by multiplying the number of children determined by the formula under subsection (3) or the number of children the applicant indicates it will be able to serve under subsection (1)(c), whichever is less, by $3,400.00 and shall be distributed among applicants in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children an applicant indicates it will be able to serve under subsection (1)(c) includes children able to be served in a school-day program, then the number able to be served in a school-day program shall be doubled for the purposes of making this calculation of the lesser of the number of children determined by the formula under subsection (3) and the number of children the applicant indicates it will be able to serve under subsection (1)(c) and determining the amount of the initial allocation to the applicant under section 32d. A district may contract with a head start agency to serve children enrolled in head start with a school-day program by blending head start funds with a part-day great start readiness program allocation. All head start and great start readiness program policies and regulations apply to the blended program.

(5) If funds allocated for eligible applicants in section 32d remain after the initial allocation under subsection (4), the allocation under this subsection shall be distributed to each eligible applicant under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). The allocation shall be determined by multiplying the number of children each district within the applicant's service area served in the immediately preceding fiscal year or the number of children the applicant indicates it will be able to serve under subsection (1)(c), whichever is less, minus the number of children for which the applicant received funding in subsection (4) by $3,400.00.

(6) If funds allocated for eligible applicants in section 32d remain after the allocations under subsections (4) and (5), remaining funds shall be distributed to each eligible applicant under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children the applicant indicates it will be able to serve under subsection (1)(c) exceeds the number of children for which funds have been received under subsections (4) and (5), the allocation under this subsection shall be determined by multiplying the number of children the applicant indicates it will be able to serve under subsection (1)(c) less the number of children for which funds have been received under subsections (4) and (5) by $3,400.00 until the funds allocated for eligible applicants in section 32d are distributed.

(7) An applicant that offers supplementary child care funded by funds other than those received under section 32d and therefore offers full-day programs as part of its early childhood development program shall receive priority in the allocation of funds under section 32d over other eligible applicants. As used in this subsection, "full-day program" means a program that provides supplementary child care that totals at least 10 hours of programming per day.

(8) If, taking into account the total amount to be allocated to the applicant as calculated under this section, an applicant determines that it is able to include additional eligible children in the great start readiness program without additional funds under section 32d, the applicant may include additional eligible children but shall not receive additional funding under section 32d for those children.

The allocation shall be determined by multiplying the number of children each district within the applicant's service area served in the immediately preceding fiscal year or the number of children the applicant indicates it will be able to serve under subsection (1)(c), whichever is less, minus the number of children for which the applicant received funding in subsection (4) by $3,625.00.

(6) If funds allocated for eligible applicants or to the great start readiness reserve fund under section 32d remain after the allocations under subsections (4) and (5), remaining funds shall be distributed to each eligible applicant under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children the applicant indicates it will be able to serve under subsection (1)(c) exceeds the number of children for which funds have been received under subsections (4) and (5), the allocation under this subsection shall be determined by multiplying the number of children the applicant indicates it will be able to serve under subsection (1)(c) less the number of children for which funds have been received under subsections (4) and (5) by $3,625.00 until the funds allocated for eligible applicants in section 32d are distributed.

(7) An applicant that offers supplementary child care funded by funds other than those received under section 32d and therefore offers full-day programs as part of its early childhood development program shall receive priority in the allocation of funds under section 32d over other eligible applicants. As used in this subsection, "full-day program" means a program that provides supplementary child care that totals at least 10 hours of programming per day.

(8) If, taking into account the total amount to be allocated to the applicant as calculated under this section, an applicant determines that it is able to include additional eligible children in the great start readiness program without additional funds under section 32d, the applicant may include additional eligible children but shall not receive additional funding under section 32d for those children.

Sec. 41. (1) From the appropriation in section 11, there is allocated an amount not to exceed $1,200,000.00 for 2013-2014 to applicant districts and intermediate districts offering programs of instruction for pupils of limited English-speaking ability under section 1153 of the revised school code, MCL 380.1153. Subject to subsection (2), reimbursement shall be on a per-pupil basis and shall be based on the number of pupils of limited English-speaking ability in membership on the pupil membership count day. Funds allocated under this section shall be used solely for instruction in speaking, reading, writing, or comprehension of English. A pupil shall not be counted under this section or instructed in a program under this section for more than 3 years.

(2) A district or intermediate district shall not receive funds under this section if it allows pupils to participate in the program of instruction who are not residing in the United States legally.

Compiler's note: The repealed section pertained to reimbursement to districts and intermediate districts for special education programs, services, and personnel, certain net tuition payments, and programs for pupils with handicaps.

388.1651a Allocations for reimbursement to districts and intermediate districts for special education programs, services, and personnel, certain net tuition payments, and programs for pupils eligible for special education programs; allocation of state and federal funds; reimbursement; shortfall; adjustments; total approved costs; rights, benefits, and tenure of transferred personnel; refund; foundation allowance; order of expenditures; responsibility for added costs for pupil enrolled in public school academy which is outside intermediate school district where pupil resides.

Sec. 51a. (1) From the appropriation in section 11, there is allocated an amount not to exceed $952,569,100.00 for 2012-2013 and there is allocated an amount not to exceed $980,446,100.00 for 2013-2014 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at $365,000,000.00 for 2012-2013, and estimated at $370,000,000.00 for 2013-2014, plus any carryover federal funds from previous year appropriations. The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1766; net tuition payments made by intermediate districts to the Michigan schools for the deaf and blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals or other entities, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. All federal funds allocated under this section in excess of those allocated under this section for 2002-2003 may be distributed in accordance with the flexible funding provisions of the individuals with disabilities education act, Public Law 108-446, including, but not limited to, 34 CFR 300.206 and 300.208. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount necessary, estimated at $251,000,000.00 for 2012-2013, and estimated at $257,800,000.00 for 2013-2014, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection shall be made as follows:

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

(a) The initial amount allocated to a district under this subsection toward fulfilling the specified percentages shall be calculated by multiplying the district's special education pupil membership, excluding pupils described in subsection (11), times the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil calculated under section 20(6) or, for a pupil described in this subsection who is counted in membership in the education achievement system, times an amount equal to the amount per membership pupil under section 20(7). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages shall be an amount per special education membership pupil, excluding pupils described in subsection (11), and shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year.

(b) After the allocations under subdivision (a), districts and intermediate districts for which the payments calculated under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated each fiscal year for 2012-2013 and for 2013-2014 an amount not to exceed $1,000,000.00 to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations or services shall be made in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this article for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.

(5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed $3,500,000.00 may be allocated by the department each fiscal year for 2012-2013 and for 2013-2014 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed $2,200,000.00 each fiscal year for 2012-2013 and for 2013-2014 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

(7) For purposes of sections 51a to 58, all of the following apply:

(a) "Total approved costs of special education" shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for social security and medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not

utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis. This reimbursement shall not be made after 2014-2015.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c of the Michigan administrative code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.

(9) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.

(10) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at $4,300,000.00 for 2012-2013, and estimated at $4,300,000.00 for 2013-2014, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil under section 20(6) or, for a pupil described in this subsection who is

counted in membership in the education achievement system, times an amount equal to the amount per membership pupil under section 20(7). The allocation to an intermediate district under this subsection shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year. This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of community health.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the remaining expenditures from the allocation in subsection (1) shall be made in the following order:

(a) 100% of the reimbursement required under section 53a.

(b) 100% of the reimbursement required under subsection (6).

(c) 100% of the payment required under section 54.

(d) 100% of the payment required under subsection (3).

(e) 100% of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) shall be allocations to intermediate districts only and shall not be allocations to districts, but instead shall be calculations used only to determine the state payments under section 22b.

(14) If a public school academy enrolls pursuant to this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the provision of special education programs and services and the payment of the added costs of special education programs and services for the pupil are the responsibility of the district and intermediate district in which the pupil resides unless the enrolling district or intermediate district has a written agreement with the district or intermediate district in which the pupil resides or the public school academy for the purpose of providing the pupil with a free appropriate public education and the written agreement includes at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil.

388.1653a Special education programs and services; reimbursement of total approved costs; limitation; costs of transportation; allocation.

Sec. 53a. (1) For districts, reimbursement for pupils described in subsection (2) shall be 100% of the total approved costs of operating special education programs and services approved by the department and included in the intermediate district plan adopted pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766, minus the district's foundation allowance calculated under section 20. For intermediate districts, reimbursement for pupils described in subsection (2) shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year.

(2) Reimbursement under subsection (1) is for the following special education pupils:

(a) Pupils assigned to a district or intermediate district through the community placement program of the courts or a state agency, if the pupil was a resident of another intermediate district at the time the pupil came under the jurisdiction of the court or a state agency.

(b) Pupils who are residents of institutions operated by the department of community health.

(c) Pupils who are former residents of department of community health institutions for the developmentally disabled who are placed in community settings other than the pupil's home.

(d) Pupils enrolled in a department-approved on-grounds educational program longer than 180 days, but not longer than 233 days, at a residential child care institution, if the child care institution offered in 1991-92 an on-grounds educational program longer than 180 days but not longer than 233 days.

(e) Pupils placed in a district by a parent for the purpose of seeking a suitable home, if the parent does not reside in the same intermediate district as the district in which the pupil is placed.

(3) Only those costs that are clearly and directly attributable to educational programs for pupils described in subsection (2), and that would not have been incurred if the pupils were not being educated in a district or intermediate district, are reimbursable under this section.

(4) The costs of transportation shall be funded under this section and shall not be reimbursed under section 58.

(5) Not more than $13,500,000.00 of the allocation for 2011-2012 and for 2012-2013 in section 51a(1) shall be allocated for each fiscal year under this section.

388.1656 Definitions; reimbursement to intermediate districts levying millages for special education; limitation; distribution plan; computation; reimbursement equal to 2011-2012.

Sec. 56. (1) For the purposes of this section:

(a) "Membership" means for a particular fiscal year the total membership for the immediately preceding fiscal year of the intermediate district and the districts constituent to the intermediate district.

(b) "Millage levied" means the millage levied for special education pursuant to part 30 of the revised school code, MCL 380.1711 to 380.1743, including a levy for debt service obligations.

(c) "Taxable value" means the total taxable value of the districts constituent to an intermediate district, except that if a district has elected not to come under part 30 of the revised school code, MCL 380.1711 to 380.1743, membership and taxable value of the district shall not be included in the membership and taxable value of the intermediate district.

(2) From the allocation under section 51a(1), there is allocated an amount not to exceed $36,881,100.00 for

2012-2013 to reimburse intermediate districts levying millages for special education pursuant to part 30 of the revised school code, MCL 380.1711 to 380.1743. The purpose, use, and expenditure of the reimbursement shall be limited as if the funds were generated by these millages and governed by the intermediate district plan adopted pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. As a condition of receiving funds under this section, an intermediate district distributing any portion of special education millage funds to its constituent districts shall submit for departmental approval and implement a distribution plan.

(3) Reimbursement for those millages levied in 2010-2011 shall be made in 2011-2012 at an amount per 2010-2011 membership pupil computed by subtracting from $174,700.00 the 2010-2011 taxable value behind each membership pupil and multiplying the resulting difference by the 2010-2011 millage levied.

(4) For 2012-2013 only, reimbursement to each intermediate district shall be equal to its reimbursement under this section for 2011-2012.

388.1656.amended Definitions; reimbursement to intermediate districts levying millages for special education; limitation; distribution plan; computation; payments.

Sec. 56. (1) For the purposes of this section:

(a) "Membership" means for a particular fiscal year the total membership for the immediately preceding fiscal year of the intermediate district and the districts constituent to the intermediate district.

(b) "Millage levied" means the millage levied for special education pursuant to part 30 of the revised school code, MCL 380.1711 to 380.1743, including a levy for debt service obligations.

(c) "Taxable value" means the total taxable value of the districts constituent to an intermediate district, except that if a district has elected not to come under part 30 of the revised school code, MCL 380.1711 to 380.1743, membership and taxable value of the district shall not be included in the membership and taxable value of the intermediate district.

(2) From the allocation under section 51a(1), there is allocated an amount not to exceed $37,758,100.00 for 2013-2014 to reimburse intermediate districts levying millages for special education pursuant to part 30 of the revised school code, MCL 380.1711 to 380.1743. The purpose, use, and expenditure of the reimbursement shall be limited as if the funds were generated by these millages and governed by the intermediate district plan adopted pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. As a condition of receiving funds under this section, an intermediate district distributing any portion of special education millage funds to its constituent districts shall submit for departmental approval and implement a distribution plan.

(3) Reimbursement for those millages levied in 2012-2013 shall be made in 2013-2014 at an amount per 2012-2013 membership pupil computed by subtracting from $169,900.00 the 2012-2013 taxable value behind each membership pupil and multiplying the resulting difference by the 2012-2013 millage levied.

(4) The amount paid to a single intermediate district under this section shall not exceed 62.9% of the total amount allocated under subsection (2).

(5) The amount paid to a single intermediate district under this section shall not be less than 75% of the amount allocated to the intermediate district under this section for the immediately preceding fiscal year.

388.1661a Career and technical education programs; added cost; reimbursement.

Sec. 61a. (1) From the appropriation in section 11, there is allocated an amount not to exceed $26,611,300.00 for 2012-2013 to reimburse on an added cost basis districts, except for a district that served as the fiscal agent for a vocational education consortium in the 1993-94 school year, and secondary area vocational-technical education centers for secondary-level career and technical education programs according to rules approved by the superintendent. Applications for participation in the programs shall be submitted in the form prescribed by the department. The department shall determine the added cost for each career and technical education program area. The allocation of added cost funds shall be based on the type of career and technical education programs provided, the number of pupils enrolled, and the length of the training period provided, and shall not exceed 75% of the added cost of any program. With the approval of the department, the board of a district maintaining a secondary career and technical education program may offer the program for the period from the close of the school year until September 1. The program shall use existing facilities and shall be operated as prescribed by rules promulgated by the superintendent.

(2) Except for a district that served as the fiscal agent for a vocational education consortium in the 1993-94 school year, districts and intermediate districts shall be reimbursed for local career and technical education

388.1662 Definitions; vocational-technical education programs; limitation; allocation; distribution; reimbursement equal to 2011-2012.

Sec. 62. (1) For the purposes of this section:

(a) "Membership" means for a particular fiscal year the total membership for the immediately preceding fiscal year of the intermediate district and the districts constituent to the intermediate district or the total membership for the immediately preceding fiscal year of the area vocational-technical program.

(b) "Millage levied" means the millage levied for area vocational-technical education pursuant to sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, including a levy for debt service obligations incurred as the result of borrowing for capital outlay projects and in meeting capital projects fund requirements of area vocational-technical education.

(c) "Taxable value" means the total taxable value of the districts constituent to an intermediate district or area vocational-technical education program, except that if a district has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, the membership and taxable value of that district shall not be included in the membership and taxable value of the intermediate district. However, the membership and taxable value of a district that has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, shall be included in the membership and taxable value of the intermediate district if the district meets both of the following:

(*i*) The district operates the area vocational-technical education program pursuant to a contract with the intermediate district.

(*ii*) The district contributes an annual amount to the operation of the program that is commensurate with the revenue that would have been raised for operation of the program if millage were levied in the district for the program under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690.

(2) From the appropriation in section 11, there is allocated an amount not to exceed $9,000,000.00 for 2012-2013 to reimburse intermediate districts and area vocational-technical education programs established under section 690(3) of the revised school code, MCL 380.690, levying millages for area vocational-technical education pursuant to sections 681 to 690 of the revised school code, MCL 380.681 to 380.690. The purpose, use, and expenditure of the reimbursement shall be limited as if the funds were generated by those millages.

(3) Reimbursement for the millages levied in 2010-2011 shall be made in 2011-2012 at an amount per 2010-2011 membership pupil computed by subtracting from $190,400.00 the 2010-2011 taxable value behind each membership pupil and multiplying the resulting difference by the 2010-2011 millage levied.

(4) For 2012-2013 only, reimbursements to each intermediate district shall be equal to its reimbursement under this section for 2011-2012.

Sec. 62. (1) For the purposes of this section:

(a) "Membership" means for a particular fiscal year the total membership for the immediately preceding fiscal year of the intermediate district and the districts constituent to the intermediate district or the total membership for the immediately preceding fiscal year of the area vocational-technical program.

(b) "Millage levied" means the millage levied for area vocational-technical education pursuant to sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, including a levy for debt service obligations incurred as the result of borrowing for capital outlay projects and in meeting capital projects fund requirements of area vocational-technical education.

(c) "Taxable value" means the total taxable value of the districts constituent to an intermediate district or area vocational-technical education program, except that if a district has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, the membership and taxable value of that district shall not be included in the membership and taxable value of the intermediate district. However, the membership and taxable value of a district that has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, shall be included in the membership and taxable value of the intermediate district if the district meets both of the following:

(*i*) The district operates the area vocational-technical education program pursuant to a contract with the intermediate district.

(*ii*) The district contributes an annual amount to the operation of the program that is commensurate with the revenue that would have been raised for operation of the program if millage were levied in the district for the program under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690.

(2) From the appropriation in section 11, there is allocated an amount not to exceed $9,190,000.00 for 2013-2014 to reimburse intermediate districts and area vocational-technical education programs established under section 690(3) of the revised school code, MCL 380.690, levying millages for area vocational-technical education pursuant to sections 681 to 690 of the revised school code, MCL 380.681 to 380.690. The purpose,

388.1674 School bus driver safety instruction; cost of instruction and driver compensation; nonspecial education auxiliary services transportation; inspection costs.

Sec. 74. (1) From the amount appropriated in section 11, there is allocated an amount not to exceed $3,259,900.00 for 2012-2013 for the purposes of this section.

(2) From the allocation in subsection (1), there is allocated for each fiscal year the amount necessary for payments to state supported colleges or universities and intermediate districts providing school bus driver safety instruction pursuant to section 51 of the pupil transportation act, 1990 PA 187, MCL 257.1851. The payments shall be in an amount determined by the department not to exceed 75% of the actual cost of instruction and driver compensation for each public or nonpublic school bus driver attending a course of instruction. For the purpose of computing compensation, the hourly rate allowed each school bus driver shall not exceed the hourly rate received for driving a school bus. Reimbursement compensating the driver during the course of instruction shall be made by the department to the college or university or intermediate district providing the course of instruction.

(3) From the allocation in subsection (1), there is allocated each fiscal year the amount necessary to pay the reasonable costs of nonspecial education auxiliary services transportation provided pursuant to section 1323 of the revised school code, MCL 380.1323. Districts funded under this subsection shall not receive funding under any other section of this article for nonspecial education auxiliary services transportation.

(4) From the funds allocated in subsection (1), there is allocated an amount not to exceed $1,634,900.00 for 2012-2013 for reimbursement to districts and intermediate districts for costs associated with the inspection of school buses and pupil transportation vehicles by the department of state police as required under section

715a of the Michigan vehicle code, 1949 PA 300, MCL 257.715a, and section 39 of the pupil transportation act, 1990 PA 187, MCL 257.1839. The department of state police shall prepare a statement of costs attributable to each district for which bus inspections are provided and submit it to the department and to an intermediate district serving as fiduciary in a time and manner determined jointly by the department and the department of state police. Upon review and approval of the statement of cost, the department shall forward to the designated intermediate district serving as fiduciary the amount of the reimbursement on behalf of each district and intermediate district for costs detailed on the statement within 45 days after receipt of the statement. The designated intermediate district shall make payment in the amount specified on the statement to the department of state police within 45 days after receipt of the statement. The total reimbursement of costs under this subsection shall not exceed the amount allocated under this subsection. Notwithstanding section 17b, payments to eligible entities under this subsection shall be paid on a schedule prescribed by the department.

Compiler's note: In his veto message relative to Enrolled House Bill 4572, which became Act 118 of 1991, the governor stated that "the tradition of not re-enacting annually the unchanged appropriation sections of the school aid act is constitutionally flawed. It assumes the invalid creation of a continuing appropriation. Therefore, the following sections of the school aid act and their associated allocations must be considered inoperative: 24, 55, 74, 75, 105a, 111, and 116. These sections will be treated as excluded from the current bill... ."

In subsection (1), as amended by Act 121 of 2001, the phrase "and for 2002-2003" was vetoed by the governor September 28, 2001.

Enacting section 3 of Act 521 of 2002 provides:

"Enacting section 3. This amendatory act does not take effect unless the tax on cigarettes under the tobacco products tax act, 1993 PA 327, MCL 205.421 to 205.436, is increased by 50 cents or more per pack of cigarettes (25 mills per cigarette) effective on or before September 30, 2002 and the revenue from not less than 20 cents per pack of cigarettes (10 mills per cigarette) of that increase is dedicated by law for deposit into the state school aid fund established by section 11 of article IX of the state constitution of 1963."

For legislation increasing tax on cigarettes and dedicating a portion of increased revenue to state school aid fund, see 2002 PA 503, Imd. Eff. July 18, 2002.

Enacting section 1 of Act 351 of 2004 provides:

"Enacting section 1. 388.1681 Allocations to intermediate districts; amounts; expanded professional development opportunities for teachers; consolidated, annexed, or attached districts; duties of intermediate district; best practices incentive payment.

Sec. 81. (1) Except as otherwise provided in this section, from the appropriation in section 11, there is allocated each fiscal year for 2012-2013 and for 2013-2014 to the intermediate districts the sum necessary, but not to exceed $64,115,100.00 each fiscal year, to provide state aid to intermediate districts under this section.

(2) From the allocation in subsection (1), there is allocated an amount not to exceed $62,108,000.00 for allocations to each intermediate district for 2012-2013 in an amount equal to 100% of the amount allocated to the intermediate district under this subsection for 2011-2012. From the allocation in subsection (1), there is allocated an amount not to exceed $62,108,000.00 for allocations to each intermediate district for 2013-2014 in an amount equal to 100.0% of the amount allocated to the intermediate district under this subsection for 2012-2013. Funding provided under this section shall be used to comply with requirements of this article and the revised school code that are applicable to intermediate districts, and for which funding is not provided elsewhere in this article, and to provide technical assistance to districts as authorized by the intermediate school board.

(3) Intermediate districts receiving funds under subsection (2) shall collaborate with the department to develop expanded professional development opportunities for teachers to update and expand their knowledge and skills needed to support the Michigan merit curriculum.

(4) From the allocation in subsection (1), there is allocated to an intermediate district, formed by the consolidation or annexation of 2 or more intermediate districts or the attachment of a total intermediate district to another intermediate school district or the annexation of all of the constituent K-12 districts of a previously existing intermediate school district which has disorganized, an additional allotment of $3,500.00 each fiscal year for each intermediate district included in the new intermediate district for 3 years following consolidation, annexation, or attachment. From the allocation in subsection (1), there is allocated $7,000.00 for purposes of this subsection for 2012-2013, for 2013-2014, and for 2014-2015, after which the payment under this subsection will cease.

(5) In order to receive funding under subsection (2), an intermediate district shall do all of the following:

(a) Demonstrate to the satisfaction of the department that the intermediate district employs at least 1 person who is trained in pupil accounting and auditing procedures, rules, and regulations.

(b) Demonstrate to the satisfaction of the department that the intermediate district employs at least 1 person

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

who is trained in rules, regulations, and district reporting procedures for the individual-level student data that serves as the basis for the calculation of the district and high school graduation and dropout rates.

(c) Comply with sections 1278a and 1278b of the revised school code, MCL 380.1278a and 380.1278b.

(d) Furnish data and other information required by state and federal law to the center and the department in the form and manner specified by the center or the department, as applicable.

(e) Comply with section 1230g of the revised school code, MCL 380.1230g.

(f) Comply with section 761 of the revised school code, MCL 380.761.

(6) From the allocation in subsection (1), there is allocated an amount not to exceed $2,000,000.00 for 2012-2013 for an incentive payment to each intermediate district that meets best practices as determined by the department under this subsection. The amount of the incentive payment is an amount equal to 3.2% of the amount allocated to the intermediate district under subsection (2). An intermediate district is eligible for an incentive payment under this subsection if the intermediate district satisfies at least 4 of the following requirements not later than June 1, 2013:

(a) The intermediate district enters into an agreement with the department to do all of the following:

(*i*) Develop a service consolidation plan in 2012-2013 to reduce operating costs that is in compliance with guidelines that were developed by the department for former section 11d as that section was in effect for 2010-2011.

(*ii*) Implement the service consolidation plan in 2013-2014 and report to the department not later than February 1, 2014 on the intermediate district's progress in implementing the service consolidation plan.

(b) The intermediate district has obtained competitive bids on the provision of 1 or more noninstructional services for the intermediate district or its constituent districts with a value of at least $50,000.00.

(c) The intermediate district develops a technology plan in accordance with department policy on behalf of all constituent districts within the intermediate district that integrates technology into the classroom and prepares teachers to use digital technologies as part of the instructional program of each of its constituent districts.

(d) The intermediate district provides to parents and community members a dashboard or report card demonstrating the intermediate district's efforts to manage its finances responsibly. The dashboard or report card shall include at least all of the following for the 3 most recent school years for which the data are available:

(*i*) A list of services offered by the intermediate district that are shared by other local or intermediate districts and a list of the districts or intermediate districts that participate.

(*ii*) The total cost savings to local or other intermediate districts that share services with the intermediate district.

(*iii*) The number and percentage of teachers in the intermediate district service area that are trained to integrate technology into the classroom.

(*iv*) The total funds received from levying special education and vocational education millages, and the number of special education and vocational education pupils served with those dollars.

(*v*) The number and percentage of individualized education programs developed for special education pupils that contain academic goals.

(e) The intermediate district works in a consortium with 1 or more other intermediate districts to develop information management system requirements and bid specifications that can be used as statewide models. At a minimum, these specifications shall include pupil management systems for both general and special education, learning management tools, and business services.

(7) From the allocation in subsection (1), there is allocated an amount not to exceed $2,000,000.00 for 2013-2014 for an incentive payment to each intermediate district that meets best practices as determined by the department under this subsection. The amount of the incentive payment is an amount equal to 3.2% of the amount allocated to the intermediate district under subsection (2). An intermediate district is eligible for an incentive payment under this subsection if the intermediate district satisfies at least 5 of the following requirements not later than June 1, 2014:

(a) The intermediate district enters into an agreement with the department to comply with all of the following:

(*i*) If the intermediate district developed a service consolidation plan in 2012-2013, implement the service consolidation plan in 2013-2014 and report to the department not later than February 1, 2014 on the intermediate district's progress in implementing the service consolidation plan.

(*ii*) If the intermediate district did not develop a service consolidation plan in 2012-2013, develop a service consolidation plan in 2013-2014 to reduce operating costs that is in compliance with guidelines that were developed by the department for former section 11d as that section was in effect for 2010-2011.

(*iii*) If the intermediate district developed a service consolidation plan in 2013-2014, implement the service

consolidation plan in 2014-2015 and report to the department not later than February 1, 2015 on the intermediate district's progress in implementing the service consolidation plan.

(*iv*) Make the intermediate district's service consolidation plan publicly available on the intermediate district's website.

(b) The intermediate district has obtained competitive bids on the provision of 1 or more noninstructional services for the intermediate district or its constituent districts with a value of at least $50,000.00. The unfunded accrued liability costs for retirement and other benefits shall be excluded from the intermediate district's current costs for the purpose of comparing competitive bids to the current costs of providing services.

(c) The intermediate district develops a technology plan in accordance with department policy on behalf of all constituent districts within the intermediate district that integrates technology into the classroom and prepares teachers to use digital technologies as part of the instructional program of each of its constituent districts. An intermediate district that developed a technology plan in 2012-2013 shall begin implementing that technology plan in 2013-2014.

(d) The intermediate district provides to parents and community members a dashboard or report card demonstrating the intermediate district's efforts to manage its finances responsibly. The dashboard or report card shall include revenue and expenditure projections for the intermediate district for 2013-2014 and 2014-2015, a listing of all debt service obligations, detailed by project, including anticipated 2013-2014 payment for each project, a listing of total outstanding debt, and at least all of the following for the 3 most recent school years for which the data are available:

(*i*) A list of services offered by the intermediate district that are shared by other local or intermediate districts and a list of the districts or intermediate districts that participate.

(*ii*) The total cost savings to local or other intermediate districts that share services with the intermediate district.

(*iii*) The number and percentage of teachers in the intermediate district service area that are trained to integrate technology into the classroom.

(*iv*) The total funds received from levying special education and vocational education millages, and the number of special education and vocational education pupils served with those dollars.

(*v*) The number and percentage of individualized education programs developed for special education pupils that contain academic goals.

(e) The intermediate district works in a consortium with 1 or more other intermediate districts and the center to develop local information management system requirements and bid specifications that result in a recommended model information system that supports interoperability to ensure linkage and connectivity in a manner that facilitates the efficient exchange of data among districts, intermediate districts, and the center. At a minimum, these specifications shall include pupil management systems for both general and special education, learning management tools, and business services.

(f) If an intermediate district provides medical, pharmacy, dental, vision, disability, long-term care, or any other type of benefit that would constitute a health care services benefit, to employees and their dependents, the intermediate district is the policyholder for each of its insurance policies that covers 1 or more of these benefits. An intermediate district that does not directly employ its staff or an intermediate district with a voluntary employee beneficiary association that pays no more than the maximum per employee contribution amount and that contributes no more than the maximum employer contribution percentage of total annual costs for the medical benefit plans as described in sections 3 and 4 of the publicly funded health insurance contribution act, 2011 PA 152, MCL 15.563 and 15.564, is considered to have satisfied this requirement.

Compiler's note: Subsection (3) of Sec. 81, as amended by Act 128 of 1987, was vetoed by the governor on July 24, 1987.

Sec. 81, as amended by Act 212 of 1986, did not have a subsection (3).

Section 2 of Act 220 of 1987 provides: "In accordance with the provisions of section 30 of article IX of the state constitution of 1963, total state spending in this amendatory act is $2,334,299,200.00 and state appropriations to be paid to local units of government are $2,005,216,000.00."

Section 4 of Act 220 of 1987 provides: "The changes effected by this amendatory act shall be applied retroactively to October 1, 1987."

Subsection (3) of Sec. 81, as amended by Act 118 of 1991, was vetoed by the governor on October 11, 1991. Subsection (3) of Sec. 81, as amended by Act 207 of 1990, is set forth in the text of Sec. 81 above.

In the first sentence of subsection (1), as amended by Act 121 of 2001, the phrases "and for 2002-2003" and "and not to exceed $95,028,100.00 for 2002-2003" were vetoed by the governor September 28, 2001.

The fourth sentence of subsection (1), as amended by Act 121 of 2001, and which read "Except as otherwise provided in this section, there shall be allocated to each intermediate district for 2002-2003 an amount equal to 103.1% of the amount of funding actually received by the intermediate district under this subsection for 2001-2002.", was vetoed by the governor September 28, 2001.

In the second sentence of subsection (3), as amended by Act 121 of 2001, the phrase "and for 2002-2003" was vetoed by the governor September 28, 2001.

In the first sentence of subsection (5), as amended by Act 121 of 2001, the phrase "and an amount not to exceed $940,000.00 for 2002-2003" was vetoed by the governor September 28, 2001.

Enacting section 3 of Act 521 of 2002 provides:

"Enacting section 3. This amendatory act does not take effect unless the tax on cigarettes under the tobacco products tax act, 1993 PA 327, MCL 205.421 to 205.436, is increased by 50 cents or more per pack of cigarettes (25 mills per cigarette) effective on or before September 30, 2002 and the revenue from not less than 20 cents per pack of cigarettes (10 mills per cigarette) of that increase is dedicated by law for deposit into the state school aid fund established by section 11 of article IX of the state constitution of 1963."

For legislation increasing tax on cigarettes and dedicating a portion of increased revenue to state school aid fund, see 2002 PA 503, Imd. Eff. July 18, 2002.

388.1694a Center for educational performance and information.

Sec. 94a. (1) There is created within the state budget office in the department of technology, management, and budget the center for educational performance and information. The center shall do all of the following:

(a) Coordinate the collection of all data required by state and federal law from districts, intermediate districts, and postsecondary institutions.

(b) Create, maintain, and enhance this state's P-20 longitudinal data system and ensure that it meets the requirements of subsection (4).

(c) Collect data in the most efficient manner possible in order to reduce the administrative burden on reporting entities, including, but not limited to, electronic transcript services.

(d) Create, maintain, and enhance this state's web-based educational portal to provide information to school leaders, teachers, researchers, and the public in compliance with all federal and state privacy laws. Data shall include, but are not limited to, all of the following:

(*i*) Data sets that link teachers to student information, allowing districts to assess individual teacher impact on student performance and consider student growth factors in teacher and principal evaluation systems.

(*ii*) Data access or, if practical, data sets, provided for regional data warehouses that, in combination with local data, can improve teaching and learning in the classroom.

(*iii*) Research-ready data sets for researchers to perform research that advances this state's educational performance.

(e) Provide data in a useful manner to allow state and local policymakers to make informed policy decisions.

(f) Provide public reports to the citizens of this state to allow them to assess allocation of resources and the return on their investment in the education system of this state.

(g) Other functions as assigned by the state budget director.

(2) Each state department, officer, or agency that collects information from districts, intermediate districts, or postsecondary institutions as required under state or federal law shall make arrangements with the center to ensure that the state department, officer, or agency is in compliance with subsection (1). This subsection does not apply to information collected by the department of treasury under the uniform budgeting and accounting act, 1968 PA 2, MCL 141.421 to 141.440a; the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821; the school bond qualification, approval, and loan act, 2005 PA 92, MCL 388.1921 to 388.1939; or section 1351a of the revised school code, MCL 380.1351a.

(3) The center may enter into any interlocal agreements necessary to fulfill its functions.

(4) The center shall ensure that the P-20 longitudinal data system required under subsection (1)(b) meets all of the following:

(a) Includes data at the individual student level from preschool through postsecondary education and into the workforce.

(b) Supports interoperability by using standard data structures, data formats, and data definitions to ensure linkage and connectivity in a manner that facilitates the exchange of data among agencies and institutions within the state and between states.

(c) Enables the matching of individual teacher and student records so that an individual student may be matched with those teachers providing instruction to that student.

(d) Enables the matching of individual teachers with information about their certification and the institutions that prepared and recommended those teachers for state certification.

(e) Enables data to be easily generated for continuous improvement and decision-making, including timely reporting to parents, teachers, and school leaders on student achievement.

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

(f) Ensures the reasonable quality, validity, and reliability of data contained in the system.

(g) Provides this state with the ability to meet federal and state reporting requirements.

(h) For data elements related to preschool through grade 12 and postsecondary, meets all of the following:

(*i*) Contains a unique statewide student identifier that does not permit a student to be individually identified by users of the system, except as allowed by federal and state law.

(*ii*) Contains student-level enrollment, demographic, and program participation information.

(*iii*) Contains student-level information about the points at which students exit, transfer in, transfer out, drop out, or complete education programs.

(*iv*) Has the capacity to communicate with higher education data systems.

(i) For data elements related to preschool through grade 12 only, meets all of the following:

(*i*) Contains yearly test records of individual students for assessments approved by DED-OESE for accountability purposes under section 1111(b) of the elementary and secondary education act of 1965, 20 USC 6311, including information on individual students not tested, by grade and subject.

(*ii*) Contains student-level transcript information, including information on courses completed and grades earned.

(*iii*) Contains student-level college readiness test scores.

(j) For data elements related to postsecondary education only:

(*i*) Contains data that provide information regarding the extent to which individual students transition successfully from secondary school to postsecondary education, including, but not limited to, all of the following:

(A) Enrollment in remedial coursework.

(B) Completion of 1 year's worth of college credit applicable to a degree within 2 years of enrollment.

(*ii*) Contains data that provide other information determined necessary to address alignment and adequate preparation for success in postsecondary education.

(5) From the general fund appropriation in section 11, there is allocated an amount not to exceed $9,218,400.00 for 2012-2013 to the department of technology, management, and budget to support the operations of the center. In addition, from the federal funds appropriated in section 11 there is allocated for 2012-2013 the amount necessary, estimated at $193,500.00 for 2012-2013, to support the operations of the center and to establish a P-20 longitudinal data system as provided under this section in compliance with the assurance provided to the United States department of education in order to receive state fiscal stabilization funds. The center shall cooperate with the department to ensure that this state is in compliance with federal law and is maximizing opportunities for increased federal funding to improve education in this state.

(6) From the funds allocated in subsection (5), there is allocated for 2012-2013 an amount not to exceed $850,000.00 for competitive grants to support collaborative efforts on the P-20 longitudinal data system. All of the following apply to grants awarded under this subsection:

(a) The center shall award competitive grants to eligible intermediate districts or a consortium of intermediate districts based on criteria established by the center.

(b) Activities funded under the grant shall support the P-20 longitudinal data system portal and may include portal hosting, hardware and software acquisition, maintenance, enhancements, user support and related materials, and professional learning tools and activities aimed at improving the utility of the P-20 longitudinal data system.

(c) An applicant that received a grant under this subsection for the immediately preceding fiscal year shall receive priority for funding under this section. However, after 3 fiscal years of continuous funding, an applicant is required to compete openly with new applicants.

(7) Funds allocated under this section that are not expended in the fiscal year in which they were allocated may be carried forward to a subsequent fiscal year and are appropriated for the purposes for which the funds were originally allocated.

(8) The center may bill departments as necessary in order to fulfill reporting requirements of state and federal law. The center may also enter into agreements to supply custom data, analysis, and reporting to other principal executive departments, state agencies, local units of government, and other individuals and organizations. The center may receive and expend funds in addition to those authorized in subsection (5) to cover the costs associated with salaries, benefits, supplies, materials, and equipment necessary to provide such data, analysis, and reporting services.

(9) As used in this section:

(a) "DED-OESE" means the United States department of education office of elementary and secondary education.

(b) "State education agency" means the department.

388.1694a.amended Center for educational performance and information.

Sec. 94a. (1) There is created within the state budget office in the department of technology, management, and budget the center for educational performance and information. The center shall do all of the following:

(a) Coordinate the collection of all data required by state and federal law from districts, intermediate districts, and postsecondary institutions.

(b) Create, maintain, and enhance this state's P-20 longitudinal data system and ensure that it meets the requirements of subsection (4).

(c) Collect data in the most efficient manner possible in order to reduce the administrative burden on

reporting entities, including, but not limited to, electronic transcript services.

(d) Create, maintain, and enhance this state's web-based educational portal to provide information to school leaders, teachers, researchers, and the public in compliance with all federal and state privacy laws. Data shall include, but are not limited to, all of the following:

(*i*) Data sets that link teachers to student information, allowing districts to assess individual teacher impact on student performance and consider student growth factors in teacher and principal evaluation systems.

(*ii*) Data access or, if practical, data sets, provided for regional data warehouses that, in combination with local data, can improve teaching and learning in the classroom.

(*iii*) Research-ready data sets for researchers to perform research that advances this state's educational performance.

(e) Provide data in a useful manner to allow state and local policymakers to make informed policy decisions.

(f) Provide public reports to the citizens of this state to allow them to assess allocation of resources and the return on their investment in the education system of this state.

(g) Other functions as assigned by the state budget director.

(2) Each state department, officer, or agency that collects information from districts, intermediate districts, or postsecondary institutions as required under state or federal law shall make arrangements with the center to ensure that the state department, officer, or agency is in compliance with subsection (1). This subsection does not apply to information collected by the department of treasury under the uniform budgeting and accounting act, 1968 PA 2, MCL 141.421 to 141.440a; the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821; the school bond qualification, approval, and loan act, 2005 PA 92, MCL 388.1921 to 388.1939; or section 1351a of the revised school code, MCL 380.1351a.

(3) The center may enter into any interlocal agreements necessary to fulfill its functions.

(4) The center shall ensure that the P-20 longitudinal data system required under subsection (1)(b) meets all of the following:

(a) Includes data at the individual student level from preschool through postsecondary education and into the workforce.

(b) Supports interoperability by using standard data structures, data formats, and data definitions to ensure linkage and connectivity in a manner that facilitates the exchange of data among agencies and institutions within the state and between states.

(c) Enables the matching of individual teacher and student records so that an individual student may be matched with those teachers providing instruction to that student.

(d) Enables the matching of individual teachers with information about their certification and the institutions that prepared and recommended those teachers for state certification.

(e) Enables data to be easily generated for continuous improvement and decision-making, including timely reporting to parents, teachers, and school leaders on student achievement.

(f) Ensures the reasonable quality, validity, and reliability of data contained in the system.

(g) Provides this state with the ability to meet federal and state reporting requirements.

(h) For data elements related to preschool through grade 12 and postsecondary, meets all of the following:

(*i*) Contains a unique statewide student identifier that does not permit a student to be individually identified by users of the system, except as allowed by federal and state law.

(*ii*) Contains student-level enrollment, demographic, and program participation information.

(*iii*) Contains student-level information about the points at which students exit, transfer in, transfer out, drop out, or complete education programs.

(*iv*) Has the capacity to communicate with higher education data systems.

(i) For data elements related to preschool through grade 12 only, meets all of the following:

(*i*) Contains yearly test records of individual students for assessments approved by DED-OESE for accountability purposes under section 1111(b) of the elementary and secondary education act of 1965, 20 USC 6311, including information on individual students not tested, by grade and subject.

(*ii*) Contains student-level transcript information, including information on courses completed and grades earned.

(*iii*) Contains student-level college readiness test scores.

(j) For data elements related to postsecondary education only:

(*i*) Contains data that provide information regarding the extent to which individual students transition successfully from secondary school to postsecondary education, including, but not limited to, all of the following:

(A) Enrollment in remedial coursework.

(B) Completion of 1 year's worth of college credit applicable to a degree within 2 years of enrollment.

(*ii*) Contains data that provide other information determined necessary to address alignment and adequate preparation for success in postsecondary education.

(5) From the general fund appropriation in section 11, there is allocated an amount not to exceed $9,535,100.00 for 2013-2014 to the department of technology, management, and budget to support the operations of the center. In addition, from the federal funds appropriated in section 11 there is allocated for 2013-2014 the amount necessary, estimated at $193,500.00, to support the operations of the center and to establish a P-20 longitudinal data system as provided under this section in compliance with the assurance provided to the United States department of education in order to receive state fiscal stabilization funds. The center shall cooperate with the department to ensure that this state is in compliance with federal law and is maximizing opportunities for increased federal funding to improve education in this state.

(6) From the funds allocated in subsection (5), there is allocated for 2013-2014 an amount not to exceed $850,000.00 for competitive grants to support collaborative efforts on the P-20 longitudinal data system. All of the following apply to grants awarded under this subsection:

(a) The center shall award competitive grants to eligible intermediate districts or a consortium of intermediate districts based on criteria established by the center.

(b) Activities funded under the grant shall support the P-20 longitudinal data system portal and may include portal hosting, hardware and software acquisition, maintenance, enhancements, user support and related materials, and professional learning tools and activities aimed at improving the utility of the P-20 longitudinal data system.

(c) An applicant that received a grant under this subsection for the immediately preceding fiscal year shall receive priority for funding under this section. However, after 3 fiscal years of continuous funding, an applicant is required to compete openly with new applicants.

(7) From the funds allocated in subsection (5), there is allocated for 2013-2014 an amount not to exceed $100,000.00 for the center to develop the pupil transfer application as required under section 25e.

(8) Funds allocated under this section that are not expended in the fiscal year in which they were allocated may be carried forward to a subsequent fiscal year and are appropriated for the purposes for which the funds were originally allocated.

(9) It is the intent of the legislature that, beginning in 2014-2015, a district shall report to the center by June 30, in a manner prescribed by the center, the number of pupils in the district who have had 10 or more unexcused absences each school year. For pupils in grades 9 to 12, the report shall include both the total number of unexcused absences in any single course and the total number of unexcused absences in all courses. Each district shall define unexcused absence. It is the intent of the legislature that a district that reports false information under this subsection shall forfeit an amount equal to 5% of its total state aid allocation under this act.

(10) The center may bill departments as necessary in order to fulfill reporting requirements of state and federal law. The center may also enter into agreements to supply custom data, analysis, and reporting to other principal executive departments, state agencies, local units of government, and other individuals and organizations. The center may receive and expend funds in addition to those authorized in subsection (5) to cover the costs associated with salaries, benefits, supplies, materials, and equipment necessary to provide such data, analysis, and reporting services.

(11) As used in this section:

(a) "DED-OESE" means the United States department of education office of elementary and secondary education.

(b) "State education agency" means the department.

388.1695 Professional development for principals and assistant principals.

Sec. 95. (1) From the funds appropriated in section 11, there is allocated an amount not to exceed $1,750,000.00 for 2012-2013 and there is allocated an amount not to exceed $500,000.00 for 2013-2014 for grants to districts to support professional development for principals and assistant principals in a department-approved training program for implementing educator evaluations as required under section 1249 of the revised school code, MCL 380.1249.

(2) The funds allocated under this section are a work project appropriation, and any unexpended funds for 2012-2013 are carried forward into 2013-2014. The purpose of the work project is to continue to implement the projects described under subsection (1). The estimated completion date of the work project is September 30, 2014.

(3) For 2012-2013, all districts may apply for funding under this section by a date determined by the department. Beginning in 2013-2014, in a form and manner determined by the department, priority will be given to districts that have new building administrators who have not previously received training in programs funded under this section.

(4) The department shall approve training programs for the purpose of this section. The department shall approve all training programs recommended by the council on educator effectiveness and may approve other training programs that meet department criteria. At a minimum, these other programs shall meet all of the following criteria:

(a) Contain instructional content on methods of evaluating teachers consistently across multiple grades and subjects.

(b) Include training on evaluation observation that is focused on reliability and bias awareness and that instills skills needed for consistent, evidence-based observations.

(c) Incorporate the use of videos of actual lessons for applying rubrics and consistent scoring.

(d) Align with recommendations of the council on educator effectiveness.

(e) Provide ongoing support to maintain inter-rater reliability. As used in this subdivision, "inter-rater reliability" means a consistency of measurement from different evaluators independently applying the same evaluation criteria to the same classroom observation.

(5) The department shall award grants to eligible districts in an amount determined by the department, but not to exceed $350.00 per participant.

(6) A district receiving funds under this section shall use the funds only for department-approved training programs under this section.

388.1698 Michigan virtual university; Michigan virtual school; pilot study of new performance-based funding model; online course offerings; home-schooled or nonpublic school student; report; definitions.

Sec. 98. (1) From the general fund money appropriated in section 11, there is allocated an amount not to exceed $4,387,500.00 for 2012-2013 for the purposes described in this section.

(2) The Michigan virtual university shall establish the center for online learning research and innovation. The center for online learning research and innovation shall do all of the following:

(a) Support and accelerate innovation in education through the following activities:

(*i*) Test, evaluate, and recommend as appropriate new technology-based instructional tools and resources.

(*ii*) Research, design, and recommend online and blended education delivery models for use by pupils and teachers that include age-appropriate multimedia instructional content.

(*iii*) Research, design, and recommend competency-based online assessments.

(*iv*) Research, develop, and recommend annually to the department criteria by which cyber schools and online course providers should be monitored and evaluated to ensure a quality education for their pupils.

(*v*) Based on pupil completion and performance data reported to the department or the center for educational performance and information from cyber schools and other online course providers operating in this state, analyze the effectiveness of online learning delivery models in preparing pupils to be college- and career-ready and publish a report that highlights enrollment totals, completion rates, and the overall impact on pupils. The report shall be submitted to the house and senate appropriations subcommittees on state school aid, the state budget director, the house and senate fiscal agencies, and the department not later than December 31, 2013.

(*vi*) Design professional development services for teachers, school administrators, and school board members to learn how to effectively integrate new technologies and online learning into curricula and instruction.

(*vii*) Identify and share best practices for implementing online and blended education delivery models with intermediate districts, districts, and public school academies to accelerate the adoption of innovative education delivery models statewide.

(b) Provide leadership for this state's system of online and blended learning education by doing the following activities:

(*i*) Develop and report policy recommendations to the governor and the legislature that accelerate the expansion of effective online learning in this state's schools.

(*ii*) Provide a clearinghouse for research reports, academic studies, evaluations, and other information related to online learning.

(*iii*) Promote and distribute the most current instructional design standards and guidelines for online teaching.

(*iv*) In collaboration with the department and interested colleges and universities in this state, recommend

to the superintendent guidelines and standards for a new teacher endorsement credential related to effective online and blended instruction.

(*v*) Pursue public/private partnerships that include districts to study and implement competency-based technology-rich online learning models.

(*vi*) Convene focus groups and conduct annual surveys of teachers, administrators, pupils, parents, and others to identify barriers and opportunities related to online learning.

(*vii*) Produce an annual consumer awareness report for schools and parents about effective online education providers and education delivery models, performance data, cost structures, and research trends.

(3) Subject to the provisions of this subsection, from the funds allocated in subsection (1), there is allocated an amount not to exceed $500,000.00 for 2012-2013 to the Michigan virtual school operated by the Michigan virtual university to conduct and report on a year-long pilot study of a new performance-based funding model for the Michigan virtual school. The purpose of the pilot study is to determine the merits of a payment system for online instructional programs based on pupil performance rather than solely on enrollment and attendance factors. All of the following apply to the pilot study and the funding under this subsection:

(a) The Michigan virtual school shall randomly select a minimum of 1,000 of its qualifying online course enrollments for inclusion in the pilot study. The Michigan virtual school shall issue a refund or credit to districts for all online course enrollments included in the pilot study.

(b) The Michigan virtual school shall report to the department the number of online course enrollments in the pilot study that meet the following conditions:

(*i*) The pupil successfully completed the online course as measured by assessments aligned to the course content and earned a grade or credit from the district or public school academy in which the pupil is enrolled.

(*ii*) The online course is taught by a Michigan certificated teacher certified in the subject area in which the course is being offered.

(*iii*) Where applicable, the online course is aligned with Michigan curriculum standards.

(*iv*) The online course curriculum contains periodic online pupil assessments.

(*v*) Pupils have access to the appropriate technology hardware and software necessary to take the online course.

(*vi*) Parents or guardians and pupils have secure online access to review periodic pupil progress and performance data.

(*vii*) The online instructor is available to interact with parents or guardians and pupils using electronic communications.

(c) The department shall pay to Michigan virtual school from the funding under this subsection an amount not to exceed the equivalent of 1/12 of the state's minimum per pupil foundation allowance for each online course enrollment included in the pilot study that meets the conditions of subdivision (b) in the next school aid payment after the report is received by the department.

(4) In order for the Michigan virtual university to receive any funds allocated under this section, the Michigan virtual school must maintain its accreditation status from recognized national and international accrediting entities.

(5) The Michigan virtual school may offer online course offerings in addition to those offered in the pilot study described in subsection (3), including, but not limited to, all of the following:

(a) Information technology courses.

(b) College level equivalent courses, as defined in section 1471 of the revised school code, MCL 380.1471.

(c) Courses and dual enrollment opportunities.

(d) Programs and services for at-risk pupils.

(e) General education development test preparation courses for adjudicated youth.

(f) Special interest courses.

(g) Professional development programs for teachers, school administrators, other school employees, and school board members.

(6) If a home-schooled or nonpublic school student is a resident of a district that subscribes to services provided by the Michigan virtual school, the student may use the services provided by the Michigan virtual school to the district without charge to the student beyond what is charged to a district pupil using the same services.

(7) Not later than December 1 of each fiscal year, the Michigan virtual university shall provide a report to the house and senate appropriations subcommittees on state school aid, the state budget director, the house and senate fiscal agencies, and the department that includes at least all of the following information related to the Michigan virtual school for the preceding state fiscal year:

(a) A list of the districts served by the Michigan virtual school.

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

(b) A list of online course titles available to districts.

(c) The total number of online course enrollments and information on registrations and completions by course.

(d) The overall course completion rate percentage.

(e) An analysis of the results of the pilot study described in subsection (3), including, but not limited to:

(*i*) A list of the districts that were selected to be part of the pilot study.

(*ii*) The number of successful online course completions.

(*iii*) A list of the courses offered in the pilot study and the completion rates for each course.

(*iv*) Identification of opportunities and barriers that must be addressed in order to apply online learning performance funding based on successful completions rather than enrollment and attendance for online learning offerings statewide.

(8) The governor may appoint an advisory group for the center for online learning research and innovation established under subsection (2). The members of the advisory group shall serve at the pleasure of the governor and shall serve without compensation. The purpose of the advisory group is to make recommendations to the governor, the legislature, and the president and board of the Michigan virtual university that will accelerate innovation in this state's education system in a manner that will prepare elementary and secondary students to be career and college ready and that will promote the goal of increasing the percentage of citizens of this state with high-quality degrees and credentials to at least 60% by 2025.

(9) As used in this section:

(a) "Blended learning" means a hybrid instructional delivery model where pupils are provided face-to-face instruction, in part at a supervised school facility away from home and in part through computer-based and internet-connected learning environments with some degree of pupil control over time, location, and pace of instruction.

(b) "Cyber school" means a full-time online instructional program for pupils that may or may not require attendance at a physical school location.

(c) "Online instructional program" means a course of study that generates a credit or a grade, provided in an interactive computer-based and internet-connected learning environment, in which pupils are separated from their teachers by time or location, or both, and in which a Michigan certificated teacher is responsible for providing direct instruction, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies, reporting outcomes, and evaluating the effects of instruction and support strategies.

Sec. 98. (1) From the general fund money appropriated in section 11, there is allocated an amount not to exceed $9,387,500.00 for 2013-2014 for the purposes described in this section.

(2) The Michigan virtual university shall operate the Michigan virtual learning research institute. The Michigan virtual learning research institute shall do all of the following:

(a) Support and accelerate innovation in education through the following activities:

(*i*) Test, evaluate, and recommend as appropriate new technology-based instructional tools and resources.

(*ii*) Research, design, and recommend digital education delivery models for use by pupils and teachers that include age-appropriate multimedia instructional content.

(*iii*) Research, design, and recommend competency-based online assessments.

(*iv*) Research, develop, and recommend annually to the department criteria by which cyber schools and online course providers should be monitored and evaluated to ensure a quality education for their pupils.

(*v*) Based on pupil completion and performance data reported to the department or the center for educational performance and information from cyber schools and other online course providers operating in this state, analyze the effectiveness of online learning delivery models in preparing pupils to be college- and career-ready and publish a report that highlights enrollment totals, completion rates, and the overall impact on pupils. The report shall be submitted to the house and senate appropriations subcommittees on state school aid, the state budget director, the house and senate fiscal agencies, and the department not later than December 1, 2014.

(*vi*) Before August 31, 2014, provide an extensive professional development program to at least 500 educational personnel, including teachers, school administrators, and school board members, that focuses on the effective integration of digital learning into curricula and instruction. Not later than December 1, 2014, the Michigan virtual learning research institute shall submit a report to the house and senate appropriations subcommittees on state school aid, the state budget director, the house and senate fiscal agencies, and the department on the number and percentage of teachers, school administrators, and school board members who have received professional development services from the Michigan virtual university. The report shall also identify barriers and other opportunities to encourage the adoption of digital learning in the public education system.

(*vii*) Identify and share best practices for planning, implementing, and evaluating online and blended education delivery models with intermediate districts, districts, and public school academies to accelerate the adoption of innovative education delivery models statewide.

(b) Provide leadership for this state's system of digital learning education by doing the following activities:

(*i*) Develop and report policy recommendations to the governor and the legislature that accelerate the expansion of effective online learning in this state's schools.

(*ii*) Provide a clearinghouse for research reports, academic studies, evaluations, and other information related to online learning.

(*iii*) Promote and distribute the most current instructional design standards and guidelines for online teaching.

(*iv*) In collaboration with the department and interested colleges and universities in this state, recommend to the superintendent guidelines and standards for a new teacher endorsement credential related to effective digital learning instruction.

(*v*) Pursue public/private partnerships that include districts to study and implement competency-based technology-rich online learning models.

(*vi*) Convene focus groups and conduct annual surveys of teachers, administrators, pupils, parents, and others to identify barriers and opportunities related to online learning.

(*vii*) Produce an annual consumer awareness report for schools and parents about effective online

education providers and education delivery models, performance data, cost structures, and research trends.

(*viii*) Research and establish an internet-based platform that educators can use to create student-centric learning tools and resources and facilitate a user network that assists educators in using the platform. As part of this initiative, the Michigan virtual university shall work collaboratively with districts and intermediate districts to establish a plan to make available online resources that align to Michigan's K-12 curriculum standards for use by students, educators, and parents.

(*ix*) Create and maintain a public statewide catalog of online learning courses being offered by all public schools in this state. The Michigan virtual learning research institute shall identify and develop a list of nationally recognized best practices for online learning and use this list to provide reviews of online course vendors, courses, and instructional practices. The Michigan virtual learning research institute shall also provide a mechanism for intermediate districts to use the identified best practices to review content offered by constituent districts. The Michigan virtual learning research institute shall review the online course offerings of the Michigan virtual university, and make the results from these reviews available to the public as part of the statewide catalog. The Michigan virtual learning research institute shall ensure that the statewide catalog is made available to the public on the Michigan virtual university website and linked to each district's website as provided for in section 21f. Beginning in 2014-2015, the statewide catalog shall also contain all of the following:

(A) The number of pupils enrolled in each online course in the 2012-2013 school year.

(B) The number of pupils who successfully completed each online course in the 2012-2013 school year.

(C) The completion rate for each online course.

(3) In order for the Michigan virtual university to receive any funds allocated under this section, the Michigan virtual school must maintain its accreditation status from recognized national and international accrediting entities.

(4) If the course offerings are included in the statewide catalog of online courses under subsection (2)(b)(*ix*), the Michigan virtual school operated by the Michigan virtual university may offer online course offerings, including, but not limited to, all of the following:

(a) Information technology courses.

(b) College level equivalent courses, as defined in section 1471 of the revised school code, MCL 380.1471.

(c) Courses and dual enrollment opportunities.

(d) Programs and services for at-risk pupils.

(e) General education development test preparation courses for adjudicated youth.

(f) Special interest courses.

(g) Professional development programs for teachers, school administrators, other school employees, and school board members.

(5) If a home-schooled or nonpublic school student is a resident of a district that subscribes to services provided by the Michigan virtual school, the student may use the services provided by the Michigan virtual school to the district without charge to the student beyond what is charged to a district pupil using the same services.

(6) Not later than December 1 of each fiscal year, the Michigan virtual university shall provide a report to the house and senate appropriations subcommittees on state school aid, the state budget director, the house and senate fiscal agencies, and the department that includes at least all of the following information related to the Michigan virtual school for the preceding state fiscal year:

(a) A list of the districts served by the Michigan virtual school.

(b) A list of online course titles available to districts.

(c) The total number of online course enrollments and information on registrations and completions by course.

(d) The overall course completion rate percentage.

(7) The governor may appoint an advisory group for the Michigan virtual learning research institute established under subsection (2). The members of the advisory group shall serve at the pleasure of the governor and shall serve without compensation. The purpose of the advisory group is to make recommendations to the governor, the legislature, and the president and board of the Michigan virtual university that will accelerate innovation in this state's education system in a manner that will prepare elementary and secondary students to be career and college ready and that will promote the goal of increasing the percentage of citizens of this state with high-quality degrees and credentials to at least 60% by 2025.

(8) Not later than November 1, 2013, the Michigan virtual university shall submit to the house and senate appropriations subcommittees on state school aid, the state budget director, and the house and senate fiscal agencies a detailed budget for the 2013-2014 fiscal year that includes a breakdown on its projected costs to deliver online educational services to districts and a summary of the anticipated fees to be paid by districts for

those services. Beginning in 2013-2014, not later than February 1, the Michigan virtual university shall submit to the house and senate appropriations subcommittees on state school aid, the state budget director, and the house and senate fiscal agencies a breakdown on its actual costs to deliver online educational services to districts and a summary of the actual fees paid by districts for those services based on audited financial statements for the immediately preceding fiscal year.

(9) As used in this section:

(a) "Blended learning" means a hybrid instructional delivery model where pupils are provided content, instruction, and assessment, in part at a supervised educational facility away from home where the pupil and a teacher with a valid Michigan teaching certificate are in the same physical location and in part through internet-connected learning environments with some degree of pupil control over time, location, and pace of instruction.

(b) "Cyber school" means a full-time instructional program of online courses for pupils that may or may not require attendance at a physical school location.

(c) "Digital learning" means instruction delivered via a web-based educational delivery system that uses various information technologies to provide a structured learning environment, including online and blended learning instructional methods.

(d) "Online course" means a course of study that is capable of generating a credit or a grade, that is provided in an interactive internet-connected learning environment, in which pupils are separated from their teachers by time or location, or both, and in which a teacher who holds a valid Michigan teaching certificate is responsible for determining appropriate instructional methods for each pupil, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies, reporting outcomes, and evaluating the effects of instruction and support strategies.

388.1699 Mathematics and science centers.

Sec. 99. (1) From the funds appropriated in section 11, there is allocated an amount not to exceed $2,725,000.00 for 2012-2013 to support the activities and programs of mathematics and science centers and for other purposes as described in this section. In addition, from the federal funds appropriated in section 11, there is allocated for 2012-2013 an amount estimated at $5,249,300.00 from DED-OESE, title II, mathematics and science partnership grants.

(2) Within a service area designated locally, approved by the department, and consistent with the comprehensive master plan for mathematics and science centers developed by the department and approved by the state board, an established mathematics and science center shall provide 2 or more of the following 6 basic services, as described in the master plan, to constituent districts and communities: leadership, pupil services, curriculum support, community involvement, professional development, and resource clearinghouse services.

(3) The department shall not award a state grant under this section to more than 1 mathematics and science center located in a designated region as prescribed in the 2007 master plan unless each of the grants serves a distinct target population or provides a service that does not duplicate another program in the designated region.

(4) As part of the technical assistance process, the department shall provide minimum standard guidelines that may be used by the mathematics and science center for providing fair access for qualified pupils and professional staff as prescribed in this section.

(5) Allocations under this section to support the activities and programs of mathematics and science centers shall be continuing support grants to all 33 established mathematics and science centers. Each established mathematics and science center that was funded in the immediately preceding fiscal year shall receive state funding in an amount equal to 100% of the amount it was allocated under this subsection for the immediately preceding fiscal year. If a center declines state funding or a center closes, the remaining money available under this section shall be distributed to the remaining centers, as determined by the department.

(6) From the funds allocated in subsection (1), there is allocated for 2012-2013 an amount not to exceed $750,000.00 in a form and manner determined by the department to those centers able to provide curriculum and professional development support to assist districts in implementing the Michigan merit curriculum components for mathematics and science. Funding under this subsection is in addition to funding allocated under subsection (5).

(7) From the funds allocated in subsection (1), there is allocated for 2012-2013 an amount not to exceed $100,000.00 in a form and manner determined by the department to a single mathematics and science center that is a participant in the Michigan STEM partnership. Funding under this subsection is in addition to funding allocated under subsection (5) and shall be used for connecting mathematics and science centers for science, technology, engineering, and mathematics purposes.

(8) In order to receive state or federal funds under this section, a grant recipient shall allow access for the department or the department's designee to audit all records related to the program for which it receives such funds. The grant recipient shall reimburse the state for all disallowances found in the audit.

(9) Not later than September 30, 2013, the department shall reevaluate and update the comprehensive master plan described in subsection (1).

(10) The department shall give preference in awarding the federal grants allocated in subsection (1) to eligible existing mathematics and science centers.

(11) In order to receive state funds under this section, a grant recipient shall provide at least a 10% local match from local public or private resources for the funds received under this section.

(12) Not later than July 1 of each year, a mathematics and science center that receives funds under this section shall report to the department in a form and manner prescribed by the department on the following

partnership grants.

(2) Within a service area designated locally, approved by the department, and consistent with the comprehensive master plan for mathematics and science centers developed by the department and approved by the state board, an established mathematics and science center shall provide 2 or more of the following 6 basic services, as described in the master plan, to constituent districts and communities: leadership, pupil services, curriculum support, community involvement, professional development, and resource clearinghouse services.

(3) The department shall not award a state grant under this section to more than 1 mathematics and science center located in a designated region as prescribed in the 2007 master plan unless each of the grants serves a distinct target population or provides a service that does not duplicate another program in the designated region.

(4) As part of the technical assistance process, the department shall provide minimum standard guidelines that may be used by the mathematics and science center for providing fair access for qualified pupils and professional staff as prescribed in this section.

(5) Allocations under this section to support the activities and programs of mathematics and science centers shall be continuing support grants to all 33 established mathematics and science centers. Each established mathematics and science center that was funded in the immediately preceding fiscal year shall receive state funding in an amount equal to 100% of the amount it was allocated under this subsection for the immediately preceding fiscal year. If a center declines state funding or a center closes, the remaining money available under this section shall be distributed to the remaining centers, as determined by the department.

(6) From the funds allocated in subsection (1), there is allocated for 2013-2014 an amount not to exceed $750,000.00 in a form and manner determined by the department to those centers able to provide curriculum and professional development support to assist districts in implementing the Michigan merit curriculum components for mathematics and science. Funding under this subsection is in addition to funding allocated under subsection (5).

(7) From the state school aid fund money allocated in subsection (1), there is allocated for 2013-2014 an amount not to exceed $100,000.00 in a form and manner determined by the department to a single mathematics and science center that is a participant in the Michigan STEM partnership, to be used to administer the grant process under this subsection. From the general fund money allocated in subsection (1), there is allocated for 2013-2014 an amount not to exceed $375,000.00 to the Michigan STEM partnership to be used for a competitive grant process to award competitive grants to organizations conducting student-focused, project-based programs and competitions, either in the classroom or extracurricular, in science, technology, engineering, and mathematics subjects such as, but not limited to, robotics, coding, and design-build-test projects, from pre-kindergarten through college level. Funding under this subsection is in addition to funding allocated under subsection (5) and shall be used for connecting mathematics and science centers for science, technology, engineering, and mathematics purposes. A program receiving funds under section 99h may not receive funds under this subsection.

(8) In order to receive state or federal funds under this section, a grant recipient shall allow access for the department or the department's designee to audit all records related to the program for which it receives such funds. The grant recipient shall reimburse the state for all disallowances found in the audit.

(9) Not later than September 30, 2013, the department shall reevaluate and update the comprehensive master plan described in subsection (1).

(10) The department shall give preference in awarding the federal grants allocated in subsection (1) to eligible existing mathematics and science centers.

(11) In order to receive state funds under this section, a grant recipient shall provide at least a 10% local match from local public or private resources for the funds received under this section.

(12) Not later than July 1 of each year, a mathematics and science center that receives funds under this section shall report to the department in a form and manner prescribed by the department on the following performance measures:

(a) Statistical change in pre- and post-assessment scores for students who enrolled in mathematics and science activities provided to districts by the mathematics and science center.

(b) Statistical change in pre- and post-assessment scores for teachers who enrolled in professional development activities provided by the mathematics and science center.

388.1699h.added FIRST program.

Sec. 99h. (1) From the appropriation in section 11, there is allocated an amount not to exceed $3,000,000.00 for 2013-2014 for competitive grants to districts that provide pupils in grades 7 to 12 with expanded opportunities to improve mathematics, science, and technology skills by participating in events hosted by a science and technology development program known as FIRST (for inspiration and recognition of science and technology) robotics.

(2) A district applying for a FIRST tech challenge or FIRST robotics competition program grant shall submit an application in a form and manner determined by the department. To be eligible for a grant, a district shall demonstrate in its application that the district has established a partnership for the purposes of the FIRST program with at least 1 sponsor, business entity, higher education institution, or technical school.

(3) The department shall distribute the grant funding under this section for the following purposes:

(a) Except as otherwise provided in subparagraph (*iii*), not more than $1,000,000.00 for grants to districts to pay for stipends of $1,500.00 for 1 coach per team, distributed as follows:

(*i*) Not more than 500 stipends for coaches of high school teams, including existing teams.

(*ii*) Not more than 100 stipends for coaches of middle school or junior high teams, including existing teams.

(*iii*) If the requests for stipends exceed the numbers of stipends allowed under subparagraphs (*i*) and (*ii*), and if there is funding remaining unspent under subdivisions (b) and (c), the department shall use that remaining unspent funding for grants to districts to pay for additional stipends in a manner that expands the geographical distribution of teams.

(b) Not more than $1,000,000.00 for grants to districts for event registrations, materials, travel costs, and other expenses associated with the preparation for and attendance at FIRST tech challenge and FIRST robotics competitions. Each grant recipient shall provide a local match from other private or local funds for the funds received under this subdivision equal to at least 50% of the costs of participating in an event. The department shall set maximum grant amounts under this subdivision in a manner that maximizes the number of teams that will be able to receive funding.

(c) Not more than $1,000,000.00 for grants to districts for awards to teams that advance to the state and world championship competitions. The department shall determine an equal amount per team for those teams that advance to the state championship and a second equal award amount to those teams that advance to the world championship.

professional development" defined; applicability of subsections (3) and (8) to cyber school or dropout recovery program; "eligible pupil" defined; review of waiver standards.

Sec. 101. (1) To be eligible to receive state aid under this act, not later than the fifth Wednesday after the pupil membership count day and not later than the fifth Wednesday after the supplemental count day, each district superintendent shall submit to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district as of the pupil membership count day and as of the supplemental count day, as applicable, for the current school year. In addition, a district maintaining school during the entire year, as provided under section 1561 of the revised school code, MCL 380.1561, shall submit to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district for the current school year pursuant to rules promulgated by the superintendent. Not later than the seventh Wednesday after the pupil membership count day and not later than the sixth Wednesday after the supplemental count day, the district shall certify the data in a form and manner prescribed by the center and file the certified data with the intermediate superintendent. If a district fails to submit and certify the attendance data, as required under this subsection, the center shall notify the department and state aid due to be distributed under this article shall be withheld from the defaulting district immediately, beginning with the next payment after the failure and continuing with each payment until the district complies with this subsection. If a district does not comply with this subsection by the end of the fiscal year, the district forfeits the amount withheld. A person who willfully falsifies a figure or statement in the certified and sworn copy of enrollment shall be punished in the manner prescribed by section 161.

(2) To be eligible to receive state aid under this article, not later than the twenty-fourth Wednesday after the pupil membership count day and not later than the twenty-fourth Wednesday after the supplemental count day, an intermediate district shall submit to the center, in a form and manner prescribed by the center, the audited enrollment and attendance data for the pupils of its constituent districts and of the intermediate district. If an intermediate district fails to submit the audited data as required under this subsection, state aid due to be distributed under this article shall be withheld from the defaulting intermediate district immediately, beginning with the next payment after the failure and continuing with each payment until the intermediate district complies with this subsection. If an intermediate district does not comply with this subsection by the end of the fiscal year, the intermediate district forfeits the amount withheld.

(3) Except as otherwise provided in subsections (11) and (12), all of the following apply to the provision of pupil instruction:

(a) Except as otherwise provided in this section, each district shall provide at least 1,098 hours and, beginning in 2010-2011, the required minimum number of days of pupil instruction. Beginning in 2012-2013, the required minimum number of days of pupil instruction is 170. However, beginning in 2010-2011, a district shall not provide fewer days of pupil instruction than the district provided for 2009-2010. A district may apply for a waiver under subsection (9) from the requirements of this subdivision. For 2012-2013 only, if a district is unable to provide the required minimum number of days of pupil instruction because of school closures occurring before April 20, 2013 due to conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, but the district does provide at least the required minimum number of hours of pupil instruction, the district is not subject to the minimum number of days of pupil instruction requirement of this subsection. A district that uses the 2012-2013 exception from the minimum number of days of pupil instruction requirement shall submit to the department not later than July 1, 2013, in the form and manner prescribed by the department, a report that details the amount of instructional time that was lost due to school closures and the amount of additional instructional time that was added to compensate; when the additional instructional time was provided; the activities that were carried out and subject areas addressed during the additional instructional time; and other information specified by the department to assess whether appropriate instruction occurred during the additional instructional time. The department shall aggregate and provide these reports to the senate and house standing committees on education.

(b) Except as otherwise provided in this article, a district failing to comply with the required minimum hours and days of pupil instruction under this subsection shall forfeit from its total state aid allocation an amount determined by applying a ratio of the number of hours or days the district was in noncompliance in relation to the required minimum number of hours and days under this subsection. Not later than August 1, the board of each district shall certify to the department the number of hours and days of pupil instruction in the previous school year. If the district did not provide at least the required minimum number of hours and days of pupil instruction under this subsection, the deduction of state aid shall be made in the following fiscal

year from the first payment of state school aid. A district is not subject to forfeiture of funds under this subsection for a fiscal year in which a forfeiture was already imposed under subsection (6).

(c) Hours or days lost because of strikes or teachers' conferences shall not be counted as hours or days of pupil instruction.

(d) If a collective bargaining agreement that provides a complete school calendar is in effect for employees of a district as of October 19, 2009, and if that school calendar is not in compliance with this subsection, then this subsection does not apply to that district until after the expiration of that collective bargaining agreement.

(e) Except as otherwise provided in subdivision (f), a district not having at least 75% of the district's membership in attendance on any day of pupil instruction shall receive state aid in that proportion of 1/180 that the actual percent of attendance bears to the specified percentage.

(f) At the request of a district that operates a department-approved alternative education program and that does not provide instruction for pupils in all of grades K to 12, the superintendent may grant a waiver from the requirements of subdivision (e). The waiver shall indicate that an eligible district is subject to the proration provisions of subdivision (e) only if the district does not have at least 50% of the district's membership in attendance on any day of pupil instruction. In order to be eligible for this waiver, a district must maintain records to substantiate its compliance with the following requirements:

(*i*) The district offers the minimum hours of pupil instruction as required under this section.

(*ii*) For each enrolled pupil, the district uses appropriate academic assessments to develop an individual education plan that leads to a high school diploma.

(*iii*) The district tests each pupil to determine academic progress at regular intervals and records the results of those tests in that pupil's individual education plan.

(g) All of the following apply to a waiver granted under subdivision (f):

(*i*) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(*ii*) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(*iii*) A waiver that is not a waiver described in subparagraph (*i*) or (*ii*) is valid for 1 fiscal year and must be renewed annually to remain in effect.

(h) The superintendent shall promulgate rules for the implementation of this subsection.

(4) Except as otherwise provided in this subsection, the first 6 days or the equivalent number of hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, shall be counted as hours and days of pupil instruction. With the approval of the superintendent of public instruction, the department shall count as hours and days of pupil instruction for a fiscal year not more than 6 additional days or the equivalent number of additional hours for which pupil instruction is not provided in a district after April 1 of the applicable school year due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection. Subsequent such hours or days shall not be counted as hours or days of pupil instruction.

(5) A district shall not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).

(6) In addition to any other penalty or forfeiture under this section, if at any time the department determines that 1 or more of the following has occurred in a district, the district shall forfeit in the current fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this article that is equal to the proportion below the required minimum number of hours and days of pupil instruction under subsection (3), as specified in the following:

(a) The district fails to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(7) In providing the minimum number of hours and days of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance

with the following guidelines:

(a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the required minimum number of hours of instruction, including up to 2 study halls.

(b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.

(c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil's best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.

(d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, shall be considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.

(e) In grades 7 through 12, instructional time that is part of a junior reserve officer training corps (JROTC) program shall be considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

(*i*) The instructor has met all of the requirements established by the United States department of defense and the applicable branch of the armed services for serving as an instructor in the junior reserve officer training corps program.

(*ii*) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.

(8) Except as otherwise provided in subsections (11) and (12), the department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.

(9) Upon application by the district for a particular fiscal year, the superintendent may waive for a district the minimum number of hours and days of pupil instruction requirement of subsection (3) for a department-approved alternative education program or another innovative program approved by the department, including a 4-day school week. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of the waiver, the amount of the forfeiture shall be calculated based upon a comparison of the number of hours and days of pupil instruction actually provided to the minimum number of hours and days of pupil instruction required under subsection (3). Pupils enrolled in a department-approved alternative education program under this subsection shall be reported to the center in a form and manner determined by the center. All of the following apply to a waiver granted under this subsection:

(a) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(b) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(c) A waiver that is not a waiver described in subdivision (a) or (b) is valid for 1 fiscal year and must be renewed annually to remain in effect.

(10) A district may count up to 38 hours of qualifying professional development for teachers as hours of pupil instruction. Professional development provided online is allowable and encouraged, as long as the instruction has been approved by the district. The department shall issue a list of approved online professional development providers, which shall include the Michigan virtual school. As used in this subsection, "qualifying professional development" means professional development that is focused on 1 or more of the following:

(a) Achieving or improving adequate yearly progress as defined under the no child left behind act of 2001,

Public Law 107-110.

(b) Achieving accreditation or improving a school's accreditation status under section 1280 of the revised school code, MCL 380.1280.

(c) Achieving highly qualified teacher status as defined under the no child left behind act of 2001, Public Law 107-110.

(d) Integrating technology into classroom instruction.

(e) Maintaining teacher certification.

(11) Subsections (3) and (8) do not apply to a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a.

(12) Subsections (3) and (8) do not apply to eligible pupils enrolled in a dropout recovery program that meets the requirements of section 23a. As used in this subsection, "eligible pupil" means that term as defined in section 23a.

(13) Beginning in 2013, at least every 2 years the superintendent shall review the waiver standards set forth in the pupil accounting and auditing manuals to ensure that the waiver standards and waiver process continue to be appropriate and responsive to changing trends in online learning. The superintendent shall solicit and consider input from stakeholders as part of this review.

(d) If a collective bargaining agreement that provides a complete school calendar is in effect for employees of a district as of October 19, 2009, and if that school calendar is not in compliance with this subsection, then this subsection does not apply to that district until after the expiration of that collective bargaining agreement.

(e) Except as otherwise provided in subdivision (f), a district not having at least 75% of the district's membership in attendance on any day of pupil instruction shall receive state aid in that proportion of 1/180 that the actual percent of attendance bears to the specified percentage.

(f) At the request of a district that operates a department-approved alternative education program and that does not provide instruction for pupils in all of grades K to 12, the superintendent may grant a waiver from the requirements of subdivision (e). The waiver shall indicate that an eligible district is subject to the proration provisions of subdivision (e) only if the district does not have at least 50% of the district's membership in attendance on any day of pupil instruction. In order to be eligible for this waiver, a district must maintain records to substantiate its compliance with the following requirements:

(*i*) The district offers the minimum hours of pupil instruction as required under this section.

(*ii*) For each enrolled pupil, the district uses appropriate academic assessments to develop an individual education plan that leads to a high school diploma.

(*iii*) The district tests each pupil to determine academic progress at regular intervals and records the results of those tests in that pupil's individual education plan.

(g) All of the following apply to a waiver granted under subdivision (f):

(*i*) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(*ii*) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(*iii*) A waiver that is not a waiver described in subparagraph (*i*) or (*ii*) is valid for 1 fiscal year and must be renewed annually to remain in effect.

(h) The superintendent shall promulgate rules for the implementation of this subsection.

(4) Except as otherwise provided in this subsection, the first 6 days or the equivalent number of hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, shall be counted as hours and days of pupil instruction. With the approval of the superintendent of public instruction, the department shall count as hours and days of pupil instruction for a fiscal year not more than 6 additional days or the equivalent number of additional hours for which pupil instruction is not provided in a district after April 1 of the applicable school year due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection. Subsequent such hours or days shall not be counted as hours or days of pupil instruction.

(5) A district shall not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).

(6) In addition to any other penalty or forfeiture under this section, if at any time the department determines that 1 or more of the following have occurred in a district, the district shall forfeit in the current fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this article that is equal to the proportion below the required minimum number of hours and days of pupil instruction under subsection (3), as specified in the following:

(a) The district fails to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(7) In providing the minimum number of hours and days of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance with the following guidelines:

(a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the required minimum number of hours of instruction, including up to 2 study halls.

(b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.

(c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil's best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.

(d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, shall be considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.

(e) In grades 7 through 12, instructional time that is part of a junior reserve officer training corps (JROTC) program shall be considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

(*i*) The instructor has met all of the requirements established by the United States department of defense and the applicable branch of the armed services for serving as an instructor in the junior reserve officer training corps program.

(*ii*) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.

(8) Except as otherwise provided in subsections (11) and (12), the department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.

(9) Upon application by the district for a particular fiscal year, the superintendent may waive for a district the minimum number of hours and days of pupil instruction requirement of subsection (3) for a department-approved alternative education program or another innovative program approved by the department, including a 4-day school week. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of the waiver, the amount of the forfeiture shall be calculated based upon a comparison of the number of hours and days of pupil instruction actually provided to the minimum number of hours and days of pupil instruction required under subsection (3). Pupils enrolled in a department-approved alternative education program under this subsection shall be reported to the center in a form and manner determined by the center. All of the following apply to a waiver granted under this subsection:

(a) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(b) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(c) A waiver that is not a waiver described in subdivision (a) or (b) is valid for 1 fiscal year and must be renewed annually to remain in effect.

(10) Until 2014-2015, a district may count up to 38 hours of qualifying professional development for teachers as hours of pupil instruction. Professional development provided online is allowable and encouraged, as long as the instruction has been approved by the district. The department shall issue a list of approved online professional development providers, which shall include the Michigan virtual school. As used in this subsection, "qualifying professional development" means professional development that is focused on 1 or more of the following:

(a) Achieving or improving adequate yearly progress as defined under the no child left behind act of 2001, Public Law 107-110.

(b) Achieving accreditation or improving a school's accreditation status under section 1280 of the revised school code, MCL 380.1280.

(c) Achieving highly qualified teacher status as defined under the no child left behind act of 2001, Public

Law 107-110.

(d) Integrating technology into classroom instruction.

(e) Maintaining teacher certification.

(11) Subsections (3) and (8) do not apply to a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a.

(12) Subsections (3) and (8) do not apply to eligible pupils enrolled in a dropout recovery program that meets the requirements of section 23a. As used in this subsection, "eligible pupil" means that term as defined in section 23a.

(13) Beginning in 2013, at least every 2 years the superintendent shall review the waiver standards set forth in the pupil accounting and auditing manuals to ensure that the waiver standards and waiver process continue to be appropriate and responsive to changing trends in online learning. The superintendent shall solicit and consider input from stakeholders as part of this review.

388.1701a Enrollment of individual who has dropped out of another district; evidence.

Sec. 101a. For 2012-2013, if a district wants to enroll an individual after the individual has dropped out of another district and the individual's most recent educating district has failed to immediately update the individual's status in the Michigan student data system (MSDS) operated by the center, the district may submit evidence to the department indicating that the individual is a dropout. The department shall review evidence submitted by a district under this section to determine if the individual is a dropout from another district. If the department determines that the individual is a dropout, the department shall allow the individual to be enrolled in the new district as a pupil who has dropped out of another district.

388.1702 Deficit budget or operating deficit prohibited; release of withheld state aid payments; report; amount of permissible deficit; monthly monitoring report; plan to eliminate deficit; "deficit fund balance" defined.

Sec. 102. (1) A district or intermediate district receiving money under this act shall not adopt or operate under a deficit budget, and a district or intermediate district shall not incur an operating deficit in a fund during a school fiscal year. A district or intermediate district that has an existing deficit fund balance, that incurs a deficit fund balance in the most recently completed school fiscal year, or that adopts a current year budget that projects a deficit fund balance shall not be allotted or paid a further sum under this act until the district or intermediate district submits to the department for approval a budget for the current school fiscal year and a plan to eliminate the district's or intermediate district's deficit not later than the end of the second school fiscal year after the deficit was incurred or the budget projecting a deficit was adopted. Withheld state aid payments shall be released after the department approves the deficit reduction plan and ensures that the budget for the current school fiscal year is balanced. After the department approves a district's or intermediate district's deficit reduction plan, the district or intermediate district shall post the deficit elimination plan on the district's or intermediate district's website.

(2) Not later than March 1 of each year, the department shall prepare a report of deficits incurred or projected by districts and intermediate districts in the immediately preceding fiscal year and the progress made in reducing those deficits and submit the report to the standing committees of the legislature responsible for K-12 education legislation, the appropriations subcommittees of the legislature responsible for K-12 education appropriations, the house and senate fiscal agencies, the state treasurer, and the state budget director. The department also shall submit quarterly interim reports concerning the progress made by districts and intermediate districts in reducing those deficits. On a quarterly basis, the superintendent of public instruction shall publicly present those reports to the appropriations subcommittees of the legislature responsible for K-12 education appropriations.

(3) The amount of the permissible deficit for each school fiscal year shall not exceed the amount of state aid reduced by an executive order during that school fiscal year.

(4) A district or intermediate district that has an existing deficit fund balance, that incurs a deficit fund balance in the most recently completed school fiscal year, or that adopts a current year budget that projects a deficit fund balance shall submit to the department a monthly monitoring report on revenue and expenditures in a form and manner prescribed by the department and shall post these reports on its website.

(5) If a district or intermediate district is not able to comply with the provisions of this section, the district or intermediate district shall submit to the department a plan to eliminate its deficit. Upon approval of the plan submitted, the superintendent of public instruction may continue allotment and payment of funds under this act, extend the period of time in which a district or intermediate district has to eliminate its deficit, and set special conditions that the district or intermediate district must meet during the period of the extension. After the department approves a district's or intermediate district's deficit reduction plan under this subsection, the district or intermediate district shall post the deficit elimination plan on the district's or intermediate district's website.

(6) For the purposes of this section, "deficit fund balance" means that term as defined in the Michigan public school accounting manual published by the department.

1278a, 1278b, 1279, 1279g, and 1280b of the revised school code, MCL 380.1249, 380.1278a, 380.1278b, 380.1279, 380.1279g, and 380.1280b, and 1970 PA 38, MCL 388.1081 to 388.1086. Subject to subsection (2), from the state school aid fund money appropriated in section 11, there is allocated for 2012-2013 an amount not to exceed $26,694,400.00 for payments on behalf of districts for costs associated with complying with those provisions of law. In addition, from the federal funds appropriated in section 11, there is allocated for 2012-2013 an amount estimated at $8,250,000.00, funded from DED-OESE, title VI, state assessment funds, and from DED-OSERS, section 504 of part B of the individuals with disabilities education act, Public Law 94-142, plus any carryover federal funds from previous year appropriations, for the purposes of complying with the federal no child left behind act of 2001, Public Law 107-110.

(2) The results of each test administered as part of the Michigan educational assessment program, including tests administered to high school students, shall include an item analysis that lists all items that are counted for individual pupil scores and the percentage of pupils choosing each possible response.

(3) All federal funds allocated under this section shall be distributed in accordance with federal law and with flexibility provisions outlined in Public Law 107-116, and in the education flexibility partnership act of 1999, Public Law 106-25.

(4) Notwithstanding section 17b, payments on behalf of districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

388.1704b Michigan merit examination.

Sec. 104b. (1) In order to receive state aid under this act, a district shall comply with this section and shall administer the Michigan merit examination to pupils in grade 11, and to pupils in grade 12 who did not take the complete Michigan merit examination in grade 11, as provided in this section.

(2) For the purposes of this section, the department of management and budget shall contract with 1 or more providers to develop, supply, and score the Michigan merit examination. The Michigan merit examination shall consist of all of the following:

(a) Assessment instruments that measure English language arts, mathematics, reading, and science and are used by colleges and universities in this state for entrance or placement purposes. This shall include a writing

component in which the pupil produces an extended writing sample. The Michigan merit examination shall not require any other extended writing sample.

(b) One or more tests from 1 or more test developers that assess a pupil's ability to apply at least reading and mathematics skills in a manner that is intended to allow employers to use the results in making employment decisions. The department of management and budget and the superintendent shall ensure that any test or tests selected under this subdivision have all the components necessary to allow a pupil to be eligible to receive the results of a nationally recognized evaluation of workforce readiness if the pupil's test performance is adequate.

(c) A social studies component.

(d) Any other component that is necessary to obtain the approval of the United States department of education to use the Michigan merit examination for the purposes of the federal no child left behind act of 2001, Public Law 107-110.

(3) In addition to all other requirements of this section, all of the following apply to the Michigan merit examination:

(a) The department of management and budget and the superintendent shall ensure that any contractor used for scoring the Michigan merit examination supplies an individual report for each pupil that will identify for the pupil's parents and teachers whether the pupil met expectations or failed to meet expectations for each standard, to allow the pupil's parents and teachers to assess and remedy problems before the pupil moves to the next grade.

(b) The department of management and budget and the superintendent shall ensure that any contractor used for scoring, developing, or processing the Michigan merit examination meets quality management standards commonly used in the assessment industry, including at least meeting level 2 of the capability maturity model developed by the software engineering institute of Carnegie Mellon university for the first year the Michigan merit examination is offered to all grade 11 pupils and at least meeting level 3 of the capability maturity model for subsequent years.

(c) The department of management and budget and the superintendent shall ensure that any contract for scoring, administering, or developing the Michigan merit examination includes specific deadlines for all steps of the assessment process, including, but not limited to, deadlines for the correct testing materials to be supplied to schools and for the correct results to be returned to schools, and includes penalties for noncompliance with these deadlines.

(d) The superintendent shall ensure that the Michigan merit examination meets all of the following:

(*i*) Is designed to test pupils on grade level content expectations or course content expectations, as appropriate, in all subjects tested.

(*ii*) Complies with requirements of the no child left behind act of 2001, Public Law 107-110.

(*iii*) Is consistent with the code of fair testing practices in education prepared by the joint committee on testing practices of the American psychological association.

(*iv*) Is factually accurate. If the superintendent determines that a question is not factually accurate and should be excluded from scoring, the state board and the superintendent shall ensure that the question is excluded from scoring.

(4) A district shall include on each pupil's high school transcript all of the following:

(a) For each high school graduate who has completed the Michigan merit examination under this section, the pupil's scaled score on each subject area component of the Michigan merit examination.

(b) The number of school days the pupil was in attendance at school each school year during high school and the total number of school days in session for each of those school years.

(5) The superintendent shall work with the provider or providers of the Michigan merit examination to produce Michigan merit examination subject area scores for each pupil participating in the Michigan merit examination, including scaling and merging of test items for the different subject area components. The superintendent shall design and distribute to districts, intermediate districts, and nonpublic schools a simple and concise document that describes the scoring for each subject area and indicates the scaled score ranges for each subject area.

(6) The Michigan merit examination shall be administered each year after March 1 and before June 1 to pupils in grade 11. The superintendent shall ensure that the Michigan merit examination is scored and the scores are returned to pupils, their parents or legal guardians, and districts not later than the beginning of the pupil's first semester of grade 12. The returned scores shall indicate at least the pupil's scaled score for each subject area component and the range of scaled scores for each subject area. In reporting the scores to pupils, parents, and schools, the superintendent shall provide standards-specific, meaningful, and timely feedback on the pupil's performance on the Michigan merit examination.

(7) A district shall administer the complete Michigan merit examination to a pupil only once and shall not

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

administer the complete Michigan merit examination to the same pupil more than once. If a pupil does not take the complete Michigan merit examination in grade 11, the district shall administer the complete Michigan merit examination to the pupil in grade 12. If a pupil chooses to retake the college entrance examination component of the Michigan merit examination, as described in subsection (2)(a), the pupil may do so through the provider of the college entrance examination component and the cost of the retake is the responsibility of the pupil unless all of the following are met:

(a) The pupil has taken the complete Michigan merit examination.

(b) The pupil did not qualify for a Michigan promise grant under section 6 of the Michigan promise grant act, 2006 PA 479, MCL 390.1626, based on the pupil's performance on the complete Michigan merit examination.

(c) The pupil meets the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i.

(d) The pupil has applied to the provider of the college entrance examination component for a scholarship or fee waiver to cover the cost of the retake and that application has been denied.

(e) After taking the complete Michigan merit examination, the pupil has not already received a free retake of the college entrance examination component paid for either by this state or through a scholarship or fee waiver by the provider.

(8) The superintendent shall ensure that the length of the Michigan merit examination and the combined total time necessary to administer all of the components of the Michigan merit examination are the shortest possible that will still maintain the degree of reliability and validity of the Michigan merit examination results determined necessary by the superintendent. The superintendent shall ensure that the maximum total combined length of time that schools are required to set aside for pupils to answer all test questions on the Michigan merit examination does not exceed 8 hours if the superintendent determines that sufficient alignment to applicable Michigan merit curriculum content standards can be achieved within that time limit.

(9) A district shall provide accommodations to a pupil with disabilities for the Michigan merit examination, as provided under section 504 of title V of the rehabilitation act of 1973, 29 USC 794; subtitle A of title II of the Americans with disabilities act of 1990, 42 USC 12131 to 12134; the individuals with disabilities education act amendments of 1997, Public Law 105-17; and the implementing regulations for those statutes. The provider or providers of the Michigan merit examination and the superintendent shall mutually agree upon the accommodations to be provided under this subsection.

(10) To the greatest extent possible, the Michigan merit examination shall be based on grade level content expectations or course content expectations, as appropriate. Not later than July 1, 2008, the department shall identify specific grade level content expectations to be taught before and after the middle of grade 11, so that teachers will know what content will be covered within the Michigan merit examination.

(11) A child who is a student in a nonpublic school or home school may take the Michigan merit examination under this section. To take the Michigan merit examination, a child who is a student in a home school shall contact the district in which the child resides, and that district shall administer the Michigan merit examination, or the child may take the Michigan merit examination at a nonpublic school if allowed by the nonpublic school. Upon request from a nonpublic school, the superintendent shall direct the provider or providers to supply the Michigan merit examination to the nonpublic school and the nonpublic school may administer the Michigan merit examination. If a district administers the Michigan merit examination under this subsection to a child who is not enrolled in the district, the scores for that child are not considered for any purpose to be scores of a pupil of the district.

(12) In contracting under subsection (2), the department of management and budget shall consider a contractor that provides electronically-scored essays with the ability to score constructed response feedback in multiple languages and provide ongoing instruction and feedback.

(13) The purpose of the Michigan merit examination is to assess pupil performance in mathematics, science, social studies, and English language arts for the purpose of improving academic achievement and establishing a statewide standard of competency. The assessment under this section provides a common measure of data that will contribute to the improvement of Michigan schools' curriculum and instruction by encouraging alignment with Michigan's curriculum framework standards and promotes pupil participation in higher level mathematics, science, social studies, and English language arts courses. These standards are based upon the expectations of what pupils should learn through high school and are aligned with national standards.

(14) As used in this section:

(a) "English language arts" means reading and writing.

(b) "Social studies" means United States history, world history, world geography, economics, and American government.

388.1705 Counting nonresident pupils in membership; application for enrollment; procedures.

Sec. 105. (1) In order to avoid a penalty under this section, and in order to count a nonresident pupil residing within the same intermediate district in membership without the approval of the pupil's district of residence, a district shall comply with this section.

(2) Except as otherwise provided in this section, a district shall determine whether or not it will accept applications for enrollment by nonresident applicants residing within the same intermediate district for the next school year. If the district determines to accept applications for enrollment of a number of nonresidents, beyond those entitled to preference under this section, the district shall use the following procedures for accepting applications from and enrolling nonresidents:

(a) The district shall publish the grades, schools, and special programs, if any, for which enrollment may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.

(b) If the district has a limited number of positions available for nonresidents residing within the same intermediate district in a grade, school, or program, all of the following apply to accepting applications for and enrollment of nonresidents in that grade, school, or program:

(*i*) The district shall do all of the following not later than the second Friday in August:

(A) Provide notice to the general public that applications will be taken for a period of at least 15 calendar days but not more than 30 calendar days from nonresidents residing within the same intermediate district for enrollment in that grade, school, or program. The notice shall identify the dates of the application period and the place and manner for submitting applications.

(B) During the application period under sub-subparagraph (A), accept applications from nonresidents residing within the same intermediate district for enrollment in that grade, school, or program.

(C) Within 15 calendar days after the end of the application period under sub-subparagraph (A), using the procedures and preferences required under this section, determine which nonresident applicants will be allowed to enroll in that grade, school, or program, using the random draw system required under subsection (14) as necessary, and notify the parent or legal guardian of each nonresident applicant of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(*ii*) Beginning on the third Monday in August and not later than the end of the first week of school, if any positions become available in a grade, school, or program due to accepted applicants failing to enroll or to more positions being added, the district may enroll nonresident applicants from the waiting list maintained under subsection (14), offering enrollment in the order that applicants appear on the waiting list. If there are still positions available after enrolling all applicants from the waiting list who desire to enroll, the district may not fill those positions until the second semester or trimester enrollment under subsection (3), as provided under that subsection, or until the next school year.

(c) For a grade, school, or program that has an unlimited number of positions available for nonresidents residing within the same intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program:

(*i*) The district may accept applications for enrollment in that grade, school, or program, and may enroll nonresidents residing within the same intermediate district in that grade, school, or program, until the end of the first week of school. The district shall provide notice to the general public of the place and manner for submitting applications and, if the district has a limited application period, the notice shall include the dates of the application period. The application period shall be at least a 15-calendar-day period.

(*ii*) Not later than the end of the first week of school, the district shall notify the parent or legal guardian of each nonresident applicant who is accepted for enrollment that the applicant has been accepted for enrollment in the grade, school, or program and of the procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(3) If a district determines during the first semester or trimester of a school year that it has positions available for enrollment of a number of nonresidents residing within the same intermediate district, beyond

those entitled to preference under this section, for the second semester or trimester of the school year, the district may accept applications from and enroll nonresidents residing within the same intermediate district for the second semester or trimester using the following procedures:

(a) Not later than 2 weeks before the end of the first semester or trimester, the district shall publish the grades, schools, and special programs, if any, for which enrollment for the second semester or trimester may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.

(b) During the last 2 weeks of the first semester or trimester, the district shall accept applications from nonresidents residing within the same intermediate district for enrollment for the second semester or trimester in the available grades, schools, and programs.

(c) By the beginning of the second semester or trimester, using the procedures and preferences required under this section, the district shall determine which nonresident applicants will be allowed to enroll in the district for the second semester or trimester and notify the parent or legal guardian of each nonresident applicant residing within the same intermediate district of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(4) If deadlines similar to those described in subsection (2) or (3) have been established in an intermediate district, and if those deadlines are not later than the deadlines under subsection (2) or (3), the districts within the intermediate district may use those deadlines.

(5) A district offering to enroll nonresident applicants residing within the same intermediate district may limit the number of nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant.

(6) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.

(7) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.

(8) A nonresident applicant residing within the same intermediate district shall not be granted or refused enrollment based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(9) Subject to subsection (10), a district may refuse to enroll a nonresident applicant if any of the following are met:

(a) The applicant is, or has been within the preceding 2 years, suspended from another school.

(b) The applicant, at any time before enrolling under this section, has been expelled from another school.

(c) The applicant, at any time before enrolling under this section, has been convicted of a felony.

(10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester or trimester immediately preceding the school year or semester or trimester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(12) A district shall give preference for enrollment under this section over all other nonresident applicants residing within the same intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).

(13) If a nonresident pupil was enrolled in and attending school in a district as a nonresident pupil in the 1995-96 school year and continues to be enrolled continuously each school year in that district, the district shall allow that nonresident pupil to continue to enroll in and attend school in the district until high school graduation, without requiring the nonresident pupil to apply for enrollment under this section. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(14) If the number of qualified nonresident applicants eligible for acceptance in a school, grade, or program does not exceed the positions available for nonresident pupils in the school, grade, or program, the

school district shall accept for enrollment all of the qualified nonresident applicants eligible for acceptance. If the number of qualified nonresident applicants residing within the same intermediate district eligible for acceptance exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.

(15) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant, the district of residence shall provide that information on a timely basis.

(16) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.

(17) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian information on available transportation to and from the school in which the pupil enrolls.

(18) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.

(19) A district that, pursuant to this section, enrolls a nonresident pupil who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, shall be considered to be the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. Consistent with state and federal law, that district is responsible for developing and implementing an individualized education plan annually for a nonresident pupil described in this subsection.

(20) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.

(21) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.

Sec. 105c. (1) In order to avoid a penalty under this section, and in order to count a nonresident pupil residing in a district located in a contiguous intermediate district in membership without the approval of the pupil's district of residence, a district shall comply with this section.

(2) Except as otherwise provided in this section, a district shall determine whether or not it will accept applications for enrollment by nonresident applicants residing in a district located in a contiguous intermediate district for the next school year. If the district determines to accept applications for enrollment of a number of nonresidents under this section, beyond those entitled to preference under this section, the district shall use the following procedures for accepting applications from and enrolling nonresidents under this section:

(a) The district shall publish the grades, schools, and special programs, if any, for which enrollment may be available to, and for which applications will be accepted from, nonresident applicants residing in a district located in a contiguous intermediate district.

(b) If the district has a limited number of positions available for nonresidents residing in a district located in a contiguous intermediate district in a grade, school, or program, all of the following apply to accepting applications for and enrollment of nonresidents under this section in that grade, school, or program:

(*i*) The district shall do all of the following not later than the second Friday in August:

(A) Provide notice to the general public that applications will be taken for a period of at least 15 calendar days but not more than 30 calendar days from nonresidents residing in a district located in a contiguous intermediate district for enrollment in that grade, school, or program. The notice shall identify the dates of the application period and the place and manner for submitting applications.

(B) During the application period under sub-subparagraph (A), accept applications from nonresidents residing in a district located in a contiguous intermediate district for enrollment in that grade, school, or program.

(C) Within 15 calendar days after the end of the application period under sub-subparagraph (A), using the procedures and preferences required under this section, determine which nonresident applicants will be allowed to enroll under this section in that grade, school, or program, using the random draw system required under subsection (14) as necessary, and notify the parent or legal guardian of each nonresident applicant of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment under this section shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(*ii*) Beginning on the third Monday in August and not later than the end of the first week of school, if any positions become available in a grade, school, or program due to accepted applicants failing to enroll or to more positions being added, the district may enroll nonresident applicants from the waiting list maintained under subsection (14), offering enrollment in the order that applicants appear on the waiting list. If there are still positions available after enrolling all applicants from the waiting list who desire to enroll, the district may not fill those positions until the second semester or trimester enrollment under subsection (3), as provided under that subsection, or until the next school year.

(c) For a grade, school, or program that has an unlimited number of positions available for nonresidents residing in a district located in a contiguous intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program under this section:

(*i*) The district may accept applications for enrollment in that grade, school, or program, and may enroll nonresidents residing in a district located in a contiguous intermediate district in that grade, school, or program, until the end of the first week of school. The district shall provide notice to the general public of the place and manner for submitting applications and, if the district has a limited application period, the notice shall include the dates of the application period. The application period shall be at least a 15-calendar-day period.

(*ii*) Not later than the end of the first week of school, the district shall notify the parent or legal guardian of each nonresident applicant who is accepted for enrollment under this section that the applicant has been accepted for enrollment in the grade, school, or program and of the date by which the applicant must enroll in the district and the procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(3) If a district determines during the first semester or trimester of a school year that it has positions available for enrollment of a number of nonresidents residing in a district located in a contiguous intermediate district, beyond those entitled to preference under this section, for the second semester or trimester of the school year, the district may accept applications from and enroll nonresidents residing in a district located in a contiguous intermediate district for the second semester or trimester using the following procedures:

(a) Not later than 2 weeks before the end of the first semester or trimester, the district shall publish the

grades, schools, and special programs, if any, for which enrollment for the second semester or trimester may be available to, and for which applications will be accepted from, nonresident applicants residing in a district located in a contiguous intermediate district.

(b) During the last 2 weeks of the first semester or trimester, the district shall accept applications from nonresidents residing in a district located in a contiguous intermediate district for enrollment for the second semester or trimester in the available grades, schools, and programs.

(c) By the beginning of the second semester or trimester, using the procedures and preferences required under this section, the district shall determine which nonresident applicants will be allowed to enroll under this section in the district for the second semester or trimester and notify the parent or legal guardian of each nonresident applicant residing in a district located in a contiguous intermediate district of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment shall contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment shall be no later than the end of the first week of school.

(4) If deadlines similar to those described in subsection (2) or (3) have been established in an intermediate district, and if those deadlines are not later than the deadlines under subsection (2) or (3), the districts within the intermediate district may use those deadlines.

(5) A district offering to enroll nonresident applicants residing in a district located in a contiguous intermediate district may limit the number of those nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant under this section.

(6) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant under this section if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.

(7) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment under this section based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.

(8) A nonresident applicant residing in a district located in a contiguous intermediate district shall not be granted or refused enrollment under this section based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(9) Subject to subsection (10), a district may refuse to enroll a nonresident applicant under this section if any of the following are met:

(a) The applicant is, or has been within the preceding 2 years, suspended from another school.

(b) The applicant, at any time before enrolling under this section, has been expelled from another school.

(c) The applicant, at any time before enrolling under this section, has been convicted of a felony.

(10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester or trimester immediately preceding the school year or semester or trimester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(12) A district shall give preference for enrollment under this section over all other nonresident applicants residing in a district located in a contiguous intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).

(13) If a nonresident pupil was enrolled in and attending school in a district as a nonresident pupil in the 1995-96 school year and continues to be enrolled continuously each school year in that district, the district shall allow that nonresident pupil to continue to enroll in and attend school in the district until high school graduation, without requiring the nonresident pupil to apply for enrollment under this section. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(14) If the number of qualified nonresident applicants eligible for acceptance under this section in a school, grade, or program does not exceed the positions available for nonresident pupils under this section in the school, grade, or program, the school district shall accept for enrollment all of the qualified nonresident

applicants eligible for acceptance. If the number of qualified nonresident applicants residing in a district located in a contiguous intermediate district eligible for acceptance under this section exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.

(15) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant under this section, the district of residence shall provide that information on a timely basis.

(16) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.

(17) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian information on available transportation to and from the school in which the pupil enrolls.

(18) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.

(19) In order for a district or intermediate district to enroll pursuant to this section a nonresident pupil who resides in a district located in a contiguous intermediate district and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the enrolling district shall have a written agreement with the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. The written agreement shall include, but is not limited to, an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. The written agreement shall address how the agreement shall be amended in the event of significant changes in the costs or level of special education programs or services required by the pupil.

(20) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.

(21) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.

(22) This section is repealed if the final decision of a court of competent jurisdiction holds that any portion of this section is unconstitutional, ineffective, invalid, or in violation of federal law.

(23) As used in this section, "district located in a contiguous intermediate district" means a district located in an intermediate district that is contiguous to the intermediate district in which a pupil's district of residence is located.

388.1707 Adult education programs.

Sec. 107. (1) From the appropriation in section 11, there is allocated an amount not to exceed $22,000,000.00 for 2012-2013 for adult education programs authorized under this section. Funds allocated under this section are restricted for adult education programs as authorized under this section only. A recipient of funds under this section shall not use those funds for any other purpose.

(2) To be eligible for funding under this section, a program shall employ certificated teachers and qualified administrative staff and shall offer continuing education opportunities for teachers to allow them to maintain certification.

(3) To be eligible to be a participant funded under this section, a person shall be enrolled in an adult basic education program, an adult English as a second language program, a general educational development (G.E.D.) test preparation program, a job- or employment-related program, or a high school completion program, that meets the requirements of this section, and shall meet either of the following, as applicable:

(a) If the individual has obtained a high school diploma or a general educational development (G.E.D.) certificate, the individual meets 1 of the following:

(*i*) Is less than 20 years of age on September 1 of the school year and is enrolled in the Michigan career and technical institute.

(*ii*) Is less than 20 years of age on September 1 of the school year, is not attending an institution of higher education, and is enrolled in a job- or employment-related program through a referral by an employer.

(*iii*) Is enrolled in an English as a second language program.

(*iv*) Is enrolled in a high school completion program.

(b) If the individual has not obtained a high school diploma or G.E.D. certificate, the individual meets 1 of the following:

(*i*) Is at least 20 years of age on September 1 of the school year.

(*ii*) Is at least 16 years of age on September 1 of the school year, has been permanently expelled from school under section 1311(2) or 1311a of the revised school code, MCL 380.1311 and 380.1311a, and has no appropriate alternative education program available through his or her district of residence.

(4) Except as otherwise provided in subsection (5), the money allocated under this section shall be distributed as follows:

(a) For districts and consortia that received payments for 2011-2012 under this section, the amount allocated to each for 2012-2013 shall be based on the number of participants served by the district or consortium for 2012-2013, using the amount allocated per full-time equated participant under subsection (7), up to a maximum total allocation under this subsection in an amount equal to the amount the district or consortium received for 2011-2012 under this section before any reallocations made for 2011-2012 under subsection (5).

(b) A district or consortium that received funding in 2011-2012 under this section may operate independently of a consortium or join or form a consortium for 2012-2013. The allocation for 2012-2013 to the district or the newly formed consortium under this subsection shall be determined by the department and shall be based on the proportion of the amounts that are attributable to the district or consortium that received funding in 2011-2012. A district or consortium described in this subdivision shall notify the department of its intention with regard to 2012-2013 by October 1, 2012.

(5) A district that operated an adult education program in 2011-2012 and does not intend to operate a program in 2012-2013 shall notify the department by October 1, 2012 of its intention. The money intended to be allocated under this section to a district that does not operate a program in 2012-2013 and the unspent money originally allocated under this section to a district or consortium that subsequently operates a program at less than the level of funding allocated under subsection (4) and any other unallocated money under this section shall instead be proportionately reallocated to the other districts described in subsection (4)(a) that are operating an adult education program in 2012-2013 under this section.

(6) The amount allocated under this section per full-time equated participant is $2,850.00 for a 450-hour program. The amount shall be proportionately reduced for a program offering less than 450 hours of instruction.

(7) An adult basic education program or an adult English as a second language program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who are determined by a department-approved assessment, in a form and manner prescribed by the department, to be below ninth grade level in reading or mathematics, or both, or to lack basic English proficiency.

(b) The program tests individuals for eligibility under subdivision (a) before enrollment and upon

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

completion of the program in compliance with the state-approved assessment policy.

(c) A participant in an adult basic education program is eligible for reimbursement until 1 of the following occurs:

(*i*) The participant's reading and mathematics proficiency are assessed at or above the ninth grade level.

(*ii*) The participant fails to show progress on 2 successive assessments after having completed at least 450 hours of instruction.

(d) A funding recipient enrolling a participant in an English as a second language program is eligible for funding according to subsection (11) until the participant meets 1 of the following:

(*i*) The participant is assessed as having attained basic English proficiency as determined by a department-approved assessment.

(*ii*) The participant fails to show progress on 2 successive department-approved assessments after having completed at least 450 hours of instruction. The department shall provide information to a funding recipient regarding appropriate assessment instruments for this program.

(8) A general educational development (G.E.D.) test preparation program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who do not have a high school diploma.

(b) The program shall administer a G.E.D. pre-test approved by the department before enrolling an individual to determine the individual's potential for success on the G.E.D. test, and shall administer a post-test upon completion of the program in compliance with the state-approved assessment policy.

(c) A funding recipient shall receive funding according to subsection (11) for a participant, and a participant may be enrolled in the program until 1 of the following occurs:

(*i*) The participant passes the G.E.D. test.

(*ii*) The participant fails to show progress on 2 successive department-approved assessments used to determine readiness to take the G.E.D. test after having completed at least 450 hours of instruction.

(9) A high school completion program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who do not have a high school diploma.

(b) The program tests participants described in subdivision (a) before enrollment and upon completion of the program in compliance with the state-approved assessment policy.

(c) A funding recipient shall receive funding according to subsection (11) for a participant in a course offered under this subsection until 1 of the following occurs:

(*i*) The participant passes the course and earns a high school diploma.

(*ii*) The participant fails to earn credit in 2 successive semesters or terms in which the participant is enrolled after having completed at least 900 hours of instruction.

(10) A job- or employment-related adult education program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults referred by their employer who are less than 20 years of age, have a high school diploma, are determined to be in need of remedial mathematics or communication arts skills and are not attending an institution of higher education.

(b) The program tests participants described in subdivision (a) before enrollment and upon completion of the program in compliance with the department-approved assessment policy.

(c) An individual may be enrolled in this program and the grant recipient shall receive funding according to subsection (11) until 1 of the following occurs:

(*i*) The individual achieves the requisite skills as determined by department-approved assessment instruments.

(*ii*) The individual fails to show progress on 2 successive assessments after having completed at least 450 hours of instruction.

(11) A funding recipient shall receive payments under this section in accordance with the following:

(a) Ninety percent for enrollment of eligible participants.

(b) Ten percent for completion of the adult basic education objectives by achieving an increase of at least 1 grade level of proficiency in reading or mathematics; for achieving basic English proficiency, as defined by the department in the adult education guidebook; for obtaining a G.E.D. or passage of 1 or more individual G.E.D. tests; for attainment of a high school diploma or passage of a course required for a participant to attain a high school diploma; or for completion of the course and demonstrated proficiency in the academic skills to be learned in the course, as applicable.

(12) As used in this section, "participant" means the sum of the number of full-time equated individuals enrolled in and attending a department-approved adult education program under this section, using quarterly participant count days on the schedule described in section 6(7)(b).

(13) A person who is not eligible to be a participant funded under this section may receive adult education services upon the payment of tuition. In addition, a person who is not eligible to be served in a program under this section due to the program limitations specified in subsection (7), (8), (9), or (10) may continue to receive adult education services in that program upon the payment of tuition. The tuition level shall be determined by the local or intermediate district conducting the program.

(14) An individual who is an inmate in a state correctional facility shall not be counted as a participant under this section.

(15) A district shall not commingle money received under this section or from another source for adult education purposes with any other funds of the district. A district receiving adult education funds shall establish a separate ledger account for those funds. This subsection does not prohibit a district from using general funds of the district to support an adult education or community education program.

(16) A district or intermediate district receiving funds under this section may establish a sliding scale of tuition rates based upon a participant's family income. A district or intermediate district may charge a participant tuition to receive adult education services under this section from that sliding scale of tuition rates on a uniform basis. The amount of tuition charged per participant shall not exceed the actual operating cost per participant minus any funds received under this section per participant. A district or intermediate district may not charge a participant tuition under this section if the participant's income is at or below 200% of the federal poverty guidelines published by the United States department of health and human services.

(17) In order to receive funds under this section, a district shall furnish to the department, in a form and manner determined by the department, all information needed to administer this program and meet federal reporting requirements; shall allow the department or the department's designee to review all records related to the program for which it receives funds; and shall reimburse the state for all disallowances found in the review, as determined by the department.

(18) All intermediate district participant audits of adult education programs shall be performed pursuant to the adult education participant auditing and accounting manuals published by the department.

(19) As used in this section, "department" means the Michigan strategic fund.

388.1707.amended Adult education programs.

Sec. 107. (1) From the appropriation in section 11, there is allocated an amount not to exceed $22,000,000.00 for 2013-2014 for adult education programs authorized under this section. Funds allocated under this section are restricted for adult education programs as authorized under this section only. A recipient of funds under this section shall not use those funds for any other purpose.

(2) To be eligible for funding under this section, a program shall employ certificated teachers and qualified administrative staff and shall offer continuing education opportunities for teachers to allow them to maintain certification.

(3) To be eligible to be a participant funded under this section, a person shall be enrolled in an adult basic education program, an adult English as a second language program, a general educational development (G.E.D.) test preparation program, a job- or employment-related program, or a high school completion program, that meets the requirements of this section, and shall meet either of the following, as applicable:

(a) If the individual has obtained a high school diploma or a general educational development (G.E.D.) certificate, the individual meets 1 of the following:

(*i*) Is less than 20 years of age on September 1 of the school year and is enrolled in the Michigan career and technical institute.

(*ii*) Is less than 20 years of age on September 1 of the school year, is not attending an institution of higher education, and is enrolled in a job- or employment-related program through a referral by an employer.

(*iii*) Is enrolled in an English as a second language program.

(*iv*) Is enrolled in a high school completion program.

(b) If the individual has not obtained a high school diploma or G.E.D. certificate, the individual meets 1 of the following:

(*i*) Is at least 20 years of age on September 1 of the school year.

(*ii*) Is at least 16 years of age on September 1 of the school year, has been permanently expelled from school under section 1311(2) or 1311a of the revised school code, MCL 380.1311 and 380.1311a, and has no appropriate alternative education program available through his or her district of residence.

(4) Except as otherwise provided in subsection (5), the money allocated under this section shall be distributed as follows:

(a) For districts and consortia that received payments for 2012-2013 under this section, the amount allocated to each for 2013-2014 shall be based on the number of participants served by the district or consortium for 2012-2013, using the amount allocated per full-time equated participant under subsection (7), up to a maximum total allocation under this subsection in an amount equal to the amount the district or consortium received for 2012-2013 under this section before any reallocations made for 2012-2013 under subsection (5).

(b) A district or consortium that received funding in 2012-2013 under this section may operate independently of a consortium or join or form a consortium for 2013-2014. The allocation for 2013-2014 to the district or the newly formed consortium under this subsection shall be determined by the department and shall be based on the proportion of the amounts that are attributable to the district or consortium that received funding in 2012-2013. A district or consortium described in this subdivision shall notify the department of its intention with regard to 2013-2014 by October 1, 2013.

(5) A district that operated an adult education program in 2012-2013 and does not intend to operate a program in 2013-2014 shall notify the department by October 1, 2013 of its intention. The money intended to be allocated under this section to a district that does not operate a program in 2013-2014 and the unspent money originally allocated under this section to a district or consortium that subsequently operates a program at less than the level of funding allocated under subsection (4) and any other unallocated money under this

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

section shall instead be proportionately reallocated to the other districts described in subsection (4)(a) that are operating an adult education program in 2013-2014 under this section.

(6) The amount allocated under this section per full-time equated participant is $2,850.00 for a 450-hour program. The amount shall be proportionately reduced for a program offering less than 450 hours of instruction.

(7) An adult basic education program or an adult English as a second language program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who are determined by a department-approved assessment, in a form and manner prescribed by the department, to be below ninth grade level in reading or mathematics, or both, or to lack basic English proficiency.

(b) The program tests individuals for eligibility under subdivision (a) before enrollment and upon completion of the program in compliance with the state-approved assessment policy.

(c) A participant in an adult basic education program is eligible for reimbursement until 1 of the following occurs:

(*i*) The participant's reading and mathematics proficiency are assessed at or above the ninth grade level.

(*ii*) The participant fails to show progress on 2 successive assessments after having completed at least 450 hours of instruction.

(d) A funding recipient enrolling a participant in an English as a second language program is eligible for funding according to subsection (11) until the participant meets 1 of the following:

(*i*) The participant is assessed as having attained basic English proficiency as determined by a department-approved assessment.

(*ii*) The participant fails to show progress on 2 successive department-approved assessments after having completed at least 450 hours of instruction. The department shall provide information to a funding recipient regarding appropriate assessment instruments for this program.

(8) A general educational development (G.E.D.) test preparation program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who do not have a high school diploma.

(b) The program shall administer a G.E.D. pre-test approved by the department before enrolling an individual to determine the individual's potential for success on the G.E.D. test, and shall administer a post-test upon completion of the program in compliance with the state-approved assessment policy.

(c) A funding recipient shall receive funding according to subsection (11) for a participant, and a participant may be enrolled in the program until 1 of the following occurs:

(*i*) The participant passes the G.E.D. test.

(*ii*) The participant fails to show progress on 2 successive department-approved assessments used to determine readiness to take the G.E.D. test after having completed at least 450 hours of instruction.

(9) A high school completion program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who do not have a high school diploma.

(b) The program tests participants described in subdivision (a) before enrollment and upon completion of the program in compliance with the state-approved assessment policy.

(c) A funding recipient shall receive funding according to subsection (11) for a participant in a course offered under this subsection until 1 of the following occurs:

(*i*) The participant passes the course and earns a high school diploma.

(*ii*) The participant fails to earn credit in 2 successive semesters or terms in which the participant is enrolled after having completed at least 900 hours of instruction.

(10) A job- or employment-related adult education program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults referred by their employer who are less than 20 years of age, have a high school diploma, are determined to be in need of remedial mathematics or communication arts skills and are not attending an institution of higher education.

(b) The program tests participants described in subdivision (a) before enrollment and upon completion of the program in compliance with the department-approved assessment policy.

(c) An individual may be enrolled in this program and the grant recipient shall receive funding according to subsection (11) until 1 of the following occurs:

(*i*) The individual achieves the requisite skills as determined by department-approved assessment instruments.

(*ii*) The individual fails to show progress on 2 successive assessments after having completed at least 450 hours of instruction.

(11) A funding recipient shall receive payments under this section in accordance with the following:

(a) Ninety percent for enrollment of eligible participants.

(b) Ten percent for completion of the adult basic education objectives by achieving an increase of at least 1 grade level of proficiency in reading or mathematics; for achieving basic English proficiency, as defined by the department in the adult education guidebook; for obtaining a G.E.D. or passage of 1 or more individual G.E.D. tests; for attainment of a high school diploma or passage of a course required for a participant to attain a high school diploma; or for completion of the course and demonstrated proficiency in the academic skills to be learned in the course, as applicable.

(12) As used in this section, "participant" means the sum of the number of full-time equated individuals enrolled in and attending a department-approved adult education program under this section, using quarterly participant count days on the schedule described in section 6(7)(b).

(13) A person who is not eligible to be a participant funded under this section may receive adult education services upon the payment of tuition. In addition, a person who is not eligible to be served in a program under this section due to the program limitations specified in subsection (7), (8), (9), or (10) may continue to receive adult education services in that program upon the payment of tuition. The tuition level shall be determined by the local or intermediate district conducting the program.

(14) An individual who is an inmate in a state correctional facility shall not be counted as a participant under this section.

(15) A district shall not commingle money received under this section or from another source for adult education purposes with any other funds of the district. A district receiving adult education funds shall establish a separate ledger account for those funds. This subsection does not prohibit a district from using general funds of the district to support an adult education or community education program.

(16) A district or intermediate district receiving funds under this section may establish a sliding scale of tuition rates based upon a participant's family income. A district or intermediate district may charge a participant tuition to receive adult education services under this section from that sliding scale of tuition rates on a uniform basis. The amount of tuition charged per participant shall not exceed the actual operating cost per participant minus any funds received under this section per participant. A district or intermediate district may not charge a participant tuition under this section if the participant's income is at or below 200% of the federal poverty guidelines published by the United States department of health and human services.

(17) In order to receive funds under this section, a district shall furnish to the department, in a form and manner determined by the department, all information needed to administer this program and meet federal reporting requirements; shall allow the department or the department's designee to review all records related to the program for which it receives funds; and shall reimburse the state for all disallowances found in the review, as determined by the department.

(18) All intermediate district participant audits of adult education programs shall be performed pursuant to the adult education participant auditing and accounting manuals published by the department.

(19) It is the intent of the legislature to study allocating funds under this section on a competitive basis beginning for 2014-2015.

(20) As used in this section, "department" means the Michigan strategic fund.

388.1709 Providing appropriate instructional services to pupil requiring hospitalization or confinement at home.

Sec. 109. (1) Subject to subsection (2), in order to receive funds under this article, each district or intermediate district shall provide appropriate instructional services, as determined by the district or intermediate district, to an enrolled pupil who is certified by the pupil's attending physician as having a medical condition that requires the pupil to be hospitalized or confined to his or her home during regular school hours and that is expected to require the hospitalization or confinement for a period longer than 5 school days. The district or intermediate district may provide the services itself or may contract with an intermediate district, a hospital, a treatment center, or another district to provide the services. In choosing a provider for the instructional services, the district or intermediate district shall consider which of those potential providers is best able to deliver the appropriate instructional services. The district or intermediate district shall pay reasonable costs as agreed upon between the district or intermediate district and the provider for services provided to a pupil under this section.

(2) A district or intermediate district is required to provide instructional services under subsection (1) to a pupil placed in a hospital, treatment center, or other treatment facility without the district's or intermediate district's prior knowledge only if the district or intermediate district is notified of the pupil's placement by the

hospital, treatment center, facility, or the pupil's parent or legal guardian. Upon being notified, the district or intermediate district shall make arrangements to provide instructional services under subsection (1) within 3 school days after being notified.

(3) Not later than October 15 of each odd-numbered year, the department shall prepare and distribute electronically to each district and intermediate district and make available on its website an explanation of the operation of this section and the respective duties of all affected parties. The department shall provide a copy of the explanation electronically to any other person upon request.

388.1711 Tuition rates; computation; uniformity.

Sec. 111. A district having tuition pupils enrolled on the pupil membership count day of each year may charge the district of residence an amount for tuition that does not exceed the tuition rate computed under section 1401 of the revised school code, MCL 380.1401. The rate charged by a district shall be uniform within each category of tuition pupils enrolled in the district. However, for a tuition pupil who resides in a K-5, K-6, or K-8 district and who is enrolled in a grade not offered by the pupil's district of residence, the tuition rate charged to the pupil's district of residence shall not exceed the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district, whichever is greater.

contained in the whole or fractional district as last determined by the state tax commission and placed on the ad valorem tax roll. For purposes of computations made under this act, except as provided in section 26, the taxable value of a district or intermediate district shall include the value of property used to calculate the tax imposed on lessees or users of tax-exempt property under 1953 PA 189, MCL 211.181 to 211.182, and the value of property used to calculate the state payment in lieu of taxes on state purchased property under section 2153 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.2153. Adjustments to this taxable value shall be made for all of the following:

(a) State tax tribunal decisions.

(b) Court decisions.

(c) Local board of review adjustments made after the state tax commission determination.

(d) Lands deeded to the state for jurisdictions without delinquent tax revolving funds or for jurisdictions that have required repayment to the delinquent tax revolving funds.

(e) The requirements of this act.

(2) Adjustments under subsection (1) shall not be made for more than the 6 state fiscal years immediately preceding the state fiscal year in which the adjustment is made, except that an adjustment pursuant to a state tax tribunal decision or court decision shall be made for the tax years involved in the decision and any subsequent years affected by the decision.

Sec. 124. (1) If taxes levied for operating purposes against property constituting at least 5% of the valuation of a district are paid under protest and, therefore, are unavailable to the district, the total valuation of the district for the purposes of this act shall be reduced by the valuation of the property. The credits so obtained by a district in the calculation of payments to the district under this act shall remain a lien against the district and shall be paid by the district to the school aid fund when the taxes are collected.

(2) If taxes levied for operating purposes against property constituting at least 5% of the valuation of a district are not paid by a single bankrupt debtor that files for reorganization under chapter 11 of title 11 of the United States Code, 11 U.S.C. 1101 to 1174, and, therefore, are unavailable to the district, the total valuation of the district for the purposes of this act shall be reduced by the valuation of the property. The credits so obtained by a district in the calculation of payments to the district under this act shall remain a lien against the district and shall be paid by the district to the school aid fund when the taxes are collected. This subsection shall be implemented upon verification by the department that the district has taken proper action to attempt to secure payment of taxes by the bankrupt debtor.

388.1747 Allocations to public school employees' retirement system.

Sec. 147. The allocation for 2012-2013 for the public school employees' retirement system pursuant to the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1301 to 38.1408, shall be made using the entry age normal cost actuarial method and risk assumptions adopted by the public school employees retirement board and the department of technology, management, and budget. For public school employees who first worked for a public school reporting unit before July 1, 2010, the annual level percentage of payroll contribution rate is estimated at 18.62% for pension and at 8.75% for retiree health care for the 2012-2013 fiscal year, unless a different contribution rate is calculated and applied by the office of retirement services pursuant to provisions enacted under Senate Bill No. 1040 of the 96th Legislature. For public school employees who first worked for a public school reporting unit on or after July 1, 2010, the annual level percentage of payroll contribution rate is estimated at 17.39% for pension and 8.75% for retiree health care for the 2012-2013 fiscal year, unless a different contribution rate is calculated and applied by the office of retirement services pursuant to provisions enacted under Senate Bill No. 1040 of the 96th Legislature. For public school employees who first worked for a public school reporting unit before July 1, 2010, the annual level percentage of payroll contribution rate is estimated at 22.46% for pension and 8.75% for retiree health care for the 2013-2014 fiscal year, unless a different contribution rate is calculated and applied by the office of retirement services pursuant to provisions enacted under Senate Bill No. 1040 of the 96th Legislature. For public school employees who first worked for a public school reporting unit on or after July 1, 2010, the annual level percentage of payroll contribution rate is estimated at 21.19% for pension and 8.75% for retiree health care for the 2013-2014 fiscal year, unless a different contribution rate is calculated and applied by the office of retirement services pursuant to provisions enacted under Senate Bill No. 1040 of the 96th Legislature. The portion of the contribution rate assigned to districts and intermediate districts for each fiscal year is all of the total percentage points. This contribution rate reflects an amortization period of 26 years for 2012-2013. The public school employees' retirement system board shall notify each district and intermediate district by February 28 of each fiscal year of the estimated contribution rate for the next fiscal year.

388.1747b MPSERS retirement obligation reform reserve fund; creation; investment; interest and earnings; workgroup.

Sec. 147b. (1) From the appropriation in section 11, there is allocated an amount not to exceed $133,000,000.00 for 2011-2012 and an amount not to exceed $41,000,000.00 for 2012-2013 for the purposes of this section. The money allocated in this section represents a portion of the year-end school aid fund balance. Money allocated under this section shall be deposited in the MPSERS retirement obligation reform reserve fund.

(2) The MPSERS retirement obligation reform reserve fund is created as a separate account within the state school aid fund. The state treasurer may receive money or other assets from any source for deposit into the MPSERS retirement obligation reform reserve fund. The state treasurer shall direct the investment of the MPSERS retirement obligation reform reserve fund. The state treasurer shall credit to the MPSERS retirement obligation reform reserve fund interest and earnings from the MPSERS retirement obligation reform reserve fund. Money in the MPSERS retirement obligation reform reserve fund at the close of the fiscal year shall remain in the MPSERS retirement obligation reform reserve fund and shall not lapse to the state school aid fund or to the general fund. The department of treasury shall be the administrator of the MPSERS retirement obligation reform reserve fund for auditing purposes.

(3) It is the intent of the legislature that the speaker of the house of representatives or the senate majority leader, or both, shall convene a workgroup to examine retirement obligations and potential reforms to the Michigan public school employees' retirement system established under the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1301 to 38.1408. The chair of the senate appropriations committee and chair of the house appropriations committee, or his or her designee, each shall be a member of the workgroup, and the workgroup shall report to the speaker of the house of representatives or the senate majority leader, as applicable, by February 1, 2012, on reforms identified, timelines for implementing

388.1747b.amended MPSERS retirement obligation reform reserve fund; creation; investment; interest and earnings.

Sec. 147b. (1) The MPSERS retirement obligation reform reserve fund is created as a separate account within the state school aid fund.

(2) The state treasurer may receive money or other assets from any source for deposit into the MPSERS retirement obligation reform reserve fund. The state treasurer shall direct the investment of the MPSERS retirement obligation reform reserve fund. The state treasurer shall credit to the MPSERS retirement obligation reform reserve fund interest and earnings from the MPSERS retirement obligation reform reserve fund.

(3) Money available in the MPSERS retirement obligation reform reserve fund shall not be expended without a specific appropriation.

(4) Money in the MPSERS retirement obligation reform reserve fund at the close of the fiscal year shall remain in the MPSERS retirement obligation reform reserve fund and shall not lapse to the state school aid fund or to the general fund. The department of treasury shall be the administrator of the MPSERS retirement obligation reform reserve fund for auditing purposes.

(5) If the contributions described in section 43e of the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1343e, as that section was added by 2010 PA 75, are determined by a final order of a court of competent jurisdiction for which all rights of appeal have been exhausted to be constitutional and if the order for preliminary injunction in case no. 10-45-MM issued on July 13, 2010 is lifted, the money placed in a separate interest bearing account as a result of implementing the preliminary injunction shall be deposited into the MPSERS retirement obligation reform reserve fund created in this section to be used solely for health care unfunded accrued liabilities.

388.1747c Payments to participating entities of retirement system; definitions.

Sec. 147c. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2012-2013 an amount not to exceed $160,000,000.00 for payments to districts and intermediate districts that are participating entities of the retirement system. From the appropriation in section 11, there is allocated for 2013-2014 an amount not to exceed $247,300,000.00 from the state school aid fund, and there is appropriated for 2013-2014 an amount not to exceed $156,000,000.00 from the MPSERS retirement obligation reform reserve fund, for payments to districts and intermediate districts that are participating entities of the Michigan public school employees' retirement system.

(2) In addition to the allocation under subsection (1), from the general fund money appropriated under section 11, there is allocated for payments to district libraries that are participating entities of the retirement system an amount not to exceed $500,000.00 for 2012-2013 and an amount not to exceed $1,300,000.00 for 2013-2014.

(3) Payments made under this section for 2012-2013 shall be equal to the difference between the unfunded actuarial accrued liability contribution rate as calculated pursuant to section 41 of the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1341, and the maximum employer rate of 20.96% included in section 41 of the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1341. Payments made under this section for 2013-2014 shall be equal to the difference between the unfunded actuarial accrued liability contribution rate as calculated pursuant to section 41 of the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1341, as calculated without taking into account the maximum employer rate of 20.96% included in section 41 of the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1341, and the maximum employer rate of 20.96% included in section 41 of the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1341.

(4) The amount allocated to each participating entity under this section shall be based on each participating entity's proportion of the total covered payroll for the immediately preceding fiscal year for the same type of participating entities. A participating entity that receives funds under this section shall use the funds solely for the purpose of retirement contributions as specified in subsection (5).

(5) Each participating entity receiving funds under this section shall forward an amount equal to the amount allocated under subsection (4) to the retirement system in a form, manner, and time frame determined by the retirement system.

payment in lieu of unused vacation or personal leave for the purpose of increasing the school administrator's retirement benefits. If a district or intermediate district violates this section in a fiscal year, the district or intermediate district forfeits from its funds due under this act for that fiscal year an amount equal to the salary of the district's or intermediate district's superintendent for that fiscal year.

History: Add. 1994, Act 283, Eff. Oct. 1, 1994.

388.1764b Payment or reimbursement of board member expenses.

Sec. 164b. (1) The board of a district or intermediate district shall not pay an expense incurred by a member of the board unless the payment is in compliance with section 1254 of the revised school code, being section 380.1254 of the Michigan Compiled Laws.

(2) In addition to the requirements of section 1254 of the revised school code, the board of a district or intermediate district shall not approve reimbursement of an expense incurred by a board member unless 1 or both of the following conditions is met:

(a) The board, by a majority vote of its members at an open meeting, approved reimbursement of the specific expense before the expense was incurred.

(b) The expense is consistent with a policy adopted by the board, by a majority vote of its members at a regular board meeting, establishing specific categories of reimbursable expenses and the board, by a majority vote of its members at an open meeting, approved the reimbursement before it is actually paid.

(3) Records of all payments under this section shall be open to the public.

(4) A violation of this section is punishable under section 161.

388.1764d Adoption, implementation, or issuance of certain policies, practices, or statements; prohibition.

Sec. 164d. A district or intermediate district shall not expend funds received under this act to adopt or implement a policy or practice, or to make or issue any public statement or directive, that has the effect of any of the following:

(a) Denies to a student of a particular state university access to the district or intermediate district for student teaching purposes solely because the student is enrolled in that state university.

(b) Prevents the hiring of a graduate of a particular state university solely because the individual graduated from that state university.

(c) Discourages or prohibits a counselor employed by the district or intermediate district from recommending a particular state university to a pupil of the district or intermediate district for reasons other than the suitability of the state university's educational offerings for the particular pupil.

History: Add. 1995, Act 130, Eff. Oct. 1, 1995.

388.1764e Student teaching; employment discrimination prohibited.

Sec. 164e. If a district or an employee of a district discriminates against a person engaging in or seeking to

388.1766a Instruction in reproductive health or other sex education; complaint process.

Sec. 166a. (1) In order to avoid forfeiture of state aid under subsection (2), the board of a district or intermediate district providing reproductive health or other sex education instruction under section 1169, 1506, or 1507 of the revised school code, MCL 380.1169, 380.1506, and 380.1507, or under any other provision of law, shall ensure that all of the following are met:

(a) That the district or intermediate district does not provide any of the instruction to a pupil who is less than 18 years of age unless the district or intermediate district notifies the pupil's parent or legal guardian in advance of the instruction and the content of the instruction, gives the pupil's parent or legal guardian a prior opportunity to review the materials to be used in the instruction, allows the pupil's parent or legal guardian to observe the instruction, and notifies the pupil's parent or legal guardian in advance of his or her rights to observe the instruction and to have the pupil excused from the instruction.

(b) That, upon the written request of a pupil's parent or legal guardian or of a pupil if the pupil is at least age 18, the pupil shall be excused, without penalty or loss of academic credit, from attending class sessions in which the instruction is provided.

(c) That the sex education instruction includes age-appropriate information clearly informing pupils at 1 or more age-appropriate grade levels that having sex or sexual contact with an individual under the age of 16 is a crime punishable by imprisonment, and that 1 of the other results of being convicted of this crime is to be listed on the sex offender registry on the internet for up to 25 years.

(2) If a parent or legal guardian of a pupil enrolled in a district or intermediate district believes that the district or intermediate district has violated this section or section 1169, 1506, or 1507 of the revised school code, MCL 380.1169, 380.1506, and 380.1507, he or she may file a complaint with the superintendent or chief administrator of the district or intermediate district in which the pupil is enrolled. Upon receipt of the complaint, the superintendent or chief administrator of the district or intermediate district shall investigate the complaint and, within 30 days after the date of the complaint, provide a written report of his or her findings to the parent or legal guardian who filed the complaint and to the superintendent of public instruction. If the investigation reveals that 1 or more violations have occurred, the written report shall contain a description of each violation and of corrective action the district or intermediate district will take to correct the situation to ensure that there is no further violation. The district or intermediate district shall take the corrective action described in the written report within 30 days after the date of the written report.

(3) If a parent who has filed a complaint with a district under subsection (2) believes that the district is still not in compliance with law based on the findings made by the superintendent or chief administrator of the district, the parent may appeal the findings to the intermediate district in which the district is located. If there is an appeal to an intermediate district under this subsection, the intermediate superintendent of the

intermediate district shall investigate the complaint and, within 30 days after the date of the appeal, provide a written report of his or her findings to the parent or legal guardian who filed the appeal and to the superintendent of public instruction. If the investigation by the intermediate superintendent reveals that 1 or more violations have occurred, the intermediate superintendent in consultation with the local district shall develop a plan for corrective action for the district to take to correct the situation to ensure that there is no further violation, and shall include this plan for corrective action with the written report provided to the parent or legal guardian and the superintendent of public instruction. The district shall take the corrective action described in the plan within 30 days after the date of the written report.

(4) If a parent who has filed a complaint with an intermediate district under subsection (2) or a parent who has filed an appeal with an intermediate district under subsection (3) believes that the district or intermediate district is still not in compliance with law based on the findings made by the intermediate superintendent of the intermediate district, the parent may appeal the findings to the department. If there is an appeal to the department under this subsection, the department shall investigate the complaint and, within 90 days after the date of the appeal, provide a written report of its findings to the parent or legal guardian who filed the appeal, to the superintendent of public instruction, and to the district and intermediate district. If the department finds 1 or more violations as a result of its investigation, then all of the following apply:

(a) The department shall develop a plan for corrective action for the district or intermediate district to take to correct the situation to ensure that there is no further violation, and shall include this plan for corrective action with the written report provided to the parent or legal guardian, the superintendent of public instruction, and the district or intermediate district. The district or intermediate district shall take the corrective action described in the plan within 30 days after the date of the written report.

(b) In addition to withholding the percentage of state school aid forfeited by the district or intermediate district under subsection (5), the department may assess a fee to the district or intermediate district that committed the violation in an amount not to exceed the actual cost to the department of conducting the investigation and making the reports required under this subsection.

(5) If an investigation conducted by the department under subsection (4) reveals that a district or intermediate district has committed 1 or more violations of this section or section 1169, 1506, or 1507 of the revised school code, MCL 380.1169, 380.1506, and 380.1507, the district or intermediate district shall forfeit an amount equal to 1% of its total state school aid allocation under this act.

(6) The department, with the approval of the superintendent of public instruction, shall establish a reasonable process for a complainant to appeal to the department under subsection (4). The process shall not place an undue burden on the complainant, the district or intermediate district, or the department.

(7) The department shall track the number of complaints and appeals it receives under this section for the 2004-2005 school year and, not later than the end of that school year, shall submit a report to the standing committees and appropriations subcommittees of the legislature having jurisdiction over education legislation and state school aid that details the number and nature of those complaints and appeals and the cost to the department of handling them.

388.1766b Minor enrolled in nonpublic school or home school; dual enrollment; state school aid; requirements; "eligible other district" defined; minor as part-time pupil; reply by district.

Sec. 166b. (1) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades 1 to 12 in a nonpublic school or who is being home-schooled from also enrolling the minor in a district, public school academy, or intermediate district in any curricular offering that is provided by the district, public school academy, or intermediate district at a public school site and is available to pupils in the minor's grade level or age group, subject to compliance with the same requirements that apply to a full-time pupil's participation in the offering. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only for curricular offerings that are offered to full-time pupils in the minor's grade level or age group during regularly scheduled school hours.

(2) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades 1 to 12 in a nonpublic school or who resides within the district and is being home-schooled from also enrolling the minor in the district in a curricular offering being provided by the district at the nonpublic school site. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only if all of the following apply:

(a) Either of the following:

(*i*) The nonpublic school site is located, or the nonpublic students are educated, within the geographic

boundaries of the district.

(*ii*) If the nonpublic school has submitted a written request to the district in which the nonpublic school is located for the district to provide certain instruction under this subsection for a school year and the district does not agree to provide some or all of that instruction by May 1 immediately preceding that school year or, if the request is submitted after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request, the instruction is instead provided by an eligible other district. This subparagraph does not require a nonpublic school to submit more than 1 request to the district in which the nonpublic school is located for that district to provide instruction under this subsection, and does not require a nonpublic school to submit an additional request to the district in which the nonpublic school is located for that district to provide additional instruction under this subsection beyond the instruction requested in the original request, before having the instruction provided by an eligible other district. A public school academy that is located in the district in which the nonpublic school is located or in an other eligible district also may provide instruction under this subparagraph under the same conditions as an eligible other district. As used in this subparagraph, "eligible other district" means a district that is located in the same intermediate district as the district in which the nonpublic school is located or is located in an intermediate district that is contiguous to that intermediate district.

(b) The nonpublic school is registered with the department as a nonpublic school and meets all state reporting requirements for nonpublic schools.

(c) The instruction is scheduled to occur during the regular school day.

(d) The instruction is provided directly by a certified teacher at the district or public school academy or at an intermediate district.

(e) The curricular offering is also available to full-time pupils in the minor's grade level or age group in the district or public school academy during the regular school day at a public school site.

(f) The curricular offering is restricted to nonessential elective courses for pupils in grades 1 to 12.

(3) A minor enrolled as described in this section is a part-time pupil for purposes of state school aid under this act.

(4) A district that receives a written request to provide instruction under subsection (2) shall reply to the request in writing by May 1 immediately preceding the applicable school year or, if the request is made after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request. The written reply shall specify whether the district agrees to provide or does not agree to provide the instruction for each portion of instruction included in the request.

388.1767 Plan for compliance with MCL 333.9209 and 380.1177; report of immunization status; districts subject to subsection (4); failure to comply with section; pupil relocated in state due to natural disaster.

Sec. 167. (1) The department in cooperation with the department of community health shall develop plans to assist districts and intermediate districts and local county health departments to comply with section 1177 of the revised school code, MCL 380.1177, and section 9209 of the public health code, 1978 PA 368, MCL 333.9209, for each school year.

(2) Each district or intermediate district shall report to the local health department in which it is located by November 1 of each fiscal year, in a manner prescribed by the department of community health, the immunization status of each pupil in grades K through 12 who enrolled in the district or intermediate district for the first time or, beginning in 2002-2003, who enrolled in grade 6 in the district or intermediate district for the first time, between January 1 and September 30 of the immediately preceding fiscal year. Not later than December 31 of each fiscal year, the department of community health shall notify the department by district or intermediate district of the percentage of entering pupils and, beginning in 2002-2003, of pupils who enrolled in grade 6 for the first time who do not have a completed, waived, or provisional immunization record in accordance with section 1177 of the revised school code, MCL 380.1177. If a district or intermediate district does not have a completed, waived, or provisional immunization record in accordance with section 1177 of the revised school code, MCL 380.1177, for at least 90% of the district's or intermediate district's entering pupils, as recorded in the November 1 reports required under this subsection, the district or intermediate district is subject to subsection (4) until the district or intermediate district has such an immunization record for at least 90% of its pupils who enrolled in the district or intermediate district for the first time.

(3) Each district or intermediate district shall again report to the local health department in which it is located by February 1 of each fiscal year, in a manner prescribed by the department of community health, the immunization status of each pupil in grades K through 12 who enrolled in the district or intermediate district for the first time or, beginning in 2002-2003, who enrolled in grade 6 in the district or intermediate district for the first time, between January 1 of the immediately preceding fiscal year and December 31 of the current fiscal year. Not later than March 31 of each fiscal year, the department of community health shall notify the department by district or intermediate district of the percentage of entering pupils and, beginning in 2002-2003, of pupils who enrolled in grade 6 for the first time who do not have a completed, waived, or provisional immunization record in accordance with section 1177 of the revised school code, MCL 380.1177. If a district or intermediate district does not have a completed, waived, or provisional immunization record in accordance with section 1177 of the revised school code, MCL 380.1177, for at least 95% of the district's or intermediate district's entering pupils, as recorded in the February 1 reports required under this subsection, the district or intermediate district is subject to subsection (4) until the district or intermediate district has such an immunization record for at least 95% of its pupils who enrolled in the district or intermediate district for the first time. If the department of community health is not able to report to the department by March 31 because a district or intermediate district fails to submit a report as required in this subsection, or submits an incomplete, inaccurate, or late report, the district or intermediate district is subject to subsection (4) until the report is submitted in a complete and accurate form.

(4) If a district or intermediate district does not comply with this section, the department shall withhold 5% of the total funds due to the district or intermediate district under this act after the date the department of

community college that receives money under this subsection shall use that money solely for the purpose of offsetting a portion of the retirement contributions owed by the college for the fiscal year ending September 30, 2014. The amount allocated to each participating community college under this section shall be based on each participating college's total payroll covered by the retirement system-covered payroll for all participating colleges for the immediately preceding state fiscal year.

(5) From the appropriations described in subsection (1), there is appropriated an amount not to exceed $31,400,000.00 from the state general fund for payments to community colleges that are participating entities of the retirement system. All of the following apply to the appropriations described in this subsection:

(a) The amount of a payment under this subsection shall be the difference between the unfunded actuarial accrued liability contribution rate as calculated under section 41 of the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1341, and the maximum employer rate of 20.96% under section 41 of the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1341.

(b) The amount allocated to each community college under this subsection shall be based on each community college's percentage of the total covered payroll for all community colleges that are participating colleges in the immediately preceding fiscal year. A community college that receives funds under this subsection shall use the funds solely for the purpose of retirement contributions under subdivision (c).

(c) Each participating college receiving funds under this subsection shall forward an amount equal to the amount allocated under subdivision (b) to the retirement system in a form and manner determined by the retirement system.

(6) All of the following apply to community colleges described in section 12(3) of the Michigan renaissance zone act, MCL 125.2692:

(a) From the appropriations described in subsection (1), the following amount is appropriated for reimbursement to community colleges under section 12(3) of the Michigan renaissance zone act, MCL 125.2692:

(*i*) If the amount of tax revenue lost by community colleges as a result of the exemption of property under the Michigan renaissance zone act in fiscal year 2012-2013 is $3,500,000.00 or more, $3,500,000.00 from the state general fund.

(*ii*) If the amount of tax revenue lost by community colleges as a result of the exemption of property under the Michigan renaissance zone act in fiscal year 2012-2013 is less than $3,500,000.00, the actual amount of tax revenue lost by the community colleges.

(b) The amount allocated to each community college under this subsection shall be based on that community college's proportion of total revenue lost by community colleges in fiscal year 2012-2013 as a result of the exemption of property under the Michigan renaissance zone act.

(c) The appropriations described in this subsection shall be made to each eligible community college within 60 days after the department of treasury certifies to the state budget director that it has received all necessary information to properly determine the amounts of tax revenue lost by each eligible community college in fiscal year 2012-2013 under section 12 of the Michigan renaissance zone act, MCL 125.2692.

(7) From the appropriations described in subsection (1), there is appropriated $1,100,000.00 from the state general fund, for fiscal year 2013-2014 only, to the Michigan community college association, for the purpose of expanding the Michigan community college virtual learning collaborative. The Michigan community college association shall provide information on request to the house and senate subcommittees on community colleges, the house and senate fiscal agencies, and the state budget director on the use of these funds until the project is completed.

388.1801b Appropriations to participating community colleges of retirement system.

Sec. 201b. (1) In addition to the amounts appropriated under section 201, $12,500,000.00 is appropriated for community colleges from state general fund/general purpose money for the fiscal year ending September 30, 2013, for payments to community colleges that are participating community colleges of the retirement system. Payments made under this section shall be equal to the difference between the unfunded actuarial accrued liability contribution rate as calculated under section 41 of the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1341, and the maximum employer rate of 20.96% included in section 41 of the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1341.

(2) The amount allocated to each community college under this section shall be based on each participating community college's total payroll covered by the retirement system in proportion to the total covered payroll for the immediately preceding fiscal year for all participating community colleges. A community college that receives funds under this section shall use the funds solely for the purpose of retirement contributions as specified in subsection (3).

(3) Each community college that receives funds under this section shall forward an amount equal to the amount it receives under subsection (2) to the retirement system in the form and manner prescribed by the retirement system.

(4) As used in this section:

(a) "Participating community college" means a community college that is a reporting unit of the retirement system and that reports employees to the Michigan public school employees' retirement system for the applicable fiscal year.

(b) "Retirement board" means the board that administers the retirement system.

(c) "Retirement system" means the Michigan public school employees' retirement system under the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1301 to 38.1437.

388.1816 Statutory mandates; review.

Sec. 216. (1) It is the intent of the legislature that the senate and house appropriations subcommittees on community colleges, together with the Michigan community college association and other interested stakeholders, review any statutory mandates imposed on community colleges, including those identified by the legislative commission on statutory mandates established under former chapter 7B of the legislative council act, 1986 PA 268, and determine if those mandates are necessary for the health and safety of students; are essential to the academic integrity of the community colleges; exceed any applicable federal requirements; are superfluous to the core academic programs of the community colleges; and materially impact local control and governance of the colleges.

(2) The senate and house appropriations subcommittees on community colleges shall review the estimated costs and benefits of each statutory mandate reviewed under subsection (1) and shall report their findings to the state budget director.

388.1821 Document retention.

Sec. 221. (1) A community college shall retain certified class summaries, class lists, registration documents, and student transcripts that are consistent with the taxonomy of courses. For each enrollment period during the fiscal year, these certified documents shall identify clearly by course the number of in-district and out-of-district student credit and contact hours. The class summaries and class lists shall be consistent with each other and shall include the course prefix and numbers, course title, course credit and contact hours, credit and contact hours generated by each student, and activity classifications consistent with the taxonomy. An auditable process shall be used by the community college to determine the unduplicated head count for in-district students, out-of-district students, and prisoners for each enrollment period during the fiscal year.

(2) A community college shall retain all contracts between the community college and agencies that reimburse the community college for the costs of instruction for audit purposes.

388.1830 Recommendations and performance measures developed by performance indicators task force; review and implementation; intent of legislature; offset of retirement contributions; resolution; categories of best practices.

Sec. 230. (1) It is the intent of the legislature that the recommendations and performance measures developed by the performance indicators task force formed under section 242 of 2005 PA 154 be reviewed and more fully implemented for distribution of state funding to community colleges in future years.

(2) Any additional funding provided to community college operations under section 201(2) in fiscal year 2012-2013 that exceeds the amounts appropriated for operations in fiscal year 2011-2012 is allocated solely for the purpose of offsetting a portion of the retirement contributions owed by the college for the fiscal year ending September 30, 2013. The additional funding is distributed based on the following formula:

(a) Allocated proportionate to fiscal year 2011-2012 base appropriations, 50%.

(b) Based on contact hour equated students, 10%.

(c) Based on administrative costs, 7.5%.

(d) Based on a weighted degree formula as provided for in the 2006 recommendations of the performance indicators task force, 17.5%.

(e) Based on the local strategic value component, as developed in cooperation with the Michigan community college association and described in subsection (3), 15%.

(3) The appropriation in section 201(2)(cc) for local strategic value shall be allocated to each community college that certifies to the state budget director, through a board of trustees resolution on or before November 1, 2012, that the college has met 4 out of 5 best practices listed in each category described in subsection (4). The resolution shall provide specifics as to how the community college meets each best practice measure within each category. One-third of funding available under the strategic value component shall be allocated to each category described in subsection (4). Amounts distributed under local strategic value shall be on a proportionate basis to each college's fiscal year 2011-2012 operations funding. Payments to community colleges that qualify for local strategic value funding shall be distributed with the November installment payment described in section 206.

(4) For purposes of subsection (3), the following categories of best practices reflect functional activities of community colleges that have strategic value to the local communities and regional economies:

(a) For Category A, economic development and business or industry partnerships, the following:

© Legislative Council, State of Michigan Courtesy of www.legislature.mi.gov

(*i*) The community college has active partnerships with local employers including hospitals and health care providers.

(*ii*) The community college provides customized on-site training for area companies, employees, or both.

(*iii*) The community college supports entrepreneurship through a small business assistance center or other training or consulting activities targeted toward small businesses.

(*iv*) The community college supports technological advancement through industry partnerships, incubation activities, or operation of a Michigan technical education center or other advanced technology center.

(*v*) The community college has active partnerships with local or regional workforce and economic development agencies.

(b) For Category B, educational partnerships, the following:

(*i*) The community college has active partnerships with regional high schools, intermediate school districts, and career-tech centers to provide instruction through dual enrollment, direct credit, middle college, or academy programs.

(*ii*) The community college hosts, sponsors, or participates in enrichment programs for area K-12 students, such as college days, summer or after-school programming, or science Olympiad.

(*iii*) The community college provides, supports, or participates in programming to promote successful transitions to college for traditional age students, including grant programs such as talent search, upward bound, or other activities to promote college readiness in area high schools and community centers.

(*iv*) The community college provides, supports, or participates in programming to promote successful transitions to college for new or reentering adult students, such as adult basic education, GED preparation, GED testing, or recruiting, advising, or orientation activities specific to adults.

(*v*) The community college has active partnerships with regional 4-year colleges and universities to promote successful transfer, such as articulation, 2+2, or reverse transfer agreements or operation of a university center.

(c) For Category C, community services, the following:

(*i*) The community college provides continuing education programming for leisure, wellness, personal enrichment, or professional development.

(*ii*) The community college operates or sponsors opportunities for community members to engage in activities that promote leisure, wellness, cultural or personal enrichment such as community sports teams, theater or musical ensembles, or artist guilds.

388.1830.amended Recommendations and performance measures developed by performance indicators task force; review and implementation; distribution of excess amount; meeting best practice measures; resolution; categories of best practices.

Sec. 230. (1) It is the intent of the legislature that the recommendations and performance measures developed by the performance indicators task force formed under section 242 of 2005 PA 154 be reviewed and more fully implemented for distribution of state funding to community colleges in future years.

(2) Any additional funding provided to community college operations under section 201(2) in fiscal year 2013-2014 that exceeds the amounts appropriated for operations in fiscal year 2012-2013 is distributed based on the following formula:

(a) Allocated proportionate to fiscal year 2012-2013 base appropriations, 50%.

(b) Based on contact hour equated students, 10%.

(c) Based on administrative costs, 7.5%.

(d) Based on a weighted degree formula as provided for in the 2006 recommendations of the performance indicators task force, 17.5%.

(e) Based on the local strategic value component, as developed in cooperation with the Michigan community college association and described in subsection (3), 15%.

(3) The appropriation in section 201(2)(cc) for local strategic value shall be allocated to each community college that certifies to the state budget director, through a board of trustees resolution on or before November 1, 2013, that the college has met 4 out of 5 best practices listed in each category described in subsection (4). The resolution shall provide specifics as to how the community college meets each best practice measure within each category. One-third of funding available under the strategic value component shall be allocated to each category described in subsection (4). Amounts distributed under local strategic value shall be on a proportionate basis to each college's fiscal year 2012-2013 operations funding. Payments to community colleges that qualify for local strategic value funding shall be distributed with the November installment payment described in section 206.

(4) For purposes of subsection (3), the following categories of best practices reflect functional activities of community colleges that have strategic value to the local communities and regional economies:

(a) For Category A, economic development and business or industry partnerships, the following:

(*i*) The community college has active partnerships with local employers including hospitals and health care providers.

(*ii*) The community college provides customized on-site training for area companies, employees, or both.

(*iii*) The community college supports entrepreneurship through a small business assistance center or other training or consulting activities targeted toward small businesses.

(*iv*) The community college supports technological advancement through industry partnerships, incubation activities, or operation of a Michigan technical education center or other advanced technology center.

(*v*) The community college has active partnerships with local or regional workforce and economic development agencies.

(b) For Category B, educational partnerships, the following:

(*i*) The community college has active partnerships with regional high schools, intermediate school districts, and career-tech centers to provide instruction through dual enrollment, direct credit, middle college, or academy programs.

(*ii*) The community college hosts, sponsors, or participates in enrichment programs for area K-12 students, such as college days, summer or after-school programming, or science Olympiad.

(*iii*) The community college provides, supports, or participates in programming to promote successful transitions to college for traditional age students, including grant programs such as talent search, upward bound, or other activities to promote college readiness in area high schools and community centers.

(*iv*) The community college provides, supports, or participates in programming to promote successful transitions to college for new or reentering adult students, such as adult basic education, GED preparation, GED testing, or recruiting, advising, or orientation activities specific to adults.

(*v*) The community college has active partnerships with regional 4-year colleges and universities to promote successful transfer, such as articulation, 2+2, or reverse transfer agreements or operation of a university center.

(c) For Category C, community services, the following:

(*i*) The community college provides continuing education programming for leisure, wellness, personal enrichment, or professional development.

(*ii*) The community college operates or sponsors opportunities for community members to engage in activities that promote leisure, wellness, cultural or personal enrichment such as community sports teams, theater or musical ensembles, or artist guilds.

(*iii*) The community college operates public facilities to promote cultural, educational, or personal enrichment for community members, such as libraries, computer labs, performing arts centers, museums, art galleries, or television or radio stations.

(*iv*) The community college operates public facilities to promote leisure or wellness activities for community members, including gymnasiums, athletic fields, tennis courts, fitness centers, hiking or biking trails, or natural areas.

(*v*) The community college promotes, sponsors, or hosts community service activities for students, staff, or community members.

388.1846 Michigan public school employees' retirement system reimbursement; allocation to participating public university; definition.

Sec. 246. (1) The funds appropriated in section 236(4) for Michigan public school employees' retirement system reimbursement shall be allocated to each participating public university under this section based on each participating public university's total retiree health care premiums paid for Michigan public school employees' retirement system retirants in proportion to the total retiree health care premiums paid for Michigan public school employees' retirement system retirants for all participating public universities for the immediately preceding state fiscal year. Payments shall be made in a form and manner determined by the office of retirement services. A public university that receives money under this section shall use that money solely for the purpose of offsetting a portion of the retirement contributions owed by the university for the fiscal year ending September 30, 2013.

(2) As used in this section, "participating public university" means a public university that is a reporting unit of the Michigan public school employees' retirement system under the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1301 to 38.1408, and that pays retiree health care premiums to the Michigan public school employees' retirement system for the state fiscal year.

388.1851 State competitive scholarship award.

Sec. 251. (1) Payments of the amounts included in section 236 for the state competitive scholarship program shall be distributed pursuant to 1964 PA 208, MCL 390.971 to 390.981.

(2) Pursuant to section 6 of 1964 PA 208, MCL 390.976, the department of treasury shall determine an actual maximum state competitive scholarship award per student, which shall be not less than $575.00, that ensures that the aggregate payments for the state competitive scholarship program do not exceed the appropriation contained in section 236 for the state competitive scholarship program. If the department determines that insufficient funds are available to establish a maximum award amount equal to at least $575.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a $575.00 maximum award amount.

(3) The department of treasury shall implement a proportional competitive scholarship maximum award level for recipients enrolled less than full-time in a given semester or term.

(4) If a student who receives an award under this section has his or her tuition and fees paid under the Michigan educational trust program, pursuant to the Michigan education trust act, 1986 PA 316, MCL 390.1421 to 390.1442, and still has financial need, the funds awarded under this section may be used for educational expenses other than tuition and fees.

(5) If the department of treasury increases the maximum award per eligible student from that provided in the previous fiscal year, it shall not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the maximum grant shall be proportional for all eligible students receiving awards.

(6) Veterans administration benefits shall not be considered in determining eligibility for the award of scholarships under 1964 PA 208, MCL 390.971 to 390.981.

Sec. 252. (1) The amounts appropriated in section 236 for the state tuition grant program shall be distributed pursuant to 1966 PA 313, MCL 390.991 to 390.997a.

(2) Tuition grant awards shall be made to all eligible Michigan residents enrolled in undergraduate degree programs who are qualified and who apply before July 1, 2012 for the 2012-2013 school year or July 1, 2013 for the 2013-2014 school year, as applicable.

(3) Pursuant to section 5 of 1966 PA 313, MCL 390.995, and subject to subsection (7), the department of treasury shall determine an actual maximum tuition grant award per student, which shall be no less than $1,512.00, that ensures that the aggregate payments for the tuition grant program do not exceed the appropriation contained in section 236 for the state tuition grant program. If the department determines that insufficient funds are available to establish a maximum award amount equal to at least $1,512.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount

of additional funds necessary to establish a $1,512.00 maximum award amount. If the department determines that sufficient funds are available to establish a maximum award amount equal to at least $1,512.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the maximum award amount established and the projected amount of any projected year-end appropriation balance based on that maximum award amount. By December 15, and again by February 18 of each fiscal year, the department shall analyze the status of award commitments, shall make any necessary adjustments, and shall confirm that those award commitments will not exceed the appropriation contained in section 236 for the tuition grant program. The determination and actions shall be reported to the state budget director and the house and senate fiscal agencies no later than the final day of February of each year. If award adjustments are necessary, the students shall be notified of the adjustment by March 4 of each year.

(4) Any unexpended and unencumbered funds remaining on September 30, 2013 from the amounts appropriated in section 236 for the tuition grant program for fiscal year 2012-2013 shall not lapse on September 30, 2013, but shall continue to be available for expenditure for tuition grants provided in the 2013-2014 fiscal year under a work project account. The use of these unexpended fiscal year 2012-2013 funds shall terminate at the end of the 2013-2014 fiscal year. Any unexpended and unencumbered funds remaining on September 30, 2014 from the amounts appropriated in section 236 for the tuition grant program for fiscal year 2013-2014 shall not lapse on September 30, 2014, but shall continue to be available for expenditure for tuition grants provided in the 2014-2015 fiscal year under a work project account. The use of these unexpended fiscal year 2013-2014 funds shall terminate at the end of the 2014-2015 fiscal year.

(5) The department of treasury shall continue a proportional tuition grant maximum award level for recipients enrolled less than full-time in a given semester or term.

(6) If the department of treasury increases the maximum award per eligible student from that provided in the previous fiscal year, it shall not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the maximum grant shall be proportional for all eligible students receiving awards for that fiscal year.

(7) In any fiscal year, the department of treasury shall not award more than $3,000,000.00 in tuition grants to eligible students enrolled in the same independent nonprofit college or university in this state. Any decrease in the maximum grant shall be proportional for all eligible students enrolled in that college or university, as determined by the department.

388.1856 Tuition incentive program.

Sec. 256. (1) The funds appropriated in section 236 for the tuition incentive program shall be distributed as provided in this section and pursuant to the administrative procedures for the tuition incentive program of the department of treasury.

(2) As used in this section:

(a) "Phase I" means the first part of the tuition incentive assistance program defined as the academic period of 80 semester or 120 term credits, or less, leading to an associate degree or certificate.

(b) "Phase II" means the second part of the tuition incentive assistance program which provides assistance in the third and fourth year of 4-year degree programs.

(c) "Department" means the department of treasury.

(3) An individual shall meet the following basic criteria and financial thresholds to be eligible for tuition incentive benefits:

(a) To be eligible for phase I, an individual shall meet all of the following criteria:

(*i*) Apply for certification to the department before graduating from high school or completing the general education development (GED) certificate.

(*ii*) Be less than 20 years of age at the time he or she graduates from high school with a diploma or certificate of completion or completes his or her GED.

(*iii*) Be a United States citizen and a resident of Michigan according to institutional criteria.

(*iv*) Be at least a half-time student, earning less than 80 semester or 120 term credits at a participating educational institution within 4 years of high school graduation or GED certificate completion.

(*v*) Request information on filing a FAFSA.

(b) To be eligible for phase II, an individual shall meet either of the following criteria in addition to the criteria in subdivision (a):

(*i*) Complete at least 56 transferable semester or 84 transferable term credits.

(*ii*) Obtain an associate degree or certificate at a participating institution.

(c) To be eligible for phase I or phase II, an individual must not be incarcerated and must be financially eligible as determined by the department. An individual is financially eligible for the tuition incentive program if he or she was eligible for Medicaid from the state of Michigan for 24 months within the 36 months before application. The department shall accept certification of Medicaid eligibility only from the department of human services for the purposes of verifying if a person is Medicaid eligible for 24 months within the 36 months before application. Certification of eligibility may begin in the sixth grade. As used in this subdivision, "incarcerated" does not include detention of a juvenile in a state-operated or privately operated juvenile detention facility.

(4) For phase I, the department shall provide payment on behalf of a person eligible under subsection (3). The department shall reject billings that are excessive or outside the guidelines for the type of educational institution.

(5) For phase I, all of the following apply:

(a) Payments for associate degree or certificate programs shall not be made for more than 80 semester or 120 term credits for any individual student at any participating institution.

(b) For persons enrolled at a Michigan community college, the department shall pay the current in-district tuition and mandatory fees. For persons residing in an area that is not included in any community college district, the out-of-district tuition rate may be authorized.

(c) For persons enrolled at a Michigan public university, the department shall pay lower division resident tuition and mandatory fees for the current year.

(d) For persons enrolled at a Michigan independent, nonprofit degree-granting college or university, or a Michigan federal tribally controlled community college, or Focus: HOPE, the department shall pay mandatory fees for the current year and a per-credit payment that does not exceed the average community college in-district per-credit tuition rate as reported on August 1, for the immediately preceding academic year.

(6) A person participating in phase II may be eligible for additional funds not to exceed $500.00 per semester or $400.00 per term up to a maximum of $2,000.00 subject to the following conditions:

(a) Credits are earned in a 4-year program at a Michigan degree-granting 4-year college or university.

(b) The tuition reimbursement is for coursework completed within 30 months of completion of the phase I requirements.

(7) The department shall work closely with participating institutions to develop an application and eligibility determination process that will provide the highest level of participation and ensure that all requirements of the program are met.

(8) Applications for the tuition incentive program may be approved at any time after the student begins the

sixth grade. If a determination of financial eligibility is made, that determination is valid as long as the student meets all other program requirements and conditions.

(9) Each institution shall ensure that all known available restricted grants for tuition and fees are used prior to billing the tuition incentive program for any portion of a student's tuition and fees.

(10) The department shall ensure that the tuition incentive program is well publicized and that eligible Medicaid clients are provided information on the program. The department shall provide the necessary funding and staff to fully operate the program.

These policies should require all of the following:

(a) That faculty members submit lists of required textbooks and course materials for university review.

(b) That faculty members consider the least costly practices in assigning textbooks and course materials, such as adopting the least expensive edition of a textbook available when educational content is comparable to a more costly edition.

(c) That the university review any potential financial conflict of interest that may occur if a faculty member requires the purchase of any textbooks or course materials he or she has written.

(d) That the university review required textbooks and course materials to ensure that least costly practices are being utilized, such as adopting the least expensive edition of a textbook available when educational content is comparable to a more costly edition.

388.1863a Strategic growth initiative for Michigan food and agriculture industry; report.

Sec. 263a. (1) By January 1, 2013, the Michigan State University college of agriculture and natural resources, MSU extension, and MSU AgBioResearch, in partnership with the department of agriculture and rural development and other stakeholders, shall establish a strategic growth initiative for the Michigan food and agriculture industry. This initiative shall address the following goals as established at the 2011 governor's summit for production agriculture:

(a) Increasing the sector's total economic impact from today's $71,000,000,000.00 to $100,000,000,000.00.

(b) Doubling Michigan's agricultural exports from $1,750,000,000.00 to $3,500,000,000.00.

(c) Increasing jobs in the food and agriculture sector by 10%.

(d) Improving access by Michigan consumers to healthy foods by 20%.

(2) The initiative described in subsection (1) shall be patterned after Project GREEEN, shall emphasize priorities as set by the Michigan food and agricultural industry, and shall include a commitment to continuous communication, input, and interaction among stakeholders in government and industry and at Michigan State University. Similar to Project GREEEN, the initiative shall also include a commitment to communicating results and impacts to stakeholders and the legislature based on a mutually established set of metrics designed to assure MSU extension and AgBioResearch programs are contributing to the goals described in subsection (1)(a) to (d).

(3) Not later than September 30, 2013, Michigan State University shall submit a report to the house and senate appropriations subcommittees on agriculture and on higher education, the house and senate standing committees on agriculture, the house and senate fiscal agencies, and the state budget director for the preceding school fiscal year detailing, but not limited to:

(a) Total funds expended by MSU AgBioResearch and by MSU extension service identified by state, local, private, federal, and university fund sources.

(b) The metric goals that were used to evaluate the impacts of programs operated by MSU extension and MSU AgBioResearch. It is the intent of the legislature that the following metric goals will be used to evaluate the impacts of those programs:

(*i*) Increasing the number of agriculture and food-related firms collaborating with and using services of research and extension faculty and staff by 3% per year.

(*ii*) Increasing the number of individuals utilizing MSU extension's educational services by 5% per year.

(*iii*) Increasing external funds generated in support of research and extension, beyond state appropriations, by 10% over the amounts generated in the past 3 state fiscal years.

(c) A review of major programs within both MSU AgBioResearch and MSU extension with specific reference to accomplishments, impacts, and the metrics described in subdivision (b), including a specific accounting of Project GREEEN expenditures and the impact of those expenditures.

388.1865 Public university tuition restraint incentives; payment conditions; definitions; uniform reporting requirements.

Sec. 265. (1) Payments under section 265a for performance funding shall only be made to a public university that certifies to the state budget director by August 31, 2013 that its board did not adopt an increase in tuition and fee rates for resident undergraduate students after September 1, 2012 for the 2012-2013 academic year and that its board will not adopt an increase in tuition and fee rates for resident undergraduate students for the 2013-2014 academic year that is greater than 3.75%. As used in this subsection:

(a) Subject to subdivision (c), "fee" means any board-authorized fee that will be paid by more than 1/2 of all resident undergraduate students at least once during their enrollment at a public university. A university increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by resident undergraduate students in the 2013-2014 academic year to exceed the limit established in this subsection.

(b) "Tuition and fee rate" means the average of full-time rates for all undergraduate classes, based on an average of the rates authorized by the university board and actually charged to students, deducting any uniformly-rebated or refunded amounts, for the 2 semesters with the highest levels of full-time equated resident undergraduate enrollment during the academic year.

(c) For purposes of subdivision (a), for a public university that compels resident undergraduate students to be covered by health insurance as a condition to enroll at the university, "fee" includes the annual amount a student is charged for coverage by the university-affiliated group health insurance policy if he or she does not provide proof that he or she is otherwise covered by health insurance. This subdivision does not apply to limited subsets of resident undergraduate students to be covered by health insurance for specific reasons other than general enrollment at the university.

(2) The state budget director shall implement uniform reporting requirements to ensure that a public university receiving a payment under section 265a for performance funding has satisfied the tuition restraint requirements of this section. The state budget director shall have the sole authority to determine if a public university has met the requirements of this section. Information reported by a public university to the state

388.1865a Performance funding; payments; unpaid amounts; report; distribution formula; score; "Carnegie classification" defined.

Sec. 265a. (1) Appropriations to public universities in section 236 for performance funding shall be paid only to a public university that complies with section 265 and certifies to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies by August 31, 2013 that it complies with all of the following requirements:

(a) The university participates in reverse transfer agreements described in section 286 with at least 3 Michigan community colleges or has made a good-faith effort to enter into reverse transfer agreements.

(b) The university does not and will not consider whether dual enrollment credits earned by an incoming student were utilized towards his or her high school graduation requirements when making a determination as to whether those credits may be used by the student toward completion of a university degree or certificate program.

(c) The university participates in the Michigan transfer network created as part of the Michigan association of collegiate registrars and admissions officers transfer agreement.

(2) Any performance funding amounts under section 236 that are not paid to a public university because it did not comply with 1 or more requirements under subsection (1) are unappropriated and reappropriated for performance funding to those public universities that meet the requirements under subsection (1), distributed in proportion to their performance funding appropriation amounts under section 236.

(3) The state budget director shall report to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies by September 17, 2013, regarding any performance funding amounts that are not paid to a public university because it did not comply with 1 or more requirements under subsection (1) and any reappropriation of funds under subsection (2).

(4) Performance funding amounts described in section 236 are distributed based on the following formula:

(a) Based on weighted undergraduate completions in critical skills areas, 22.2%.

(b) Based on research and development expenditures, for universities classified in Carnegie classifications as doctoral/research universities, research universities (high research activity), or research universities (very high research activity) only, 11.1%.

(c) Based on 6-year graduation rate, total degree completions, and institutional support as a percentage of core expenditures, scored against national Carnegie classification peers and weighted by total undergraduate fiscal year equated students, 66.7%.

(5) For purposes of determining the score of a university under subsection (4)(c), each university is assigned 1 of the following scores:

(a) A university classified as in the top 20%, a score of 3.

(b) A university classified as above national median, a score of 2.

(c) A university classified as improving, a score of 2. It is the intent of the legislature that, beginning in the 2014-2015 state fiscal year, a university classified as improving is assigned a score of 1.

(d) A university that is not included in subdivision (a), (b), or (c), a score of 0.

(6) For purposes of this section, "Carnegie classification" shall mean the basic classification of the university according to the most recent version of the Carnegie classification of institutions of higher education, published by the Carnegie foundation for the advancement of teaching.

The review and audits shall be based upon the definitions, requirements, and uniform reporting categories established by the state budget director in consultation with the HEIDI advisory committee. The auditor general shall submit a report of findings to the house and senate appropriations committees and the state budget director no later than July 1 of each year.

(2) Student credit hours reports shall not include the following:

(a) Student credit hours generated through instructional activity by faculty or staff in classrooms located outside Michigan, with the exception of instructional activity related to study-abroad programs or field programs.

(b) Student credit hours generated through distance learning instruction for students not eligible for the public university's in-state main campus resident tuition rate. However, in instances where a student is enrolled in distance education and non-distance education credit hours in a given term and the student's non-distance education enrollment is at a campus or site located within Michigan, student credit hours per the student's eligibility for in-state or out-of-state tuition rates may be reported.

(c) Student credit hours generated through credit by examination.

(d) Student credit hours generated through inmate prison programs regardless of teaching location.

(e) Student credit hours generated in new degree programs after January 1, 1975, that have not been specifically authorized for funding by the legislature, except spin-off programs converted from existing core programs that do all of the following:

(*i*) Represent new options, fields, or concentrations within existing programs.

(*ii*) Are consistent with the current institutional role and mission.

(*iii*) Are accommodated within the continuing funding base of the public university.

(*iv*) Do not require a new degree level beyond that which the public university is currently authorized to grant within that discipline or field.

(*v*) Do not require funding from the state other than that provided by the student credit hours generated within the program, either before program initiation or within the first 3 years of program operation.

(3) The auditor general shall periodically audit higher education institutional data inventory (HEIDI) data as submitted by the public universities under section 241 for compliance with the definitions established by the state budget director in consultation with the HEIDI advisory committee for the HEIDI database.

(4) "Distance learning instruction" as used in subsection (2) means instruction that occurs solely in other than a traditional classroom setting where the student and instructor are in the same physical location and for which a student receives course credits and is charged tuition and fees. Examples of distance learning instruction are instruction delivered solely through the internet, cable television, teleconference, or mail.

388.1896 Excess funds; proration.

Sec. 296. (1) If the maximum amount appropriated under this act from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount shall not be expended in that state fiscal year and shall not lapse to the general fund, but instead shall be deposited into the school aid stabilization fund created in section 11a.

(2) If the total maximum amount appropriated under all articles of this act from the state school aid fund and the school aid stabilization fund exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, 56, and 152a shall be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b shall be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or $5,500.00. The amount of the payment to be made under section 22b for these qualifying districts shall be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and subsection (3). If proration is necessary, state payments under each of the other sections of article I from all state funding sources, and state appropriations to community colleges and public universities under articles II and III from the state school aid fund, shall be prorated in the manner prescribed in subsection (3) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(3) If proration is necessary under subsection (2), the department shall calculate the proration in district and intermediate district payments under article I that is required under subsection (2), and the department of treasury shall calculate the proration in community college and public university payments under articles II and III that is required under subsection (2), as follows:

(a) The department and the department of treasury shall calculate the percentage of total state school aid fund money that is appropriated and allocated under this act for the affected fiscal year for each of the following:

(*i*) Districts.

(*ii*) Intermediate districts.

(*iii*) Entities receiving funding from the state school aid fund under article I other than districts or intermediate districts.

(*iv*) Community colleges and public universities that receive funding from the state school aid fund.

(b) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(*i*) for districts by reducing payments to districts. This reduction shall be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, and 152a, by that amount.

(c) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(*ii*) for intermediate districts by reducing payments to intermediate districts. This reduction shall be made by reducing the payments to each intermediate district, other than payments under sections 11f, 11g, 26a, 26b, 51a(2), 51a(12), 53a, 56, and 152a, on an equal percentage basis.

(d) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(*iii*) for entities receiving funding from the state school aid fund under article I other than districts and intermediate districts by reducing payments to these entities. This reduction shall be made by reducing the payments to each of these entities, other than payments

under sections 11j, 26a, and 26b, on an equal percentage basis.

(e) The department of treasury shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(*iv*) for community colleges and public universities that receive funding from the state school aid fund by reducing that portion of the payments under articles II and III to these community colleges and public universities that is from the state school aid fund on an equal percentage basis.

Here are the agenda comments:

Section I
1-1 American-add "Not to Exceed" and the contract term in the bid tab is not the same as the DTMB Delegation letter. Please correct whichever is wrong.

Section II
3-1 Hearing Officers-confirm heading "LARA for Michigan Strategic Fund" is correct.
4-1 Alterations-"new contract amount" is not the same as the DTMB Delegation letter. Please correct whichever is wrong.

Section V
11-2 SL1-protest period over 6/8. Please monitor.
11-3 Xerox-protest period over 6/4. Please monitor.

Section VI
14-1 Var.-Add the requested extension periods (5.5 to 6 months) to the agenda description.
15-3 Systems-DTMB needs to add to the CCN "Business purposes" the words "for services" before "that are in scope."
15-7 &15-8 Restart-these CCNs do not have ""Not to Exceed". Please delete from agenda.

Section XI
Please confirm that the provided memo from Treasury and resolution are the usual ones for Flint Stabilization Bonds. It looks like the memo may be missing a page because it does not tell the Ad Bd that it may proceed with approval.

Misc.
Please provide signed DTMB bid tabs for Section V & VI.
There is a DOC bid tab for a "raw skim milk" contract but it is not in the agenda. Should I toss this?

Subject: UPDATE: Flint Fiscal Stab Bond App

Fred and Suzanne,

I left a VM for Michael Townsend this afternoon at 2:15. I did not hear back from him - hopefully tomorrow. I'm going to ask him about 1) actual numbers related to cost cutting measures referenced in the mayor's letter, 2) GF annual transfer in of $2.9M from water and sewer funds, and 3) request formal DEPs for five funds. We've already prepped a DEP letter, which I intend on emailing to him when he calls back.

RESOLUTION ORDERING APPROVAL OF CITY OF FLINT FISCAL STABILIZATION BONDS

CITY OF FLINT (the "City")

WHEREAS, by its Resolution Authorizing Application to State Administrative Board for Approval to Issue Not to Exceed $20,000,000 in Fiscal Stabilization Bonds, adopted on January 10, 2011 (the "Initial Resolution"), the City Council of the City (the "Council") determined that the City had an accumulated operating deficit as of the end of its fiscal year ended June 30, 2010 (determined in accordance with generally accepted accounting principles), in the estimated amount of $16,552,871 and is projected to have an accumulated operating deficit as of the end of its fiscal year ending June 30, 2011 (determined in accordance with generally accepted accounting principles), in the projected amount of $3,334,129 (together, the "Accumulated Operating Deficit"); and

WHEREAS, the Council further determined in the Initial Resolution that the Accumulated Operating Deficit exceeds the amount which the City may borrow from the Emergency Municipal Loan Fund pursuant to the Emergency Municipal Loan Act, Act No. 243, Public Acts of Michigan, 1980, as amended ("Act 243"), and also exceeds the amount that the City can fund by issuing tax anticipation notes pursuant to Act 34, Public Acts of Michigan, 2001, as amended ("Act 34"); and

WHEREAS, the Fiscal Stabilization Act, Act No. 80, Public Acts of Michigan 1981, as amended ("Act 80") authorizes the City, upon satisfaction of applicable conditions, to borrow money and issue its bonds or obligations either for the purpose of funding an operating deficit for a past fiscal year or years or for funding a projected operating deficit in the current fiscal year, or for funding both; and

WHEREAS, pursuant to the Initial Resolution, and in accordance with Act 80, the Council made a determination that it was necessary for the City to apply to the State Administrative Board for an order approving the issuance of bonds in an amount necessary to fund a portion of the Accumulated Operating Deficit, to potentially prepay all or a portion of the principal of and interest on or redeem prior to maturity certain outstanding bonds, notes and other obligations of the City, and to pay other related expenditures authorized by Act 80 and in connection with the issuance of the bonds and the refunding; and

WHEREAS, the City has applied to the Secretary of the State Administrative Board and the State Administrative Board has received an application (the "Application") and supporting materials from the City for an order approving the issuance of not to exceed $20,000,000 of its Fiscal Stabilization Bonds (Limited Tax General Obligation), Series 2011 (the "Bonds"); and

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The State Administrative Board determines and accordingly orders that the City's Application to issue the Bonds in the aggregate principal amount of not to exceed $20,000,000 for the purpose of funding the Accumulated Operating Deficit and paying the costs of issuance of the Bonds and such other costs and expenses permitted by Act 80, is hereby approved.

I see the item on the document posted online, but there is no amount listed. All it says is "CITY OF FLINT
Requests approval their application for Fiscal Stabilization Bonds and a resolution of the State Administrative Board entitled, "RESOLUTION ORDERING APPROVAL OF CITY OF FLINT FISCAL STABILIZATION BONDS.

Is there a separate document with the $20,000,000 bond amount listed?

>>> "Bond, Sherry (DTMB)" <bonds@michigan.gov> 2/15/2011 2:02 PM >>>

The item you are probably interested in is Item 30 of the Regular Finance and Claims agenda of Feb. 8. It's in Section XI – Special Items. It is a request from the City of Flint to approve their application for fiscal stabilization bonds not to exceed $20,000,000.00.

The Ad Board withdrew this item this morning.

RESOLUTION ORDERING APPROVAL OF THE CITY OF FLINT'S APPLICATION FOR FISCAL STABILIZATION BONDS

CITY OF FLINT (the "City")

WHEREAS, by its Resolution Authorizing Application to State Administrative Board for Approval to Issue Not to Exceed $20,000,000 in Fiscal Stabilization Bonds, adopted on January 10, 2011 (the "Initial Resolution"), the City Council of the City (the "Council") determined that the City had an accumulated operating deficit as of the end of its fiscal year ended June 30, 2010 (determined in accordance with generally accepted accounting principles), in the estimated amount of $16,552,871 and is projected to have an accumulated operating deficit as of the end of its fiscal year ending June 30, 2011 (determined in accordance with generally accepted accounting principles), in the projected amount of $3,334,129 (together, the "Accumulated Operating Deficit"); and

WHEREAS, the Council further determined in the Initial Resolution that the Accumulated Operating Deficit exceeds the amount which the City may borrow from the Emergency Municipal Loan Fund pursuant to the Emergency Municipal Loan Act, Act No. 243, Public Acts of Michigan, 1980, as amended ("Act 243"), and also exceeds the amount that the City can fund by issuing tax anticipation notes pursuant to Act 34, Public Acts of Michigan, 2001, as amended ("Act 34"); and

WHEREAS, the Fiscal Stabilization Act, Act No. 80, Public Acts of Michigan 1981, as amended ("Act 80") authorizes the City, upon satisfaction of applicable conditions, to borrow money and issue its bonds or obligations either for the purpose of funding an operating deficit for a past fiscal year or years or for funding a projected operating deficit in the current fiscal year, or for funding both; and

WHEREAS, pursuant to the Initial Resolution, and in accordance with Act 80, the Council made a determination that it was necessary for the City to apply to the State Administrative Board for an order approving the issuance of bonds in an amount necessary to fund a portion of the Accumulated Operating Deficit, to potentially prepay all or a portion of the principal of and interest on or redeem prior to maturity certain outstanding bonds, notes and other obligations of the City, and to pay other related expenditures authorized by Act 80 and in connection with the issuance of the bonds and the refunding; and

WHEREAS, the City has applied to the Secretary of the State Administrative Board and the State Administrative Board has received an application (the "Application") and supporting materials from the City for an order approving the issuance of not to exceed $8,000,000 of its Fiscal Stabilization Bonds (Limited Tax General Obligation), Series 2011 (the "Bonds"); and

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The State Administrative Board determines and accordingly orders that the City's Application to issue the Bonds in the aggregate principal amount of not to exceed $8,000,000 for the purpose of funding the Accumulated Operating Deficit and paying the costs of issuance of the Bonds and such other costs and expenses permitted by Act 80, is hereby approved.

RE: 25-2-040
City of Flint
Deficit Elimination Plan

Dear Ms. Bond,

Please accept this letter as the City of Flint's application for approval by the State of Michigan to issue up to Nine Million Three Hundred Thousand dollars ($9,300,000) in Fiscal Stabilization Bonds. These bonds are expected to provide the City with a net Nine Million dollars to assist the City in eliminating its accumulated and projected General Fund deficit. The proceeds from these bonds will also assist the City in managing its cash flow, which has been marginal for some time.

As you know, the City of Flint is confronted with a financial emergency, and has been in receivership since November, 2011. As the duly appointed Emergency Manager for the City of Flint, my primary focus since being appointed is to see the City return to financial solvency in order that it can become the thriving municipality it once was.

I am attaching my order dated May 24,2012 which officially authorizes the application and directs the appropriate City officials and their representatives to take the necessary actions to provide needed information and take other necessary actions to implement this transaction.

On April 6, 2012, I submitted to the Department of Treasury a Deficit Elimination Plan detailing the steps proposed to be taken to address the June 30, 2011 General Fund deficit of $8,863,134, the Downtown Development Authority deficit of $778,018, and the Water Supply Division deficit of $12,443,265. Two essential keys to the success to this plan are 1) the development and implementation of a balanced FY13 budget, and 2) the

borrowing of up to $9 million in Fiscal Stabilization Bonds. A copy of the Deficit Elimination Plan is attached.

The first key to success – a credibly balanced FY13 budget - has been accomplished. It is balanced realistically, and encompasses significant revenue increases and expenditure reductions. The process started with a projected gap of $25 million between projected revenues and projected expenses. The result was a total budget of $192 million, of which $82 million is sewer and water; $58 million is General Fund and $30 is federal CDBG. A copy of the FY13 budget is attached.

The new budget requires significant expenditure reductions which are now being implemented. These include the elimination of nearly 150 positions (20% of the workforce), employee concessions including a restructuring of health and pension benefits and employee costs, and various organizational changes. Layoff notices are now being issued to employees in positions being eliminated. On July 1, new health care plans for active and retired employees will be in place, as well changes in pension benefits. For future employees, city retiree health care will no longer be an option, and the traditional defined benefit pension plan for non-police and fire employees will be replaced with a hybrid pension plan. There are numerous other changes which increase management flexibility and reduce other employee costs.

The budget also contains new revenue sources in order to provide the level of funding needed – in spite of expense reductions – to continue the marginal level of city funded public safety personnel and basic city services. These revenues include numerous fee increases; a $143 annual fee for waste collection (replacing a dedicated 3 mill tax levy); a $62 special assessment fee for operation, maintenance, and improvement of street lights (currently a $2.85 million general fund expense); and an overall 25% increase in water and sewer rates (12.5% water; 45% sewer). While the reliance on fees and assessments will create hardship for many of the City's residents, the choices for increasing revenues at this time are limited.

Looking to the future, it is anticipated that other revenue options will be available to support the funding of city services. Specifically, we anticipate pursuing additional property tax levies and an increase in the income tax levy. We believe these options to be better suited to the long term financing of city services, but recognize that voters (and in the case of the income tax, the state legislature as well), will need to be supportive.

The second key to restoring the City's financial solvency is to address the accumulated and projected deficits. In the City's financial condition, it is unrealistic to assume that these deficits, as well as the deficits accumulating this year, can be addressed from any existing financial sources within the City. Consequently, we have determined that borrowing the necessary funds to eliminate accumulated deficits, other than deficits

arising from inclusion of OPEB liabilities in our enterprise funds (i.e., Water and Sewer), is the appropriate option.

As part of the FY13 budget, the unencumbered proceeds of the 2.5 mills dedicated by City Charter to public improvements are reserved for the current and projected debt service associated with the elimination of deficits. Debt service on the 2011 Fiscal Stabilization Bonds ($8 million); the currently proposed $9 million in FY12 Fiscal Stabilization Bonds; and the Parking Debt bond will be the priority for funding from this source. We recognize that any future issuances such as the debt service for the projected $10 million in FY13 Fiscal Stabilization Bonds will require another source of revenue, such as the General Fund. That debt service will likely be the equivalent of a 1 mill property tax levy in future years.

Finally, pursuant to the application requirements of the Fiscal Stabilization Act 80 of 1981, the following information is provided:

- Upon the issuance of the proposed bonds, the city expects to have eliminated its General Fund deficit which existed as of June 30,2011. Further, upon successful implementation of its FY13 budget, and the issuance of bonds to address the projected FY12 deficit, the City expects to have eliminated its entire General Fund deficit. As part of the FY13 budget implementation process, strict budgetary monitoring and controls will be in place to assure that Fy13 expenditures do not exceed revenues. Looking forward to FY14, the emphasis on realistic budgeting and monitoring will be continued.

- The most recent 2011 State Equalized Valuation of real and personal property located within the territorial boundaries of the City was $1,246,384,700.

- The most recent 2011 Taxable Value was $1,164,782,241.

- The City's operating Tax Levy (7.5 mills) is expected to yield $6,933,000 in FY2012 and $5,720,000 in FY2013.

- The City has issued $8,000,000 in Fiscal Stabilization bonds (Limited Tax Obligation) series 2011 on April 13, 2011. The annual repayment of this bond is budgeted in the City's Public Improvement Fund, which is funded by a dedicated 2.5 mill property tax levy. This bond will be paid off in FY2035.

Thank you for consideration of our application. If you have any questions, please feel free to contact me at 810-237-2027 or contact City Finance Director Jerry Ambrose at 517-230-9793.

Sincerely,

Michael K. Brown

BUDGET

for Fiscal Year 2012-2013

Michael K. Brown, Emergency Manager

City of Flint
FY13 Budget

It is well known that the City of Flint is confronted with a financial emergency. It has been in state receivership since November 2011. The City is projected to have more than an $18 million deficit by June 30, 2012. Cash flow is extremely narrow, and any major unexpected expense or revenue loss at this time could be catastrophic.

The Emergency Manager is committed to seeing Flint not only return to financial solvency, but become the thriving municipality it once was, attracting residents, businesses, and visitors.

The challenge is great – financial insolvency; a population base reduced by 50%; declining property values; high numbers of vacant houses and persons in poverty, crumbling infrastructure, and high crime.

The first step to recovery is to stabilize the City's finances, in order to provide basic services to our citizens. With a focus on a next year's budget that is realistically balanced on attainable revenue estimates, and with assistance from the state to address the accumulated deficits from past years, our journey into the future can begin.

It will not be easy. The current level of expenses for city services significantly exceeds the current amount of revenues which will be received, and choices for new revenues are limited. Consequently, while efforts continue to identify new sources of revenue, current services and workforce will be reduced significantly. Where new sources of revenue are found and implemented, it will mean increased costs to taxpayers. There is no other choice – expenses must be reduced, revenues must be increased, or a combination of both must occur.

This budget is based on conservative assumptions regarding revenues and expenses. If there is uncertainty about a revenue stream, it is not included. When projecting expense items over which the City has little direct control, they have been projected on the high side. The result can be characterized as a "worst case" budget. However, since the budget is a flexible plan, new developments –such as additional revenue sources – can be added if and when they become available.

THE FY13 BUDGET

The FY13 Budget for the City of Flint totals $195 million for all funds, including $58 million for the General Fund plus Special Revenue Funds, Capital Improvement and Enterprise Funds. It provides for a workforce of 539 employees. The amount of funds available, and the size of the workforce afforded by those revenues, are significantly less than in the current and prior years.

As this budget process began, there was a projected gap of some $25 million between the amount of funds projected to be received and the cost of continuing all services and positions in the same manner as currently done. This gap has been closed by a mixture of revenue increases and expenditure decreases.

REVENUES

City services are funded by a mix of property taxes, income taxes, state and federal shared revenues, and fees, charges, and assessments. The current property tax rate for city services is 15.5 mills, or $15.50 for each $1,000 of taxable value. Residents and businesses also pay a 1% income tax, while non-residents pay one-half that amount, the limit set by state law.

The revenue stream supporting city services in this budget is different from the current year's in some significant ways:

- With property values continuing to decrease, property tax revenues are decreased by more than 20%. These revenues are decreased even further as the 3 mill levy for waste collection is eliminated in favor of a new waste collection fee designed to cover the entire cost of that service.

- State shared revenue remains at the reduced level legislated by the state beginning in FY12.

- Revenues from some major grant sources – the SAFER grant for firefighters and the MOTT grant for community policing – are not included, as there is no certainty those funds will be received.

- Revenues from a new city-wide special assessment will reduce the cost burden on the City's General Fund while providing funding for the operation, maintenance, and improvement of the City's street lighting system.

- Additionally, it is necessary to increase water and sewer rates significantly in order to have sufficient funds to operate the system. A system capable of serving more than 200,000 users is now utilized by less than half that number. The systems are old, in need of repair, and costly to maintain. Costs from the primary supply source - the Detroit Water System – have also increased significantly over the past several years. While there have been significant increases in rates over the past few years, they have not been sufficient to cover the operating costs of the systems. While there are currently significant and positive efforts being made to make the systems more efficient and cost effective, they will not affect the cost of operating the systems this year.

The impact of these changes in the revenue stream will vary on taxpayers, businesses and residents. Compared to the current year, many taxpayers will see an increase in their total payments for city services, with the amount varying to the extent that their property values have reduced.

However, when compared to total payments for city services made in 2005 – before the precipitous drop in property values began - many taxpayers will still be paying less. It appears that owners of property with a taxable value of more than $53,450 in 2005 will still pay less for city services in FY13 than they paid in FY2005. Property owners with a taxable value of less than $53,450 in 2005, however, will pay more for city services in FY13 than they paid even in FY2005.

Unfortunately, with the tools at hand for raising revenues at this time, it is not possible to spread the impact differently. Alternatives such as raising the property tax millage or the income tax rate require voter approval and, in the case of the income tax, state legislative approval as well. However, these alternatives are being evaluated for future use.

EXPENSES

The revenues collected pursuant to this budget will be used to provide a very basic level of services in the areas traditionally provided by the City. Police and fire protection and other public safety services, water and sewer service, trash collection, street maintenance and lighting, parks maintenance, building inspection, code compliance, demolition and other community development activities, will all be continued, although in different ways and at reduced levels. Citizens can expect that response times for certain services or requests for information will be slowed.

The City's workforce will be reduced by more than 20% and, unfortunately, layoffs will occur. The extent of these reductions has been lessened significantly with concessions obtained from employee bargaining units.

Reductions equivalent to 20% of the wage base have been negotiated with three of the six city bargaining units (IAFF, FPOA Sgts, and FPOA Command), and a final vote on similar concessions with AFSCME 1799 is pending. Concession discussions with AFSCME 1600 and FPOA Patrol continue, but no agreements have been achieved. This budget assumes implementation of similar concessions across all bargaining units and exempt employees.

Similarly, reductions in the cost of retiree health care are also anticipated. The cost for the City's 1,500 retirees is projected at nearly $25 million for FY13, an amount which severely constrains the ability of the City to provide services to its residents. The City has determined that there are alternative means by which health care can be provided to retirees but at a significantly reduced cost. The City intends to implement the less costly alternative and has incorporated more than $4 million in anticipated cost reductions savings into this budget. Without such cost reductions, the City's workforce will be reduced even further.

Within the context of these revenue constraints and overall expense reductions, a very basic level of services will be provided to the residents and businesses in Flint in 2013:

PUBLIC SAFETY

Police – With the continued loss of tax and grant revenue, the Police Department will be minimally staffed at a level of 108 sworn officers and 21 non-sworn personnel. This represents the current level of staffing less 19 officers funded by grants which have expired. Requests for continuation funding are in process but have not been approved at this time.

Given the financial condition of the City, funding at this level represents a significant commitment to pubic safety, but it is recognized that more must be done. In the ensuing year, the department will be transitioning to 12 hour shifts. This transition will reduce overtime expenses

and should increase the number of officers on patrol at any one time. The efforts of the FPD will continue to be assisted with continuing support from the Michigan State Police, and contracted services from Hurley Hospital and Kettering University. Aggressive efforts will be made to seek the renewal of grants and to seek additional permanent funding for this essential service.

911 - 911 Dispatch will continue at current staffing, while efforts continue to consolidate City and County dispatch operations. Communications with and between officers will be enhanced with the projected move to the 800 MHz system on July 1, 2012.

Fire - With the expiration of the federal SAFER grant, funding for 39 firefighters would be lost, potentially reducing total staffing in the Fire Department to 54. However, with the reductions in costs attributable to union concessions, and an assessment of the impact this would have on the ability of the City to provide virtually any level of fire response, staffing in this budget is at 62.

Given the staffing constraints, three of the current five stations will remain open pending the decision on the SAFER grant. In addition, with Genesee County now providing paramedic response, the City's paramedic personnel will be assigned to suppression.

The City is aggressively pursuing renewal of the SAFER grant and, should it be received, the number of stations in operation could be increased.

Court - As required by law, the City will continue to financially support the operation of the 68th District Court. Recognizing the financial circumstances of the City, along with the court's decreased caseload and offsetting revenues, court funding is reduced in this budget.

Lock-up – The City has been aggressively working to receive funding from the State of Michigan for re-opening the City Lock-up. At this time an operational plan is being developed as a condition for receiving consideration for funding. There are no City funds allocated in this budget for operation of the Lock-Up.

INFRASTRUCTURE

Water and Sewer - The expenses of the Water and Sewer system can be viewed in three categories – operations and maintenance, capital improvements, and purchase of water. Operational costs, in terms of personnel, have been reduced to the minimum necessary to operate the collection and distribution systems, but ongoing increases in compensation-related costs, such as pension and healthcare, make significant dollar reductions difficult.

Ongoing capital expenses are a necessity, as significant repair and replacement activities such as replacing broken water meters and keeping pump stations operational and in regulatory compliance, are necessary on an ongoing basis. Improvements are also necessary to improve the efficiency of operations, such as implementing remote monitoring of pump stations.

Finally, the purchase of water at ever-increasing rates is a significant cost of the operations, and while efforts to contain these costs are ongoing, they will not likely affect the cost of operations in FY13.

The costs of operations for water and sewer are projected at $85 million, with projected revenues at current rates totaling approximately $65 million. Recent rate increases do not generate sufficient revenues to cover the total costs of operations. Thus, in order to keep the systems financially solvent and provide funds for operation and maintenance, the overall rates for water and sewer will be increased in total by an average of 25%. Sewer rates are projected to increase by 45% while water rates are projected to increase by 12.5%. Even with this increase, it is not possible to set aside funds for pre-funding retiree health care, so formal balance sheets will still show deficits.

Waste Collection – The City has historically provided weekly trash pick-up for all residents, with the costs presumably paid from a special 3 mill property tax levy. However, the amount collected from the levy has reduced as property values have fallen, and costs of collection – personnel costs being a significant portion - have increased. As a result, the City's General Fund has subsidized the difference, by as much as $1.5 million in the past year.

Consequently, the 3 mill levy for waste collection will be discontinued, and a collection fee on residential properties will be implemented. It is anticipated that in the first year (starting July 1, 2012) the waste collection process will continue on a weekly pick-up schedule and will include composting. Fall leaf pick up will be restored. In the second year, it is expected that the waste collection service will be expanded to include recycling, and by that time a thorough evaluation of the means by which the service is carried out will be completed.

The fee for this service will be added to the property tax bill for owners of residential property, and is currently projected to be $143 in FY13, based on the projected cost of the service as reflected in the budget and the number of property owners billed. The amount will be adjusted on an annual basis to assure that it is reflecting the cost of the service.

Streets and Transportation – Funding for streets and transportation activities – with the notable exception of street lighting – is provided primarily from the state collected gas and weight tax allocated by formula to the City. That amount has been decreasing over the past years, making the ability to maintain local and major streets, sidewalks, and traffic control mechanisms very difficult. As with sewer and water, the City's road system is built to accommodate more than 200,000, and the City's population is now 102,000. This population drop has also contributed to the City's reduced level of gas and weight tax. As a result, the City's road system is currently rated a "3" on a scale of 1-10, demonstrating the effect of the lack of maintenance. The road maintenance activities for FY13 are focused primarily on preventive maintenance rather than targeted resurfacing, and will be chosen on the basis of most critical need and best return on investment.

Financing of infrastructure in the FY13 budget and beyond will be aided by use of a special assessment for street lighting, which is currently a general fund cost of nearly $3 million. The implementation of a city-wide special assessment district will provide for the operational costs of the current system and will enable upgrades and improvements to street lighting throughout the City. The assessment will be added to the property tax bill for all property owners, and is currently projected to be less than $100 per property in FY13. The amount to be assessed will be adjusted annually to reflect the projected cost for the operational, maintenance and improvement costs, and the number of property owners.

Parks - Maintenance of the City's 64 parks and its many trees in the rights of way will be funded primarily from the .5 mill special parks millage. Maintenance of the City-owned recreation/ community centers are also supported by the General Fund. Maintenance of parks, including play equipment, rights of way, and trees is minimal, and consists primarily of mowing, paying utilities, and responding to emergencies. There has not been any significant investment or maintenance of play structures in the parks for several years. Unfortunately, this level of investment will at best continue with the funds provided in this budget. Efforts will continue, as they have this year with golf courses, to find alternative ways to sustain the City's recreational assets. Continuing efforts will also be made to engage volunteers, neighborhood groups, and others to support specific parks and recreation centers.

Development - Building Inspection and Code Compliance activities will continue to the extent funds are available. Grant funds are budgeted at a reduced level to continue demolition activities and building inspection and code compliance fees are being reviewed again to see if the level and type of fees and fines are sufficient to cover costs and encourage voluntary compliance. In FY13, demolition activities will be done primarily by contractors in order that full cost recovery can be obtained from grant funds.

Planning and zoning activities will continue to the extent funds are available. Grant funds are budgeted to continue the upgrade to the City's master plan.

Community and Economic Development – Minimal ongoing financial support of economic development, in the form of CDBG funds, is also continued. Administration of the City's CDBG and NSP programs will continue, although grant funds are reduced. Evaluation of the administrative structure has resulted in reduced costs to the General Fund.

FINANCE AND ADMINISTRATION

All organizations have internal functions which support the delivery of services to the organization's constituency. In the City of Flint, these functions include assessing, accounting and budgeting, human resources, purchasing, information technology, risk management, fleet, facilities, treasury, and tax collections. Some of these functions are scalable to the size of the organization (such as human resources and risk management); others are not (such as tax billing and assessing). Regardless, with a decreasing base of business, and a corresponding reduction in workforce delivering services externally, there is compelling pressure to reevaluate processes and workforce numbers involved in all of these processes.

Changes are reflected in the size of the workforce appropriate to the current financial situation. It is also necessary to change internal processes to reflect an organization closer in size to 500 employees rather than 1,500. Changes beginning or planned include:

- Streamlined purchasing processes, including use of procurement cards for smaller purchases
- Simplification of processes for approving purchases
- Use of electronic means for processing payables and purchase orders
- Elimination of staffed stock rooms

- Changes in pension system administration and performance
- More reliance on Third Party Administration for workers' compensation related activities
- Elimination of manned security cameras where appropriate
- Evaluation of costs associated with custodial services
- More reliance on computer access for customer inquiries
- Consolidation of customer service functions
- More investment in technology to enhance productivity
- Commitment to funding necessary capital improvements which provide the workforce with proper equipment and facilities
- Implementation of a performance measurement system
- Commitment to rebuilding financial reserves by annual appropriation to a Budget Stabilization Fund

PUBLIC IMPROVEMENT FUND

The City Charter requires setting aside the proceeds of a 2.5 mill levy for the purposes of capital improvements and debt service. For the foreseeable future, these funds will be dedicated solely to current and anticipated debt service. A significant increase is expected as the City recognizes the need to increase its share of debt service for the downtown parking ramp debt, for making its required debt service of the initial Fiscal Stabilization Bonds, and for incurring future debt associated with additional bonding to alleviate the accumulated General Fund deficit. For FY13, it is projected that approximately $1 million will be available for the new debt service associated with additional Fiscal Stabilization bonds; in FY14 the amount available for debt service is projected to grow to approximately $1.5 million as current debt service for equipment ends.

GOVERNANCE AND OVERSIGHT

Core offices associated with governance and oversight traditionally include Council, Mayor, Administrator, City Attorney, City Clerk, Ombudsman, and Civil Service. Under receivership, there is also an Emergency Manager.

Several changes resulting in cost reductions were implemented by the Emergency Manager. These include: a reduction in salaries for the Council and Mayor, elimination of funding for the Ombudsman and Civil Service Commission, and the appointment of personnel to assist, either paid only on an hourly basis without fringe benefits, or loaned from another source. These cost reductions are continued in the FY13 budget.
Additionally, the costs of issuing business permits through the City Clerk's Office indicate that the costs of administration appear to significantly exceed the revenues collected. It will be necessary in the future to either reduce costs or increase permit fees to offset this imbalance.

CONCLUSION

The financial decisions made in this budget are significant but unavoidable. The budget reflects difficult decisions on the part of administrators and employees made to enable the City to provide services in FY13 at the levels its resources allow. The service levels will be low and not at a level anyone finds acceptable over the long term.

These decisions, however, provide the basis for going forward in a positive way. The budget is realistically balanced, with full expectation that when June 30, 2013 arrives, the City will not have once again spent more than it has taken in. It will have also put into place the financing to address the accumulated deficits of the past. Significant progress is being made to achieve financial solvency.

While there will certainly be financial challenges, decisions made in this process will assist in going forward. The decisions regarding employee compensation not only helped to address the short term financial challenge, but will assist in controlling expenses in the future, as the growth in future unfunded liabilities is slowed.

If the City government of Flint is to be a positive force in making Flint a safe and attractive place for residents, businesses, and visitors, it must have its own house in order. It cannot teeter on the edge of financial insolvency and hope to lead the way.

BUILDING THE FUTURE

The focus of the 2013 budget process remains on the future of Flint. While this budget includes sharp reductions in both revenues and expenses, WE SEE HOPE FOR THE FUTURE.

These hopes are based on some very tangible and promising factors:

- Expense reductions are designed to live with current realistic revenue projections;
- New revenue options for fiscal year 2014 and beyond will include actual fees for services, special assessment districts and other revenue options;
- Partnership with the State Police and other law enforcement agencies will be expanded to create a safer environment for our citizens;
- Additional resources will be secured to house individuals who are continually abusing our residents in the neighborhoods; the City Lock-up will open and remain open;
- New public and private partnerships will be developed to provide waste collection services, senior citizen services, youth employment and training programs;
- Internal City operations will be improved in regard to finance and accounting, more efficient operation of licensing and permitting, and expanded training for our employees, including supervisory training;
- The City's information and technology capability will be improved, enhancing the capacity throughout the City, from paying bills on time to public safety issues faced by our police and fire operations.

As the City moves beyond the 2013 budget year, and the management of our affairs improves, citizens will see better response times from police, removal of individuals who are harming our children and seniors from our neighborhoods, improved code enforcement at homes owned by absentee landlords and expanded opportunities for our young people.

Staffing in the FY13 Budget

As of April, 2012, the City of Flint has 686 permanent full-time employees. In this budget, that number will be 539, a reduction of 147 employees. Reductions are virtually in every area of city service. The distribution of positions for FY13 will be as follows:

Governance (including the offices of Mayor, Council, Clerk, Emergency Manager, City Attorney, and Human Relations Commission) – Permanent full-time staffing will be 18, a reduction of 3 from the current 21.

Public Safety (including District Court, Police, Fire, and 911) – Permanent full-time staffing will be 245, a reduction of 55 from the current 300. The reductions are exclusively related to the loss of grant funding for police officers and fire fighters.

Infrastructure (including Water and Sewer operations, Waste Collection, Street Maintenance and Engineering, Parks, Development, DCED, Facilities, and Fleet) – Permanent full-time staffing will be 222, a reduction of 54 from the current 275.

Finance and Administration (including Finance, Treasury, Purchasing, Assessing, Information Services, Human Resources, and Risk Management) – Permanent full-time staffing will be 54, a reduction of 36 from the current 90.

ESTIMATED IMPACT OF FINANCING CHANGES

The FY13 Budget contains changes in the financing of city services.

The overall property tax levy for city services is reduced by 3 mills as the levy for trash pick up is removed. However, there is a new fee implemented for trash pick-up which will reflect the actual cost of the service.

There is also a special assessment district covering the entire city which will assess the costs of maintaining and improving street lighting throughout the City

Additionally, water and sewer rates are increased in order that the systems remain financially solvent.

In the upcoming tax year, most property owners will pay more in total for property taxes, street lighting, trash pick-up and water and sewer charges than they paid in 2011.

However, property owners whose property had a taxable value of more than $53,450 in 2005 will pay less in the upcoming year than they paid in 2005.

Property owners whose property had a taxable value of less than $53,450 in 2005 will pay more in the upcoming year than they paid in 2005.

** Fiscal Stabilization Bonds Issued in 2011 in the amount of $8 million*
Request has been made as part of the FY11 Deficit Elimination Plan to borrow an additional $9 million in 2012
City also anticipates a final borrowing of up to $10 million in FY13 to address the final portion of the deficit
Assuming the FY13 budget is implemented as planned, the deficit should be eliminated
The Public Improvement Fund is being reserved for debt service for the 3 borrowings, but additional sources of funds - primarily the General Fund - will also be used.

EMERGENCY MANAGER
CITY OF FLINT
GENESEE COUNTY MICHIGAN

ORDER NO. 29

APPLICATION TO STATE ADMINISTRATIVE BOARD
FOR APPROVAL TO ISSUE NOT TO EXCEED
$9,300,000 IN FISCAL STABILIZATION BONDS

On March 16, 2011, the Local Government and School District Fiscal Accountability Act, Public Act 4 of 2011, ("Public Act 4") was enacted to safeguard and assure the fiscal accountability of units of local government; to preserve the capacity of units of local government to provide or cause to be provided necessary services essential to the public health, safety and welfare of citizens; and

Governor Rick Snyder appointed Michael Brown as the Emergency Manager for the City of Flint (the "City") on November 28, 2011, and his contract was approved by the State Treasurer on November 29, 2011; and

Pursuant to Public Act 4, the Emergency Manager has broad powers in receivership to rectify the financial emergency and to assure the fiscal accountability of the City and its capacity to provide or cause to be provided necessary services essential to the public health, safety and welfare; and

Pursuant to Public Act 4, the Emergency Manager acts in place of local officials, specifically the Mayor and City Council, unless the Emergency Manager delegates specific authority; and

Pursuant to Public Act 4, the Emergency Manager may take any action or exercise any power or authority of any officer, employee, department, board, commission, other similar entity of local government, whether elected or appointed, relating to the operation of local government.

WHEREAS, the City had an accumulated audited operating deficit at $8,863,134 as of the end of its fiscal year ended June 30, 2011 and projects to have an additional accumulated unaudited operating deficit at $10,000,000 as of the end of its fiscal year ended June 30, 2012 determined

in accordance with generally accepted accounting principles, based upon estimates of the City's finance department; and

WHEREAS, the aggregate amount of such accumulated operating deficit exceeds the amount which the City may borrow from the Emergency Municipal Loan Fund pursuant to the Emergency Municipal Loan Act, Act No. 243, Public Acts of Michigan, 1980, as amended ("Act No. 243"), and also exceeds the amount that the City can fund by issuing tax anticipation notes pursuant to the Revised Municipal Finance Act, Act No. 34, Public Acts of Michigan, 2001, as amended ("Act No. 34"); and

WHEREAS, the Fiscal Stabilization Act, Act No. 80, Public Acts of Michigan, 1981, as amended ("Act No. 80"), authorizes the City, upon satisfaction of applicable conditions, to borrow money and issue its bonds for the purposes, among other things, of funding an operating deficit for a past fiscal year or years or for funding a projected operating deficit in the current fiscal year, or for funding both and to refund outstanding bonds or obligations as finally determined by the Emergency Manager pursuant to the order or resolution authorizing the issuance of the bonds (the "Bond Authorizing Order"); and

WHEREAS, before the City may issue bonds under Act No. 80, the City is required by Act No. 80 to make a determination that certain conditions exist, including a determination of the maximum amount of bonds necessary to fund the deficit and other items payable from proceeds of the bonds, and for the City to apply to the State Administrative Board for an order approving issuance of the bonds.

BY THE POWER AND AUTHORITY VESTED IN THE EMERGENCY MANAGER FOR THE CITY PURSUANT TO MICHIGAN'S PUBLIC ACT 4 OF 2011, THE LOCAL GOVERNMENT AND SCHOOL DISTRICT FISCAL ACCOUNTABILITY ACT, ("PA 4"); MICHAEL BROWN, THE EMERGENCY MANAGER, ISSUES THE FOLLOWING ORDER:

Section 1. Determination of Accumulated Operating Deficit. The Emergency Manager determines that the City had an accumulated audited operating deficit at $8,863,134 as of the end of its last fiscal year ended June 30, 2011 and projects to have an additional accumulated unaudited operating deficit at $10,000,000 as of the end of its fiscal year ended June 30, 2012 determined in accordance with generally accepted accounting principles, based upon estimates of the City's finance department. This determination of the accumulated operating deficit has been made in accordance with generally accepted accounting principles.

Section 2. Determination of Exhaustion of Sources to Fund the Deficit. The Emergency Manager determines that the aggregate amount of its accumulated operating deficit exceeds the amount which the City may borrow from the Emergency Municipal Loan Fund pursuant to Act No. 243, and also exceeds the amount that the City can fund by issuing tax anticipation notes pursuant to Act No. 34.

Section 3. Determination of Maximum Amount and Use of Proceeds of the Bonds. Subject to the limitations of Section 4(8) of Act No. 80, the Emergency Manager hereby determines that it is necessary to issue its bonds (the "Bonds") pursuant to Act No. 80 in the principal amount not to exceed $9,300,000, for the purpose of providing funds to fund (i) all or a portion of the accumulated operating deficit for the fiscal year ended June 30, 2011 and a portion of its projected accumulated operating deficit for the fiscal year ended June 30, 2012, (ii) an amount necessary to prepay all or a portion of the

principal of and interest on obligations or bonds of the City as in the Bond Authorizing Order, if outstanding when the Bonds are issued and so determined by the City at the time of sale of the Bonds, (iii) a reserve to secure payment of principal of or interest on the Bonds in an amount not exceeding the maximum amount of principal and interest coming due on the Bonds in any fiscal year, if necessary, (iv) a discount of not to exceed 10% of the principal amount of the Bonds, and (v) an amount sufficient to pay all legal, financial, accounting, printing and other expenses related to the issuance of the Bonds.

Section 4. Deficit Funding Plan. The Emergency Manager shall furnish the State Administrative Board with a statement signed by the Emergency Manager indicating how the City intends to avoid future deficits.

Section 5. Security for the Bonds. The Bonds shall be secured by the limited tax full faith and credit of the City and may be payable from money received or to be received by the City derived from the imposition of taxes by the State of Michigan and returned to or to be returned to the City as provided by law, except for money the State Constitution of 1963 prohibits for such use, a combination of both, or any other security authorized by law as finally determined in the Bond Authorizing Order.

Section 6. Severability and Conflict. If any one or more sections, clauses or provisions of this Order shall be determined by a court of competent jurisdiction to be invalid or ineffective for any reason, such determination shall in no way affect the validity and effectiveness of the remaining sections, clauses and provisions hereof.

Section 7. Repeal, Savings Clause. All orders or parts of orders or other proceedings of the City in conflict herewith shall be and the same hereby are repealed insofar as such conflict exists.

This Order shall have immediate effect.

This Order may be amended, modified, repealed or terminated by any subsequent order issued by the Emergency Manager.

RE: 25-2-040
City of Flint
Deficit Elimination Plan

Dear Mr. Goodrich,

This letter provides the City of Flint plan to address the deficits for the fiscal year ended June 30, 2011, as noted in your letter of January 27, 2012. Those deficits were as follows:

General Fund -	$ 8,863,134
Water Supply Division -	$12,443,265
Downtown Development Authority -	$ 778,018

As you know, the City of Flint is confronted with a financial emergency, and has been in receivership since November, 2011. My primary focus since being appointed is to see the City return to financial solvency in order that Flint can become the thriving municipality it once was.

In the City's financial condition, it is unrealistic to assume that these deficits, as well as the deficits accumulating this year, can be addressed from any existing financial sources within the City. We have been and continue to propose borrowing the necessary funds to eliminate accumulated deficits, other than deficits arising from inclusion of OPEB liabilities in our enterprise funds i.e., Water and Sewer. It is clearly not possible at this time to fund those deficits, and our approach is to reduce our liability by modifying provisions related to retiree health care.

However, this strategy will work only if we can demonstrate that in future years the City can manage its financial affairs and live within its means. Consequently, our work since being appointed in December, 2011 has been to take the steps necessary to develop and implement a spending plan for FY13 which is credibly balanced and which includes the budgetary allocation necessary to provide for the debt service associated with additional borrowing. I am pleased to report that we are making significant progress in that regards, and that I expect within the next two weeks to publicly announce a budget for FY13 which meets that criteria.

Specific to the FY11 deficits identified in your letter of January 27, 2011,we have determined that the $12.4 million deficit in the Water Supple Division Fund is accounted for entirely by the inclusion of OPEB liabilities. In lieu of funding that deficit, which we do not see as possible, we are in the process of modifying labor contracts to 1) contain the city's costs with regards to current employees, and 2) eliminate retiree healthcare as a benefit for new employees. We are engaging all of our unions on this topic, and have at least one Tentative Agreement with one union which does both.

With respect to the $778,018 deficit in the Downtown Development Authority, we have determined that the DDA's commitment to funding the debt service for the Parking Ramps is unrealistic, as declining property values have decreased their revenues, and as net revenues from parking debt operations have not realized its expectations. As a result, the City, as guarantor of the bonds, has made the necessary debt service payments, and has also recorded the nonpayment as a liability to the DDA and as a receivable to the City. Going forward, the City is working with the DDA to reduce its operational expenses in order to increase the amount they will pay for the debt service. However, the City will recognize in its budget that it will be paying a portion of debt service, and it will no longer record that amount as a liability of the DDA or as a receivable to the City.

With respect to the $8,863,134 accumulated deficit in the General Fund, we are proposing that the state authorize borrowing that amount in the form of Fiscal Stabilization Bonds or other appropriate instruments, with the City budgeting debt service from within the 2.5 mills required by City Charter to be set aside for capital improvements and/or debt service. The fund is projected have a balance of approximately $900,000 by June 30, 2012. The 2.5 mill levy and DDA payment is projected to generate $2.3 million in FY13, with projected expenses of $1.9 million. For FY14, while the levy and DDA payment may generate only $2.1 million, projected expenses will drop to approximately $1.4 million, as existing debt for equipment purchases drops off. The unallocated revenue stream to be realized in FY13, and its projected continuation into FY14 and beyond, will be sufficient for the debt service on $8.9 million. Existing fund balance and the commitment to budget any additional necessary debt service in the General Fund, will assure that the City is positioned to meet its obligations associated with this issuance. Additionally, we have confirmed with our financial consultant that sufficient unpledged revenue sharing funds exist to secure the payments if necessary.

Finally, as you are aware, we are anticipating an additional deficit in the General Fund for FY12, currently projected to be as large as the FY11 deficit. Again, we are working aggressively to implement a balanced budget for FY13, based on credible revenue and expense estimates. We will be factoring the reality of this additional deficit into our future financial planning, including the integration of additional debt service obligations.

SUBJECT: City of Flint Application for Fiscal Stabilization Bonds

This memorandum is in response to a request from the State Administrative Board to review the application filed by the City of Flint for issuance of fiscal stabilization bonds under Public Act 80 of 1981, the Fiscal Stabilization Act. Section 4 of the Act provides, in part, as follows:

> (l) Before a city may make application to the board for approval to issue bonds or obligations under this act, the legislative body of the city shall determine by resolution that all of the following conditions exist:
>
> (a) The city had an accumulated operating deficit as of the end of the last completed fiscal year or is projected to have an accumulated operating deficit at the end of the current fiscal year. The determination of the existence of an accumulated operating deficit or a projected accumulated operating deficit shall be made in accordance with generally accepted accounting principles.
>
> (b) The amount of the deficit exceeds the amount that the city may borrow from the emergency municipal loan fund pursuant to the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942.
>
> (c) The amount of the deficit is more than the city can fund by issuing tax anticipation notes under the revised municipal finance act, 2001 P A 34, MCL 141.2101 to 141.2821.

An application seeking an order to approve the issuance of bonds, or obligations, under the Fiscal Stabilization Act must also include a statement signed by the chief executive officer of the city or county making application that indicates how the city or county intends to avoid future deficits and a detailed deficit elimination plan in support of the statement.

In its application to the State Administrative Board, the City of Flint asserted that it satisfied conditions (a), (b), and (c) of Section 4 of the Act.

Staff of the Local Audit and Finance Division, Bureau of Local Government Services, reviewed the City's application and has determined that the City, in fact, satisfies conditions (a), (b), and (c) of Section 4 of the Act. In support of this determination, the following information is provided:

1. The City has adopted a resolution that indicates an operating deficit in the amount of $8,863,134 at the end of its June 30, 2011, fiscal year, and an additional accumulated operating deficit of $10,000,000 projected at the end of the current fiscal year ending June 30, 2012.

2. The amount needed to fund the deficit exceeds the current $2,000,000 limitation under Public Act 243 of 1980, the Emergency Municipal Loan Act.

3. The amount needed to fund the deficit exceeds the 50% limitation to issue tax anticipation notes (next succeeding fiscal year property tax levy) under Public Act 34 of 2001, the Revised Municipal Finance Act. The City's current fiscal year operating levy equals $18,463,303 with 50% of that levy being equal to $9,231,651. Thus, the amount needed to fund the deficit exceeds 50% of the current fiscal year levy.

4. The Emergency Manager has provided a signed statement indicating how the City intends to avoid future deficits. In support of that statement, the City has submitted the applicable deficit elimination plan, which will be certified contingent upon the successful issuance of fiscal stabilization bonds.

5. The maximum amount of bonds which are statutorily allowed under the Fiscal Stabilization Act to be issued to fund the $18,863,134 deficit does not exceed 3% of the state equalized valuation of real and tangible personal property located within the territorial boundaries of the City.

6. The City has previously issued the following series of bonds under the authority of the Fiscal Stabilization Act:

Year of Issuance	Amount Issued
2004	$ 8,000,000
2011	$ 8,000,000

Review of the most current financial audit report on file for the City, for its fiscal year that ended June 30, 2011, revealed that the final payment of $1,435,000 for 2004 fiscal stabilization bonds was paid. The first payment for 2011 fiscal stabilization bonds is scheduled to be paid during the City's fiscal year ending June 30, 2013, leaving the full issuance amount of $8,000,000 currently outstanding. The sum of the $8,000,000 currently outstanding and the proposed issuance is within the statutory amount available.

RESOLUTION ORDERING APPROVAL OF THE CITY OF FLINT'S APPLICATION FOR FISCAL STABILIZATION BONDS

CITY OF FLINT (the "City")

WHEREAS, by his, Order No. 29 Authorizing Application to State Administrative Board for Approval to Issue Not to Exceed $9,300,000 in Fiscal Stabilization Bonds, issued by the Emergency Manager of the City (the "EM"), Michael Brown on May 24, 2012 (the "Initial Order"), the EM determined that the City had an accumulated audited operating deficit as of the end of its fiscal year ended June 30, 2011 (determined in accordance with generally accepted accounting principles), in the amount of $8,863,134 and is projected to have an additional accumulated unaudited operating deficit as of the end of its fiscal year ending June 30, 2012 (determined in accordance with generally accepted accounting principles), in the projected amount of $10,000,000 (together, the "Accumulated Operating Deficit"); and

WHEREAS, the EM further determined in the Initial Order that the Accumulated Operating Deficit exceeds the amount which the City may borrow from the Emergency Municipal Loan Fund pursuant to the Emergency Municipal Loan Act, Act No. 243, Public Acts of Michigan, 1980, as amended ("Act 243"), and also exceeds the amount that the City can fund by issuing tax anticipation notes pursuant to Act 34, Public Acts of Michigan, 2001, as amended ("Act 34"); and

WHEREAS, the Fiscal Stabilization Act, Act No. 80, Public Acts of Michigan 1981, as amended ("Act 80") authorizes the City, upon satisfaction of applicable conditions, to borrow money and issue its bonds or obligations either for the purpose of funding an operating deficit for a past fiscal year or years or for funding a projected operating deficit in the current fiscal year, or for funding both; and

WHEREAS, pursuant to the Initial Order, and in accordance with Act 80, the EM made a determination that it was necessary for the City to apply to the State Administrative Board for an order approving the issuance of bonds in an amount necessary to fund a portion of the Accumulated Operating Deficit, to potentially prepay all or a portion of the principal of and interest on or redeem prior to maturity certain outstanding bonds, notes and other obligations of the City, and to pay other related expenditures authorized by Act 80 in connection with the issuance of the bonds and the refunding; and

WHEREAS, the City has applied to the Secretary of the State Administrative Board and the State Administrative Board has received an application (the "Application") and supporting materials from the City for an order approving the issuance of not to exceed $9,300,000 of its Fiscal Stabilization Bonds (Limited Tax General Obligation), Series 2012 (the "Bonds"); and

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The State Administrative Board determines and accordingly orders that the City's Application to issue the Bonds in the aggregate principal amount of not to exceed $9,300,000 for the purpose of funding a portion of the Accumulated Operating Deficit and paying the costs of issuance of the Bonds and such other costs and expenses permitted by Act 80, is hereby approved.

SUBJECT: City of Flint Application for Fiscal Stabilization Bonds

This memorandum is in response to a request from the State Administrative Board to review the application filed by the City of Flint for issuance of fiscal stabilization bonds under Public Act 80 of 1981, the Fiscal Stabilization Act. In its application to the State Administrative Board, the City of Flint asserted that it satisfied conditions (a), (b), and (c) of Section 4 of the Act. Staff of the Local Audit and Finance Division, Bureau of Local Government Services, reviewed the City's application and has determined that the application is complete and that the City, in fact, satisfies conditions (a), (b), and (c) of Section 4 of the Act; therefore, the statutory conditions necessary to issue bonds have been met. In support of this determination, the following information is provided:

1. The City has adopted a resolution that indicates an operating deficit in the amount of $8,863,134 at the end of its June 30, 2011, fiscal year, and an additional accumulated operating deficit of $10,000,000 projected at the end of the current fiscal year ending June 30, 2012.

2. The amount needed to fund the deficit exceeds the current $2,000,000 limitation under Public Act 243 of 1980, the Emergency Municipal Loan Act.

3. The amount needed to fund the deficit exceeds the 50% limitation to issue tax anticipation notes (next succeeding fiscal year property tax levy) under Public Act 34 of 2001, the Revised Municipal Finance Act. The City's current fiscal year operating levy equals $18,463,303 with 50% of that levy being equal to $9,231,651. Thus, the amount needed to fund the deficit exceeds 50% of the current fiscal year levy.

4. The Emergency Manager has provided a signed statement indicating how the City intends to avoid future deficits. In support of that statement, the City has submitted the applicable deficit elimination plan, which will be certified contingent upon the successful issuance of fiscal stabilization bonds.

5. The maximum amount of bonds which are statutorily allowed under the Fiscal Stabilization Act to be issued to fund the $18,863,134 deficit does not exceed 3% of the state equalized valuation of real and tangible personal property located within the territorial boundaries of the City.

6. The City has previously issued the following series of bonds under the authority of the Fiscal Stabilization Act:

Year of Issuance	Amount Issued
2004	$ 8,000,000
2011	$ 8,000,000

Review of the most current financial audit report on file for the City, for its fiscal year that ended June 30, 2011, revealed that the final payment of $1,435,000 for 2004 fiscal stabilization bonds was paid. The first payment for 2011 fiscal stabilization bonds is scheduled to be paid during the City's fiscal year ending June 30, 2013, leaving the full issuance amount of $8,000,000 currently outstanding. The sum of the $8,000,000 currently outstanding and the proposed issuance is within the statutory amount available.

PURCHASE JUSTIFICATION:

Description of Product/Service Requested: This request was for a part-time (anticipated maximum of 8 hours per week) on-site/call physician for MCTI's Health Services Department. The physician will have overall responsibility for oversight of the MCTI health program including patient contact, on call time, medical supervision of nursing staff, risk management, Medical Review Officer (MRO) duties and physician standing orders.

Purpose/Business Case of New Contract, Expected Outcomes: The purpose of this contract is to contract with a part-time Physician (8 hours per week) to provide necessary and appropriate physician coverage and health care services to MCTI students. The Physician will provide MCTI with Physician standing orders, over the counter and prescription medications which would be obtained by MCTI and kept on-site to dispense to students, issue Physician standing orders for summer camp program participants, the automatic defibrillator and other instances that require a Physician consultation. With an on-site/call Physician, MCTI will be more responsive to the medical needs of the 350 residential students with disabilities. MCTI's rural setting (Plainwell, MI) makes it difficult to access necessary medical services.

Award Recommendation/Process: The RFP was posted on the Bid4Michigan website for 21 days. Only one bid was received by the due date of 11/17/10. The JEC met on 11/22/10 and recommended that the contract be awarded to the sole bidder, Michael E. Kelly based on his bid being responsive, meeting the evaluation criteria as contained in the RFP and offering the best value based on the work statement, capabilities, prior experience, past experience and price.

Payment Method & Term: The department is not obligated to purchase these services in any amount. Payment is only provided for services rendered.

Price Clause: Firm-Fixed Price

PURCHASE JUSTIFICATION

Description of Product/Service Requested

MCTI needs a medical doctor who will provide necessary and appropriate physician coverage and health to MCTIs students. This physician will provide MCTI with physician standing orders, ordering over-the-prescription medications, which we would obtain and keep on sit to dispense to students. The physician v hours per week.

Purpose/Business Case of New Contract, or Change and Expected Outcomes

Physician services are needed for MCTI students. We are a 24/7 facility, so a medical doctor is requiired.

Risk/Liability Assessment (consequences if not procured, potential issues if not procured, etc.)

None of the current medical staff at MCTI are classified Physicians and therefore cannot perform these r at MCTI and thus the need for this specialized service.

Further information for Section 18:

Michigan Works Agencies (MWA's), as a direct subrecipients of WIA funding, have the ability to propose programs to DELEG, to be funded by WIA monies, as long as the activities are allowable under WIA. A layoff aversion training proposal for Detroit-based Health Management Systems of America (HMSA) was received by DELEG. The program will be administered by the Detroit Workforce Development Department. HMSA staff will receive national certification in Higher Education for Risk Management (HERM) consulting and training in order to shift employees from the shrinking automotive service sector to the emerging growth sector of colleges and universities. Following two recent lay offs, HMSA currently has sixty one (61) employees, of which thirty six (36) will receive HERM certification training at their Detroit facility. This program is an allowable activity for funding under WIA. Therefore, competitive procurement procedures are not required. The Department of Energy, Labor & Economic Growth requests approval to award this grant.

Grant Process Summary

On October 27, 2010 the Michigan Public Service Commission (Commission) invited proposals from non-profit organizations which currently operate programs to design and facilitate the installation and operation of small scale, on-site energy systems using renewable energy sources as defined in 2008 PA 286; MCL 460.10g(g)[1] and energy efficiency upgrades at multiple Michigan public and private K-12 schools, community colleges, junior colleges and universities. Proposals were required to include implementation of educational and community outreach measures developed in conjunction with the applicant's currently operating programs.

The Request for Proposal (RFP) for grant awards from the Low-Income and Energy Efficiency Fund was announced in a press release issued by the Commission on October 27, 2010. The RFP was distributed to all parties subscribed to the Commission's electronic distribution list (MPSC-MIEE - MPSC Energy Efficiency Grants), mailed to one party, and posted on the Commission's website for 17 days.

Seven proposals were submitted by the November 12, 2010 deadline. Three proposals were rejected and were not scored because they did not meet the eligibility requirements. The remaining four proposals were evaluated by a review team comprised of one engineer, two departmental analysts, one departmental specialist, and one auditor from the Michigan Public Service Commission in accordance with the following selection criteria: 1) experience of the organization and project team; 2) management summary; 3) work plan; and 4) project budget. The evaluation team recommendations were based on the proposals that best met the stated grant objectives and received the highest scores.

Four proposals were scored in their entirety. The two highest scoring proposals were funded. The two remaining proposals were not funded because the organizations do not currently operate programs substantially similar to the one identified in the RFP.

By Order dated November 19, 2010, the Commission awarded grants from the Low-Income and Energy Efficiency Fund totaling $5 million to the two highest scoring organizations.

It is anticipated that again this year Michigan will see an unprecedented increase in the number of households seeking help with heating bills. Due to the high unemployment rate and loss of jobs in the state, many households that have never requested help are seeking heating assistance. The attached list of grant recipients will provide energy assistance services to low-income customers in Michigan as part of the Low-Income and Energy Efficiency Fund. The services will be provided by the recipients and their designated centers through the state of Michigan to assist the increasing number of low-income households that are struggling to pay heating bills.

13 EXPECTED OUTCOMES/BENEFITS

The grantees will use the additional grant funds to supplement existing energy assistance programs throughout the state and assist the increasing number of low-income households in Michigan that are struggling to pay heating bills.

Amendment
Low-Income Energy Assistance Grants – FY 2011

On August 30, 2010 the Michigan Public Service Commission (Commission) approved a number of Low-Income Energy Assistance grants from the Low-Income and Energy Efficiency Fund (LIEEF). The order awarded a total of $55 million to eight organizations to provide energy assistance to low-income households throughout the state.

On November 19, 2010 the Commission issued an order amending its August 30, 2010 order and increasing the amount of funding awarded from the LIEEF from $55 million to $58 million. The additional $3 million in funding was proportionately divided among the eight organizations awarded grants by the Commission's August 30, 2010 order, and will be used to assist the increasing number of low-income households throughout the state struggling to pay heating bills.

The additional funding was proportionately divided as follows using the percentage of the original $55 million received by each organization:

Grant #	Name of Organization	Original Funding	Additional Funding	Total
PSC-11-02	Downriver Community Conference	$1,000,000	$54,600	$1,054,600
PSC-11-03	Lighthouse Emergency Services	$300,000	$16,500	$316,500
PSC-11-04	Michigan Comm. Action Agency Assn.	$3,000,000	$163,500	$3,163,500
PSC-11-05	Newaygo County Community Services	$3,000,000	$163,500	$3,163,500
PSC-11-06	Society of Saint Vincent de Paul	$500,000	$27,300	$527,300
PSC-11-07	The Heat and Warmth Fund	$6,000,000	$327,300	$6,327,300

Grant Process Summary

The State of Michigan applied for and received Dual Enrollment National Emergency Grants (NEGs). NEGs are discretionary grants awarded by the Secretary of Labor, under section 173 of the Workforce Investment Act to provide employment-related services to dislocated workers. NEGs are intended to temporarily expand service capacity at the state and local levels by providing time-limited funding assistance in response to significant dislocation events. The grant opportunity provided funding to areas most severely impacted by the recession, with a focus on retraining opportunities for dislocated workers. The Dual Enrollment NEG project includes strategies to serve dislocated workers with the greatest barriers to reemployment, including those experiencing prolonged unemployment. This NEG project will serve the dislocated workers from the closure of GHSP in Troy, Michigan. The department is seeking approval to award this grant to the Grantee.
